STANFIELD'S[®]

Legendary Comfort Since 1856

**Stanfield's[®] is a part
of the very fabric of Canada.**

Since 1856, we've remained committed
to comfort through quality,
quality through craftsmanship, and
craftsmanship through small town values.

We are Canadian.

Worn coast to coast - on frozen tundra,
atop snowcapped mountains, aboard ships,
and in the homes of everyday people.

Keeping Canadians comfortable
from the very start.

LIGHT WEIGHT COTTON BLEND JERSEY

Single Jersey Fabric

- 135 gsm knit
- 50% Cotton / 50% Polyester
- Ringspun yarn is used to create a smoother, stronger, and finer yarn
- The cotton with polyester combines the comfort of cotton with the strength and quick-drying properties of polyester

STANFIELD'S®

BRUSHED BACK FLEECE

Modified Three-end Fleece

- 65% cotton / 35% polyester 400 gsm knit
- Oxford twist 400 gsm knit - a unique fabric face construction comprised of 1 black and 1 greige colour yarn; this fabric can be dyed to achieve a 2 colour "heathered" effect
- Solid colour - this fabric is double dyed to achieve a solid colour
- Fleece is a jersey knit with a loop back construction; the loops are brushed to create the plush and fuzzy inner side
- Brushing raises the fibers on the inner side giving the fabric its characteristic softness and also enhances insulation

2026U FLEECE HOODY SWEATSHIRT

FABRIC 65% Cotton / 35% Polyester

SIZE XS - 2XL

- Brushed back fleece
- Relaxed fit, kangaroo pouch
- Double layer hood
- Matching cotton drawcord with metal tips

TWO LAYER MERINO WOOL

Double Knit Jersey fabric

- 225 gsm
- Inside layer is 50% Cotton / 50% Polyester for soft, next to skin comfort
- Outside layer is 50% Merino Wool for warmth and 50% Polyester for added durability
- Interlock knitting technique creates a double-knit fabric where the layers are interlocked
- An additional insulating barrier is created where the air is trapped between these two layers
- Merino wool is a natural fibre with inherent performance features
- Merino wool is odor resistant, lightweight, insulating, and temperature regulating due to its breathability

Do not use fabric softener.

HEAVY WOOL RIB

1 X 1 Rib knit fabric

- 365 gsm
- 80% Wool / 20% Nylon
- Wool fibers are 100% natural and renewable
- Wool is breathable - the fibers can absorb large quantities of moisture vapour then move it away to evaporate into the air Wool is inherently odor resistant
- Nylon is added for stability and durability
- Our wool is ethically sourced to uphold the national standards of animal welfare

Do not use fabric softener.

GRAPHENE FLEECE

Double-side, brushed fabric

- 170 gsm
- 66% Recycled Polyester/ 30% Graphene infused Polyester/ 4% Spandex
- Graphene, derived from carbon, is a naturally occurring mineral. It is lightweight and technically advanced to provide inherent performance features
- Fabric wicks sweat to keep you feeling more comfortable
- Graphene naturally reduces the presence of odor causing bacteria
- Inherently radiates body energy (heat) back to wearer; exceptionally efficient at accumulating, retaining and distributing heat
- Spandex enhances wearer mobility

Do not use fabric softener.
