

Building Smarter, Safer, More Reliable Electrical Infrastructure, Together.

Improve the Bottom Line, Increase Productivity, and Advance Tomorrow

Operational Excellence

Our regional distribution centers and fleet of GPS-tracked trucks ensure that materials are delivered when and where you need them. On-site logistics and materials management reduce the risk of excess inventory and product site theft.

Superior Product Selection

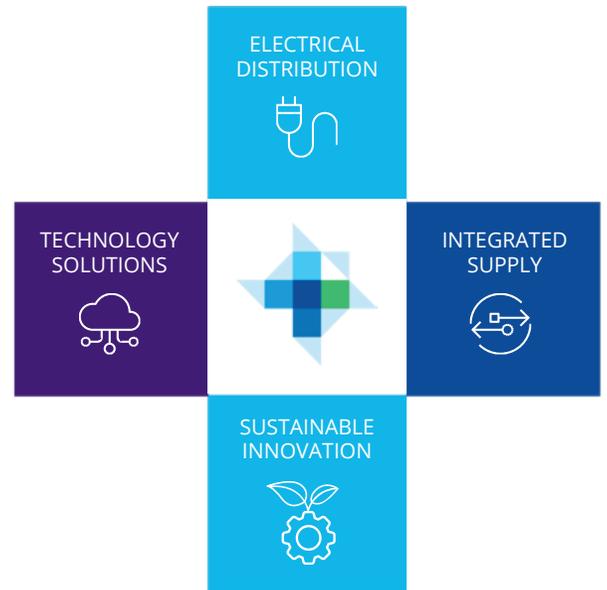

Our 100-year manufacturer relationships provide a wide selection of high-quality products and competitive prices.

Dedicated Expertise & Support

Our Power Distribution & Automation Solutions (PD&AS) experts keep you up to date on the latest trends, technology, and compliance regulations.

Silver Ecovadis Rating
for Sustainability

Our team of experts offer a **comprehensive range of solutions** to ensure your project meets your deadlines and your design specs.

- Design Assistance
- Value Engineering
- Project Management
- Start Up and Commissioning
- Supply Chain Management
- Cyber Security

Smart, Sustainable Solutions that Drive Value, Efficiency and Effectiveness

Our expert team is dedicated to helping you enhance your Power & Utility operations through:

Backup, Redundancy & Resiliency Solutions:
Comprehensive solutions to ensure continuous operations and protection against power disruption and data loss.

Safe & Efficient Switchgear Solutions:
Ensure control and protection of electrical power systems through technical project management, drawing submittals, and post-delivery start-up services management.

Lighting Energy Efficiency & Effectiveness:
Customize lighting solutions to reduce energy costs, improve workplace conditions, and ensure compliance with local regulations.

Battery Energy Storage:
Enhance power reliability and system resilience with Advanced Battery Energy Storage Systems (BESS), including Lithium Ion and Hydrogen options, to bolster operational continuity and resilience against power interruptions.

Renewable Energy Optimization & Maximization:
Integration of solar energy and EV Charging solutions to enhance energy independence.

Our Related Offerings

Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction, voltage sags correction, and automatic transfer switches

Components for Electrical & Mechanical Subsystems

Variable frequency drives, soft starters, and PLCs

Facility Power Distribution

Busway/Bus Duct, transformers, medium and low voltage switchgear, MCC

Facility/Power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

SCADA Systems

Power Distribution & Controls Packaging

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

Racks & Enclosures

IT equipment racks, enclosures and colocation cages

Wire & Cable Management

Cable tray and modular wiring systems

Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls

Generators & Paralleling Switchgear

Cybersecurity Solutions
