Products Guide

Our History

Founded by the John N. McCann family in 1846, McCann's Plumbing Supplies has a long and proud history.

The McCann family of the Geelong district were early settlers and industrialists who had extensive interests as farmers, stonemasons and builders. Later they came to be known as the building suppliers John N. McCann Proprietary Limited.

The McCann family built many bluestone buildings, a notable example of their work being the Old Geelong Gaol. The McCann family interests also included the Geelong Cement Works. In 1967, John N. McCann Proprietary Limited moved to our present three-acre head office site on Latrobe Terrace, Geelong.

In 1981, SCL Group purchased the business and expanded to supply plumbing and building products in Melbourne, Geelong, the Surf Coast and regional Victoria. SCL Group also owns and manages Striproll Roofing Products.

McCanns Plumbing Supplies takes this opportunity to reaffirm our company-wide dedication to providing plumbing, building, sheet metal and roofing products of the highest quality. All are backed by our warranties, competitive pricing and professional advice for both tradespeople and our bathroom, kitchen and laundry renovation customers.

We are true specialists in the trade!

HEATED TOWEL RAILS & UNDERFLOOR HEATING

thermonet
UNDERFLOOR HEATING

Helping builders create comfortable homes for their clients

No home is complete without Underfloor Heating

- Our UK made systems feature a Lifetime Warranty
- Our systems are designed for a range of floor finishes
- An affordable luxury and a great upsell opportunity
- Pair your Underfloor Heating with a Thermotouch Thermostat to ensure your heating turns on and off when you want it to

Learn more about Underfloor Heating

Discover the perfect combination of comfort and design freedom with the inclusion of a Thermorad in-wall heating panel

- This Australian made panel sits invisible in the wall cavity giving you the power to transform any rail or robe hook into a heated towel rail
- The perfect solution to avoid the nightmare of colour matching your tapware and towel rails
- Drawing 160 watts per hour, Thermorad is an energy efficient way to reduce the drying time of towels by up to 70%
- Backed by a 10 year warranty

thermorad
RADIANT WALL HEATING

Consider using a timer to control your Heated Towel Rail or Thermorad to ensure your towel is dry when you need it

HEAT PUMPS

Enviroflo S 7.0kW Split Electric Heat Pump

The Enviroflo S 7.0kW Split Electric Heat Pump delivers efficient, reliable hot water for Australian homes. Available in 250L, 315L, and 400L capacities, it suits households of all sizes. Its powerful 7.0kW heat pump ensures consistent performance - even in colder weather or during high demand.

Engineered with advanced heat pump technology, the Enviroflo S maximises energy efficiency, helping reduce electricity use and lower your energy bills. Designed for residential and light commercial applications, it operates quietly and is built to withstand Australia's tough climate with durable, high-quality materials.

The split system design separates the tank and compressor, offering greater installation flexibility and easier maintenance.

Using eco-friendly R290* refrigerant with a low Global Warming Potential (GWP), it also meets strict environmental standards while minimising emissions.

- 
Energy Efficient
 Innovative controller to maximise hot water availability while using more than 70% less energy*
- 
Environmentally Focused
 High efficiency R290 refrigerant with a low Global Warming Potential of just 0.02.
- 
Versatile
 Multiple operating modes (Standard/ECO/Hybrid/Electric/Vacation).
- 
Adaptable for All Climates
 Operates in ambient air conditions ranging from -7°C to 45°C.
- 
Off-Peak Compatible
 Option to run only at off-peak times, when the electricity cost is lower.

Enviroflo GR Series Heat Pump

- 
Choice
 Available in capacities of 215L, 280L and 300L to suit your hot water needs.
- 
Quiet Operation
 Operates quietly at a low 46dB(A), quieter than the average noise level of a household dishwasher.
- 
Built in Wi-Fi
 The built in Wi-Fi module allows for convenient control from anywhere.
- 
PV Compatible
 Can be networked with solar PV for enhanced efficiency and savings.
- 
Renowned Quality
 Designed and built with a high level of product quality, backed by over 50 years of Rinnai's excellence in hot water.
