Want to know more about
our **sustainability journey?**
Visit our website!

*schleich®. Every step can have a positive impact.
Join and follow us on our sustainability journey: www.schleich-s.com

Our sustainability journey

schleich

For almost 90 years, the **durable** schleich® figurines have been an integral part of childhood. Passed on from generation to generation, they naturally contribute to sustainable play.

But we want to go one step further. For our **children** and the **planet**. That's why we have developed a comprehensive **sustainability strategy**. Among other things, all schleich® play figurines will be **recyclable** and **Cradle to Cradle®** certified by the end of 2027.

What have we achieved so far?

460.000

plastic trays in our advent calendars are replaced by cardboard trays

-20%

reduced plastic in our packaging (compared to 2020)

100%

certified cardboard for our packaging by the end of 2023

100%

use of green electricity in our German head-quarter warehouse

**Farm
