**Weave what
you believe in**

**Teje tu propio
futuro**

Manufacturers of the future

Making products is about engaging with people and the planet to ensure a better world (both ethically and aesthetically). That is why we are creators of vital comfort.

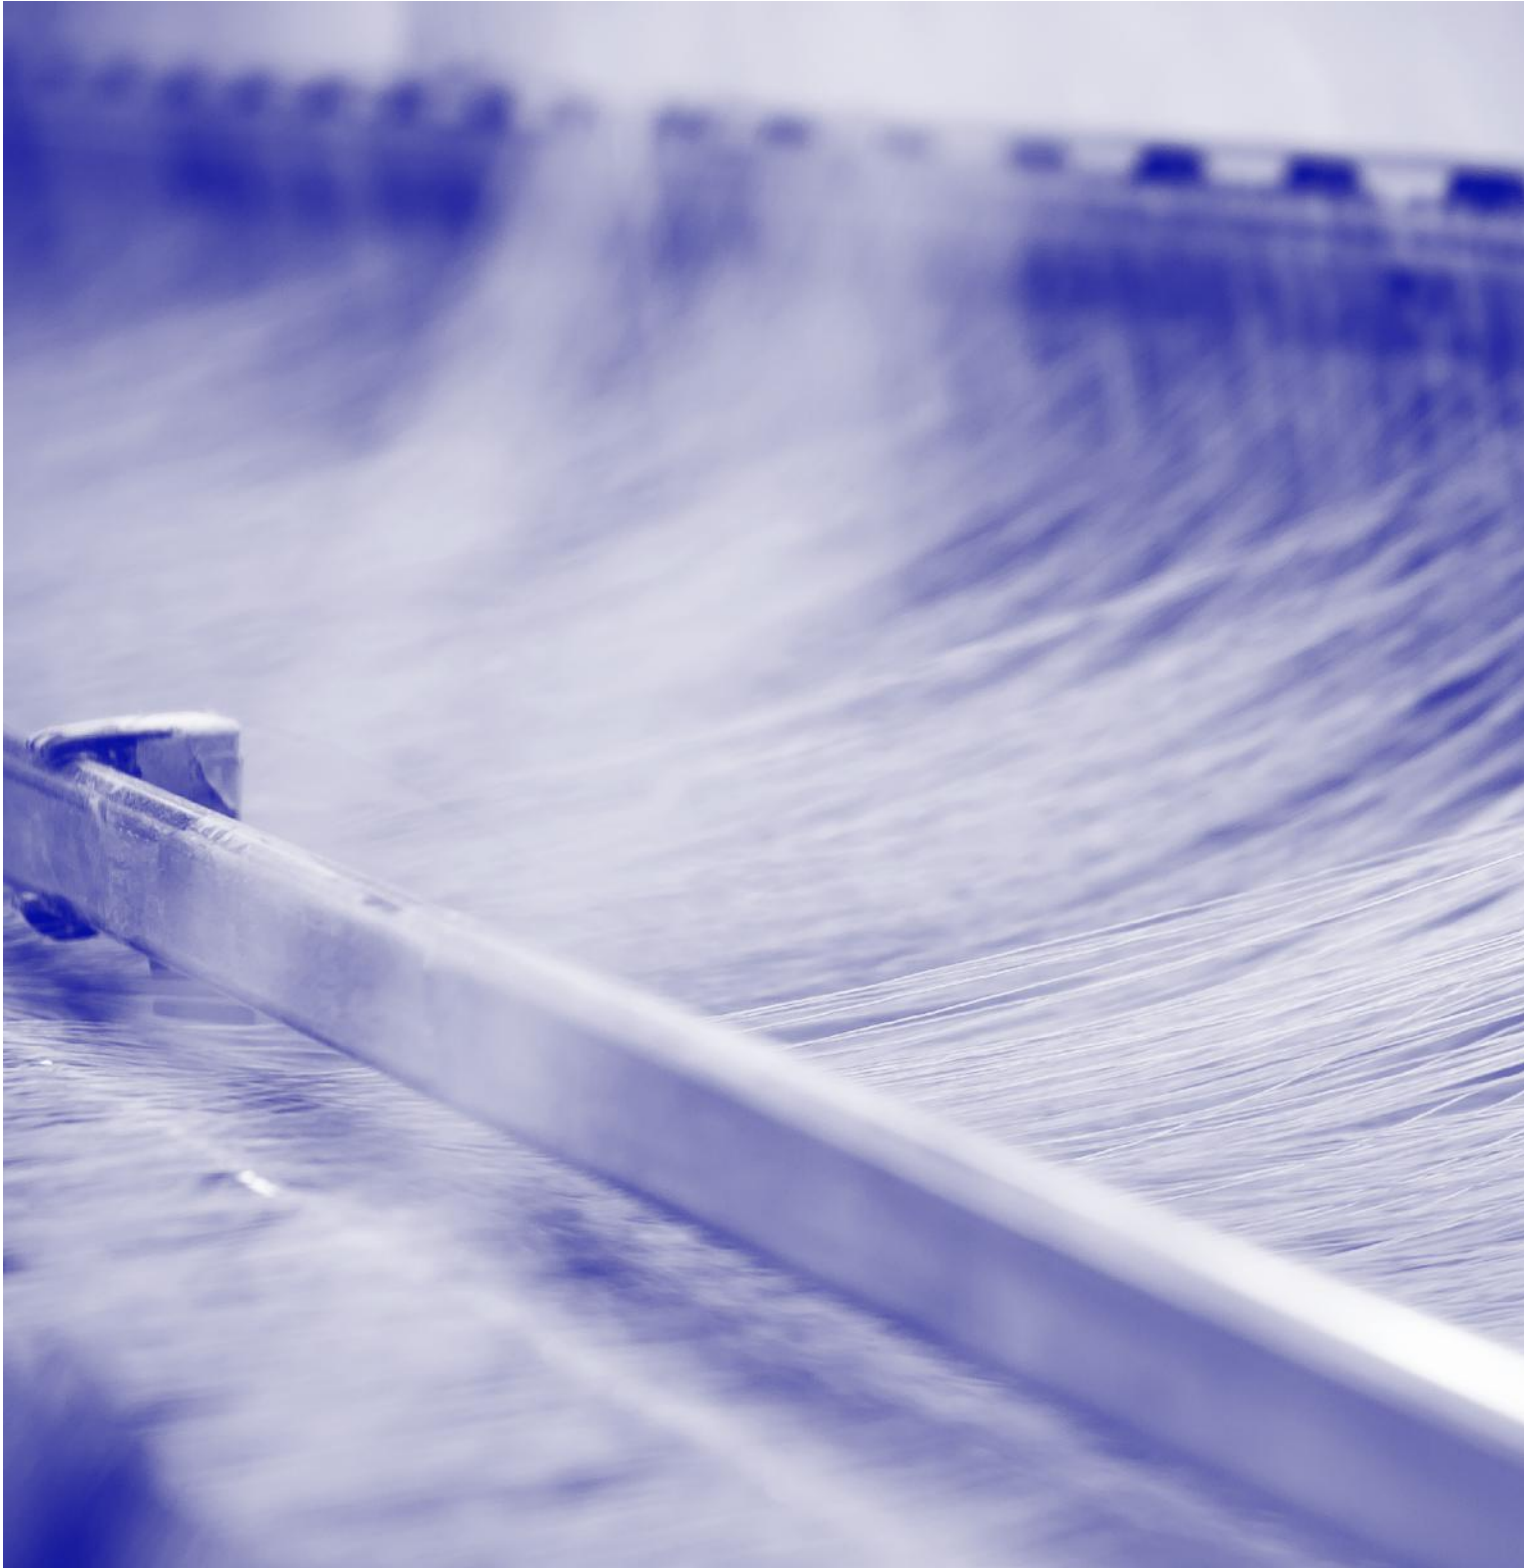

Fabricantes de futuro

Fabricar productos es comprometerse con las personas y el planeta para asegurar un mundo mejor (ético y estético). Por eso somos creadores de confort vital.

Manifesto

Manufacturing the future is...

- ...engage with people and the environment
- ...innovating to improve people's lives
- ...knowing that sustainability needs aesthetics to work
- ...helping others to create the future they dream of
- ...to be a creator of living comfort

Manifiesto

Fabricar el futuro es...

- ...comprometerse con las personas y el entorno
- ...innovar para mejorar la vida de las personas
- ...saber que la sostenibilidad necesita de la estética para funcionar
- ...ayudar a los demás a crear el futuro con el que sueñan
- ...ser creador de confort vital

What do we do?

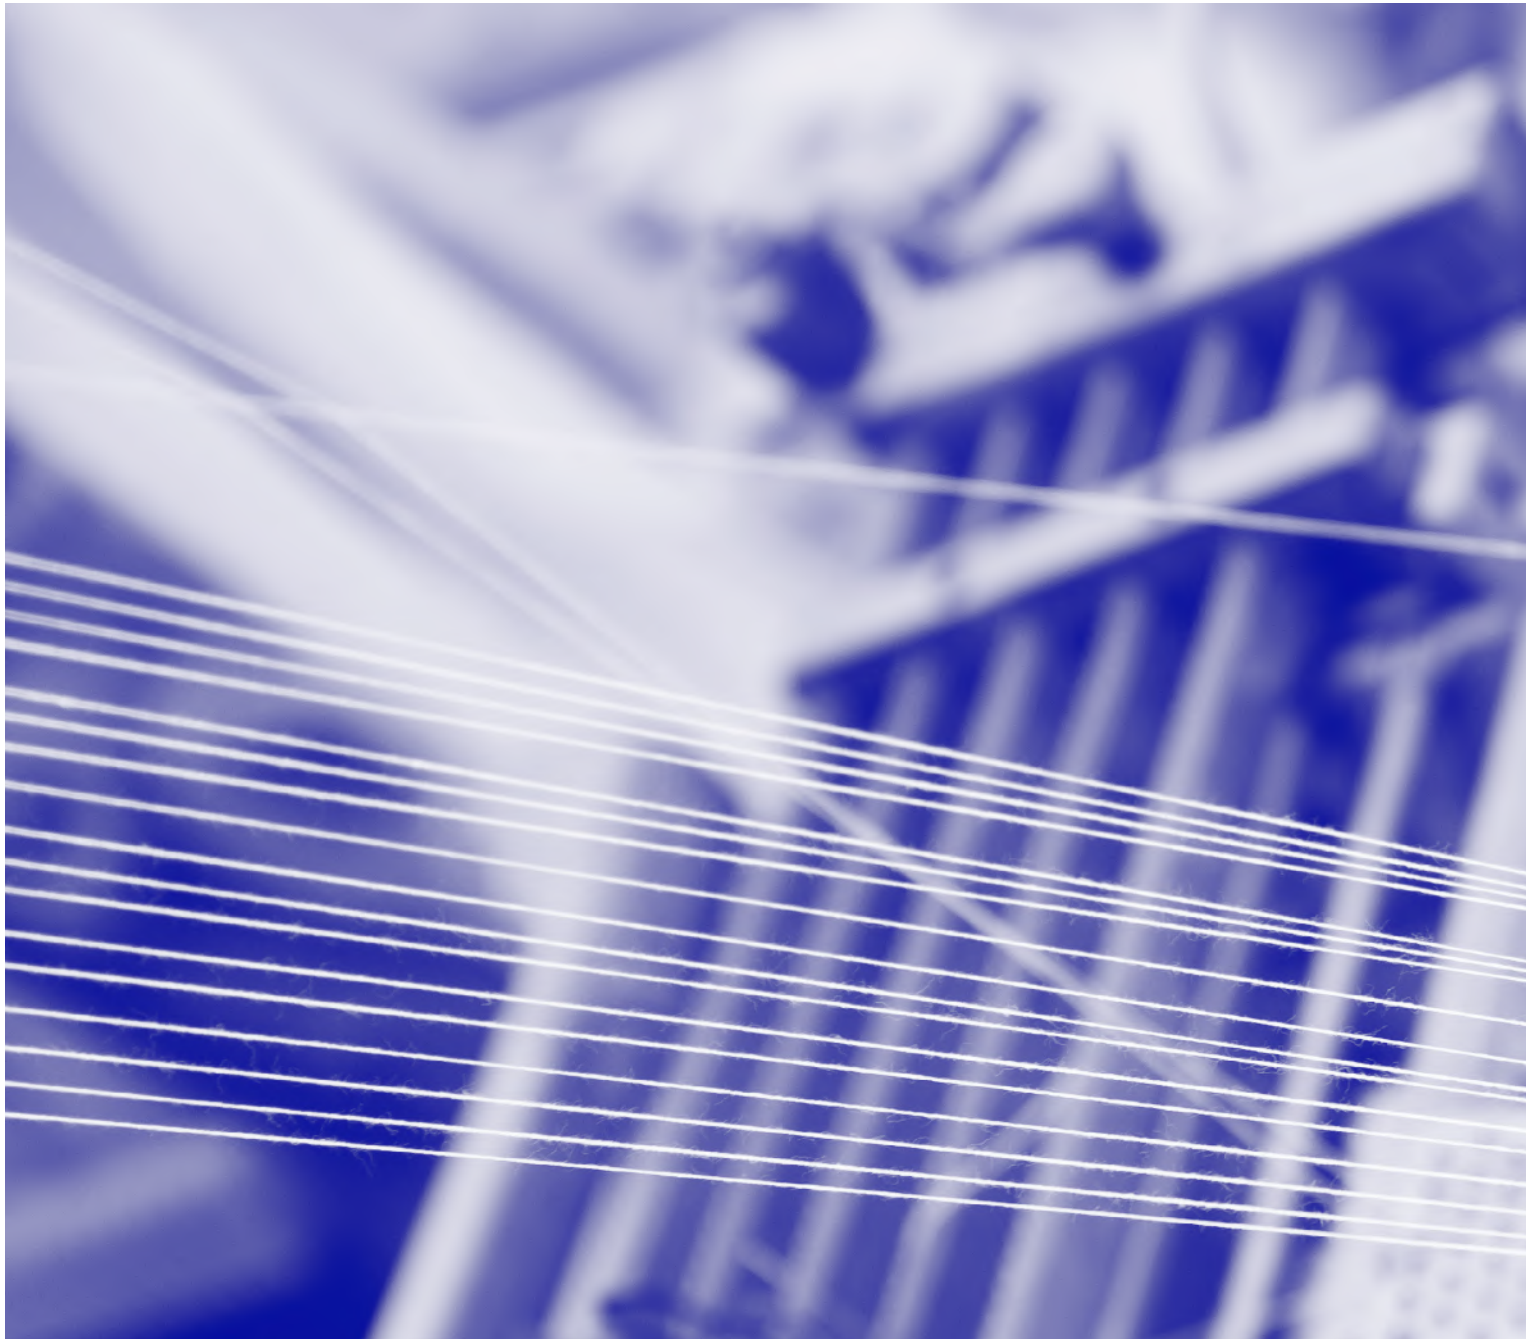

We make cutting edge, sustainable and long-lasting product

How do we do it?

