Signature by Country Range Doughballs

Signature by Country Range Sourdough Style Doughballs give you a premium, light and rustic result, whilst still being easy to use. Use them to elevate your pizzas to the next level, as well as getting creative with anything from doughnuts to pretzels.

Pack Size:

60 x 210g
40 x 270g

Proving

1. Remove your doughballs from the freezer and defrost overnight in the fridge, evenly spaced on a tray.
2. The next morning, only remove what you need for lunchtime service and move them to the warmest part of the kitchen to start the proving process. Allow 3 – 4 hours for this.
3. A properly proved doughball will have increased in size by at least a third and feel firm and springy when pressed, returning to its original shape.
4. An underproved doughball will resemble "PlayDough" with no bounce back at all.

Stretching

1. For best results, use a combination of semolina flour (30%) and white flour (70%).
2. Use a scraper to lift the doughball and place it on your flour dusted surface.
3. Gently press the dough with your fingertips whilst turning it to form the outer rim, being careful not to deflate the doughball.
4. Fix any holes in the base by pinching and pierce any large bubbles with a firm pinch.

Top Tips

1. If you have any unused doughballs, don't waste them! They can stay in the fridge. Just ensure that you use these first in the next service.
2. If you haven't removed the doughballs from the freezer the night before and need some in a hurry, put them on a tray and leave at room temperature for two hours or until just defrosted. Keep them covered at all times and do not put them under any heat sources.
3. Doughballs aren't just for pizza – experiment with different ways to use them for both sweet and savoury dishes. Check out our recipes to get your started!

WALNUT, HONEY & FETA Pinwheels

This recipe is by Conor Nellis, the chef at Hillbrook Grange Care Home. Conor says, "The Signature by Country Range Sourdough Style Doughballs are a cost effective way to provide a quality product while managing cost and efficiency in the kitchen. As a small team providing service throughout the day and into the evening, we need to make the most out of each product in terms of cost and versatility.

The doughballs can be used in a range of dishes: for pizza, dough balls, herby breadsticks and cinnamon rolls.

We were trialling a few menu options for our spring/summer menu and events. These pin wheels were a nice addition for our sharing buffet and garden party menus.

They are simple to prep ahead and are a nice variation from a traditional pizza offering."

Pizza

Choosing the right pizza base is key to creating a memorable pizza menu. Each type offers different textures, flavours, and operational benefits.

Country Range Thin Crust Pizza Bases are ideal for quick service, offering crispiness and consistency. They work well for classic Margherita or pepperoni pizzas, especially in high-volume settings. Just top and bake—no proofing required.

Country Range Deep Pan Pizza Bases deliver a soft, chewy bite and are perfect for hearty, indulgent pizzas with rich toppings like meat feast or BBQ chicken. They're also pre-made, saving prep time while adding variety to your menu.

For a more upscale, premium rustic style, Signature by Country Range Neapolitan Sauced Pizza Bases give you an artisan style pizza. These are great for gourmet toppings like prosciutto, arugula, or truffle oil and elevate the perception of quality.

Making your own dough gives full control over texture and flavour. Standard dough offers flexibility but requires proofing and space. It's ideal for customisable pizzas and creative shapes.

Sourdough-style dough balls add depth with tangy flavour and airy structure. Let them ferment overnight for best results. Hand-stretch for authenticity.

Experiment with par-baking your own bases or brushing crusts with garlic oil for extra flavour. Mixing base types keeps your pizza menu exciting and adaptable.

From pizza bases and grated mozzarella to sauces and toppings - Country Range has everything you need to make your pizza menu stand out from the crowd.
