# CRAFTING EXCELLENCE WITH CARE & COMMITMENT.

“

At Duralock, we focus on delivering quality over quantity, working on a select number of projects each year to ensure excellence in every detail.

Our core values of sustainability, craftsmanship, and community have guided us for decades. As a family-owned business, we pride ourselves on forming close, lasting relationships with our clients, delivering bespoke solutions tailored to their needs.

Every piece of Duralock fencing is meticulously crafted in our workshop in Chipping Norton, Oxfordshire. Built to last, our products reflect the exceptional quality and care that define the Duralock brand.

”

“PROVIDING TO  
SPORTS FACILITIES  
WORLDWIDE”

# ABOUT DURALOCK.

Duralock is a world-leading manufacturer of high-performance PVCu fencing, specialising in the sports market. As a global supplier of the highest quality PVCu fencing, we use our long-term experience to provide you with a tailored service and beautiful products, from the drawing board to installation and beyond.

For over 30 years, sports clubs, stadiums, training grounds, and venue operators have trusted the exceptional quality of Duralock's "Made in Britain" fencing systems.

All fencing systems meet high safety standards with smooth, rounded surfaces and concealed fixings. The systems are also durable, easy to install and have built-in UV protection. From equestrian and sporting grounds to commercial venues and largescale events, every fencing solution we create is designed with reliability, opulence, and safety at it's core.

Our products can be found at world-class sports venues across the globe. Thanks to their safe, durable, and visually appealing design, Duralock Performance Fencing is trusted by leading organisations and meets international standards, including FIFA, IAAF, and other key regulatory bodies. We understand the value of investing in both functionality and aesthetics to enhance your venue's appeal.

With Duralock, your fencing experience will always be sustainable, authentic, and created with outstanding quality materials, so you can operate your venues with confidence.

Duralock supplies fencing to over 50 countries worldwide. Our growing client list and partnerships reflect the unmatched quality and service we deliver. All our fencing systems meet rigorous safety standards, featuring smooth, rounded surfaces and concealed fixings. They are durable, easy to install, and equipped with UV protection, ensuring long-lasting performance.

Whether for sports grounds, commercial venues, or large-scale events, every Duralock fencing solution is designed with safety, sophistication, and reliability at its core. Let Duralock transform your sports facilities into exceptional spaces that inspire confidence and excellence.

# WHERE WE ARE.

We've been perfecting our craft and earning your trust for three decades. From a small workshop deep in the English countryside, Duralock has grown into a global industry leader, with clients in 50 countries.

When the 300-year-old Ascot Racecourse reinvented itself, we were there. When Italy's Inter Milan football club needed new pitch barriers, they partnered with us. 5.000 miles away, the Korean Racing Authority has relied on us for over 20 years, prizing the peace of mind that comes with "Made in Britain" quality, our partners pick us for many reasons.

As a family-run business, the three we're most proud of are:

- quality
- customer service
- safety and sustainability.

At Duralock, safety is at the heart of our design and manufacturing process. All of our fencing systems undergo rigorous, independent testing by renowned testing body Labo Sports to ensure they meet and exceed the highest safety standards required for sports and public venues. Our choice of PVC materials offers a safer alternative to traditional metal fencing, with a lower tensile strength that significantly reduces injury risk upon impact.

We're exploring new frontiers and spreading our global footprint. But some things will never change. Like our Duralock stamp of quality. And our core commitment to you: whether you buy five or fifty thousand metres of fencing, if you give us your trust, we'll treat you like family.

Rugby**

# OUR PROCESS.

Our CAD and 3D modelling capabilities mean that Duralock can work closely with clients, architects, and contractors from the outset to turn concepts into a reality. We are proud to offer a full turnkey service from drawings and concept designs to installation and after care. Our award-winning in-house technical team work on client projects across all stages of development.

## CONSULT

Duralock have an in-house team of consultants and technicians who are able to advise and support throughout your project.

## DESIGN

With a wide project range available we are able to design a package to suit your individual requirements.

## SUPPLY

We are proud that all of our products are handmade in Britain.

## SHIP

Our logistics team have the experience of shipping in mainland UK and globally.

## INSTALL

We have both an in-house installation team, as well as a large number of accredited installers worldwide.

