Vatech Wishes You a Bright New Year 2026

May the coming year be filled with new possibilities, brighter smiles, and endless success. Thank you for trusting Vatech as your partner in advanced dental imaging. As you step into 2026, Vatech will be **always on your side**—supporting your growth, empowering your practice, and delivering innovations that make a difference every day.

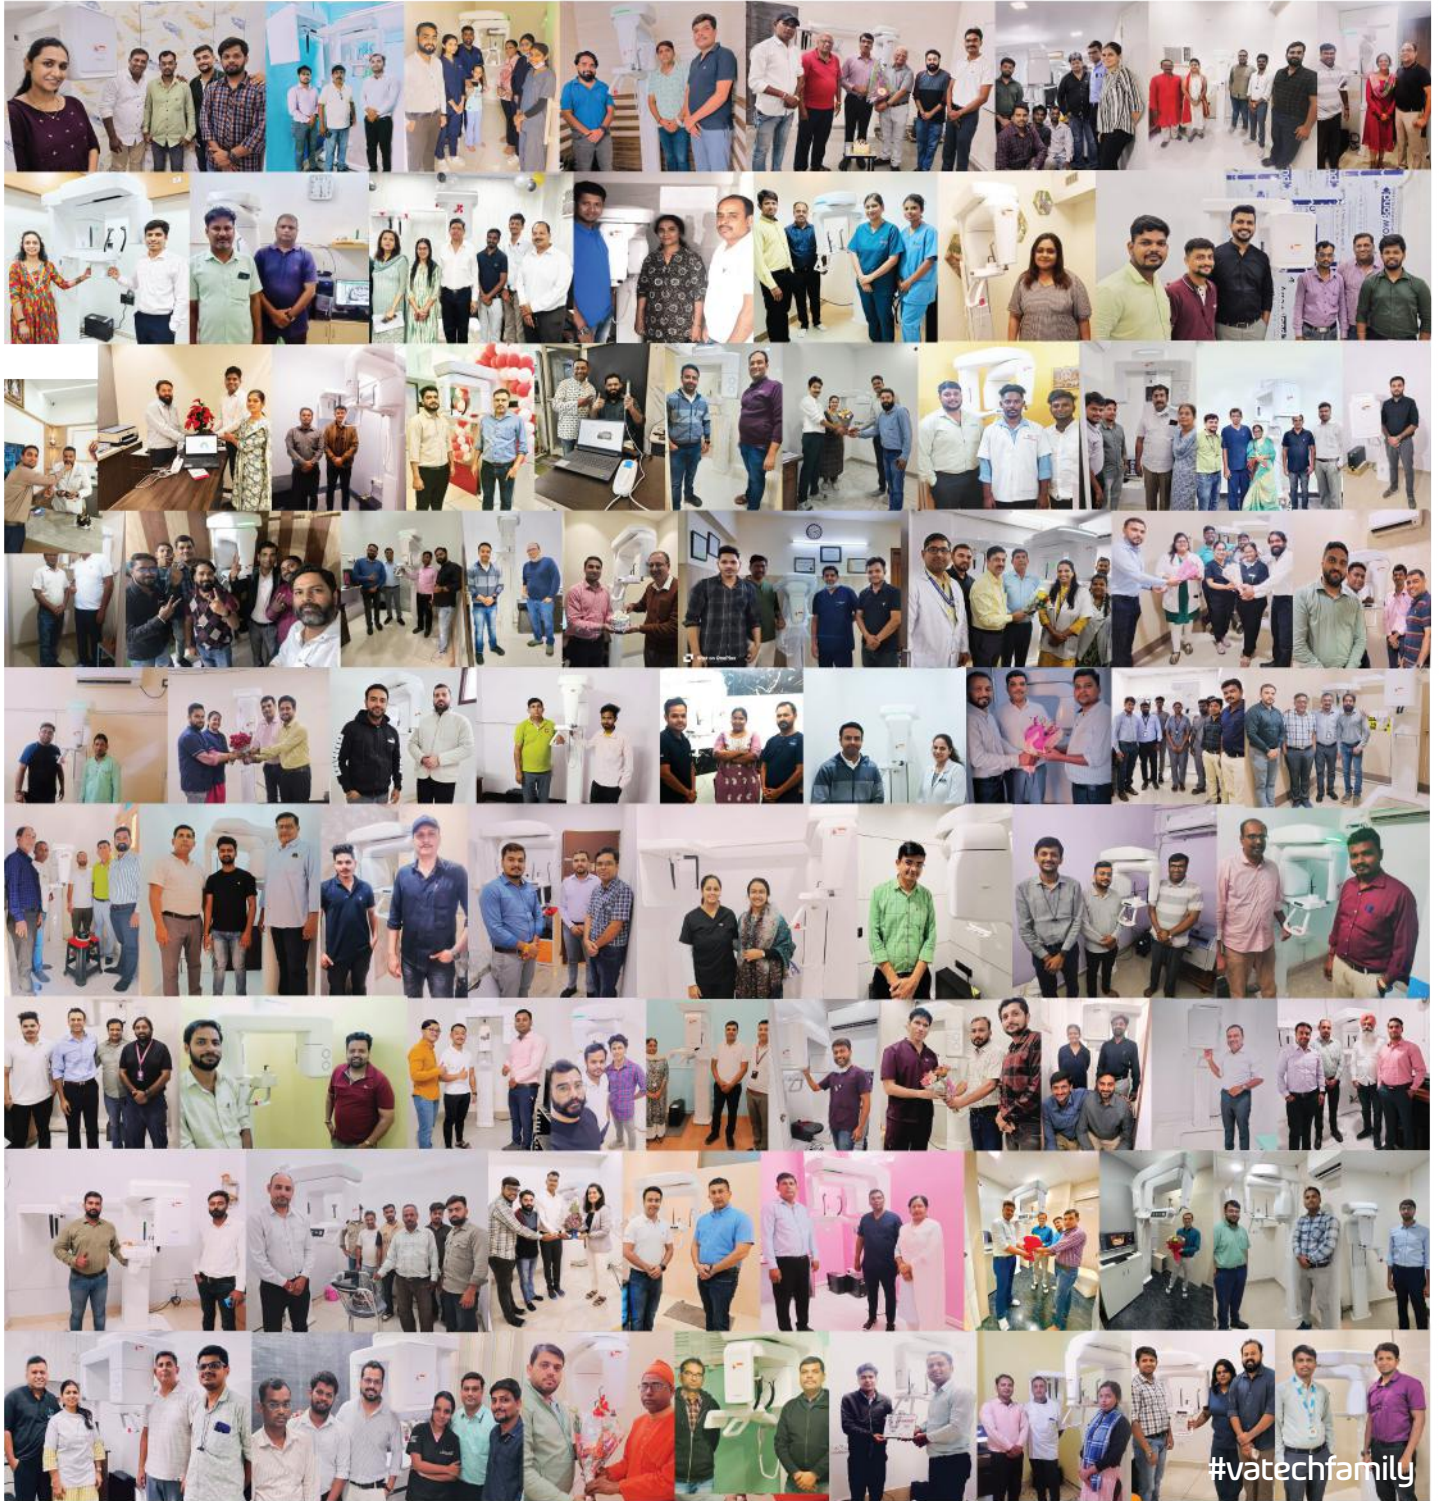

Wishing you a year of prosperity, good health,
& remarkable achievements.

CHEERS TO A BRIGHTER

2026

Welcome to the Vatech family

Thank You for Trusting & Choosing Us!

India's Largest Installation Base

Did You Attend **Expodent Delhi 2025** & Explore **Vatech**?

Here are some glimpses of Expodent 2025.
Together, we look forward to shaping the future of dental imaging

Pragati Maidan, New Delhi
26th - 28th December 2025

[Click here to see the video](#)

Using Vatech in Your Practice? We'd Love to Hear Your Story

Expodent Delhi 2025 brought us an overwhelming response, with doctors expressing strong appreciation for Vatech's products and services. Their positive feedback reinforced the trust and value Vatech holds in the dental community.

26th - 28th December 2025

This year marks the biggest collaboration between two leading Korean brands. Vatech CBCT purchase comes with a Samsung smartphone. Limited time only.

