THE KREW

IT TAKES TEAMWORK TO MAKE THE DREAM WERK

Since 1997, Klock Werks has tripled its employees, created the Klock Werks brand line of parts, and been blessed with many bike features in national and international magazines.

After setting multiple land speed records and making history on the Bonneville Salt Flats, our team received more awards, recognition and attention than we ever dreamed

possible. In hindsight, it's really not about the accomplishments as much as what we learned along the way. We will never forget our humble beginnings and all the people that had faith in us.

People "buy" from people. At Klock Werks we are proud of ours! True to our small town upbringing, we are committed to caring for our customers and providing products we

are proud of as a team. You will find family and faith at the core in all facets of our daily lives, and we love to share our story with others.

Stop by our shop for a tour when you pass through Mitchell, South Dakota. We welcome you to be part of the Klock Werks family! #GETKLOCKED

AMBIDEXTROUS
MOUNT FOR
INDIAN
0636-0185
PG. 7

DEVICE MOUNTS

IT'S REALLY THIS SIMPLE!

Our magnetic phone mounts incorporate the iMounts® system and quickly connect to the powerful iOcore™ magnetic carrier. It's a simple, secure and universal system. When you're ready to go, just give your device a tug and you're off and running. No clips, no hassle, just a simple magnet, rotational adjustment, and a sleek modern design.

EACH KIT INCLUDES:

MAGNETIC IOCORE™

An extra strong magnet with brute strength that is the heart of the system.

SEMISPHERE MOUNT

Allows rotation in any direction for preferred placement.

IODISC™ (2)

A razor-thin, unobtrusive steel disk that adheres to the device. This is what makes iMounts® device-universal!

NECESSARY HARDWARE

We wouldn't leave you hanging. If hardware is necessary, you bet it's included.

STRONG AND SECURE

Enjoy your ride, knowing that these mounts are strong enough to withstand the pressure of high speeds when riding.

ROTATIONAL

Infinite rotational adjustments can be made for proper placement.

BONUS!

If you upgrade to a new phone or GPS, you don't have to buy a new mounting system! Use the spare iOdisc™ or purchase more!

ONCE THE iOdisc™ IS ADHERED TO YOUR DEVICE, EASILY DETACH FROM THE PHONE MOUNT AND CONNECT TO OTHER iMounts PRODUCTS, INCLUDING THE nomad™ FOR YOUR OFF-ROAD VEHICLE, CAR, HOME, AND MORE!

**UNLIKE COMPETITORS, THE MAGNET DOES NOT ATTACH TO THE DEVICE -
AND IT IS STRONG ENOUGH TO WITHSTAND THE PRESSURE OF HIGH SPEEDS WHEN RIDING.**

HORIZONTAL OR VERTICAL? ROTATE IN ANY DIRECTION FOR PERFECT PLACEMENT EVERY TIME!

ADAPT TO THE IOMOUNTS® SYSTEM

INSTALL

If installation is even necessary, install the phone mount in its designed location with the included hardware.

ADHERE

Center the iDisc™ on your case, apply firm pressure and let cure.

ATTACH

Once the iDisc™ has cured for 24 hours, your device is ready to be attached to any iMount®!

nomad™

This simple and solid construction can withstand just about anything! The patented, ultra-strong magnetic interface and mount retention lip secures devices in the most severe of off-road environments. nomad™ utilizes the razor-thin iDisc™ that adheres to your device to connect to the iCore™, which is the magnetic carrier on the nomad™. Secure cell phones, devices, gauges and more onto handlebars, ROPS, and ATV racks with the ease of a nomad™.

nomad™ DEVICE MOUNT

With its flexible strap mount, the nomad™ is quick and easy to install on any bar. Two strap size options allow for even greater placement flexibility.

INCLUDES: nomad™ mount, iDiscs (2) and Phone Tether

DESCRIPTION	PART #
nomad™ fits .5" to 2" in diameter	0636-0055
nomadXL™ fits .5 to 3" in diameter	0636-0150

nomad+™ DEVICE MOUNT

The nomad+™ uses a quick-release snap over clamp that makes removal and installation quicker than ever. Adjust the tightness of the mount in location by simply spinning the lever clockwise or counterclockwise. Works anywhere with the proper diameter tubing.

