THE NEW JAMBETTE FACTORY!

Jambette is starting a new chapter in its history with the inauguration of its **brand new factory!**

Decidedly modern, it embodies Jambette's commitment to innovation. With its cutting-edge technologies and air-conditioned environment guaranteeing both comfort and quality, it redefines production standards. Workspaces have been redesigned to be more efficient and to reduce the company's environmental footprint.

Thanks to this new production line, the company is now ready to more effectively meet the needs of its current customers, while exploring new markets.

With this factory, Jambette is well positioned to keep making the world a brighter place, one day, one play structure, one park at a time.

Stimulating workrooms!

Restructured workspaces

The latest technologies

Bright living spaces

A fun common area

A faster production line

When dreams become reality...

New products

More vibrant than ever, Jambette designs and manufactures a range of new products every year.

Our creative designers envision the future to come up with dazzling ideas that redefine play as a sensory, physical and social experience.

Chico Inicio™

The other one's little brother...
very small, but guaranteed fun!

*The mirrors are located under the climber.

Chico Inicio is the perfect module to develop psychomotricity.

Children will enjoy climbing the structure and getting inside through its large openings in a range of shapes, where they will discover a number of features to enhance their sensory development. Why not complete their experience by sliding down to the ground between huge leaves before starting all over again? An adventure full of laughter and discovery.

Chico Inicio

MODEL	AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
G-23000	18 months to 5 years old	18 children	22' x 20' / 6.7 m x 6.1 m	4' 4" / 1.3 m	2' / 0.6 m

 Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 This logo identifies products that are wheelchair accessible in accordance with Annex H of the CAN/CSA-Z614 standard and the **Americans with Disabilities Act Accessibility Guidelines (ADAAG)**.

FitZone™

Being outdoors and in touch with your surroundings is a great way to recharge your batteries, connect with nature, and enjoy the beauty and tranquility around you.

The FitZone provides a unique opportunity to train outdoors, which can improve your mood, reduce stress and increase your motivation. In addition to strengthening your body, it allows you to enjoy nature and fresh air, boosting your general well-being. Exercising gives you a feeling of wellness and energy, releasing endorphins that bring instant satisfaction and fun.

Model	Age group	Capacity	Dimensions
Z-23000	13-year-olds and over	8	42' x 23' / 13 m x 7 m

- Main structure made of aluminum (lifetime warranty)
- UV treated high-density polyethylene panels (HDPE) (10-year warranty)
- Steel equipment (15-year warranty)
- Stainless steel hardware (lifetime warranty)
- This product requires anchoring in concrete

The Fitzone includes an imposing 66" x 46" sign, detailing the 8 exercise stations with 3 levels of intensity for each. This clear, precise visual guide enables you to optimize each session and adjust your workout according to your goals.

Gira™ spinner

What fun it is to take off with a group of friends on a carousel or a flying saucer!

The Gira spinner from Jambette provides safe and fun play for children of all mobility levels.

The two stylized benches make it easy for up to six children to sit down and use the steering wheel in the centre as a handle to hold on to and to make the spinner turn.

All around fun with
the Gira spinner from Jambette

The platform is made of polyethylene sheets with a non-slip finish.

Solid aluminum and steel structure. The rotational movement is made possible by two industrial-grade bearings: a ball bearing and a roller bearing

Aluminum central mast featuring a comfortable polyethylene handle.

The Gira spinner

MODEL	AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT

 This logo identifies products that are wheelchair accessible in accordance with Annex H of the CAN/CSA-Z614 standard and the **Americans with Disabilities Act Accessibility Guidelines (ADAAG)**.

Amazing benches!

H-22008

The rocking bench

H-22008

Numerous well-known studies confirm that rocking has a positive effect on the brain and the inner ear, which is responsible for balance in humans. Rocking is good for your health! For these reasons, this brand-new rocking bench offers users a moment of pleasant and safe relaxation thanks to its solid, lightweight structure.

H-23006

The curved bench without back

H-23006

Elevate your outdoor space with our contemporary bench. Its elegant, curved design not only adds a touch of style, but it also fosters relaxation and conversation. Its versatility makes it easy to integrate into any public space, offering endless seating options.

The curved bench is sold **individually**. Adapt the space to your needs by combining several benches to create an attractive and functional seating area.

"Tree house" theme

J3-23350-HA

See page 54 for a variant of this model.

For more layout ideas and products from this theme, see pages 49, 64 and 196 of this catalogue.

J3-23346-HA

L-23060-A

At Jambette, we like to bring your layouts to life with enchanting themes.

Today, delve deep into the magical world of the forest with our "tree house" theme.

Picture wheels of foliage, plank ladders, cabin roofs and panels, all adorned with playful nature-inspired details, such as conifer post toppers, squirrel side elements and a cute little beehive.