By making innovation a habit

Why do we do it?

To inspire comfortable and healthy spaces, thus improving the well-being of people and the planet

¿Qué hacemos?

Fabricamos un producto puntero, sostenible y duradero

¿Cómo lo hacemos?

Haciendo de la innovación un hábito

¿Por qué?

Para inspirar espacios confortables y saludables, mejorando así el bienestar de las personas y del planeta

Since 1982

Who we are has a lot to do with where we were born: Galicia, in the Northwest of Spain.

There, the waves of the Atlantic pound the cliffs again and again, as relentlessly as the fullers of our looms working on the weft. In a land where every resource is important, ingenuity has no bounds. The vineyards rise above ground to preserve the grapes from humidity, held by a network of carefully designed grids that is reminiscent of the structure of our fabrics.

Who we are has a lot to do with where we grew: Barcelona, bathed and infused by the Mediterranean and its thousand-year-old cultures.

A combination of art, design and modernity, a city where inspiration and innovation are constant and beauty is the ultimate goal.

Work and creativity, effort and precision, excellence and ingenuity, Atlantic and Mediterranean.

Desde 1982

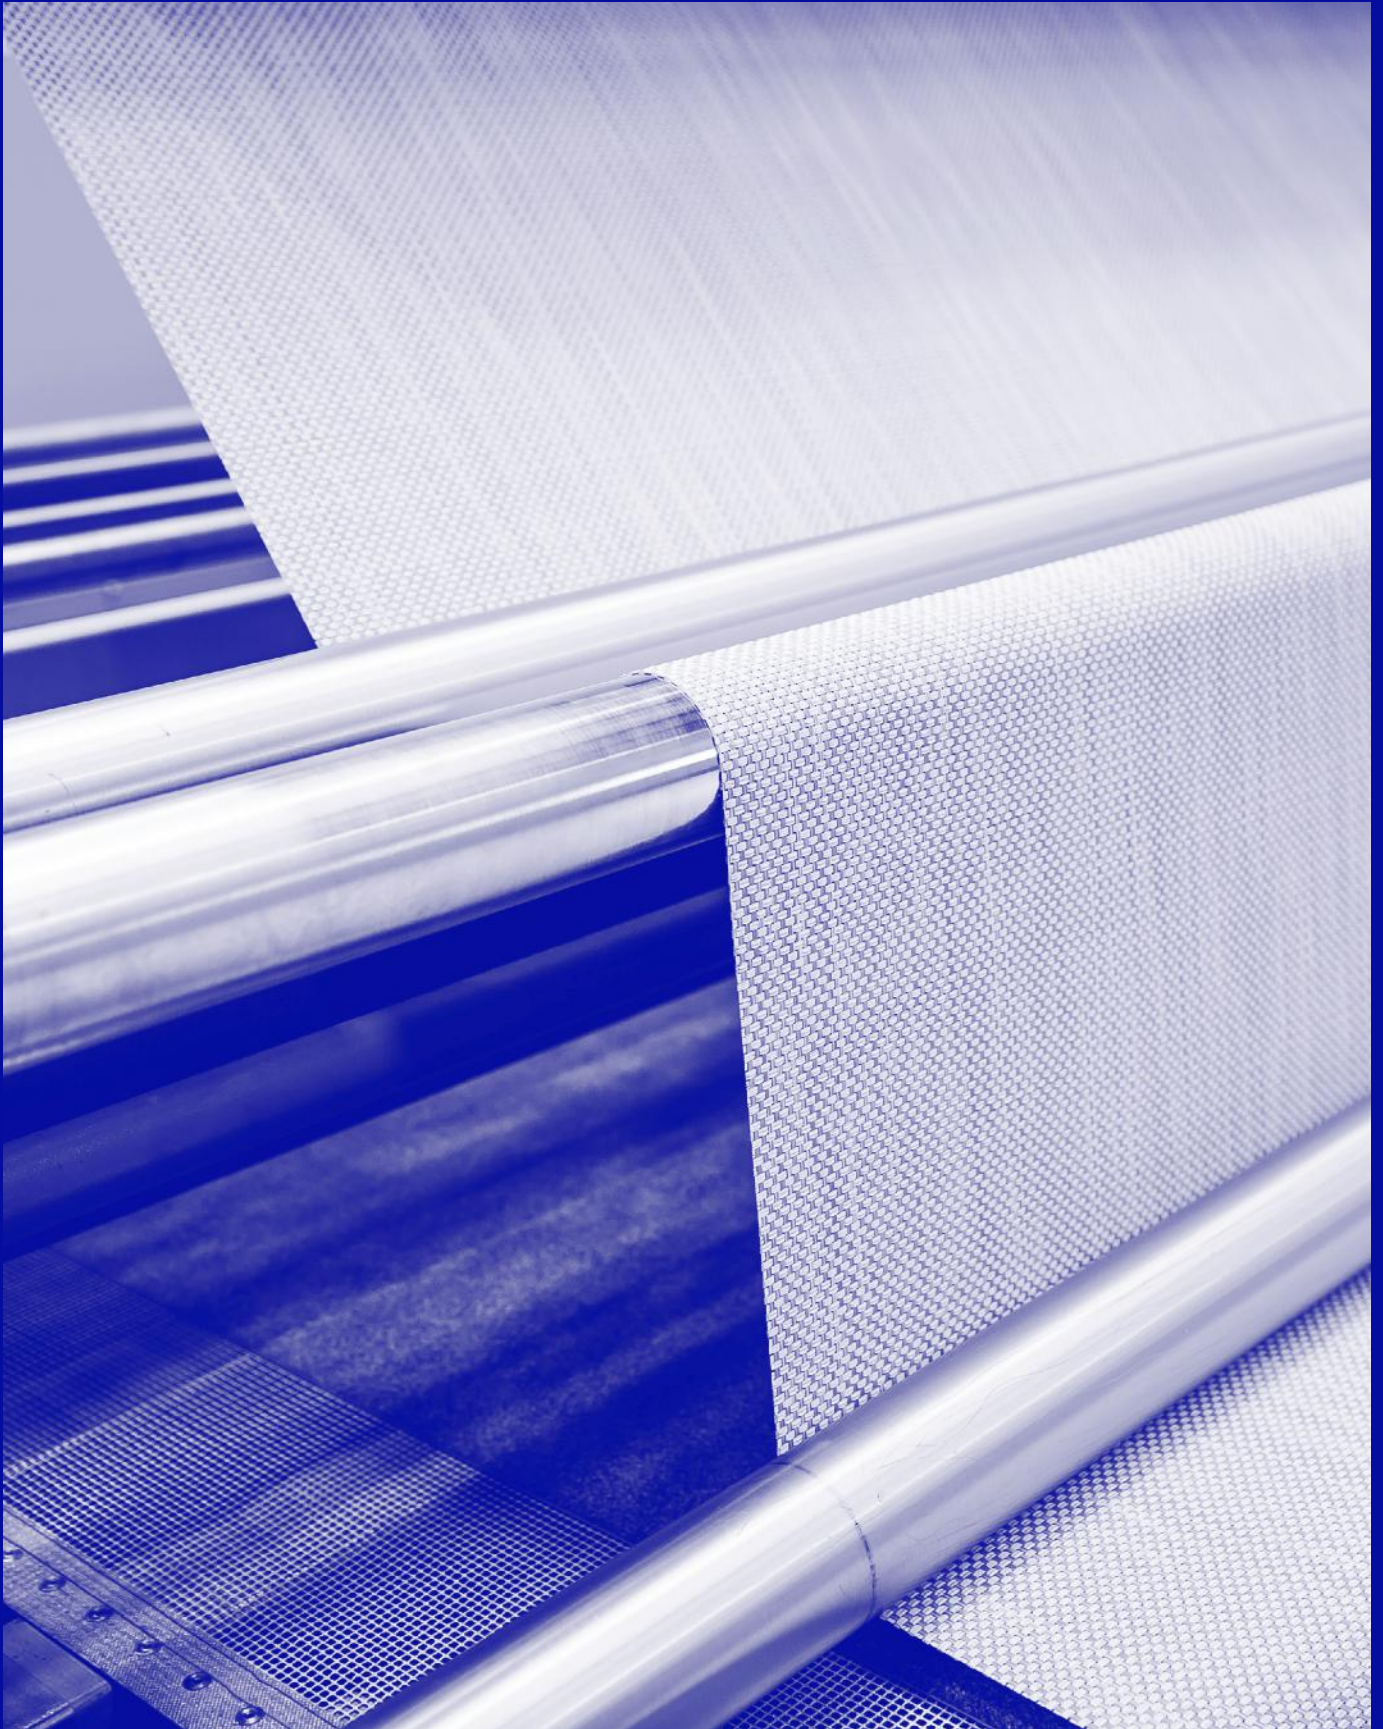

Lo que somos tiene mucho del lugar en el que nacimos: Galicia, en el Noroeste de España, allí las olas del Océano Atlántico golpean una y otra vez los acantilados con la misma persistencia que lo hace el batán de nuestros telares para acomodar la trama. En una tierra en la que cada recurso es importante, el ingenio se invierte sin límites. Los viñedos se alzan sobre el terreno para preservar las uvas de la humedad. Se soportan en un entramado de cuadrículas meticulosas que evocan la estructura de nuestros tejidos.

Lo que somos tiene mucho del lugar en el que hemos crecido: Barcelona, bañada e impregnada por el mediterráneo y sus culturas milenarias. Mezcla de arte, diseño y modernismo.

Ciudad en que la inspiración e innovación son constantes y la belleza es su gran objetivo.

Trabajo y creatividad, esfuerzo y precisión, excelencia e inquietud, Atlántico y Mediterráneo.