INCLUDES: nomad+™ mount, iDiscs (2) and Phone Tether

DESCRIPTION	PART #
7/8" nomad+ Mount	KWD-NOMAD+0.875
1" nomad+ Mount	KWD-NOMAD+1.0
1 1/4" nomad+ Mount	KWD-NOMAD+1.25

iOtraveler DEVICE MOUNT

With its 360° adjustability, position your phone exactly where you want it when you want it. This suction mount attaches firmly to flat surfaces and stays mounted in hot or cold.

INCLUDES: iOtraveler Suction Mount, Black iOcore (1), iOdiscs (2), 3M Adhesive Plate

DESCRIPTION	PART #
iOtraveler Device Mount	KWD-TRAVELER

iOkwik™ DEVICE MOUNT

The iOkwik is a universal magnetic mount that is designed to quickly attach to any magnetic surface. Common locations are gym equipment, tool boxes, metal posts, metal panels, etc.

Flip the iOkwik! The iOkwik was designed with the iOcore attached to the design, but this product can be used both ways should you find yourself in a situation that needs a bit more grip to the surface.

INCLUDES: iOkwik Mount, iOcore (black), iOdiscs (2)

DESCRIPTION	PART #
iOkwik Device Mount	KWD-KWIK

UNIVERSAL PHONE MOUNT

Want to have your device within arms reach on the trail, on the farm, on the boat or in your hot rod? The Universal Phone Mount attaches easily to any flat surface you can imagine.

Comes complete with everything needed for both a bolt-on (hardware) and adhesive (3M adhesive patch) installation.

INCLUDES: Semisphere Mount, Backing Plate, 3M Adhesive Patch, iOcore (black), iOdiscs (2), Phone Tether and hardware

DESCRIPTION	PART #
Universal Phone Mount	0636-0192

iOstand™

FOR FULL-SIZE TABLETS

This universal pro tablet stand will change how you use your device. It is the perfect tablet mount for the kitchen, improves the ergonomics of your desktop or workspace, and looks great anywhere in the home or office.

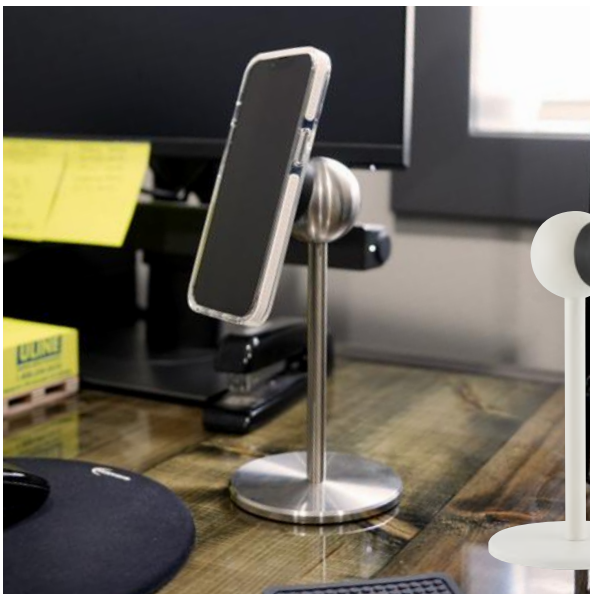

The iOstand lifts your device up 7" and rotates in any direction for the perfect viewing angle (360° rotating). Measures 9.5" tall with a 6" base.

INCLUDES: iOstand®, iOcore™ (black), iOdiscs (2)

DESCRIPTION	PART #

RIDES OF A LIFETIME

It was the fall of 2015 when David Stang from Jack Daniel's called Brian Klock, asking him to be the "quarterback" on a special project to celebrate 150 years of the world's most famous whiskey brand. He was very clear that this would be the first licensed "motor vehicle" in the history of Jack Daniel's. It was also clear that the message would be "Bottles and Throttles Don't Mix" - drink responsibly.