Each layout can be adapted according to the children's age and the size of your space.

See page 28 for more information on this model.

Protecting ourselves from the sun!

The half-covered sandbox

Children love to express their creativity with sand, such a unique material.

What's more, the roof protects them from the sun on hot days, allowing them to play in complete safety.

The plastic borders make this product virtually maintenance-free, offering a durable and practical solution for all.

Model	Age group	Capacity	Dimensions
C-23000	18 months to 12 years old	16	6' 6" x 12' 2" x 8' 2" / 2 m x 3.8 m x 2.5 m

The covered Kinesis

Some products in our Kinesis outdoor fitness equipment series are now available with a stylish roof, offering protection from the sun for a safe and comfortable workout.

The pixel climber

Discover Jambette's new climber: the "Pixel"! This product offers children a stimulating and fun play experience.

With its geometric shapes and bright colors, the Pixel encourages children to climb, hang and explore, thus promoting their development.

The rope ladder

Introducing our newest product, the rope Ladder, designed to provide exciting climbing adventures for children.

Available in different heights and made from sturdy materials, it's a great option for developing agility and strength while having fun.

The Locomotive

J3-23268-HA

L-23030-A

All aboard!

Embark on a thrilling rail journey with our "locomotive" play module! Your little train conductors will be delighted to operate their own engine, stimulating their imagination and creativity. Whether standalone or combined with a module, the locomotive is the perfect game to set out on unforgettable adventures!

The Locomotive

The spring riders

Jambette expanded its range of spring riders with **brand-new models**. Different shapes and themes are available to suit your play area, as well as a wide selection of colours. Riders are anchored to the ground by a freestanding system, no concrete pouring needed*. Toddlers love these games, which are true playground staples in any layout.

* Concrete-anchored versions are also available.

New CitipleXTM layouts

CX-22007-5B

With CitipleX, give your park a unique touch by choosing a maritime theme, like the one shown opposite.

To complement the CitipleX "lighthouse" environment, add elements like the trawler bow or stern, and spring riders in the shape of a lobster, treasure chest, or seal.

Children will transform into daring sailors and valiant lighthouse keepers! Everything is in place for a maritime epic worthy of Poseidon!

CX-23001-HB

By combining different modules, you can create a true playful city. Offer your visitors a unique and captivating experience with CitipleX.

Delve into the enchanting world of CitipleX, a true small city! The colourful bus winds its way through the bustling streets, the cheerful locomotive whistles around every corner, and the bubbly little market abounds with treasures. There's even a petrol station here, adding a touch of realism. The CitipleX, undisputed star of the park, offers children immersive and fun-filled adventures of the highest level.

J3-24014-HB

Imagine a world where every detail can be adapted to suit your mood, as in this example where the fire station theme comes to life.

See page 53 for more information on this model.

Play Structures 5 to 12 years old

Discover play structures with innovative modular systems made up of various platforms and recreational elements, designed for ages 5 to 12!

Climb, wander and socialize in this playful space that encourages democratic play. With an impressive range of over 400 play elements available, every experience is unique and exciting!

CX-22009-5HB play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	80 children	46' x 36' / 14 m x 11 m	12' / 3.7 m	12' / 3.7 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

J3-22418-HB play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	103 children	56' x 45' / 17.1 m x 13.7 m	11' 2" / 3.4 m	9' 9" / 3 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

— Upper platform heights —

J3-24014-HB play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	61 children	46' x 34' / 14 m x 10.4 m	10' 2" / 3.1 m	7' / 2.1 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

— Upper platform heights —

J3-23350-HA play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	65 children	42' x 39' / 12.8 m x 11.9 m	8' 2" / 2.5 m	5' / 1.5 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

J3-24015-5HA play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	81 children	56' x 45' / 17.1 m x 13.7 m	9' 2" / 2.8 m	6' / 1.8 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

— Upper platform heights —

M-24000-HB play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	112 children	69' x 67' / 21 m x 20.4 m	11' 2" / 3.4 m	8' 4" / 2.5 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

M-23016-HA5B play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	77 children	47' x 40' / 14.3 m x 12.2 m	10' 2" / 3.1 m	8' 4" / 2.5 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

— Upper platform heights —

J3-24017-HA play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	63 children	37' x 33' / 11.3 m x 10.1 m	9' 2" / 2.8 m	9' / 2.7 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

— Upper platform heights —

J3-24019-HA play structure

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	43 children	40' x 24' / 12.2 m x 7.3 m	8' 2" / 2.5 m	5' / 1.5 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

 Details on page 159

Psychomotor Courses

Discover the psychomotor courses designed for active youngsters! With their climbing, jumping, crawling and suspension challenges, they're the ideal play partner for an exciting physical experience.

Unlike their cousins, these courses feature no platforms. Ready to take up the challenge?