Origins

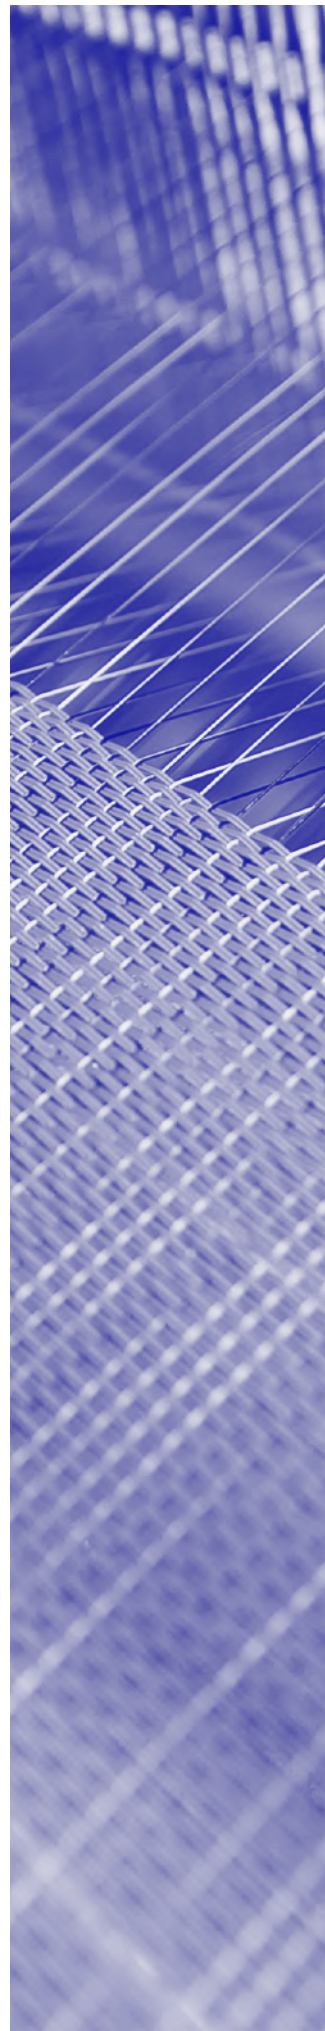

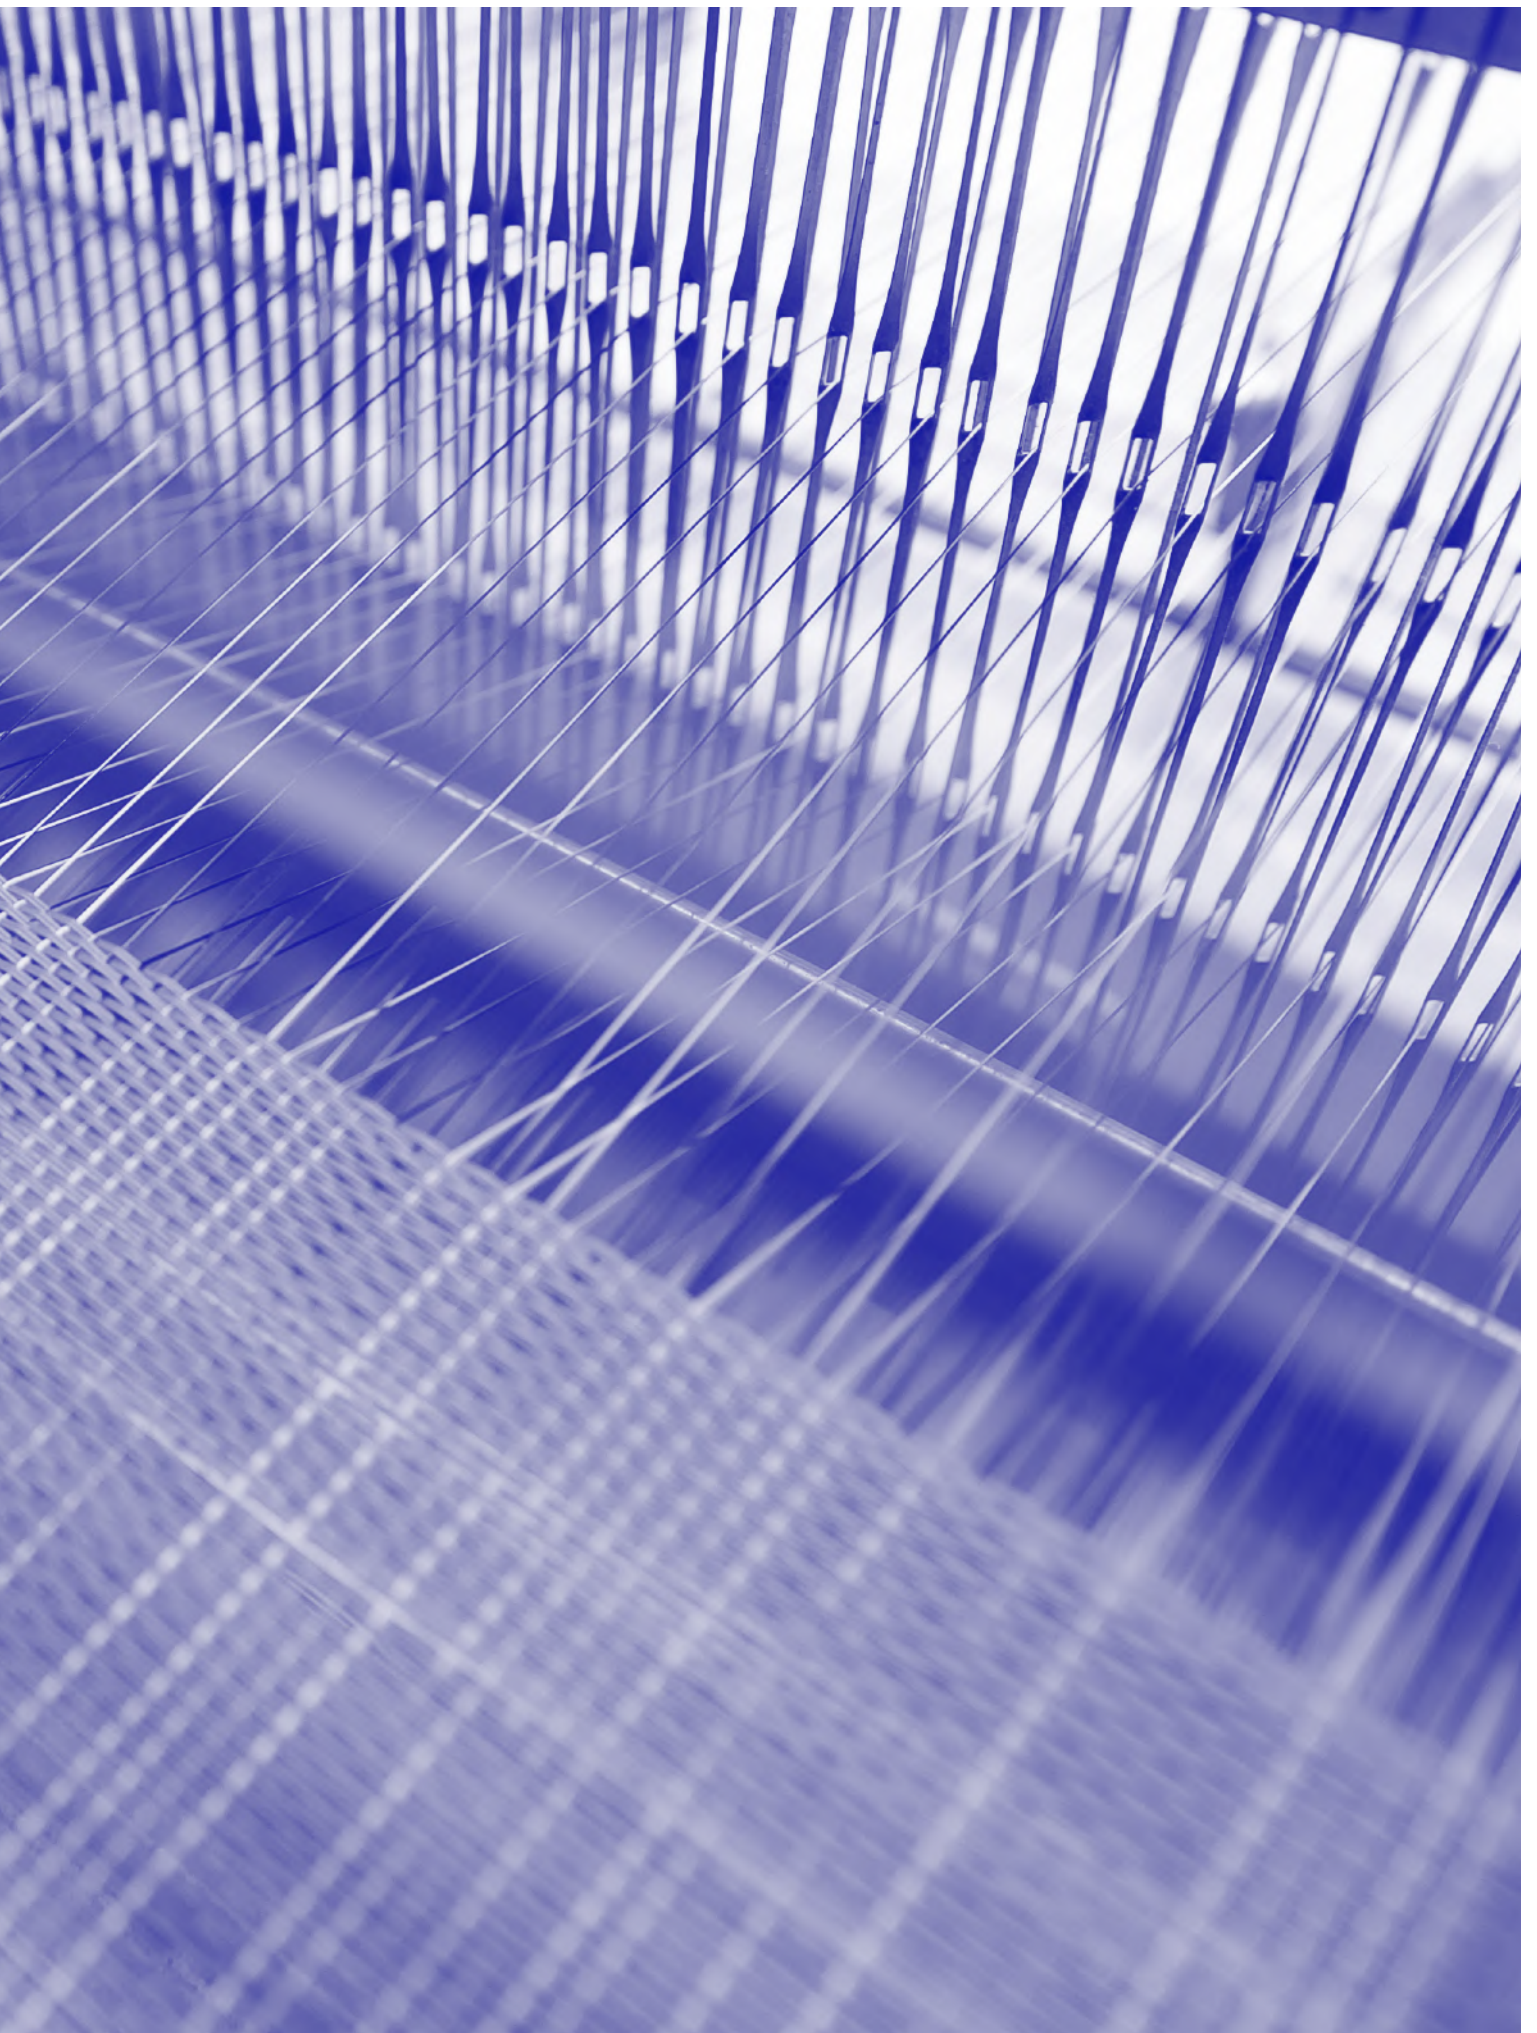

Textile solutions for Architecture

At **vertisol** we design products that help architects and interior designers create healthy, sustainable and beautiful spaces. Solutions that allow their imagination to run wild and project unique and personalized environments.

Soluciones textiles para arquitectura

En **vertisol** diseñamos productos que ayuden a arquitectos e interioristas a crear espacios saludables, sostenibles y hermosos. Soluciones que permitan a su imaginación volar sin límites y conseguir entornos únicos y personalizados.

VERTISOL STUDIO

vertisolstudio is a team of designers with a long experience in the field of technical fabrics. Through our office we create new collections and value the relationship between innovation and design. We also work closely with external designers to turn their ideas into reality by contributing our know-how on materials and processes.

vertisolstudio es un equipo de diseñadores con una larga experiencia en el campo de los tejidos técnicos. A través de nuestro despacho creamos nuevas colecciones y ponemos en valor la relación entre innovación y diseño. Además, colaboramos estrechamente con diseñadores externos para hacer realidad sus ideas aportando nuestro know-how sobre el material y los procesos.

RAW COLOR

The work of RAW COLOR reflects a sophisticated treatment of material and color by mixing the fields of graphic design and photography. This is embodied through research and experiments, building their visual language. Daniela ter Haar & Christoph Brach work on self initiated and commissioned projects in their Eindhoven based studio.

El trabajo de RAW COLOR refleja un sofisticado tratamiento de la materia y el color mezclando los campos del diseño gráfico y la fotografía. Esto se plasma a través de la investigación y la experimentación, construyendo su lenguaje visual. Daniela ter Haar y Christoph Brach trabajan en proyectos propios y por encargo en su estudio de Eindhoven.

MONICA ARMANI

Architect and designer Monica Armani was born in Trento. In her projects, formal aesthetics, innovation and engineering give life to a unique and recognizable style, characterized by a continuous connection between industrial design, architecture and interior decoration: a combination that produces an unexpected use of space, with innovative and specific technical solutions.

La arquitecta y diseñadora Monica Armani nació en Trento. En sus proyectos, la estética formal, la innovación y la ingeniería dan vida a un estilo único y reconocible, caracterizado por una conexión continua entre el diseño industrial, la arquitectura y la decoración de interiores: una combinación que produce un uso inesperado del espacio, con soluciones técnicas innovadoras y específicas.

ODOSDESIGN

Odosdesign is an end-to-end product design agency focused on product design and visual strategy, founded in 2005 and currently led by Ana Segovia and Luis Calabuig, supported by a consolidated creative team. Odosdesign stands out for its multidisciplinary character and for its holistic view of design for companies and institutions.

Odosdesign es una agencia de diseño de producto end-to-end centrada en el diseño de producto y la estrategia visual, fundada en 2005 y dirigida actualmente por Ana Segovia y Luis Calabuig, apoyados por un consolidado equipo creativo, Odosdesign destaca por su carácter multidisciplinar y por su visión integral del diseño para empresas e instituciones.

ANTONYO MAREST

Antonyo Marest, born and raised in Alicante, Spain in 1987, is an international multidisciplinary artist highly influenced by architecture, from which arises his predilection for abstraction and geometry. With references such as the Memphis movement, abstract expressionism or pop, Marest has created his own style based on texture, geometry and linear harmony.

Antonyo Marest, nacido y criado en Alicante, España, en 1987, es un artista multidisciplinar internacional altamente influido por la arquitectura, de donde surge su predilección por la abstracción y la geometría. Con referencias como el movimiento Memphis, el expresionismo abstracto o el pop, Marest ha creado un estilo propio basado en la textura, la geometría y la armonía lineal.

