Our Teams and Roles

Database

The database team at ecoinvent is responsible for maintaining and expanding one of the world's most comprehensive life cycle inventory (LCI) databases. They collect, validate, and organize environmental data from various industries to ensure accurate and transparent life cycle assessments (LCAs) for products and processes. This team also ensures the database is regularly updated and adheres to rigorous scientific and quality standards, supporting global sustainability efforts.

Roles on this team include:

↳ Data Analyst

This position maintains and improves the ecoinvent database, implements sector-specific data projects with Python, and works closely with stakeholders.

↳ Project Manager

This position supports, coordinates, and contributes to data collection, content improvement, and updates to the ecoinvent database. It also assists database users and data providers, manages data projects, and stewards relationships with diverse stakeholders.

↳ Sector Manager

This position sets the direction for specific database sectors. It also monitors relevant standards and policies, manages stakeholder relationships, and manages data project budgets.

Product & Strategy

The Product & Strategy team at ecoinvent drives business development by shaping long-term strategies and identifying growth opportunities. They support the organization through market analysis, data-driven decision-making, and product innovation to enhance ecoinvent's value and global impact.

Roles on this team include:

↳ Data Analyst

↳ Strategic Project Manager

↳ Senior Strategy Manager

Software Engineering

The Software Engineering team at ecoinvent is responsible for designing, developing, and maintaining the digital infrastructure that powers ecoinvent's products and services. They ensure the platform's reliability, security, and scalability while continuously improving its functionality and user experience. The team supports seamless access to the ecoinvent database, enabling users to efficiently leverage environmental data for sustainability solutions.

Roles on this team include:

- ↳ **Software Engineer**
- ↳ **UX/UI Designer**

Sales

The Sales team at ecoinvent builds and nurtures relationships with partners, license-holders, and prospective clients, helping them access and utilize ecoinvent's products and services. They drive business growth by identifying new opportunities, providing tailored solutions, and ensuring client satisfaction. By acting as the bridge between ecoinvent and its customers, the team plays a crucial role in expanding the organization's reach and impact in the sustainability sector.

Roles on this team include:

- ↳ **Sales Manager**
- ↳ **Account Manager**
- ↳ **Sales Assistant**

Human Resources

The Human Resources team at ecoinvent manages all aspects of employee development, from talent acquisition to fostering a positive and productive workplace culture. They ensure the organization attracts and retains top talent while supporting staff well-being, performance, and professional growth.

Roles on this team include:

- ↳ **HR Business Partner**
- ↳ **Talent Acquisition Manager**

Marketing & Communication

The Marketing & Communications team at ecoinvent is responsible for shaping and managing the organization's brand identity, ensuring consistent and impactful messaging across all channels. They craft strategies that engage diverse audiences and elevate ecoinvent's profile within the sustainability sector. The team is vital in nurturing strong relationships with stakeholders and amplifying the organization's mission.

Roles on this team include:

- ↳ **Marketing Copywriter**
- ↳ **Multimedia Producer**
- ↳ **Events Manager**

Finance & Administration

The Finance & Administration team at ecoinvent ensures the organization's financial health through diligent management, reporting, and strategic planning. They handle accounting, budgeting, and financial analysis while providing essential IT support to maintain operational efficiency. By managing financial and administrative functions, this team plays a vital role in driving the overall success and stability of ecoinvent.

Roles on this team include:

- ↳ **Finance & Accounting Specialist**
- ↳ **Executive Assistant**

Legal

The Legal team at ecoinvent oversees the organization's legal and compliance strategies, ensuring adherence to relevant regulations and industry standards. They provide expert guidance on legal matters, mitigate risks, and safeguard the organization's interests as it grows and evolves.

Roles on this team include:

- ↳ **Legal Counsel**
