

# FURNITURE 505

# **WELCOME**

Introducing the Ambic furniture catalogue, a portfolio of our most popular products.

Welcome to our comprehensive Furniture Catalogue, where quality, functionality, and design come together to create inspiring educational and office spaces. Within these pages, you'll find a wide selection of furniture solutions tailored to support productivity, collaboration, and comfort. While this catalogue showcases an extensive range of options, we understand that

# @ambicmanufacturing.com

# WHO ARE AMBIC?

Ambic Manufacturing are furniture manufacturers for a broad range of needs including hospitality, educational, laboratory, residential and corporate sectors throughout the UK.

We work extensively with individuals, designers, contractors, architects and other businesses to provide furniture design, manufacture and installation. We can make just about anything to your exact specification at our purpose built, state of the art factory in County Durham.

We are also FF&E procurement specialists so if we can't make it, then we will have a partner who can.

Our in-house manfacturing capability is such that we have dedicated departments for:

- wood machining
- polishing
- welding
- sandblasting
- · sheet metalwork
- powder coating & painting
- solid grade laminate fabrication (Trespa®)
- plastics fabrication (Perspex, Polyethylene, PVC)
- vinyl cutting
- · our own assembly, delivery and installation teams

This means that while this catalogue shows our most popular standard products, all of our furniture is made to order and can be customised to suit our customers' specific needs.

### Come and Visit us!

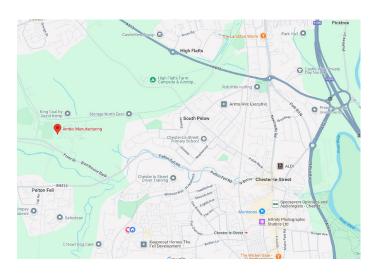

We are situated in Chester-le-Street, County Durham just off the A1(M) and our state-of-the-art factory is well worth a look if you are interested in an ongoing business partnership for the manufacture and supply of the very best quality British-made furniture. Our in-house showroom will be a new addition for 2025 so you can see some of our work up close and personal.

Please call or email us to arrange your personal guided visit.

Tel: 0191 389 1888

Email: sales@ambicmanufacturing.com
Address: House of Ambic, Stella Gill Industrial Estate,

Pelton Fell, Chester-le-Street, County Durham , DH2 2RN

# HOW DO WE HELP OUR CUSTOMERS?

We work with and alongside our customers to meet their specific requirements with simple and effective project management to meet deadlines to all parties satisfaction.

This brochure is also available online. Just visit the Ambic Manufacturing website at:

www.ambicmanufacturing.com

### Consultation

Let us come to see you to discuss your requirements, first hand. Once we have established your specific need, our Sales Advisors can provide expert advice on all of our products and their applications. Additionally, they can provide free of charge spatial planning and a no obligation quotation service.

# By Phone

Our experienced sales team are waiting to receive your call. They provide an expansive service to our customers — ranging from samples and quotations, through to managing your orders and delivery expectations. Just call 0191 389 1888 and ask for Sales.

### Online

### How to Order

You can order any item out of the catalogue by contacting our Sales Team on:

T: 0191 389 1888

E: sales@ambicmanufacturing.com

### **Order Checklist**

When ordering, please use the checklist below. This will help to process your order as efficiently and quickly as possible.

Product Codes and quantities of your chosen products Your choice of Finishes (if relevant) Your Fabric Colour Choice

Your customer Purchase Order number Your Contact Name, address and phone number

Your delivery and invoice address

# WHY CHOOSE AMBIC?

### **Dedicated Installation Teams**

Our professional fitting teams are multi-disciplined enabling them to complete work in a fraction of the time of our competitors.

We are also experts in working around the busy schedules of schools and universities to fit your new furniture with the minimum of disruption to your staff and students.

We consistently enjoy fantastic feedback from our customers regarding our installation teams – friendly, efficient and professional, the quality of the final installation is equally important to us as the quality of manufacturing and our teams take great pride in the finished job.

### Quality

We believe that furniture should be more than just functional—it should be a statement of quality, craftsmanship, and timeless design. Every piece we create is crafted with precision, using only the finest materials to ensure durability, beauty, and comfort that lasts for generations.

Our manufacturing process is a blend of traditional techniques and modern innovation, ensuring every joint, curve, and finish is perfected to the highest standard.

Each piece undergoes meticulous sanding, polishing, and staining, resulting in a flawless surface that enhances the natural beauty of the materials. The finishing touches are designed to protect and enrich, ensuring that our furniture remains as stunning as the day it was crafted.

### Innovation

We specialise in redefining furniture design through innovation, precision, and limitless customisation. We understand that no two spaces are the same, which is why our expertly crafted furniture is designed to fit seamlessly into even the most unconventional interiors. Whether it's a uniquely shaped alcove, an irregular corner, or a bold, one-of-a-kind vision, we bring ideas to life with unparalleled craftsmanship.

Our advanced manufacturing capabilities set us apart. Equipped with state-of-the-art machinery, from precision CNC cutting to intricate hand-finishing, we can transform even the most ambitious designs into reality. Whether you require custom dimensions, modular configurations, or an entirely bespoke piece crafted to your exact specifications, we have the expertise and technology to deliver with precision.