# TECHNICAL CAPABILITIES.

## FROM CONCEPT TO INSTALLATION

At Duralock, we go beyond delivering world-class racing and equestrian solutions; we ensure every project starts with precision and clarity.

Our in-house design team creates detailed specification drawings and stunning 3D renders tailored to your specific requirements. These visuals allow you to see your project come to life long before installation begins, giving you confidence in every detail.

From customised layouts to technical schematics, our expertise ensures seamless integration of our systems with your facilities. Whether you're upgrading facilities or planning an entirely new development, our advanced tools provide a clear roadmap, ensuring your project meets the highest standards of safety, functionality, and aesthetic excellence.

Partner with Duralock and let us transform your vision into a reality—before we even break ground.

NatWest

# DURALOCK SERVICES.

## SEAMLESS INSTALLATION WITH MINIMAL DISRUPTION

Duralock takes pride in offering a complete end-to-end service, including our expert in-house installation team. From initial planning to final fitting and beyond, our experienced professionals ensure every project is delivered to the highest standard.

We begin with a thorough site visit to understand your venue's unique needs, allowing us to plan the installation process with precision. Thanks to our innovative fencing systems and efficient installation methods, we minimise disruption to your daily operations—your facilities will not need to close during the process.

Our team works flexibly to accommodate your schedule, ensuring the highest levels of safety and functionality while delivering a flawless finish. Trust Duralock to provide a smooth and stress-free experience, leaving you with infrastructure that's as durable as it is elegant.

Choosing Duralock means benefiting from a 15-year guarantee on both our products and installations. Additionally, our dedicated services team provides ongoing support, ensuring long-term satisfaction and peace of mind.

# STREAMLINED SUPPLY AND GLOBAL SHIPPING.

At Duralock, we pride ourselves on efficient, world-class supply and shipping capabilities. With manufacturing sites strategically located in Enstone, UK, and Doha, Qatar, we are well-positioned to meet global demand quickly and reliably. Our dual-site production enables us to deliver products with impressive lead times, ensuring our clients have the equipment they need, when they need it.

With a robust global shipping network, we seamlessly handle deliveries worldwide, prioritising promptness and precision. Whether your project is nearby or across the globe, Duralock ensures swift and efficient service every step of the way.

We are proud to supply fencing to

# 47+

COUNTRIES WORLDWIDE

Duralock's global reach spans a diverse range of regions, from the UK and Europe to the Middle East, North America, Asia, Australia, and beyond.

02

03

04

## GET IN TOUCH.

The first step is to contact us to discuss your project. You can get in touch via our website or by giving us a call. During this stage, we'll provide a preliminary overview of your needs and offer a rough estimate for your project.

## SITE VISIT.

After the initial consultation, we'll arrange a site visit to understand the specifics of your project and requirements. This allows us to assess the site conditions, discuss your options, and gather any details needed for your design. This visit ensures that your fencing system will be a perfect fit for your facility.

## DESIGN REVIEW.

Based on the site visit and your specifications, our designers will create a bespoke solution tailored to your project. We'll review the design with you, making any necessary adjustments before producing a detailed quote. This stage ensures your needs are fully addressed and the design is ready for approval.

## DEPOSIT.

Once the design and quote are approved, a deposit is required to secure your project slot in our production schedule. This deposit allows us to finalise orders for materials and book your installation date.

05

06

07

08

## MANUFACTURING.

Once everything is signed off, your fencing system will be manufactured at our facility. Every piece is crafted with precision to meet your project's requirements, ensuring Duralock's signature quality and durability.

## INSTALLATION.

Thanks to our innovative fencing systems and efficient installation methods, we minimise disruption to your daily operations—your facilities will not need to close during the process. Our expert installation team will arrive on-site to set up your fencing system with precision and care. The duration of the installation depends on the scope of your project, typically taking 1-2 weeks.

## COMPLETION & SIGN OFF

After completion, we'll conduct a walk-through with you to ensure everything is installed and meets our high standards, and we'll ask you to sign off and confirm your satisfaction.

## FEEDBACK & REFERRAL.

Once the project is complete, we'd love to hear your feedback through a quick survey. Refer a friend to Duralock and enjoy a treat on us!
