DIABOLIQUE PROMPT BOOK v2

This prompt book contains generations from the first 3 merges of Diabolique. Original merge has a stronger focus on photo realism while still being able to create fantasy / CGI etc. Other 2 merges focus on fantasy / anime style. Most of the prompts should work across all 3 merges.

Sampler choice - I mostly run my prompts on DPM ++ 2MK, although I used others while testing the merges. Do your own tests, others should work just as fine. I don't use CLIP. Restore faces used here and there. HiRes fix mostly used on v1 prompts located at the bottom.

I generate almost everything at 512x768

Steps vary as well, I usually run between 40-60, sometimes less, sometimes more.

Read the model info on civitai, it has useful links, I shared few prompting sites, you should get plenty of great ideas there, beside civitai. You can explore art styles, artists and similar by joining Magic Journey discord - check THIS reddit post.

Start your prompting simple. Try to avoid overusing negative prompts. A lot of times you can get great results without any negative prompt. Play around, look at the prompts, change a few bits, write completely random stuff, SD will often surprise you with its capabilities.

Negative prompt example: (worst quality, low quality:1.4), bad face, deformed, disfigured, kitsch, ugly, low-res, blurry, bad anatomy, text
