STEP-BY-STEP SET-UP GUIDE

1. SET UP

- a. Remove all items from its original box and insert the mops/cloths on the bottom of the device
- b. Pour in some water using the small bottle included and plug in the power cable
- c. Make sure to also keep the device plugged in while in use and tie the safety rope somewhere near to avoid the device from falling
- d. Afterwards, place the device on a flat surface (e.g., window, floor) and long-press the power button to turn on the device
- e. It will begin cleaning on its own, and you can manage the direction of where it's cleaning using the remote control

Congratulations!

You have successfully set up your very own Smart Window Cleaning Robot.