This year's Vatech expo booth features a sleek, minimal design with a premium feel, representing simplicity, elegance, and the ease of use behind our advanced imaging technology.

More events coming soon.
We look forward to seeing you!

Are You Making the Most of 2D/3D Imaging & Digital Tools?

At Vatech, we empower dentists with advanced imaging and digital solutions, backed by hands-on training.

09. 11. 25

What are the **Correct Cleaning Procedures** for the **A9** or any **Vatech CBCT System**?

Components	Cleaning Process
<p>Bite (Normal Bite, Special Bite A, and Special Bite B)</p> 	<p>Clean with a non-alcohol-based, non-corrosive cleaning solution and gently wipe with a dry towel before the next patient. Do not spray anything directly on the machine surface.</p>
<p>Chinrest</p> 	<p>Clean with a non-alcohol-based, non-corrosive cleaning solution and gently wipe with a dry towel before the next patient. Do not spray anything directly on the machine surface.</p>
<p>Computer and peripherals</p>	<p>Follow the manufacturers' instructions found in the accompanying manuals.</p>
<p>Outer covers of equipment</p>	<p>Wipe the unit with a dry cloth at the end of each day.</p>

- Do not use spray cleaners or solvents, as they could flow into the equipment and damage the electrical components or cause a fire.
- Do not use any cleaning products which contain silicon. They could potentially damage the equipment's electrical components
