Shipping rates are additional and are available instantly online. Items ship direct from the manufacturers to your facility. Smaller items can ship UPS but a majority of products will be sent via motor freight using one or more of the following procedures:

Standard tailgate is the most economical method and requires that someone is available at delivery to inspect, sign receipt and unload product off the truck's tailgate and into your facility.

Liftgate service is a recommended add-on for facilities that do not have a loading dock or personnel/equipment needed to lower large or heavy freight to the ground level.

Inside Delivery service is available for an upcharge; however the driver may still need assistance with oversized products. Inside delivery service is first floor, threshold delivery only.

Return authorizations are issued before any merchandise may be returned. Most shipments may be returned, but may be subject to restocking and return shipping fees.

Damages should be noted on the delivery receipt at the time of delivery. Inspect all cartons for damage or shortages and report them within 5 days to our customer service team. Digital photos may be requested to expedite replacements.

Billing accounts are standard with schools and other established educational institutions. Commercial and business firms desiring to establish credit, please email a request to accounting@worthingtondirect.com. Terms: Net 30 days.

Financing is available through LeaseProcess. For details and to submit an application, please go online: leaseprocess.com/app-worthington.

Sales Tax is required on orders in all states, unless you are tax-exempt and can provide us with a certificate, or already have one on file with us.

Prices: Printed prices are subject to change without notice due to unforeseen cost fluctuations of raw materials and imported products. Please visit our website for current pricing; many times pricing may be lower due to online promotions.