Everyone seemed to push back on the total number of bikes and yet David stood his ground and 150 Limited Edition 2016 Indian Motorcycle Vintage and Springfield's known as "JD150" were created. The real surprise was that all 150 bikes sold in just under 8 hours, unprecedented in motorcycle history!

The next year, 2017, the tribute was to the charcoal mellowing process and 100 Chieftains (JD151) were created and sold worldwide in only ten minutes. The Scout Bobber was the bike of choice for 2018 (JD152) and the number was set at 177 and the bikes were dedicated to firefighters around the world. The black and gold muscle bike was a hit and sold out in just 9 minutes.

Klock Werks and Brian continue to help design these projects alongside the teams from Indian Motorcycle and Jack Daniel's for a total of 7 bikes! We were honored to team up with Indian Motorcycle and Jack Daniel's for this opportunity! When people gather together, and a handshake agreement is struck, great things can happen.

FLARE™ WINDSHIELD

REDIRECT WIND AND IMPROVE YOUR RIDE

The Klock Werks Flare™ Windshield was originally developed out of a need for stability at high speeds while racing on the Bonneville Salt Flats. This innovative and patented design features “hips” on the sides that re-route air to create downforce on the front of the bike while the “flip” at the top kicks the air up, sending it back as clean, less turbulent air for the rider and passenger. The Flare™ has fundamentally changed the way we ride.

CLEAR

TINT

DARK
SMOKE

SOLID
BLACK

NOTE: Solid Black versions are opaque. These may not be suitable for shorter riders.

THE FLIP

Creates clean, less turbulent air for rider and passenger.

THE HIPS

Adds downforce for improved stability at highway speeds.

LOOK FOR THE LOGO

Our logo is always front and center on every authentic Flare™ sold by Klock Werks.

BUILT TO LAST

Made from hard-coated polycarbonate for superior strength and durability.

SLEEK STYLING

The trademark sleek styling of the Flare™ complements your bike.

MADE IN THE USA

We source from companies we know and trust, supporting communities in the USA.

FIND YOUR FLARE™

SIZE REALLY DOES MATTER

Over the years, we've learned that what works for your buddy might not work for you. Like shoes, one size does not fit all. As a result, Klock Werks now offers a wide selection of sizes for you to choose from. Follow these easy steps below to Find Your Flare™!

In most cases, Klock Werks recommends you choose a Flare™ size that you can look over comfortably.

1

GRAB A BUDDY

To ensure the most accurate measurement, recruit a friend that can assist you with this process. While measuring by yourself is possible, it can be difficult.

2

GET IN YOUR RIDING POSITION

Sit on your motorcycle, and get comfortable. Try to sit like you do when you ride the majority of the time. Remember, the longer we ride the more we tend to slouch which may impact your needed Flare™ size.

3

MEASURE FOR YOUR IDEAL FLARE™

Place a yard stick horizontally above your top lip. Hold it level (parallel to the ground), and have your buddy measure vertically from the center mounting point in the fairing, straight up to determine your Flare™ Windshield size.

