Background:

Impact to victimized Parents

Christopher Mackney, 45 years of age and a loving father, committed suicide on Dec 29, 2013 after being alienated from his children and subjected to years of psychological and financial abuse by the biased, anti-father family court system, his ex-wife and her lawyer.⁴

- *Parents of kidnapped children often have similar psychological symptoms*
- *If Mr. Mackney had been granted rights to his children, this would have been prevented*

Background

“I believe Child Protective Services nationwide has become corrupt and that the entire system is broken beyond repair. I am convinced parents and families should be warned of the dangers.”

--Former US Senator Nancy Schaefer (deceased)⁵

Case Example:

Deanna Fogarty-Hartwick vs Orange County, United States

Daughter sues Orange County after being taken from mom, who got \$9.6M in same case

- What is given below is another example case, which has been successfully litigated against Government officials, who abused their power against parents and their children.
- ICCACK will source its own parental child kidnapping and Governmental child abuse cases in each jurisdiction where we establish Embassies and appoint Trade Ambassadors.
- Wherever possible ICCACK is using a mixture of digital marketing techniques (social media, search engine optimization etc.) and relationships with other companies including Law Firms.
- Tort Cases will be run on a PRO BONO basis for clients and a minimum 50% Tort Recovery Fee from the client at the point of case settlement.
- **Our Trade Ambassadors get awarded 25% from the Tort Recovery Fees on a global scale.**

Why ICCACK Exists

Protecting Families. Enforcing Justice. Restoring Sovereignty.

- *Over 8 million children are abducted, trafficked, or illegally relocated each year — often with the direct or indirect complicity of government systems. Victims face:*
- *Legal systems that fail or refuse to enforce international conventions.*
- *Government agencies shielding perpetrators.*
- *Political interference that blocks justice.*
- *ICCACK exists to enforce the rights of the child and the family when no one else will — using sovereign law, diplomatic channels, and blockchain-based enforcement tools.*
