WORKWEAR

WINTER 2022 CATALOGUE

THE EARLY YEARS

Betacraft was founded by a man with an inventive spirit and a singular goal: to keep New Zealand farmers warm, dry and comfortable. Born in 1914, David Beatson became acutely aware of the demands of outdoor life when serving in World War II. Arriving home, he traded his city job for the rural life. With an entrepreneurial spirit he started a business out of his Palmerston North garage, supplying and repairing horse and cow covers.

His craft eventually turned to outdoor workwear. With a ready supply of customers at the back door, David honed his skill and developed a reputation for garments that were robust, durable and unfailingly waterproof. Now into its fourth generation, Betacraft remains a family business committed to producing professional grade, long lasting gear that can withstand the most extreme outdoor conditions.

GEAR THAT WORKS AS HARD AS YOU DO, SO YOU CAN STAY OUTSIDE FOR LONGER.

New Zealand is rugged country. Impassable gullies. Extreme winds. Skies that open up and pour down. It's a place made for men and women who are connected to the land. You're at work in any weather, and the worse the weather, the more work there is to do. Since 1952 we've been creating gear that works as hard as you do.

Fabricated using the best materials and technologies, cut and sewn by experts to exacting standards, we create high performance garments that keep you outside for longer. A family business through and through, we're driven by the desire to help those battling the elements – the farmers, the fishers, the sailors, the hunters, the workers, and the adventurers.

CHANGES FOR THE BETTER.

We're making better choices for our planet and our communities so that our gear is built for a future we all want to be a part of. Starting with recycled fabrics, organic fibres and global standard audits across our supply chain.

We're listening to New Zealand farmers and designing better features that help you stay outside for longer. Our commitment is to create conscious workwear that doesn't compromise on performance.

COMMITTED TO CONSCIOUS WORKWEAR	
 <p>ENVIRONMENT We're making little decisions that have big impact on the future of our planet.</p>	 <p>SUPPLY CHAIN We ensure our raw materials and products are sustainably sourced, and our shipping methods best in class.</p>
 <p>FACTORIES We audit our factories to global standards, to ensure current and first-class processes.</p>	 <p>PACKAGING We have chosen to use low density polyethylene (LDPE) or corn starch options in place of plastics.</p>
 <p>FABRIC PRODUCTION We're using less water, fewer chemicals and using organic and recycled materials where we can.</p>	 <p>COMPONENTS We're working towards robust zips, domes and other details produced from recycled materials.</p>

“ I love knowing I can head out in the rain and won't need to come back home to change my gear. ”

KYLIE BREMNER / PIERT ROAD FARM,
TARARUA DISTRICT

MEET KYLIE. Hates the wind, loves happy lambs and relies on rugged gear to see her through her day.

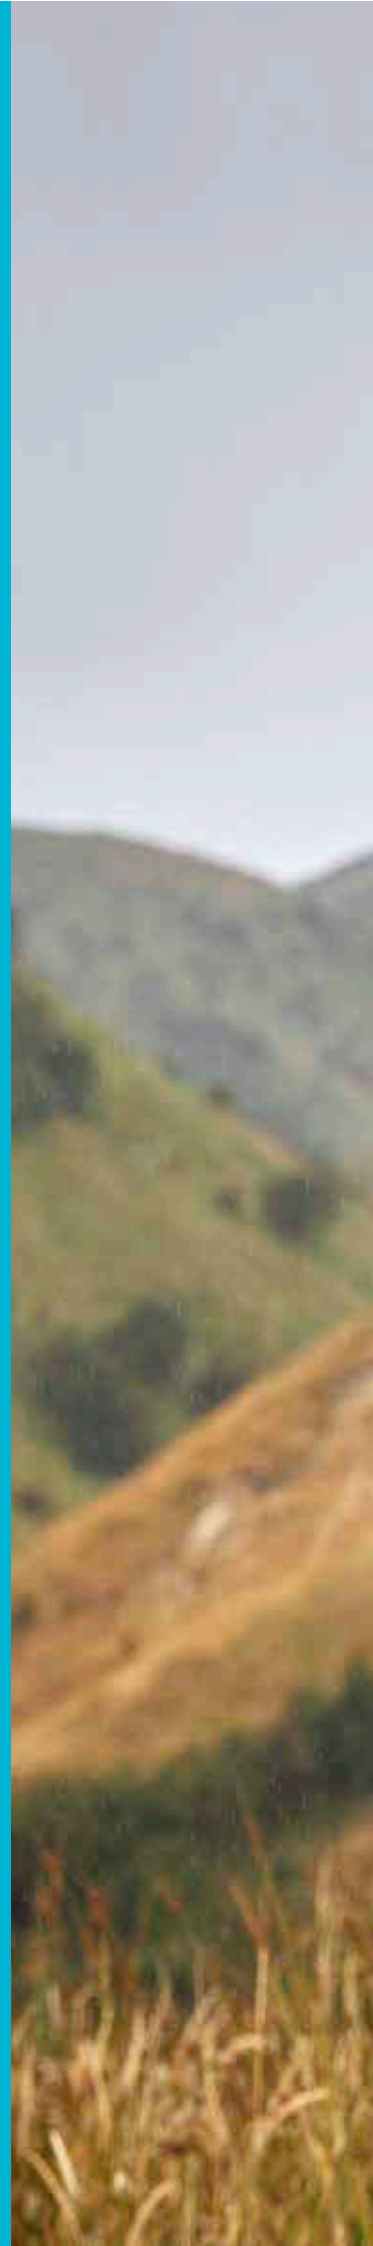

INTRODUCING OUR OUTERWEAR / PROTECTION RANGE

We've designed our range to work with you throughout the day and the seasons.