Photos are for illustrative purposes only. The physical characteristics of certain components may have evolved over the years and/or may be subject to change.

A world of possibilities

J6 Manta[™] circuits

Discover the J6 Manta circuits! Inspired by the elegance of this mythical animal, this modular climbing system stands out with its oval-shaped frame adorned with a net of cables.

With their "recreational rays", either stacked, side-by-side or separate, the J6 circuits offer unlimited fun in a contemporary design. Let's dive in!

Photos are for illustrative purposes only. The physical characteristics of certain components may have evolved over the years and/or may be subject to change.

J6-22000-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
18 months to 12 years old	65 children	34' x 33' / 10.4 m x 10.1 m	7' / 2.1 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

— Upper platform heights —

J6-23003-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA FALL HEIGHT	ASTM FALL HEIGHT
18 months to 12 years old	26 children	32' x 28' / 9.8 m x 8.5 m	9' 2" / 2.8 m	7' 2" / 2.4 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

J6-22005-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
18 months to 5 years old	35 children	34' x 22' / 10.4 m x 6.7 m	6' 2" / 1.9 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

Plan view

J6-23002-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
5 to 12 years old	84 children	39' x 32' / 11.9 m x 9.8 m	9' 7" / 2.9 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

J6-21003-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
5 to 12 years old	43 children	26' x 22' / 7.9 m x 6.7 m	13' / 4 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

J6-17000-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
18 months to 12 years old	39 children	29' x 27' / 8.8 m x 8.2 m	6' 8" / 2 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

Plan view

J6-17003-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
18 months to 12 years old	39 children	23' x 21' / 7 m x 6.4 m	9' / 2.7 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

Plan view

J6-16004-5B Manta circuit

AGE GROUP	CAPACITY	SURFACE AREA REQUIRED	CSA AND ASTM FALL HEIGHT
18 months to 12 years old	20 children	21' x 17' / 6.4 m x 5.1 m	12' 6" / 3.8 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

A world of possibilities

Nin-Ka™ Parkours

A series of modules to mix and match to create a unique and exciting circuit. Put your skills to the test by navigating the many obstacles while overcoming the challenges along the way.

Get ready to run, jump and grab on to rings, handles and other original course features.

Photos are for illustrative purposes only. The physical characteristics of certain components may have evolved over the years and/or may be subject to change.

AGILITY, SPEED AND FUN!

Put kids' skills to the test with our brand-new Parkour products for children aged 5 to 12.

These products are great for them to run, jump and crawl!

They will have fun grabbing onto the modules using the rings, the handles and the other course components.

The Nin-Ka line of products offers a range of obstacles for maximum fun!

- A series of 19 equipment
- Canadian aluminum, heavy duty steel and stainless steel hardware equipment
- Wide range of colours
- Customize your own playground circuit

The Nin-ka steps

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22000	5 to 12 years old	3	19' x 18' / 5.8 m x 5.5 m	2'4" / 0.7 m

The horizontal overhead handle ladder

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22002	5 to 12 years old	5	23' x 14' / 7 m x 4.3 m	7'9" / 2.4 m

The horizontal ground cable net

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22001	5 to 12 years old	3	21' x 16' / 6.4 m x 4.9 m	1'3" / 0.4 m

The angled overhead cable net

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22003	5 to 12 years old	5	23' x 18' / 5.5 m x 7 m	9'3" / 2.8 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

The climbing wall with cable

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22004	5 to 12 years old	3	15' x 13' / 4.6 m x 4 m	9'1" / 2.8 m

The arch

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22005	5 to 12 years old	8	24' x 23' / 7.3 m x 7 m	8'9" / 2.7 m

The vertical net

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22006	5 to 12 years old	5	23' x 13' / 7 m x 4 m	9'3" / 2.8 m

The horizontal overhead wave ladder (double)

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22007	5 to 12 years old	10	30' x 17' / 9.1 m x 5.2 m	7'1" / 2.2 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

The horizontal overhead wave ladder (up)

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22008	5 to 12 years old	5	21' x 17' / 6.4 m x 5.2 m	6'6" / 2 m

The horizontal overhead wave ladder (down)

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22009	5 to 12 years old	5	21' x 17' / 6.4 m x 5.2 m	7'1" / 2.2 m

The hurdles

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22010	5 to 12 years old	1	17' x 16' / 5.2 m x 4.9 m	1'1" / 0.3 m

The jump bar

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22011	5 to 12 years old	1	18' x 13' / 5.5 m x 4 m	3'0" / 0.9 m

The climbing walls tower

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22012	5 to 12 years old	3	22' x 21' / 6.7 m x 6.4 m	9'3" / 2.8 m

The Nin-ka walls

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22013	5 to 12 years old	2	21' x 19' / 6.4 m x 5.8 m	7'7" / 2.3 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