4

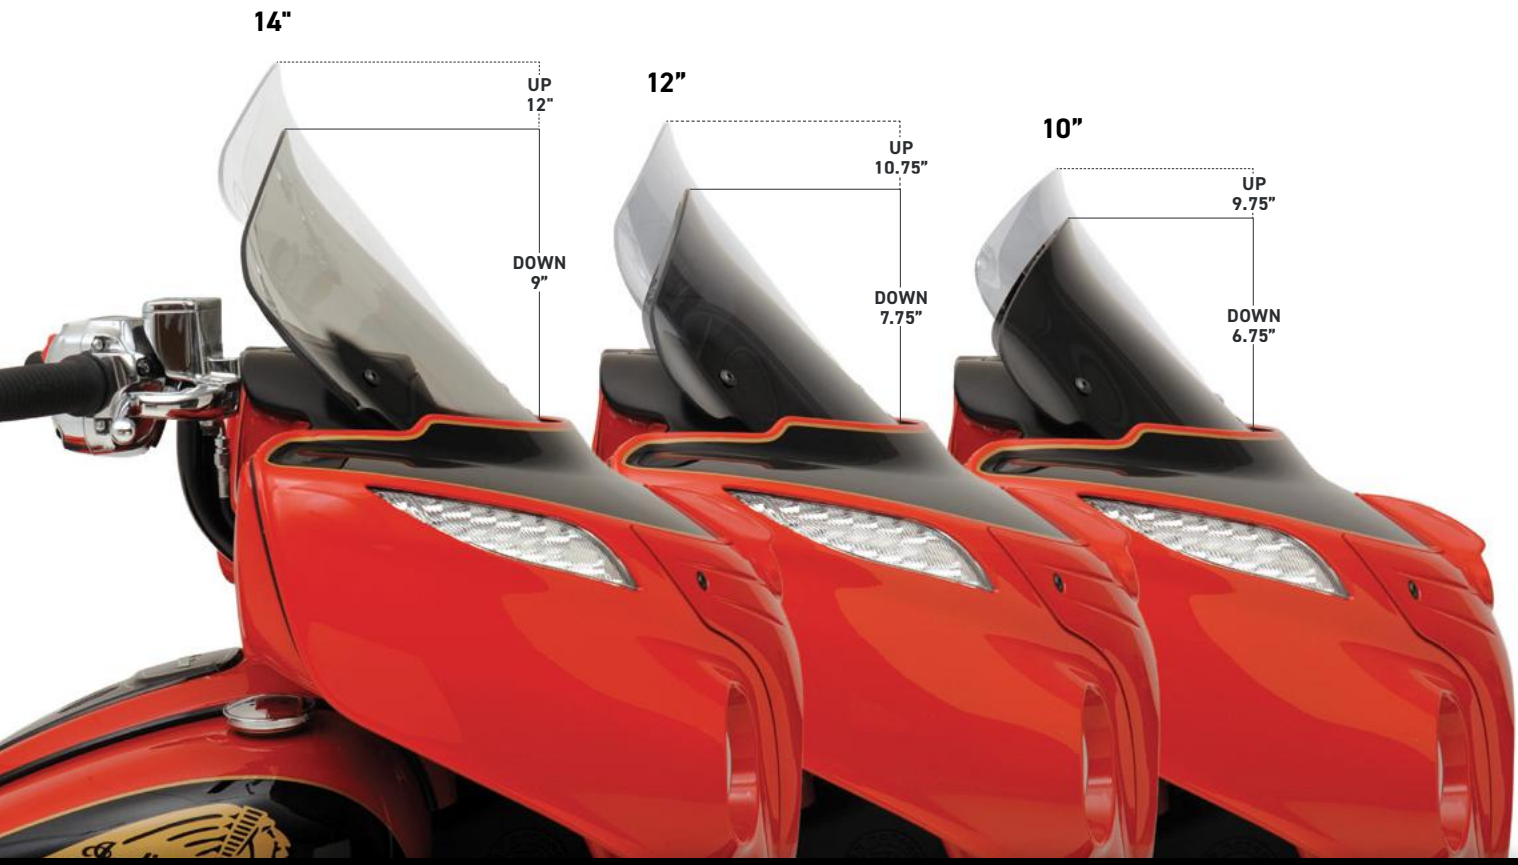

CHOOSE A FLARE™ SIZE

For the best performance, Klock Werks recommends you choose a Flare™ size that is comfortably lower than your line of sight, but not lower than your chin.

STILL NOT 100% SURE WHICH FLARE™ SIZE TO CHOOSE?

The Try It Before You Buy It program is available, in select areas, for you to test ride the Flare™. This ensures you find the best fit for you *and* your ride. To find a dealer near you that offers the program, check out the Dealer Locator at GETKLOCKED.COM.