FRANCESC RIFÉ

Interior and industrial designer, Francesc Rifé (Sant Sadurní d'Anoia, 1969) founded his own studio in Barcelona in 1994. Influenced by minimalism and following a familiar tradition linked to craftsmanship, his work focuses on ways of approaching material honesty, spatial order, and geometric proportion.

Interiorista y diseñador industrial, Francesc Rifé (Sant Sadurní d'Anoia, 1969) funda su estudio en Barcelona en 1994. Influenciado por el minimalismo, y marcado por una historia familiar ligada a la artesanía, articula toda su obra en torno al orden espacial y a la proporción geométrica.

A complete made to measure range

Floor and wall coverings, acoustic panels, rugs and a complete collection of fabrics that adapt to each project. At **vertisol** we have transformed our product into a tool for professionals to find the solution they need.

Pavimentos y revestimientos, paneles acústicos, alfombras y una colección de tejidos completa que se adaptan a cada proyecto. En **vertisol** hemos transformado nuestro producto en una herramienta para que los profesionales encuentren la solución que necesitan para cada espacio.

Each of the **vertisol** lines is adapted to its use, with the technical properties necessary to meet the requirements of the space. Walls, floors, fabrics, acoustic panels, each with their respective technical properties but with aesthetic homogeneity, so that they respond to the different coverings of a space.

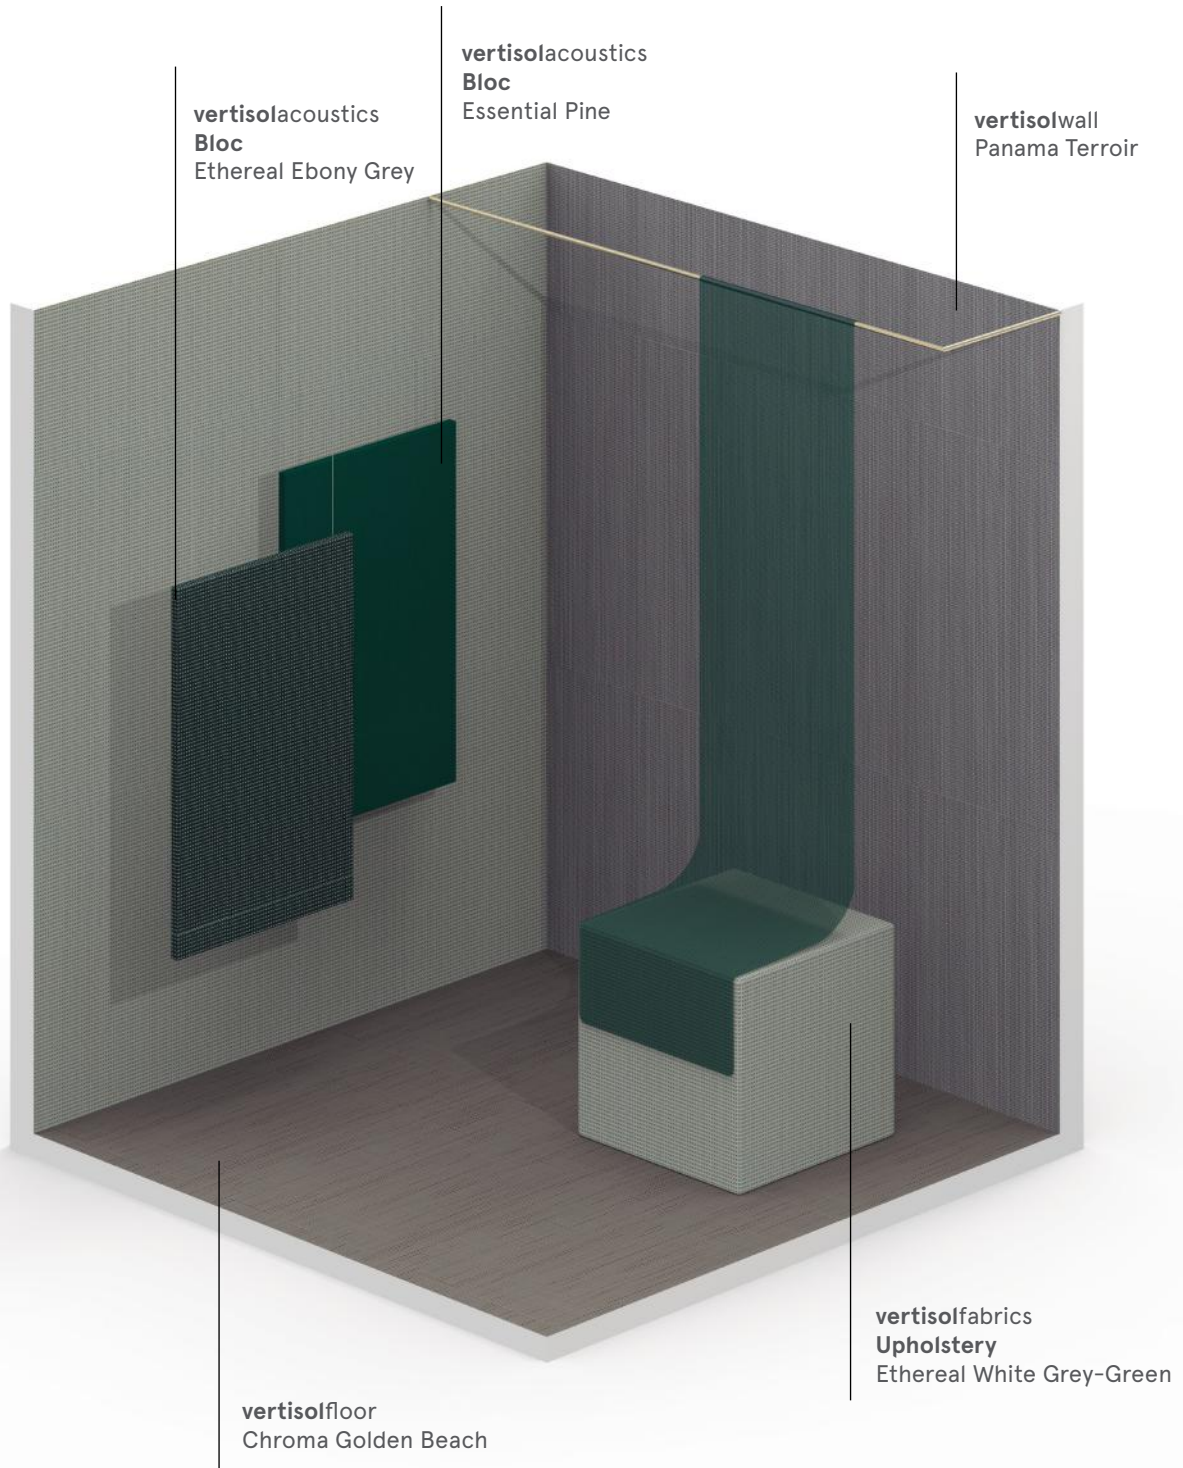

Cada una de las líneas de **vertisol** está adaptada a su uso, con propiedades técnicas necesarias para cumplir los requisitos del espacio. Paredes, suelos, tejidos, paneles acústicos, cada uno de ellos con sus respectivas propiedades técnicas pero con homogeneidad estética, de modo que dan respuesta a los diferentes recubrimientos de un espacio.

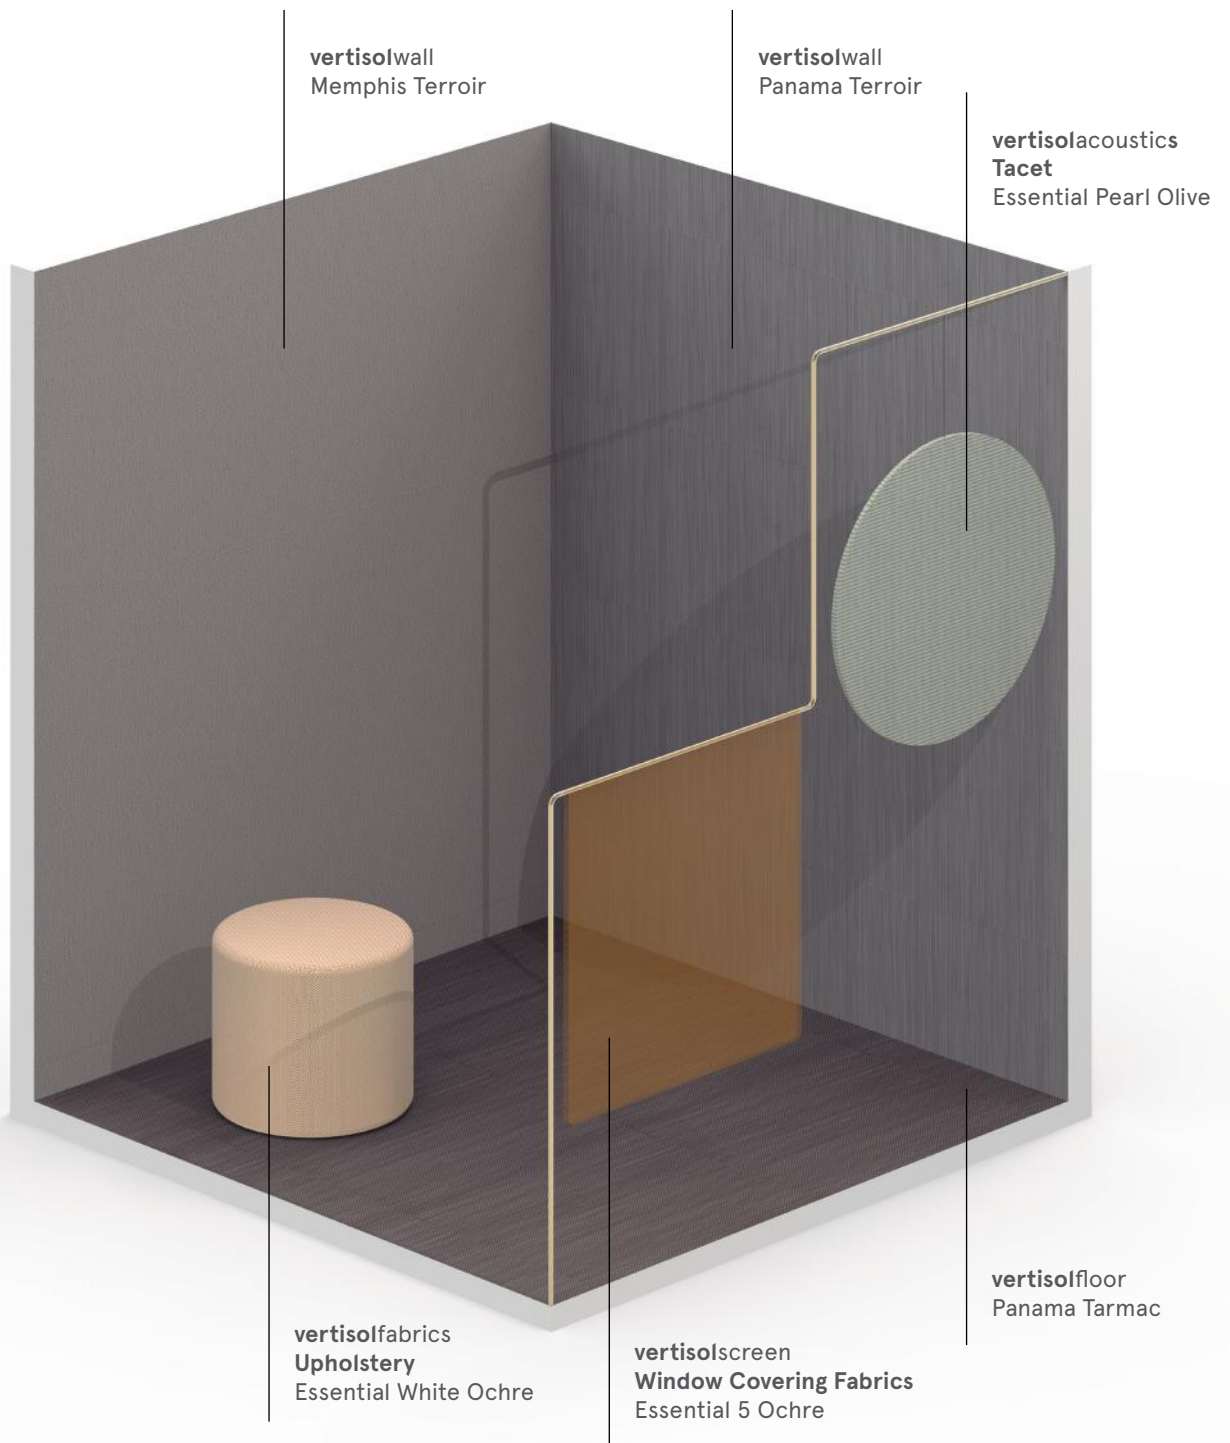

Creating living comfort means providing materials capable of improving the aesthetics, acoustics and accessibility of a space. At **vertisol** we have created a range of products specially designed to cover all the needs of projects, end-to-end.