The balance crossing

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22014	5 to 12 years old	2	22' x 17' / 6.7 m x 5.2 m	7' 7" / 2.3 m

The rotating wheels overhead ladder

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22015	5 to 12 years old	1	22' x 16' / 6.7 m x 4.9 m	8' 8" / 2.7 m

The inclined balance beam

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22016	5 to 12 years old	2	18' x 13' / 5.5 m x 4 m	1' 3" / 0.4 m

The monkey bars

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22017	5 to 12 years old	3	25' x 13' / 7.6 m x 4 m	5' 6" / 1.7 m

The parallel bars

Model	Age group	Capacity	Surface area required	CSA and ASTM fall height
K-22018	5 to 12 years old	2	21' x 16' / 6.4 m x 4.9 m	2' 6" / 0.8 m

! Based on the CAN/CSA-Z614 standard, installation on a cushioning surface and compliance with clearance distances are required.

A world of possibilities

Super Climbers

Sturdy structures that offer a one of a-kind climber experience. Super climbers push the limits of imagination and excitement, allowing children to climb, swing and slide their way through thrilling adventures.

Photos are for illustrative purposes only. The physical characteristics of certain components may have evolved over the years and/or may be subject to change.

Details on page 159

The Volte™ VT-21000-5B

Featuring a unique design, the Volte can be installed on its own on a playground, combined or completed with additional components for extra challenges, or even integrated into a psychomotor module for added exclusive climbing features.

AGE GROUP

5 to 12 years old

CAPACITY

40 children

SURFACE AREA REQUIRED

25' x 24' / 7.6 m x 7.3 m

CSA AND ASTM FALL HEIGHT

13' 4" / 4.1 m

The ERBA™ climbing poles

Designed for ages 5 to 12, these sets of climbing tripod challenge strength, balance and coordination. The grips provide safe support for feet and hands. The structure formed by these asymmetrical aluminum tube arches features a verticality design sure to stand out in your park. The hand grips, which also serve as footrests, are made of ultra-resistant synthetic rubber and are topped with a non-slip texture. **Several layout possibilities.**

G-22000
The Erba diamond 15 posts

G-22001
The Erba rectangular 12 posts

G-22005
The Erba circle 27 posts

New 5/8" (16 mm) diameter cable, made of galvanized steel wires sheathed in black polyester and linked with pressed aluminum joints.

[Buy at jambetteboutik.com](https://www.jambetteboutik.com)

[Details on page 159](#)

The beastie G-21003

This fully metamorphosing insect fits in with its surroundings. Between the six legs of this mysterious animal hangs a bed of cables at an ideal height for smaller children or those with reduced mobility. A real asset for your park!

AGE GROUP

18 months to 5 years old

CAPACITY

8 children

SURFACE AREA REQUIRED

21' x 20' / 6.4 m x 6 m

CSA AND ASTM FALL HEIGHT

6'3" / 1.9 m

New 5/8" (16 mm) diameter cable, made of galvanized steel wires sheathed in black polyester and linked with pressed aluminum joints.

Details on page 159

The creature G-21001

Part insect, part robot, here is Jambette designers' fascinating extraterrestrial bio-creature.

AGE GROUP

5 to 12 years old

CAPACITY

10 children

SURFACE AREA REQUIRED

21' x 20' / 6.4 m x 6.1 m

CSA AND ASTM FALL HEIGHT

6' 11" / 2.1 m

Details on page 159

The bug G-15002

A unique and original look!
This climber provides an intriguing place to hang out with friends.

AGE GROUP

18 months to 12 years old

CAPACITY

8 children

SURFACE AREA REQUIRED

22' x 19' / 6.7 m x 5.8 m

CSA AND ASTM FALL HEIGHT

6' 11" / 2.1 m

The rocket G-12056

A very complete climber with a futuristic look: this climber is perfect to explore Mars and Saturn!

AGE GROUP

5 to 12 years old

CAPACITY

12 children

SURFACE AREA REQUIRED

20' x 19' / 7 m x 5.8 m

CSA AND ASTM FALL HEIGHT

7' / 2.1 m

Details on page 159

The baobab G-13005

Just like its long-lived African counterpart, this majestic tree structure will tower over your park for years, with grace and character.

AGE GROUP

5 to 12 years old

CAPACITY

10 children

SURFACE AREA REQUIRED

25' x 23' / 7.6 m x 7 m

CSA AND ASTM FALL HEIGHT

10' 2" / 3.1 m

[Details on page 159](#)

The express™ M-22119-A5B

Jambette's Express will thrill your aspiring young train conductors and railway workers. A complete climber, it sits up high on a rail with pylons and access gates!

