Testimonials

"The interim team which we currently have have fitted in amongst the team perfectly and they are obviously a really talented bunch.

Richard communicated quickly and effectively to ensure the process was speedy. He was responding at all times of the day and nearly always with immediate responses.

I would absolutely recommend Spencer Clarke Group for the recruitment of SEN staff and I look forward to continuing to work with them when required."

SEN Deputy Manager, Kirklees Council

"Richard at Spencer Clarke Group has both sourced candidates for me and supported me to secure interim roles.

Richard has a wealth of experience so I am confident that when I have a vacancy to fill, he will always provide the right candidates for the right role.

My experience of working with Richard has always been really positive, unlike some other agents he is always easy to contact and he takes the time to listen and fully understand the context of what is needed. For me, this is so important, especially when there is an urgent need for experienced, reliable staff."

Head of Service, Worcestershire Council

Testimonials

“We have been trying to grow our educational psychology team as we have a backlog of requests for EHCP statutory assessment. In spite of several local and national adverts, we had no response at all.

This challenge has resulted in the local authority not being able to meet the 20-week statutory deadline for completing EHCP requests.

Natalie Boaler listened to our challenges and immediately set up a call with us to discuss this in further detail. She proactively sent us a host of CVs, helped our HR department to set up interviews and then ensured they were set up successfully with our main agency group.

Through Natalie, we have now appointed an interim Principal and interim Senior Educational Psychologist. They will lead the Educational Psychologist team and will also complete statutory assessments. This will reduce our 20-week timeliness and ensure children and young people have their EHCPs completed quickly.”
