FrameworkLTC
Empower LTC Pharmacy, Save Lives

FrameworkLTC is a comprehensive pharmacy management solution designed specifically for long-term care pharmacies. This powerful platform transforms how you run your business by automating repetitive tasks, optimizing workflows, and seamlessly connecting with your essential tools.

WHAT SETS FRAMEWORKLTC APART

Not all pharmacy management systems are created equal.

What sets FrameworkLTC apart is our deep focus on long-term care and our commitment to innovation that truly impacts daily workflows. With clinically trained AI and purpose-built features, we go beyond basic functionality to deliver meaningful efficiency gains.

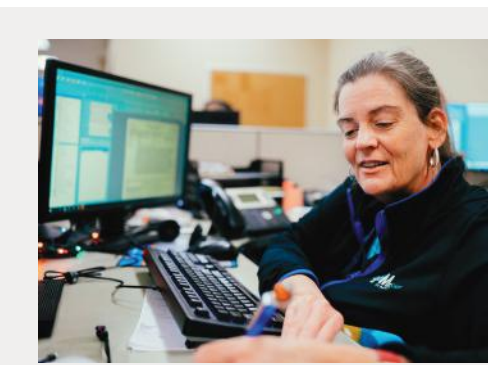

We're not just keeping up with the industry, we're helping shape its future.

At SoftWriters, we're addressing this head-on with innovations like AI-Powered Order Entry in FrameworkLTC. By automating how prescriptions are read and entered, pharmacies can significantly reduce manual workload and eliminate bottlenecks.

The result? Faster workflows, fewer errors, and more time for what matters most — clinical decision-making and patient outcomes.
