## **Product Information**

### **Specifications**

Please refer to our website or catalogue for full product specifications.

### **Assembly**

Products with the prefix \* require some assembly. We offer a Premium White Glove delivery service in the UK, which includes assembly. Please ask your retailer for a quotation.

### **Capri Tray**

You can only use the Capri Clip on Tray (product code - 1CAT) with the Capri Lounger Standard (1CAS).

### **Dimensions**

The product dimensions in our catalogue and website are approximate and we reserve the right to alter them without notice.

### **Fabric codes**

Product codes with the prefix + require you to add a fabric colour code. You can see all our fabrics and codes in our catalogue or website.

### **Furniture Covers**

Covers for Standard Dining Groups are designed to cover the furniture with the chairs around but not underneath the table. Our covers and storage bags are designed to provide maximum weather protection with 'breathability'. Failure to follow storage recommendations may result in the voiding of your warranty.

### **Parasols**

All our Napoli parasols will fold above our standard height dining tables.

### **Dining tables with a parasol hole**

Our standard dining tables with a parasol hole are listed with the prefix P and supplied with fittings to take parasol poles from 40 mm to 70mm diameter. We supply a flush fitting insert in a material to match the top, in order to blank the hole when the table is used without a parasol.

**Important** - The Bermuda Pedestal table 90 Ø (product code - 2BEC09), Bermuda High Dining Table 90 Ø (product code - 2BECH09) and Equinox High Dining Bistro Table 70 Ø (product code - 2EQCH07.T) have a 40mm hole. Our Napoli Parasol 2.8 metre Ø (product code - 4NA28C.302) is our only parasol that you can use with these tables.

### **Rustic Teak**

Our Titan Rustic Teak collection uses teak featuring knots and a varied grain pattern, which we believe is part of its charm and character. Please note that a laminated timber product in an outdoor environment is 'alive' and cracking is normal.

### **Stainless Steel**

Our Equinox, Layout, Luna and Mercury collections feature stainless steel. We use the highest quality, 316 “marine grade” stainless steel to withstand the rigours of an outdoor environment. However, you should undertake regular maintenance using our care product to preserve the fine appearance of your furniture. Cleaning once or twice a year will be adequate in most circumstances but we recommend more frequent cleaning in a coastal environment.

**Important** - Stainless steel furniture in a chlorinated, indoor environment will require frequent cleaning and we therefore do not recommend it.

### **Glenham Tree Seat**

The price shown for the Glenham Circular Tree Seat (product code - 1GLSC) is per half. Two half tree seats are required to complete a seat around a tree.

### **Terms & Conditions**

All orders are subject to our Conditions of Sale, a copy of which is available on request.