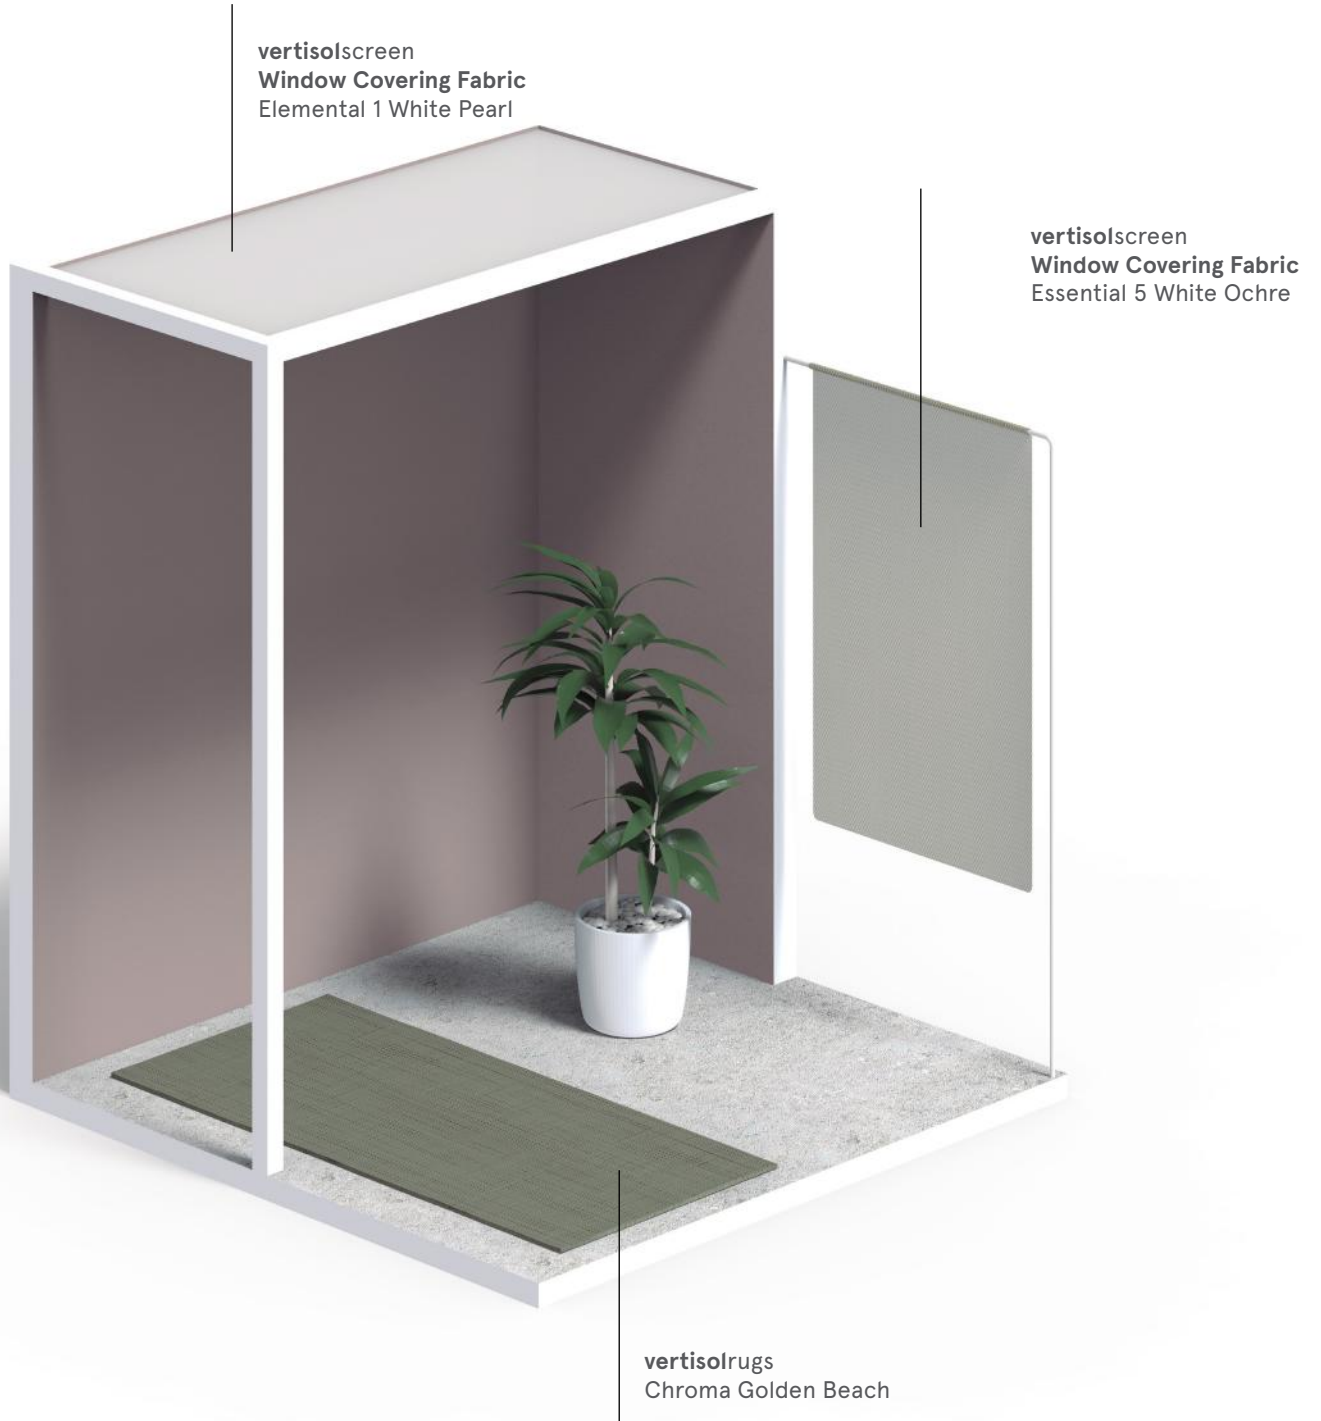

Crear confort vital es proporcionar materiales capaces de mejorar la estética, la acústica y la accesibilidad de un espacio. En **vertisol** hemos creado una gama de productos especialmente pensados para cubrir todas las necesidades de los proyectos, de principio a fin.

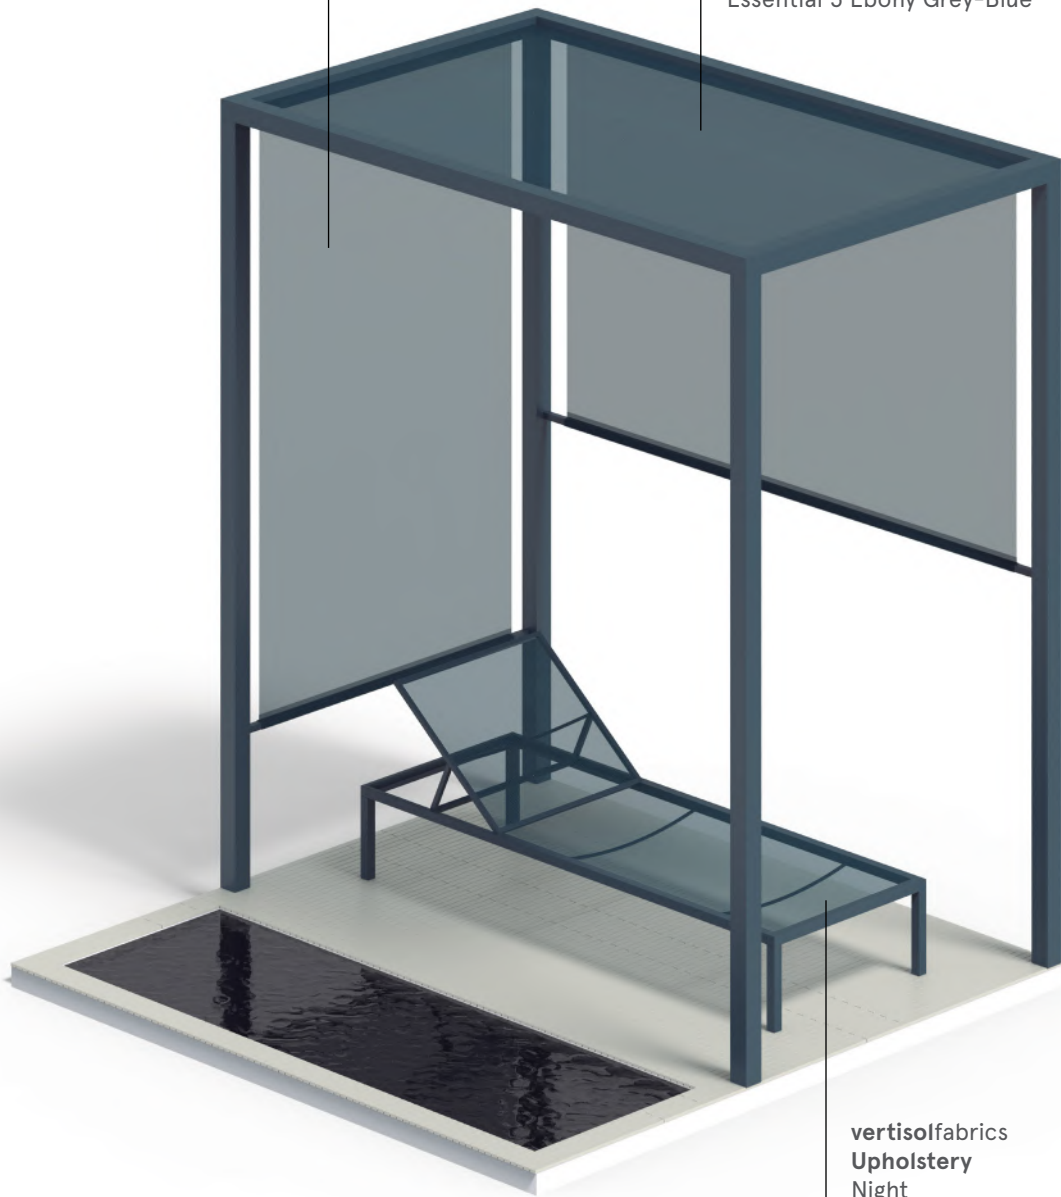

Our products have the highest performance and international certifications to ensure the suitability of each textile for its function. A range of designs specially created for projects that cover all needs: from acoustic panels, walls and floors, curtains, interior and exterior fabrics, etc.

Nuestros productos cuentan con las más altas prestaciones y certificaciones a nivel internacional para asegurar la adecuación de cada recubrimiento a su función. Una gama de diseños especialmente pensada para proyectos que cubren todas las necesidades: desde paneles acústicos, paredes y suelos, cortinas, tejidos de interiores y exterior, etc.

Wicker

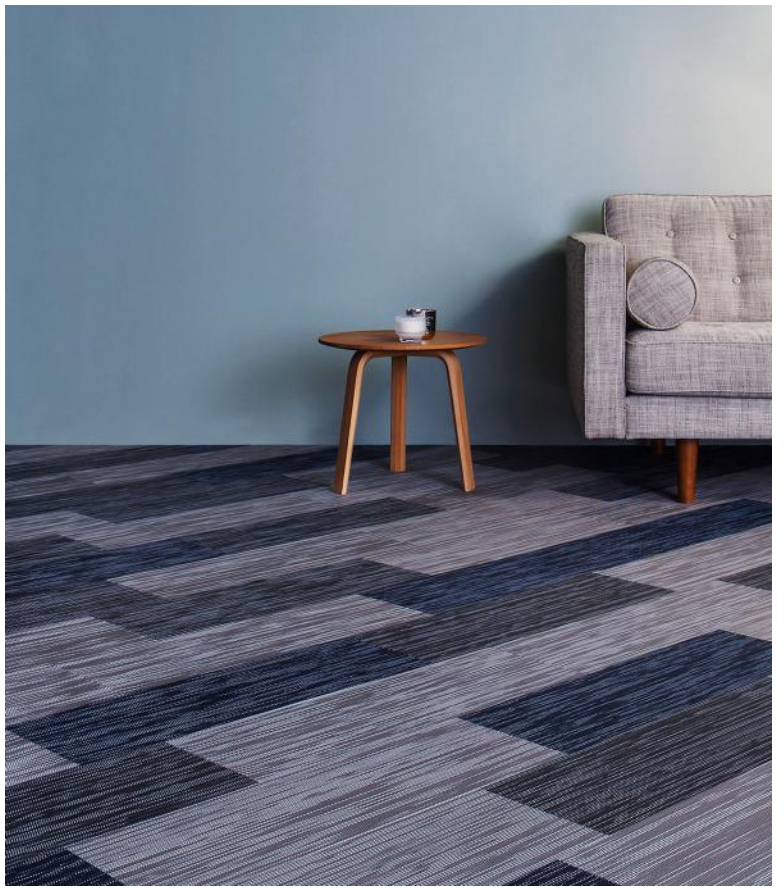

Chroma

Color is the undisputed key feature in this collection. The yarn of the weft is particularly thick, lending great strength and volume to the design.

