About Us:

At Aaryadi International, we believe that sustainability is not just a trend—it's a responsibility. Rooted in nature and driven by purpose, we are proud manufacturers and exporters of premium Areca Palm Leaf Plates and eco-friendly tableware.

Each of our products is crafted from naturally fallen Areca palm leaves, with no chemicals, no plastic, and no harm to the environment. From sourcing to packaging, every step reflects our commitment to quality, sustainability, and social impact.

Whether you're hosting an event, running a green business, or simply choosing better for the planet, Aaryadi International offers you a cleaner, more conscious way to serve.

Leaf to Table

Collection of Fallen Leaves

Naturally shed Areca palm leaves are collected from plantations—no trees are cut or harmed.

Cleaning & Sorting

The leaves are thoroughly washed with water to remove dirt, dust, and debris, then sorted based on quality and size.

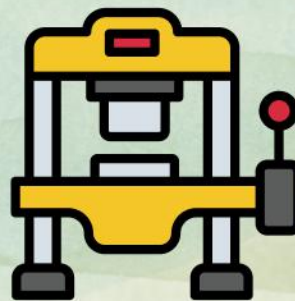

Drying the Leaves

Cleaned leaves are sun-dried to remove excess moisture, ensuring they are ready for pressing.

Heat Pressing & Molding

Dried leaves are placed in steel molds and shaped into plates using a heat press machine. No chemicals or additives are used—only heat and pressure.

Trimming & Finishing

Edges are trimmed for a smooth finish, and each plate is checked for quality, strength, and shape.

Sterilization & Quality Check

Plates undergo hygienic treatment (if required) and are inspected to meet food-grade standards.

Packaging

Plates are packed in eco-friendly packaging, ready for dispatch to homes, stores, and events around the world.