AGE GROUP

5 to 12 years old

CAPACITY

71 children

SURFACE AREA REQUIRED

56' x 41' / 17.1 m x 12.5 m

CSA AND ASTM FALL HEIGHT

11' 2" / 3.4 m

New 5/8" (16 mm) diameter cable, made of galvanized steel wires sheathed in black polyester and linked with pressed aluminum joints.

Details on page 159

The Manta™ J6-19001-5B

Standalone, combined or built into a play structure, this climber is full of options for climbing, hanging and walking on all fours.

AGE GROUP

18 months to 12 years old

CAPACITY

43 children

SURFACE AREA REQUIRED

23' x 28' / 7 m x 8.5 m

CSA AND ASTM FALL HEIGHT

13' / 4 m

My free play™

A world of possibilities

A structure for free play, reminiscent of the creative games children play in nature, like making the traditional tree house! It's the children who create their own product!

Photos are for illustrative purposes only. The physical characteristics of certain components may have evolved over the years and/or may be subject to change.

Pediatricians now recommend "risky play"!

Climbing high, exploring playgrounds with minimal supervision, and trying out activities that may involve mild shocks: these are the key concepts in this freedom-focused approach to unstructured play. But that doesn't mean leaving children unsupervised in dangerous situations!

Jambette's **My free play origin** and **My free play mini** modules have been designed with the principles of free play in mind: plenty of free time, freedom to explore and make decisions, a space where the adult does not interfere, and accessories to stimulate the imagination.

At Jambette, we've been pioneers of free play since 2019, and we fully support this initiative!

▲ Frame delivered in separate parts

◀ Large bolts and nuts

my free playTM original

Get children to create their own world of fun in a safe, supportive setting.

My free play! It's a cabin, a truck, a spaceship... It's anything that children will turn it into with the materials at hand.

Included:

- Frame delivered in separate parts
- Stainless steel assembly hardware
- Plastic containers
- Pails
- Oversized nuts and bolts
- Assortment of polyethylene panels to be assembled in countless ways
- Ropes of various lengths
- Tarp
- Flattened cardboard boxes
- Timber of various lengths

My free play original

MODEL	AGE GROUP	CAPACITY	SIZE
JL-20000 My free play original	18 months to 12 years old	12 children	9' 5" x 9' 5" / 2.9 m x 2.9 m

 This logo identifies products that are wheelchair accessible in accordance with Annex H of the CAN/CSA-Z614 standard and the **Americans with Disabilities Act Accessibility Guidelines (ADAAG)**.

The main structure (the plan)

The parts storage trunk

Brightly coloured bolts

High-density polyethylene (HDPE) parts

High-density polyethylene (HDPE) parts

Various household use materials and recycled objects (tires, ropes, small pieces of lumber, etc.)

my free play mini™

Mini but no less extraordinary!

This smaller version of the original module is adapted for a younger age group: daycare users. The dimensions are ideal for a more limited outdoor space; moreover, the size of the structure and its accessories were designed for the small hands of mini builders.

Included:

- Frame delivered in separate parts
- Stainless steel assembly hardware
- Plastic containers
- Pails
- Oversized nuts and bolts
- Assortment of polyethylene panels to be assembled in countless ways
- Ropes of various lengths
- Tarp (not shown on the picture)
- Flattened cardboard boxes
- Timber of various lengths

A world of possibilities

Inclusive Approach

We believe that public parks should offer a diverse play experience for all skill levels, for young and old alike. With an inclusive approach that encourages creativity and invites free play, we democratize play by making it accessible and open to all.

Photos are for illustrative purposes only. The physical characteristics of certain components may have evolved over the years and/or may be subject to change.

A tool to help you

CAN/CSA-Z614 AND ASTM F1487 STANDARDS

Canadian and American playground standards have been in place for several years now. They include sections and references regarding accessibility for children with mobility impairments. The primary standards are Annex H of CAN/CSA-Z614 and the Americans with Disabilities Act Accessibility Guidelines (ADAAG).

This logo found throughout this catalogue indicates that the products are "accessible" as per these safety standards.

The non-verbal communication board

L-20029

French front, English back

L-21070

English front, Spanish back

NEW L-23026

French front, Spanish back

L-20021

English front-back

L-20028

French front-back

Some children need more structured support to function. Using pictograms helps them organize their activities at the playground. When they feel more comfortable and happier, they can better enjoy their favourite leisure activities. These signs can also be used to facilitate communication between young people who do not speak the same language.

L-20028 French front-back

NEW

The small market **L-23015-A**

Our new small market will have the kids dreaming! Picture them with a basket in hand, picking out the reddest apples or scrumptious vegetables, then preparing a delicious meal to share with friends on a beautiful summer's day. What's more, a "search and find" panel paired with fruits and vegetables on green dots scattered throughout the structure invites them on a scavenger hunt, making the experience even more fun and educational.

