

SOMERLANNE

GET TO KNOW US

At Somerlane, we believe **flooring is the foundation of every space** not only structurally, but **emotionally**. It sets the tone, defines the atmosphere, and **supports everyday life**.

Our focus is on innovative flooring solutions that **combine design with reliable performance**. We pay close attention to detail, from surface texture and color balance to long-term durability, ensuring every product meets both **aesthetic and functional expectations**.

Driven **by innovation and guided by quality**, Somerlane provides flooring that adapts to modern lifestyles, offering **timeless design**, consistent performance, and confidence in every step.

STAND ON DESIGN

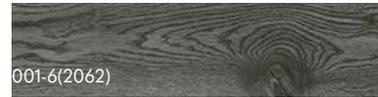

This **SPC flooring** collection brings the natural character of wood into contemporary spaces through **advanced engineering and thoughtful design**.

Each plank is developed to reflect the authentic look and feel of real wood, its **grain, depth, and tonal variation** while offering the strength and stability of a stone-plastic composite core.

The result is a floor that **performs exceptionally** well under daily use, with **excellent resistance to moisture, impact, and wear**. Designed for both **residential and commercial environments**, this collection balances visual elegance with technical reliability.