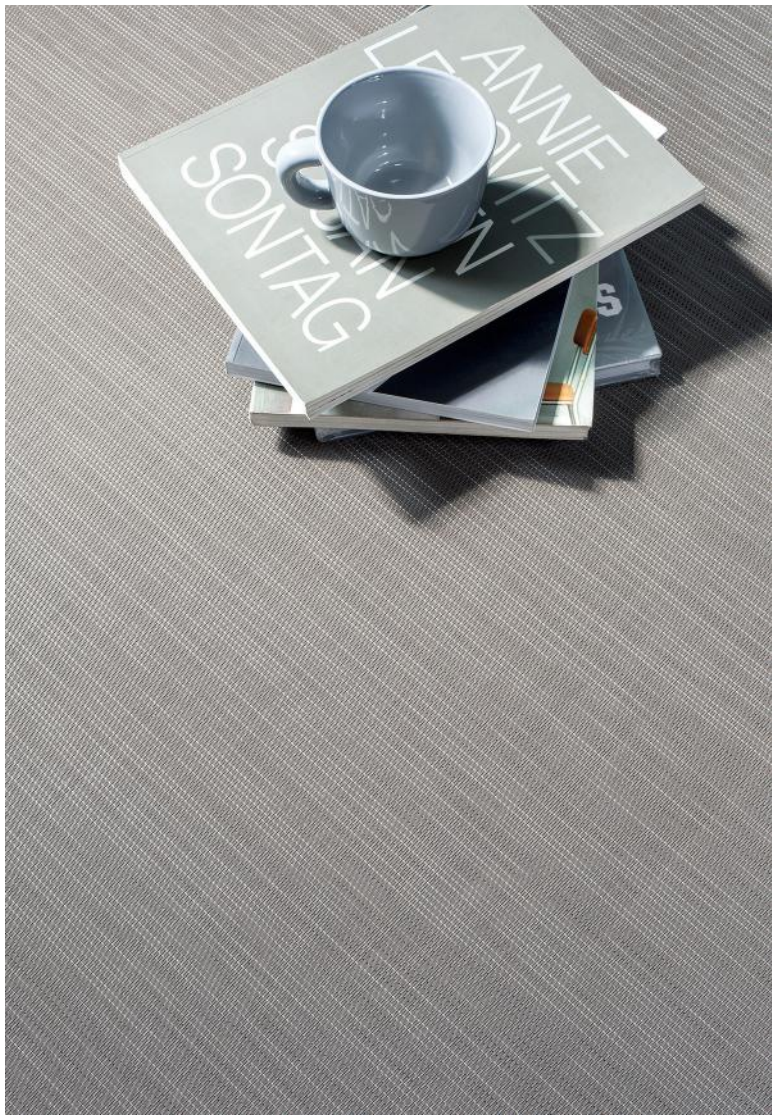

El color es el protagonista indiscutible de esta colección. Los hilos de trama, especialmente gruesos, confieren mucha robustez y gran relieve al diseño del tejido.

vertisolfloor Chroma Bronze + Dark Slate + Golden Beach

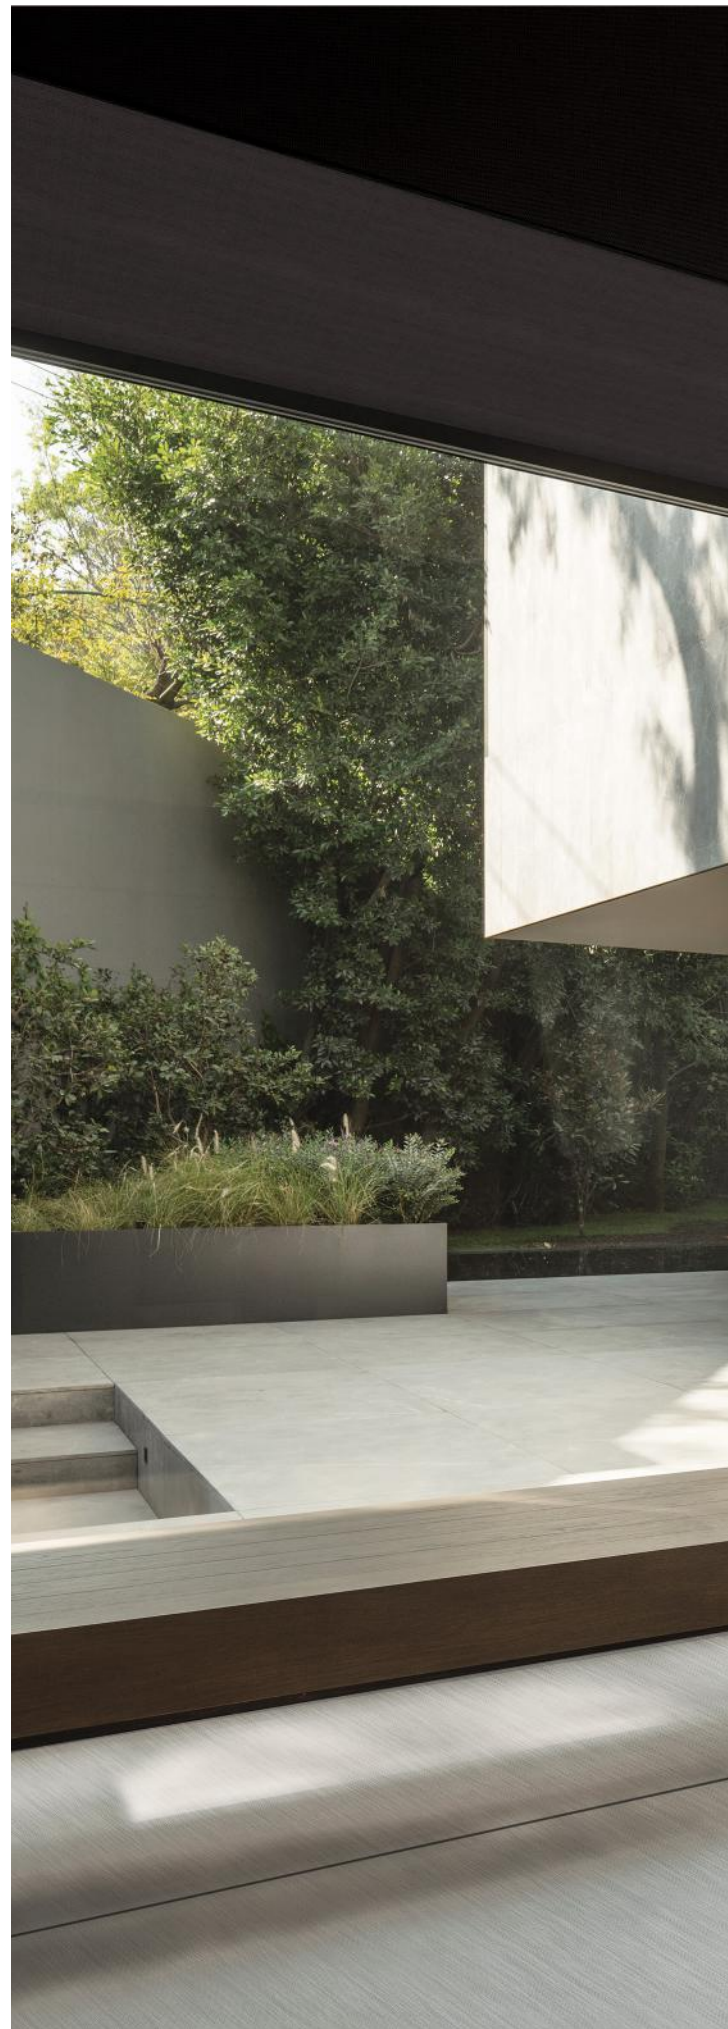

vertisofloor Chroma Macchiato

Pobo

We reinvented tradition to create a new design that combines warmth, design and efficiency. A tool for architects and interior designers to let their imagination run free.

Reinventamos la tradición para crear un nuevo diseño que aúne calidez, diseño y eficacia. Una herramienta para que arquitectos e interioristas hagan volar su imaginación.

vertisolfloor Pobo Tortora

Color Selection by Francesc Rifé

Panama

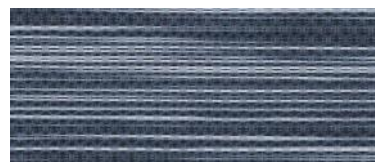

This is the simple, sober and elegant expression of a classic yarn grouping pattern. Those qualities of the floor Panama are transferred to the space where it is projected.

Es la expresión sencilla, sobria y elegante de un patrón clásico de agrupamiento de hilos en tejeduría. Estas características del suelo se transfieren al espacio donde se proyecta.