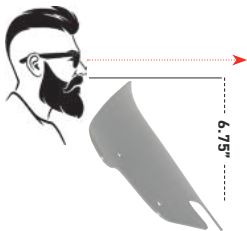

HOW THE VERTICAL HEIGHT IS MEASURED ON THE

10" FLARE™

FOR CHIEFTAIN MODELS :

When in the down position, measure from the center mounting point in the fairing, straight up.

FLARE™ WINDSHIELDS

Klock Werks Flare™ is the ORIGINAL windshield of its kind, and has surprised riders everywhere with not only how great it looks, but also with how well it performs. The innovative design features "hips" at the outer edge of the shield that re-route the air to add downforce to the front of the bike, improving stability vs. riding with a stock shield. The "flip" at the top of the Flare™ is designed to kick the air up and back as "clean", less turbulent air for the rider and passenger.

STAMPED STEEL FENDERS

PICK A STYLE, BOLT IT ON

Changing your fender is a great way to add some personal style! The Klock Werks design team has developed great options ranging from traditional touring style to tire hugging options.

14-GAUGE STEEL

All Klock Werks fenders are stamped from 14-gauge steel using precision, deep-draw stamping technology.

E-COAT

Klock Werks goes the extra mile to add e-coat, a process to prevent rust and corrosion.

LASER CUT

Laser cut using 5-axis laser technology to ensure accurate fitment for direct bolt-on installation.

PAINTER APPROVED

A consistently smooth and flawless finish minimizes bodywork.

LOOK FOR THE

LOGO!

When you buy a fender from Klock Werks, you can count on quality and accurate bolt-on fitment.

To make installation even easier, some of our fenders are packaged with mounting blocks and hardware in one box.

STAMPED STEEL FENDER

14-gauge steel fender in your profile of choice.

MOUNTING BLOCKS

Machined from billet aluminum. Fit Kits include satin finish mounting blocks, unless otherwise specified.

NECESSARY HARDWARE

We wouldn't leave you hanging. If stock hardware cannot be reused, we've included everything you need!

IF YOU ARE NOT BUYING A FIT KIT, MAKE SURE YOU ORDER BLOCKS!!

Front Fender Mounting Blocks (Klock Blocks) are designed to provide perfect spacing for easy installation of any Klock Werks Front Fender. Machined from billet aluminum. Sold separately in pairs.

DYNAMAT®

IMPROVE YOUR AUDIO OUTPUT IN UNDER AN HOUR

Whether you have a stock stereo or something that's tricked out, Dynamat® always delivers! The Klock Werks Dynamat® Sound Control Kit reduces vibrations, giving you louder and clearer audio output from your speakers. The kit will give you tighter bass response, more pronounced mid-range tone, and a clear improvement in your sound system.

FAIRING SOUND CONTROL KITS

All fairing kits are custom cut, resulting in no waste and no guesswork! There is no mystery behind how much product you will need, where you should put it and how much it will cost. These computer generated sheets of Dynamat® Xtreme® and Dynaliner® eliminate calculations, templating and cutting. Installation is quick and easy! You simply open the package, peel, stick and you're done!

KLEANING PRODUCTS

DEVELOPED BY RIDERS, FOR RIDERS

At Klock Werks, we don't just design and produce awesome parts for your motorcycle. We are enthusiasts who ride with a need to clean our own Flare™ Windshields, painted parts, chrome surfaces and engines! We tested countless products in the market. After testing, we engineered our own water-based cleaning agent that includes a protective wax polish to create a complete kleaning product lineup. This is what we use and we are excited to share it with you!

SHINE WERKS

RECOMMENDED CLEANER FOR YOUR FLARE™ AND MORE!

Shine Werks cleans, shines and protects plastic, leather, acrylic, plexiglass, lexan, chrome, fiberglass, and paint. Invisible protective coating protects surfaces and repels dirt, dust, fingerprints, smudges and bugs. Aids in the resistance of scratching and marring of surfaces. Dries quickly and buffs to a streak free shine!
