# Past Opponents

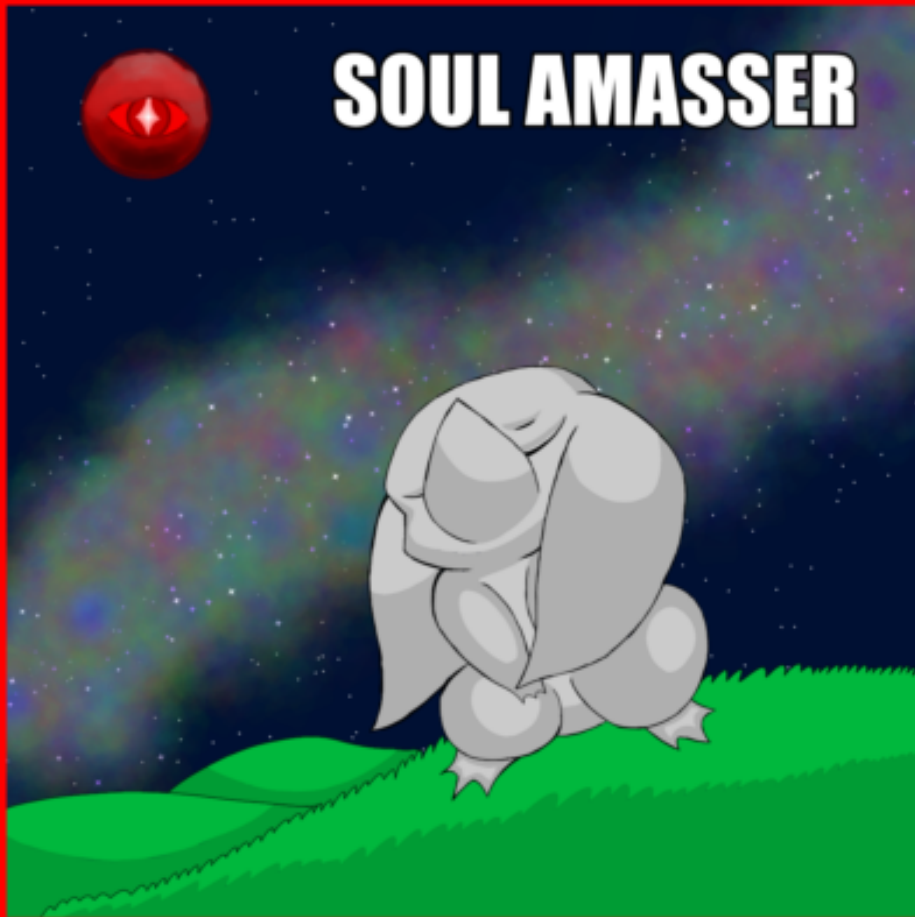

## The story so far...

Somewhere in the black void of distant space, a conversation between gods spark, resulting in the creation of a thought to be usefull gaurdian creature, although they are unaware of the problems the new gaurdians will cause. While the gods plant their new gaurdian species within the universes, chaos strikes in Japan, when a kaiju rises from the sea and begins destroying cities, one by one. Ruth, finding that he was left stranded in the Parallel Universe, desperately searches for Tenkodashi only to find he is being stalked by a large, formidable monster. As Tenkodashi and friends search for Amassers back on Earth, Boyo attempts to teleport them all to another amasser, when Tenkodashi suddenly passes out. While he remains unconscious in reality, Tenkodashi has a flashback of his past, Incubus returns to tell him that he forgot about his childhood. The others freak out once they've realized a member of their "team" has fallen. Michael attempts proceed mouth-to-mouth CPR, only to find a blood-blade lashing out in his face as Tenkodashi regains consciousness. In another planet, a dinosaur-like alien is called out to the leader of his pack, presenting a problem later on in the story. A canine-like mage battles with an Amasser as an introductory scene. Conversation between gods rises once again as a fraction of the legend is leaked.