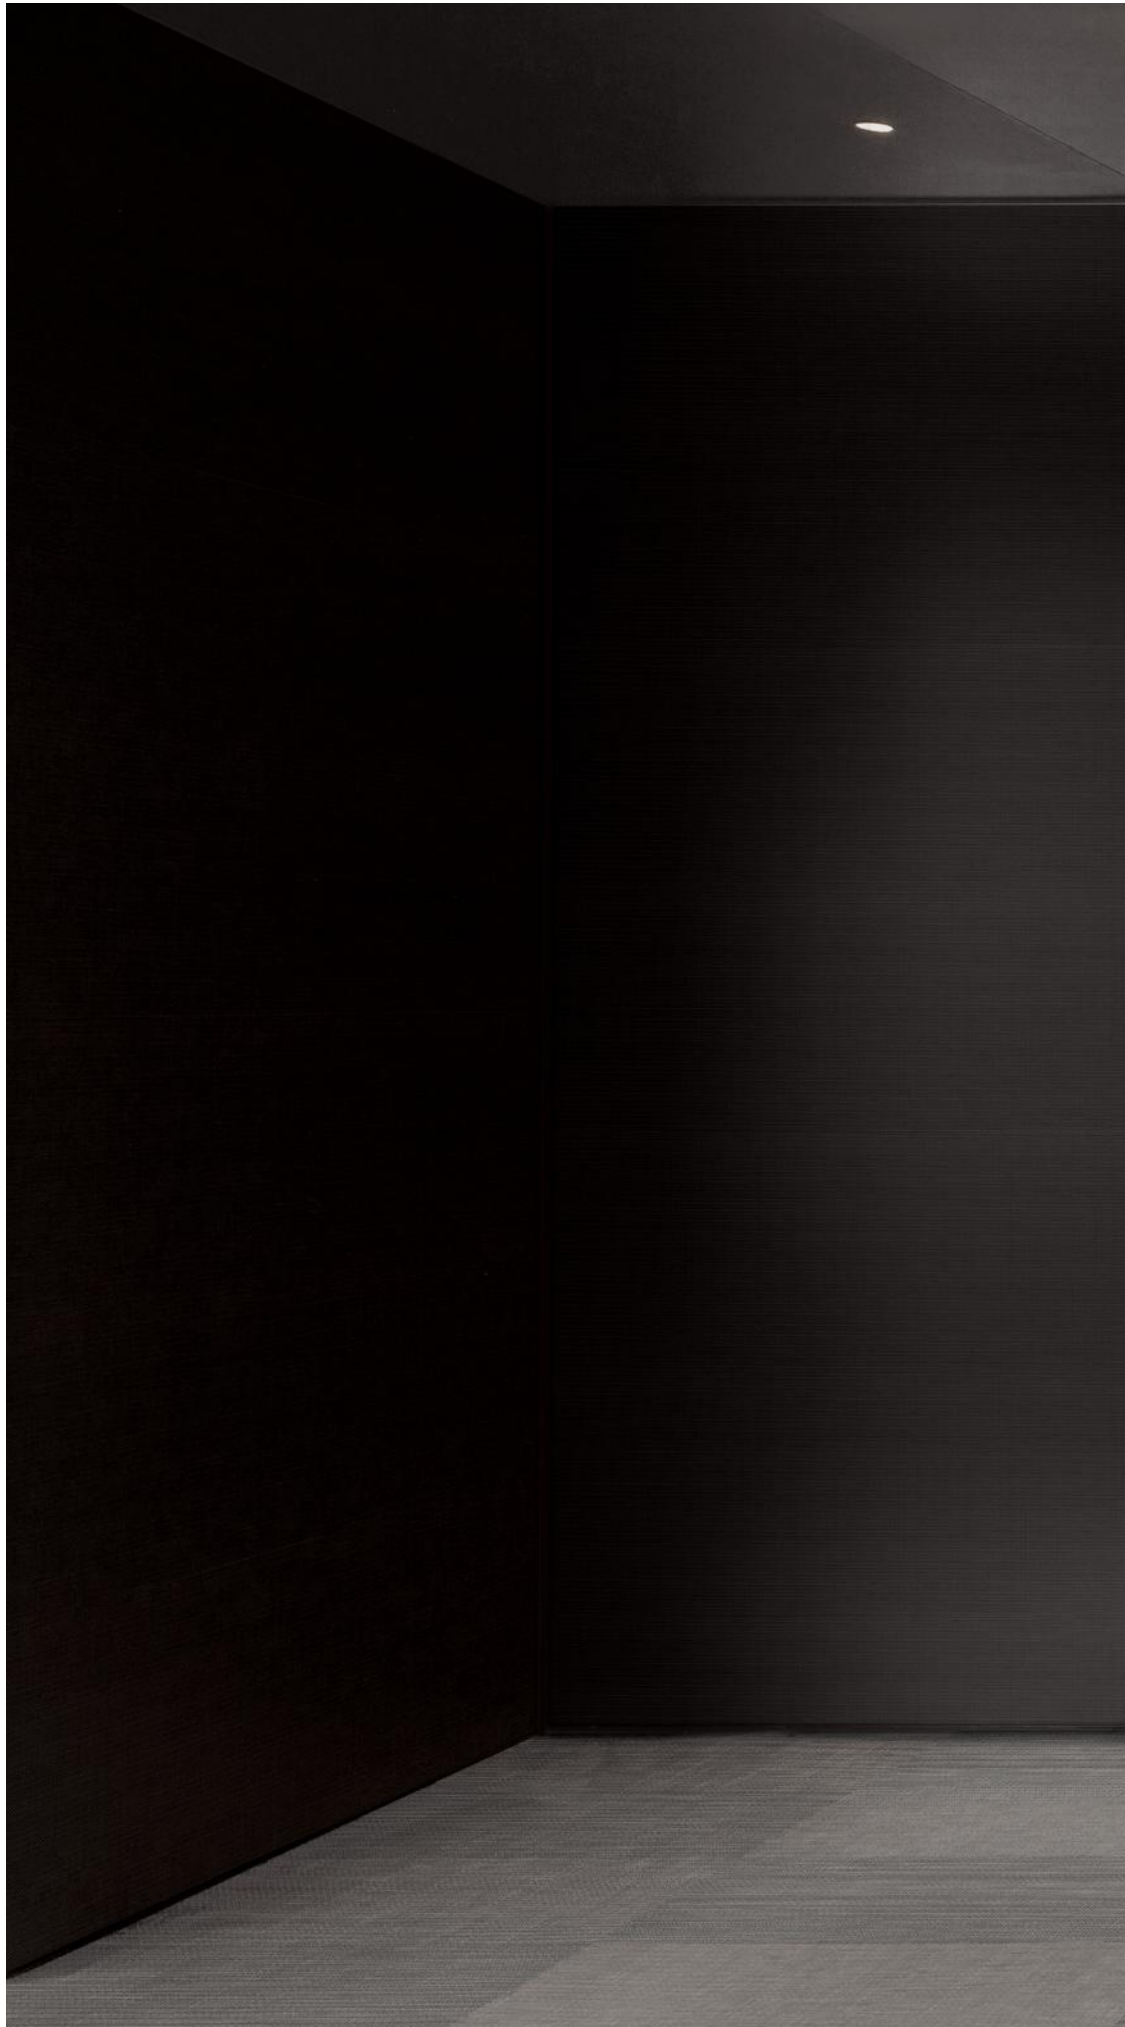

vertisolfloor Panama Tres

Panama

vertisolfloor Panama Tortora

Color Selection by Francesc Rifé

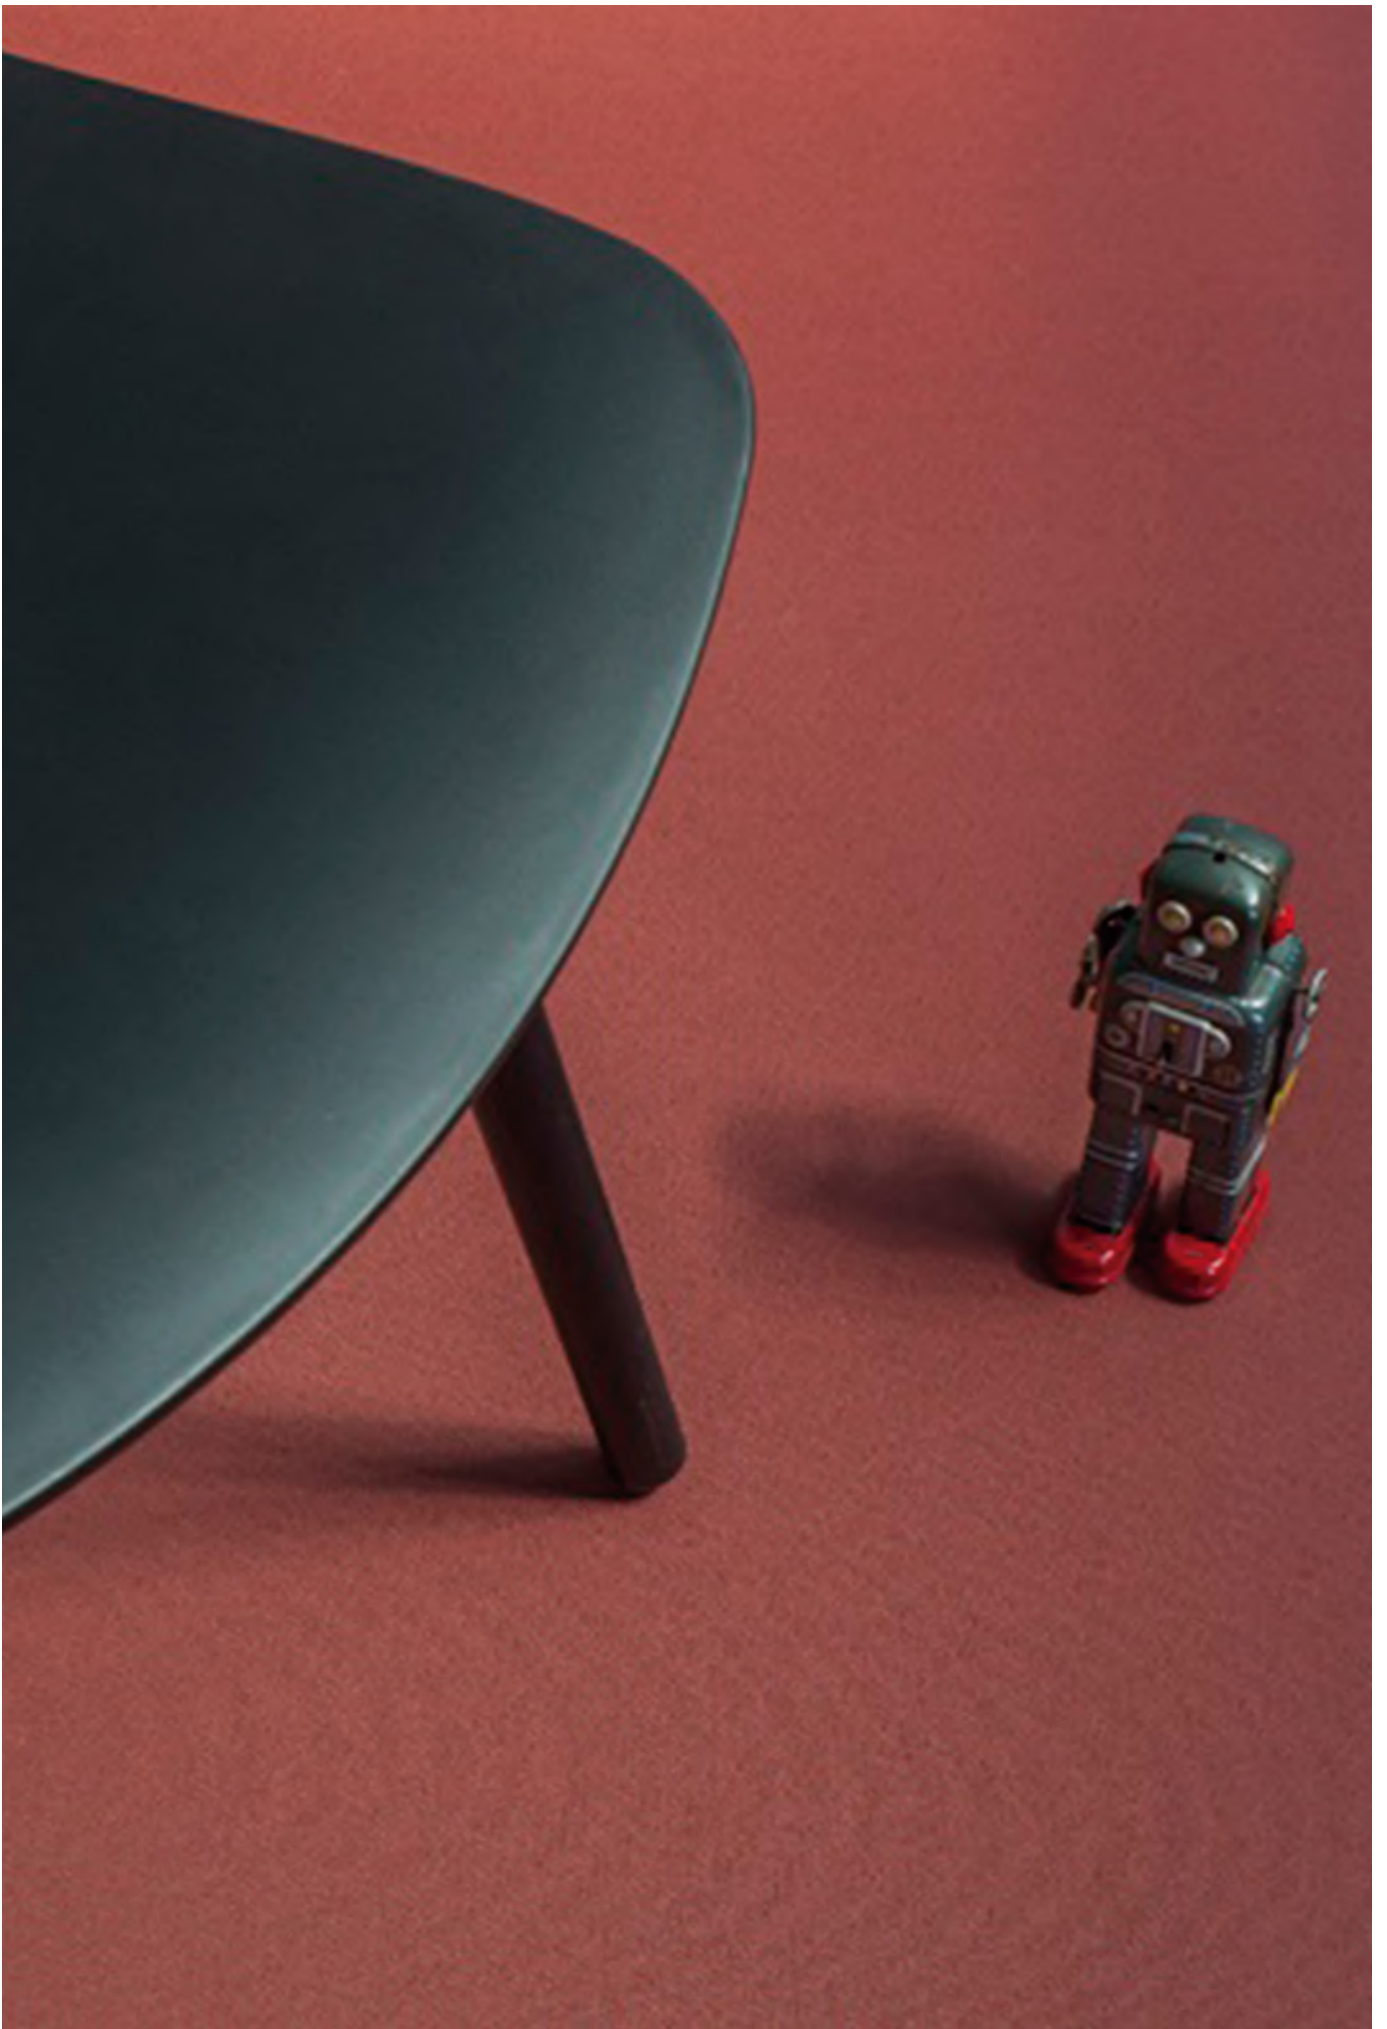

Memphis

This design is inspired by the Italian movement started in the 80s by Ettore Sottsass. A dominating color in the warp gives rise to rich chromatic responses when combined with different wefts.

Su diseño se inspira en el movimiento italiano de los años 80 fundado por Ettore Sottsass. Con un color dominante en la urdimbre se generan ricas respuestas cromáticas al combinarlo con diversas tramas.

vertisolfloor Memphis Carmine

Memphis

vertisolfloor Memphis Custard

Wicker

We learned from artisans to weave the multicolor yarn the same way they weave wicker and other natural fibers to make baskets and hats.

Aprendimos de los artesanos a tejer el hilo multicolor del mismo modo que estos entrelazan el mimbre y otras fibras naturales para confeccionar cestas y sombreros.

Contemporary weavers

Tejedores contemporaneos

Weaving is one of the oldest trades in the world, and throughout history it has played a leading role in mankind's evolution and progress.

New technologies and the development of new weaving tools have allowed us to reach unprecedented goals in recent decades.

Our experience in the trade spans more than 40 years. The goal of our carefully planned combination of yarns in the loom is to assure that the fabric resulting from this process reflects the creativity of our designers, the brilliance of our technicians and the professionalism of the men and women who operate the loom with the same hands and the same care used for cultivating the vineyards where it all began.

El oficio de tejedor es uno de los oficios más antiguos que se recuerdan, habiendo sido protagonista destacado de la evolución y el progreso de la humanidad a lo largo de la historia.

Las nuevas tecnologías y el desarrollo de modernas herramientas de tejeduría, nos han permitido alcanzar objetivos inéditos en las últimas décadas.

Nuestra experiencia de más de 40 años en la profesión mezclando los hilos en el telar de forma programada, tiene como meta conseguir que el tejido resultante de este proceso sea la expresión de la creatividad de nuestros diseñadores, la brillantez de nuestros técnicos y la profesionalidad de las mujeres y hombres que manipulan el telar con las mismas manos y el mismo cuidado que lo hacen al cultivar los viñedos de nuestra tierra de origen.

The yarn our DNA

El hilo nuestro ADN

We know that when the warp and the weft intertwine in the loom, everything starts to make sense. We know that the YARN is the essential component that makes the magic happen when we create our fabrics. That's why we say that the yarn is our DNA, our essence.

We put most of our efforts into making optimal quality yarn that is sustainable and durable, with innovating antibacterial and anti-mite properties. This is the only way our fabrics can achieve the level of excellence required by our clients.