The Silla-2™ rocker **L-21078**

Upright spring module, two-seater model

A truly original rocker! The central axle and springs ensure stable movement, so there is no need for ground shock absorbers. The cradle seats of this rocker are designed to support the body, ensuring the safety of users with impaired mobility.

The sensory tunnel

L-22001-A and L-22001-B

Go through the tunnel and discover a world of colours and textures that build handling skills and dexterity, in a calm and secure setting.

A rainbow is printed on the inside of the roofs, adding a touch of magic to the experience.

The gondola

L-21027-5AB

This platform rocks from right to left and provides a stimulating space for children with impaired mobility to socialize.

J3-22253-HB

L-21027-5AB

The accessible wheelchair swing set L-19086

- Being able to swing in your own wheelchair is a unique and amazing experience to enjoy.
- The swinging movement helps to develop the inner ear and one's sense of balance.

The xylophone L-18033-B

- For budding young musicians, this xylophone actually plays the scale notes (C-D-E-F-G-A-B-C). This xylophone is tuned, so it produces harmonious sounds and can be used at a music camp, for instance.

The accessible sand digger* L-15011

- Working the levers to pick up sand with the bucket is a coordination challenge.
- It helps to develop observation and spatial organization.
- Without a built-in seat, this piece of equipment can be used from a wheelchair.

* A model with an integrated seat is also available (L-15010).

The rotomoulded adaptive swing seat S-18000

- It provides a unique experience for young people with impaired mobility.
- The seat is equipped with a safety harness.
- A smaller model is now available for children from 3 to 8 years old (S-24001).

The mobile deck for wheelchair*

- Regular and repetitive swinging has a calming effect on users.
- The experience of rocking in your own wheelchair is a unique and amazing experience to enjoy.
- This type of motion helps to develop the inner ear and one's sense of balance.

* The deck is installed directly on a play structure.

The monkey bar with 2 rings

J2-15008-5B

- A set of overhead rings helps to develop the upper limbs.
- Installed at an appropriate height, this type of equipment allows for wheelchair access.

The reel

J2-15031-5B

- The reeling motion helps develop the upper limbs.
- Installed at an appropriate height, this type of equipment allows for wheelchair access.

The percu-sound* 🎵

L-15046-B

- This musical instrument stimulates hearing skills.
- Playing music helps to develop movement coordination and rhythm.

* A model with Indigenous designs is also available. Ask for L-16018-B.

🎵 The marbles manipulation panel

L-17048-B

- Sets with moving parts entertain and captivate.
- A set of small, moving marbles simulate the movement of fluids and introduce certain laws of physics.

The braille panel

L-18004-B

- The light textures help to develop the sense of touch.
- Learning the writing system used by visually impaired and blind people fosters inclusion.

The three in a row game panel

L-21001-B

- The small parts to handle help to develop dexterity and fine motor skills.

The sign language panel

L-17032-A

- The light textures help to develop the sense of touch.
- Learning the Sign language used by deaf and mute people fosters inclusion.

The painting panel

L-0038

- Creating and fostering creativity are very stimulating and encourage the development of artistic talents.
- Painting helps to develop dexterity and fine motor skills.
- Contact with gouache helps to develop the sense of touch.

The multi-texture sensory panel

L-22048-A

- The light textures help to develop the sense of touch.
- The layout of play panels provides a range of stimuli.

The control panel

L-13012-A

- The small parts to handle help to develop dexterity and fine motor skill.
- Reproducing the dashboard of a vehicle, this panel is sure to stimulate imagination and role-playing.

NEW **The saucer seat**
S-24000

- The large fun saucer swing seat can hold several children at a time, fostering inclusion, interaction with others, and socialization.
- Swing structure not included.
- Several layouts available, please enquire.

S-24000

The hammock
L-16020-B

- Experiencing the swinging motion lends to calm and reverie.
- This type of motion helps to develop the inner ear and one's sense of balance.

The bush single-rider
LA-20001

- With an easy front access, this product is ideal for younger children or children with motor impairments.

The kitchenette
A-18000

- Imitating adults is sure to stimulate the imagination.
- Several children can play together with this product, fostering inclusion, interaction with others and socializing.

The workbench
A-21000

- The Jambette workbench recreates the world of adults with an irresistibly playful and childlike touch! Work surface, saw, vice, tools, level, protractor and clock: everything is there for children to nurture their creativity, imagination and social skills.

The newtonian telescope
L-16001-B

- A telescope inevitably rouses curiosity... Who wouldn't want to take a peek?

The Xyrä-45™
L-20043

- A great addition to any playground, playing with this spinner in a sitting position or kneeling down creates an exciting rotating motion. An experience not to be missed, whether on your own or with friends!

The spinning chair

L-18043 

- The spinning motion stimulates the development of balance and spatial organization.