### Turnaround

While quality craftsmanship takes time, we have optimised our production process to offer competitive lead times, ensuring that your custom furniture is delivered as swiftly as possible without compromising on quality.

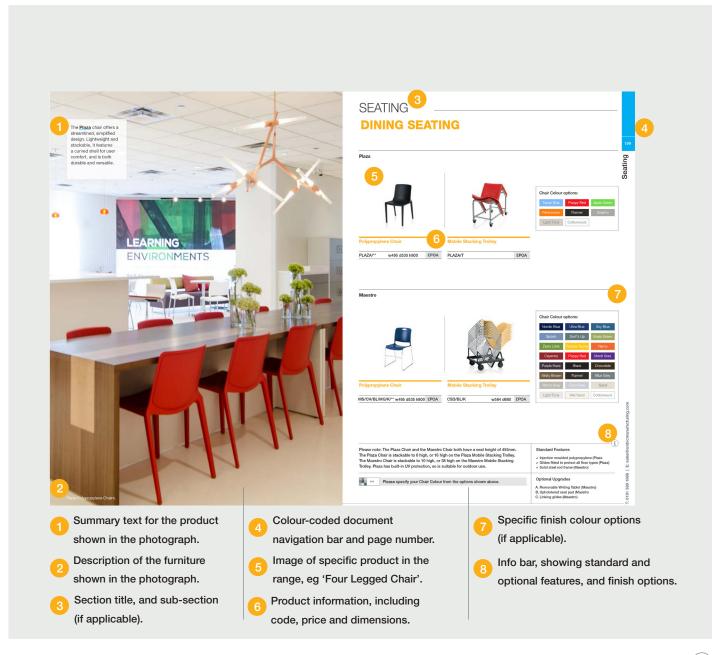

Most bespoke pieces require careful planning and meticulous execution, meaning lead times can be several weeks depending on the complexity of the design. However, for urgent projects, we offer an accelerated manufacturing service, capable of turning around certain pieces in just a few days. Our team works closely with clients to assess feasibility and provide realistic timelines, ensuring expectations are met with transparency and reliability. We are committed to delivering exceptional furniture, designed to your vision and crafted with care—all with the flexibility to meet your time-sensitive needs whenever possible.

Welcome

# **HOW TO USE THIS** ROCHURE

This Brochure has been designed to be as clear and easy to use as possible, whilst also providing a comprehensive set of information for all featured products. These 2 pages provide a brief overview on how to use the document, as well as where to find key information.

# **UNDERSTANDING THE FINISH ICONS**

Paint Finish

Where you'll see it

Products with painted frames and legs, such as Desking and Tables.

How to Specify

If you see -\* in a code you'll need to specify from the Finishes page.

Wood Finish

Where you'll see it

Products with Wooden tops, such as Desking and most Tables.

How to Specify

If you see -\*\* in a code you'll need to specify from the Finishes page.

Fabric Finish

Where you'll see it

Upholstered products, such as Soft Seating and System Base Screens.

How to Specify

If you see -\*\*\* in a code you'll need to specify from the Finishes page.

**Colour Options** 

Where you'll see it

Products that have their own colour range, such as Postura and Novarra.

How to Specify

If you see - • in a code you'll need to specify from the options shown.

# SEATING & TABLE HEIGHT GUIDE

BS EN 1729 is the industry standard for Classroom Tables and Chairs in all UK schools. The standard was introduced following a study of 1500 young people that revealed the average size of children has increased. The standard recognises that furniture sizes need to increase to be ergonomically correct today. The guide below visually illustrates the Size Mark Guides, and they can also be found listed on the relevant Seating and Tables pages in this brochure.

#### **How to Specify**

If you see -◆ in a code you'll need to specify from the options shown.

## **SEATING & TABLE HEIGHT GUIDE**

BS EN 1729 is the industry standard for Classroom Tables and Chairs in all UK schools.

The standard was introduced following a study of 1500 young people that revealed the average size of children has increased. The standard recognises that furniture sizes need to increase to be ergonomically correct today.

The guide below visually illustrates the Size Mark Guides, and they can also be found listed on the relevant Seating and Tables pages in this brochure.

#### **Seating Height Size Mark Guides**

Seat Height 260mm

Size Mark 1 Ages 3-4 Years

Seat Height 310mm

Size Mark (2) Ages 4-6 Years

Seat Height 350mm Size Mark 3

Ages 6-8 Years

Seat Height 380mm

Size Mark 4 Ages 8-11 Years

Seat Height 430mm

Size Mark 5 Ages 11-14 Years

Size Mark 6

#### **Table Height Size Mark Guides**

Size Mark 1 Ages 3-4 Years

Ages 4-6 Years

Size Mark 3 Ages 6-8 Years

Size Mark 4 Ages 8-11 Years

Table Height 710mm

Size Mark 5 Ages 11-14 Years

Table Height 760mm

Size Mark 6

Ages 14 Years - Adult

Please note: Table and Seat sizes may vary slightly from the sizes shown. The standard allows the Table and Seat height to be within a 10mm tolerance.