Sabemos que cuando urdimbre y trama se entrelazan en el telar, todo cobra sentido. Sabemos que el HILO es el elemento esencial para hacer posible esta magia al crear nuestros tejidos, por eso decimos que el hilo es nuestro ADN, nuestra esencia.

Dedicamos la mayor parte de nuestros esfuerzos a conseguir hilos de calidad óptima, sostenibles, resistentes y dotados con innovadoras propiedades antibacterianas y antiácaros. Sólo así nuestros tejidos pueden alcanzar la excelencia que nuestros clientes requieren.

We do care

Vertical in-house production,
product manufacturing in Europe.

RESPECTFUL PRODUCT

Our products are thoroughly risk-free. We take care to assure that the raw materials we use to manufacture the yarn meet the strict international standards.

These standards regulate the use of chemicals that may pose a risk to the health of individuals or be a threat to the environment.

INSTALLATION AND MAINTENANCE

We take care to provide all the necessary information to installers and cleaning teams for optimal installation and maintenance.

PROCESS

We make sure that the quality of the different manufacturing processes, which are fully carried out at our facilities, is compatible with what the market demands of our finished product—maximum durability and wear resistance.

PROTECTION

We have a strong commitment to the well-being of our users. That is why we apply specific treatments that lend our fabrics properties such as anti-mite and antibacterial protection, resistance to fire, to weather and light, and they are easy to clean.

Nos preocupamos

Producción vertical en instalaciones propias,
producto diseñado y fabricado en Europa.

UN PRODUCTO RESPETUOSO

Nos preocupamos por asegurar que las materias primas que empleamos para fabricar el hilo cumplan con las estrictas normas internacionales que regulan el uso de productos químicos susceptibles de afectar negativamente a la salud de las personas o que puedan causar deterioro medioambiental.

PROCESO

Nos preocupamos de que la calidad de los distintos procesos de fabricación, que se llevan a cabo íntegramente en nuestras factorías, sea compatible con las exigencias que el mercado reclama a nuestro producto final: máxima longevidad y resistencia al uso.

INSTALACIÓN Y MANTENIMIENTO

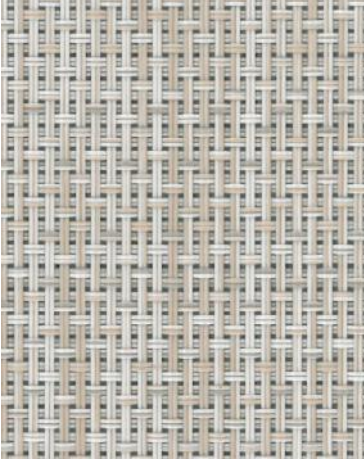

Nos preocupamos de asesorar y proporcionar toda la información necesaria a los instaladores y equipos de limpieza para una óptima colocación y mantenimiento.

PROTECCIÓN

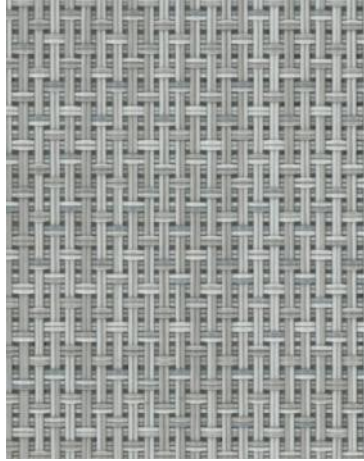

Nos preocupamos por el bienestar de los usuarios. Por eso aplicamos tratamientos específicos que confieren a los tejidos propiedades tales como protección contra ácaros y bacterias, resistencia al fuego, a la intemperie y a la luz y facilidad de limpieza.

Color collection by Francesc Rifé

Playing with the openness of the fabric, its opacity, finishes and color, Francesc Rifé has generated six proposals that talk about color, luminosity and the most sober elegance.

Jugando con la apertura del tejido, su opacidad, acabados y color, Francesc Rifé ha generado seis propuestas que transitan entre el color, la luminosidad y la elegancia más sobria.

Why vertisolacoustics?

1. Panels with acoustic absorption class A
2. Easy to install on walls or suspended from ceilings
3. Very easy to clean, with a cloth dampened with soap and water
4. High resistance to abrasion. Extremely durable product
5. Anti-dust mite
6. Flame retardant
7. Made of recycled materials, and recyclable
8. Get credits in green and sustainable building programs such as LEED
9. Contains no fiberglass
10. Phthalate-free
11. Does not give off odors or volatile organic compounds (VOC)
12. Great variety of colors
13. Fabric on vertisolacoustics panels can be digitally printed
14. Easy to adapt to light switches and electrical sockets
15. Manufactured entirely in the EU

¿Por qué **vertisolacoustics**?

1. Paneles con absorción acústica clase A
2. Fácil de instalar en paredes o suspendido del techo
3. Muy fácil de limpiar, pudiendo hacerlo con un paño húmedo con agua y jabón
4. Alta resistencia a la abrasión y al roce, lo que lo convierte en un producto muy duradero
5. Antiácaros
6. Retardante al fuego
7. Compuesto de materiales reciclados y reciclables
8. Aporta puntos para la obtención de acreditaciones LEED en edificación sostenible
9. No contiene fibra de vidrio
10. Producto libre de ftalatos
11. No desprende olores desagradables ni COV
12. Disponible en una gran variedad de colores
13. El tejido de los paneles **vertisolacoustics** es imprimible
14. Fácil de adaptar en interruptores y enchufes
15. Producto fabricado íntegramente en la UE

Class A

Noise caused by human activities can be a form of pollution, and can cause stress, irritability, fatigue and loss of concentration.

Acoustic protection is essential to guarantee suitable environments for the physical and emotional well-being of people. **vertisolacoustics** panels noticeably contribute to reduce noise pollution, particularly in open spaces with high levels of human activity.

El ruido provocado por la actividad humana es contaminante y puede producir estrés, irritabilidad, aumento de la fatiga y pérdida de concentración.

La protección acústica es una materia esencial para garantizar entornos adecuados para el bienestar físico y emocional de las personas. Los paneles **vertisolacoustics** contribuyen de un modo notable a reducir la contaminación acústica, especialmente en espacios diáfanos asociados generalmente a la actividad pública.

Coefficient of sound absorption / Coeficiente de absorción acústica

Acoustic absorption **vertisolacoustics** curve

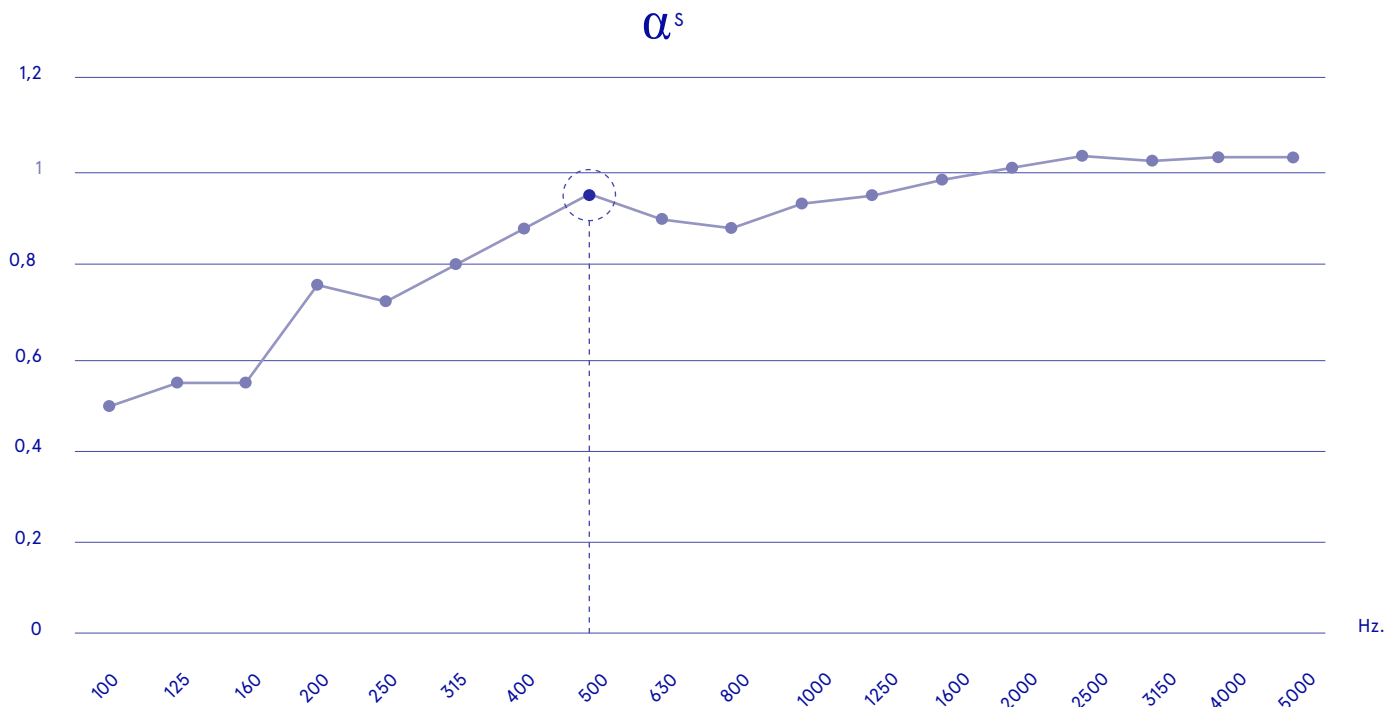

Alpha coefficient (α_w): 0,95 → **Class A**

NRC (Noise Reduction Coefficient): 0,90

Curva de absorción acústica **vertisolacoustics**

Coeficiente alfa (α_w): 0,95 → **Clase A**

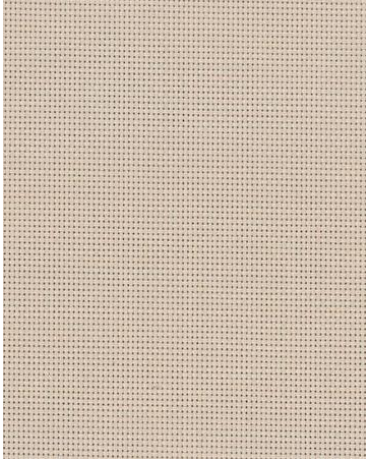

NRC (Coeficiente de Reducción de Ruido): 0,90

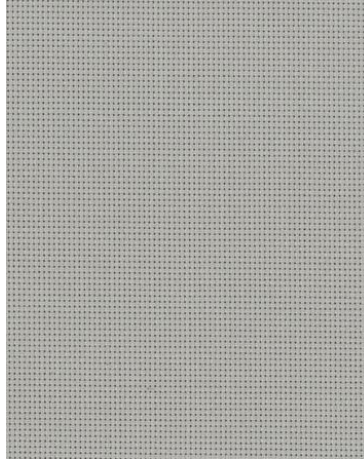

Essential

Essential, from **vertisol**screen collection is the key element of the set of materials that comprise our **vertisol**acoustics panels, helping with their special structure to achieve extraordinary noise attenuation results.

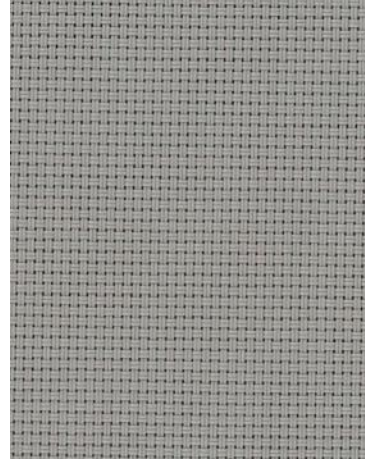

El tejido de la colección **vertisol**screen Essential es el elemento clave del conjunto de materiales que componen nuestros paneles acústicos **vertisol**acoustics, ayudando con su especial estructura a conseguir unos extraordinarios resultados de atenuación del ruido.

vertisolacoustics Bloc by Antonyo Marest

As part of the Antonyo Marest x **vertisol** project, the artist has created a series of canvases for the **vertisolacoustics Bloc**. Influenced by Art Deco, these are abstractions about nature, the radiation of light rays and waves.

Dentro del proyecto Antonyo Marest x **vertisol**, el artista ha creado una serie de lienzos para **vertisolacoustics Bloc**. Influido por el Art Deco, se trata de abstracciones sobre la naturaleza, la radiación de los rayos de luz y las ondas.

Holy Love D120cm

So Ready 120x120cm

Collection

4 designs in an open series in a fixed format in digital printing on **vertisolacoustics** panel:

So Ready - 120x120cm
Above Me - 120x60cm
Pulse - 60x60cm (Pulse)
Holy Love - A circular 120Øcm

They stand out for their origin in the easel painting work developed by Antonyo Marest, which introduces neon strokes and referential elements such as the vase in its dynamics, allegorising functionality in the design.

4 diseños en serie abierta ceñidos a formato fijo e impresión digital sobre panel **vertisolacoustics**:

SoReady - 120x120cm
Above Me - 120x60cm
Pulse - 60x60cm un circular
Holy Love - Circular de 120Øcm

Destacan por su origen en la obra pictórica en caballete desarrollada por Antonyo Marest y que introduce en su dinámica los trazos de neón y elementos referenciales como el jarrón alegorizando la funcionalidad en el diseño.