Our gear is made to move and breathe with you while you work, while protecting you from the elements. Our Outerwear layers are designed for premium protection. Tough and flexible, they keep the wind and rain at bay. For Kylie, the high-performing ISO940 is her choice. "It keeps the rain out and the magnetic closures are far easier than trying to secure domes with gloves." With a two-way zip and stormflap, unique hood with adjustable crown and face protection, the ISO beats other wet weather gear, hands down.

betacraft®
WORKWEAR

OUTERWEAR
/ PROTECTION

WEATHERPROOF

Durable outer fabrics designed to repel the rain, wind and cold.

Better features.

We've listened to Kiwi farmers and we've improved our gear. Our iconic ISO940 range is better than ever with super-strong magnetic closures, new leg gussets and closer-fitting parkas and trousers for an enhanced fit.

We're making changes for the better.

Since 1952 we've been making hardwearing workwear for our nation's outsiders.

We know that to keep moving forward, we need to adapt.

And we're looking forward to a future that we all want to be a part of.

“I need gear that moves with me,
lasts the distance and works
as hard as I do.”

GEORGE BREMNER / PIERT ROAD FARM,
TARARUA DISTRICT

THIS IS GEORGE. A man of the land who doesn't always know when to call it a day but knows how to spot quality workwear.

INTRODUCING OUR MID LAYER / WARMTH RANGE

We've designed our range to work with you throughout the day and the seasons.

Our gear is made to move and breathe with you while you work, while protecting you from the elements. Our mid layers are designed for ultimate warmth. Lightweight, comfortable and breathable, these layers keep you warm in the harshest chills.

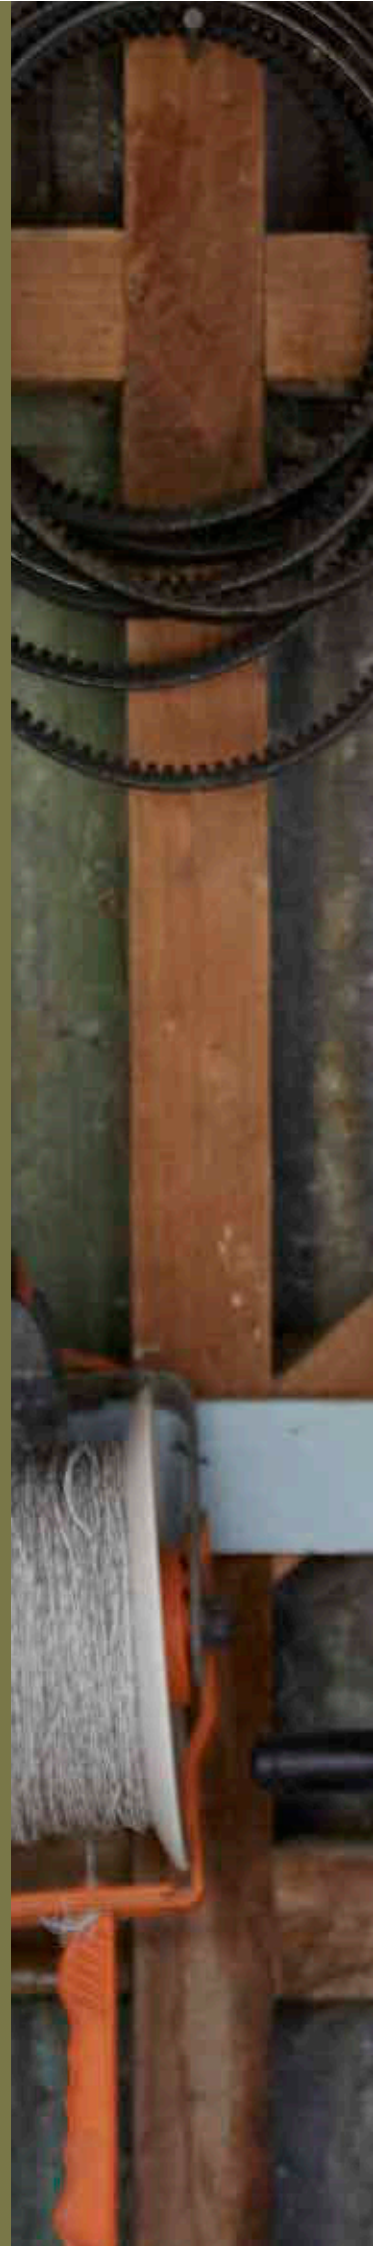

George relies on his Quest Fleece to keep him warm, no matter the weather outside.

"It's snug, breathable and the half zip makes for easy wear without letting the cool air in."

Made from 280gsm quality fleece with reinforced panels for extra protection, this layer's a keeper for long days outside.

SINCE 1952 WE'VE BEEN CREATING GEAR THAT WORKS AS HARD AS YOU DO

A HISTORY OF EXCELLENCE

Betacraft is a family business which was established in the early 1950's. Ownership and management is now in the hands of the third and fourth generation. In its 70 years Betacraft, formerly D.R. Beatson & Co, has progressed from being a saddler, leather and canvas business to a world leader in the manufacture and design of high quality wet weather gear. Along with this, Betacraft imports a range of top quality workwear, rainwear, menswear and fleecewear. The entire range comes branded and tailored to Betacraft's unique specifications.

AN EXCITING FUTURE

Keep up to date with new developments and the latest colour ranges by simply visiting betacraftworkwear.com and viewing the range of warm, dry, comfortable clothing designed specifically to withstand the rigours of use by the New Zealand farmer. If you'd like more information, contact Betacraft through the website www.betacraftworkwear.com