The rocking nest

L-19079 

- Experiencing the rocking motion helps to develop the inner ear and one's sense of balance.
- Some children need to isolate themselves from their surroundings.

The suspended nest

L-19080 

Ideal for those who need a moment's peace and quiet. The nest's gentle rocking motion has a relaxing effect. What's more, the enveloping shape of its walls forms a soothing cocoon while providing a sense of security. The preformed polyethylene shell is supported by a sturdy steel frame.

LA-20000

The accessible craft table

LA-20000 and LA-22001 

Several children can play together at this craft table, fostering inclusion, interaction with others and socializing.

Clicfix

The climbing wall with movable grips for elementary schools and daycare centres

An introduction to rock climbing helps to develop new skills and different ways of using the arms and legs to climb.

- High-density polyethylene (HDPE) modular panels make it easy to create a climbing wall that fits into the space available.
- Engravings on the panels represent various themes (waves, mountains, nature, etc.).
- 3" thick folding landing mats are available (ask for product S-5002). Raised mats mean that children should not go on the climbing wall to prevent unsupervised use.
- Clicfix climbing grips come in various shapes. They can be repositioned using an anti-theft key for a new challenge every time.

Choose your theme!

THE EQUILIBRA™

It's like a buoy that floats along the waves of the sea. Plenty of fun for young adventurers!

Children are sure to enjoy swaying away on this playground product and socializing, while stimulating the development of their ear vestibular system. Three coil springs developed specifically for Jambette by a major Canadian manufacturer provide the rocking motion of Equilibra. They are anti-pinch for hands and feet.

201

MUSICAL INSTRUMENTS

- Musical instruments with soft sounds
- Developed to be enjoyed in harmony with other playground users
- Simple, maintenance-free mechanisms

The xylophone

Model

L-18033-B

Make the scale ring

For budding young musicians, this xylophone actually plays the scale notes (C-D-E-F-G-A-B-C). This xylophone is tuned, so it produces harmonious sounds and can be used at a music camp, for instance.

The oscilla-sound podium

Model

Surface area required CSA

Surface area required ASTM

G-15005

16' x 16' / 4.9 m x 4.9 m

14' x 14' / 4.3 m x 4.3 m

Dance and listen

The rain stick

Model

L-15045-B

Turn it and listen to the harmonious music

The sound of the river podium

Model

Surface area required CSA

Surface area required ASTM

G-16002

16' x 16' / 4.9 m x 4.9 m

14' x 14' / 4.3 m x 4.3 m

Dance and listen

The drum

Model

L-19085

Use your hands to create a multitude of rhythms

Move to the rhythm of this Indigenous-inspired drum. With this instrument, young and old alike will enjoy expressing their creativity while discovering First Nations traditions.

L-18033-B

Buy at jambetteboutik.com

L-18031

The bongos

Model

L-18031

Use your hands to create a multitude of rhythms

The artists' corner! Young and old alike will enjoy expressing their creativity while learning about percussion with this set of bongos.

The boreal rain stick

Model

L-16017-B

Turn it and listen to the harmonious music

The autochton drum

Model

L-16018-B

Use your hands to create a multitude of rhythms

The piano panel

Model

L-20005-B

Turn the handle to activate the piano

The percus-sound

Model

L-15046-B

Tap lightly with your hands and create "new age" sounds

SOCCKER GOALS AND NETS

- Aluminum frame
- Anchoring system (extra)
- Selection of nets (extra)

The soccer goals*

Model	Dimensions on the ground
J-18003	8' x 5' / 2.4 m x 1.5 m
J-17000	18' x 6' 6" / 5.5 m x 2 m
J-11000	24' x 8' / 7.3 m x 2.4 m

* Anchorings included. Nets not included.

The soccer goal nets (sold in pairs)

Model	Goal model	Type of wire
S-2712	J-18003	0.08" / 2 mm
S-2950	J-17000	0.08" / 2 mm
S-2951	J-11000	0.08" / 2 mm

The toddler sports unit

Model	
J-18004	Designed specifically for tiny tots, the toddler sports unit combines soccer (or hockey) and basketball. Soccer nets and basket ball included.

MULTISPORT AREAS

An entirely new concept created by Jambette's experts with endless possibilities! Soccer, basketball, volleyball, ball hockey... you decide! Choose from a dozen panels featuring games of skill or competition. With this stand-alone playground equipment concept, two spaces of physical activity can be enjoyed: a multisport court or a set of activity panels. For physical education teachers, day camp leaders and in neighborhoods teeming with kids and teens, our MULTISPORTS AREAS are a resolutely contemporary way of engaging today's youth.

multisport area

MU-24002-5B

- 12 activity panels
- 1 soccer goal 8' (2.4 m) wide with polyethylene nets
- 1 ultra-robust basketball hoop

To get this layout, you need to purchase the **MU-24002-5B** model twice.

MU-24005-5B

- 12 activity panels
- 1 soccer goal 12' (3.6 m) wide with polyethylene nets
- 1 ultra-robust basketball hoop

To complete your layout, the following items are also available:

- A - Scoreboard connecting two players' benches (MU-16011-B)
- B - Volleyball net with removable posts (V-211204)
- C - (1) 8' x 5' junior soccer goal (without a net) (J-18003)
- D - 8' x 5' (2 mm) junior soccer goal nets (2 per package) (S-2712)
- Volleyball post storage bracket (S-2919)

To get this layout, you need to purchase the **MU-24005-5B** model twice.

A world of possibilities

Outdoor Fitness Equipment

Discover a way to encourage the health and well-being of your adult clientele. Whether it is in a park, a community space or a business, offer your users an enriching experience that promotes physical activity. Ready to transform your space into an environment that fosters good health?

Single-sided tables for 5 to 12 year olds

Discover our furniture specially designed for children aged 5 to 12. Smaller in size than standard Jambette furniture, it is perfectly suited to outdoor environments, including outdoor classrooms.

Two tables can be set up face to face or side by side, as required. In addition, the table top has one or two clever double notches for hanging backpacks, caps, etc.

- Painted aluminum frames and table tops
- Large selection of colours
- Seats available in high-density polyethylene (HDPE) or high-pressure laminate (HPL)
- Stainless steel hardware

All-around safety

When Jambette products are designed, more than 200 different tests are conducted to optimize safety. At Jambette, safety is more than a duty, it's an attitude.

Openings without any risk of head or body entrapment

Solid foot supports

Adequate hand grips

Hazardous protrusions eliminated

To verify product certification, visit www.ipema.org

To verify product certification, visit www.ipema.org

The International Play Equipment Manufacturers Association (IPEMA) provides a third-party certification to ensure product compliance to specific ASTM and/or CSA standards. Each product promoted in this material, if certified by IPEMA, includes the name and model number for you to search the IPEMA website for verification.

To verify product certification, visit www.ipema.org and conduct a search.

Anchoring system

- Unique, proven stringer system
- The best-suited system for the Canadian climate, with outstanding performance through the freeze and thaw cycle
- Significantly shorter installation time

Hot-dipped galvanized steel

For playground equipment exposed to harsher weather and environmental conditions, Jambette has developed a unique formula: a version of its products designed specifically to withstand the weather and atmospheric conditions that prevail in Canada's coastal regions.

Coastal conditions have been known for a long time to be among the most punishing in the world for man-made structures. Besides the wind, rain, snow and ice, saltwater is the main threat to seaside infrastructure, such as ships, port facilities, buildings and public facilities.

Jambette has developed a design technique and a selection of materials and finishes to optimize product durability in such conditions.

The Seaside Solution is also a cost-effective and feasible solution if you have or plan to install playground equipment in areas with high levels of salt in the air, even in non-coastal areas like along roadways heavily treated with ice-melting abrasives in winter.

Parts, accessories and borders

We have an efficient parts supply service. This means that you can do any maintenance or repairs needed yourself. Since we manufacture our own products, we ensure the quality and availability of our components. Contact one of our experts today!

JAMBETTE PLAYGROUND EQUIPMENT INC. TERMS OF SALE:

Payment terms may vary depending on the situation. Any outstanding balance shall bear interest at the rate of 2% per month (24% per year). Any return of goods must first be approved by our representative. The goods shall be returned within 10 days of approval and in perfect condition. In which case, the customer returning the said goods agrees to pay an administration and handling fee of 20% of the value of the goods. In addition, all the work and charges involved in taking apart the products, restoring the former site and packaging and shipping the said products are at the expense and under the responsibility of the customer. Customized products and installation and landscaping work fees are not refundable. Customers shall produce their invoices upon request. Customers acknowledge that JAMBETTE PLAYGROUND EQUIPMENT INC. shall not be held liable for any circumstances beyond its control and that its liability shall be limited to the price paid by the customers for the goods in question. The parties agree that this agreement shall be interpreted under the laws of the Province of Québec and the parties elect domicile in the judicial district of Québec, Province of Québec, Canada. Should an account need to be referred to a collection agency or a lawyer due to a customer's failure to pay, the customer agrees to pay, in addition to the balance due, collection fees equivalent to twenty percent (20%) of the balance due in capital and interest.

* Warranty details and terms are available upon request. ** Regressively

The International Play Equipment Manufacturers Association (IPEMA) provides third-party
certification to ensure public play equipment and surfacing material product compliance
with specific ASTM and/or CSA standards. Each product promoted in this flyer, if certified
by IPEMA, includes the name and model number for you to search the IPEMA website for
verification purposes.

To verify product certification, visit www.ipema.org and conduct a search.
