

Capability Statement

Mark of quality, assurance of service.

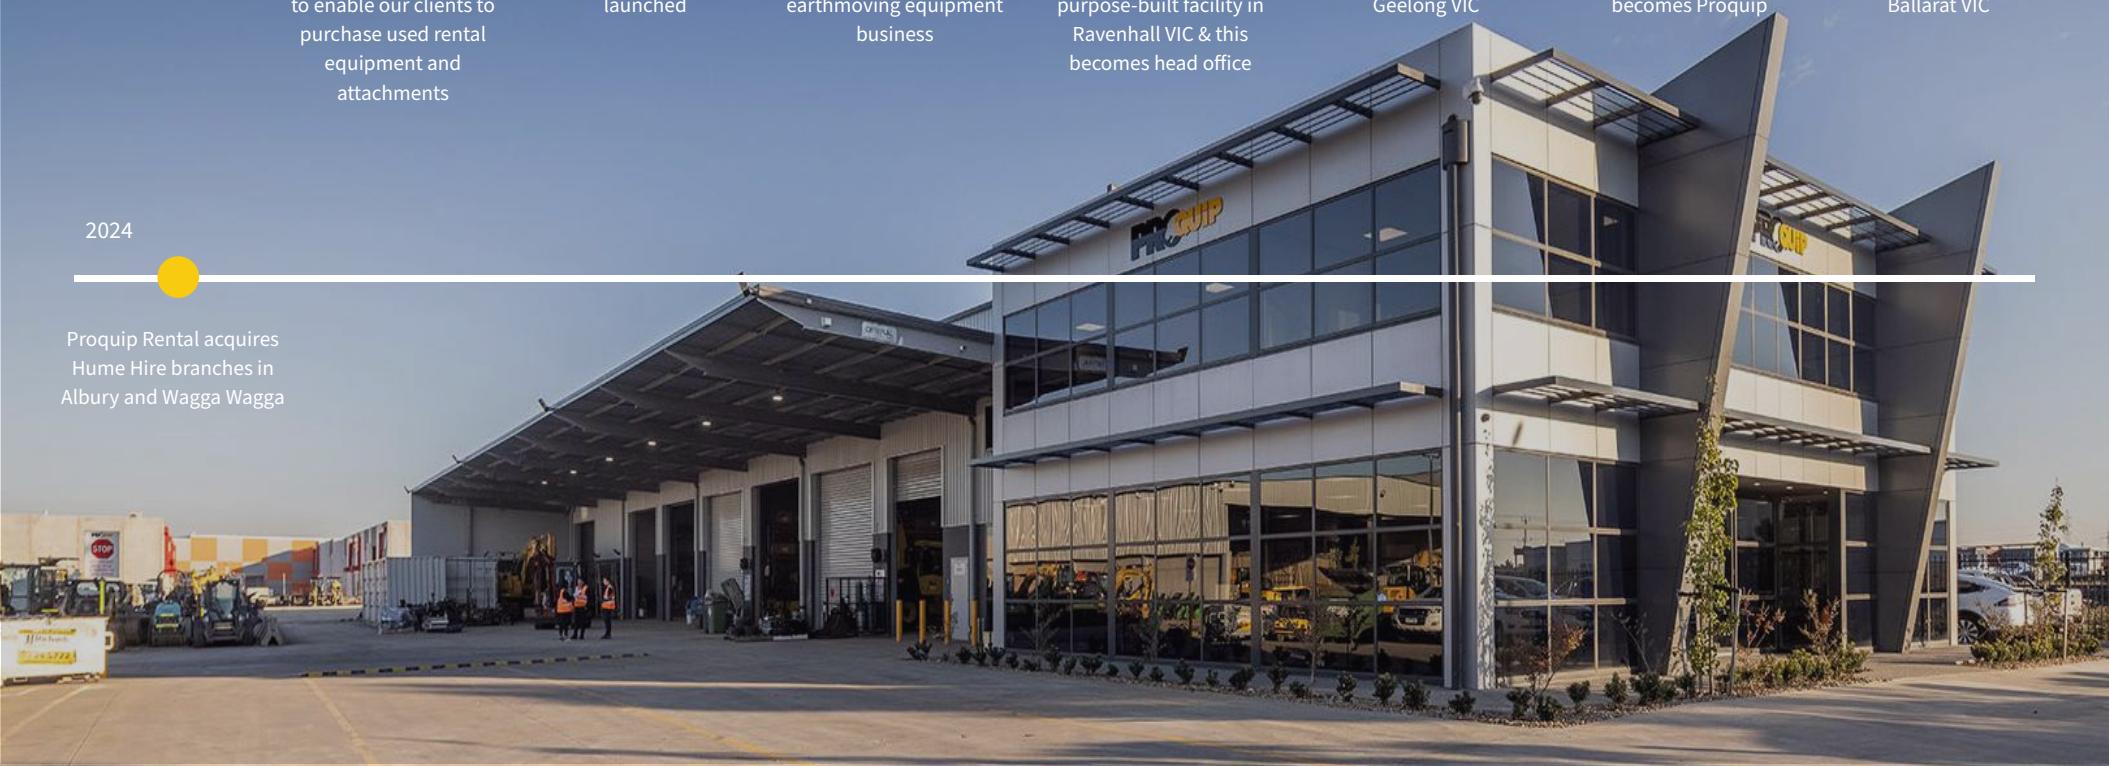

Our Journey.

Proquip Rental & Sales was founded in March 2008. Family owned & operated we specialize in earthmoving equipment rental ranging from 1-40 tonne.

With possibly the most late model fleet in the industry, our aim has always been to provide industry leading earthmoving equipment solutions for rental and purchase, and to deliver a customer experience that is unparalleled in the marketplace.

Our management and staff strive continuously for higher standards in all aspects of the business. We now have locations in Albury, Ballarat, Geelong, Melbourne, Perth and Wagga Wagga to better serve our valued customers needs.

Proquip Rental was born in Melton VIC	The equipment sales division was established to enable our clients to purchase used rental equipment and attachments	Impact Construction Equipment range launched	Proquip acquires Hireways, a WA based earthmoving equipment business	Proquip Melton branch moves into a new purpose-built facility in Ravenhall VIC & this becomes head office	Proquip opens its first regional branch in Geelong VIC	Hireways WA branch officially rebrands & becomes Proquip	Proquip opens its second regional branch in Ballarat VIC	
								Proquip Rental acquires Hume Hire branches in Albury and Wagga Wagga

Mark Of Quality Assurance Of Service.

Mark of Quality

Quality is an uncompromising and founding pillar at the heart of everything the team at Proquip put their hands to. This shows itself consistently in the quality of the equipment we provide, the presentation of the equipment when it arrives onsite and importantly the quality of the customer experience we provide based around communication, compliance, and fast response.

Assurance of Service

We believe the recipe for becoming a supplier of choice is simple and it comes down to doing the little things right consistently. Our commitment to understanding customers needs, providing solutions, being flexible, communicating always and following through consistently are considered the basics to providing assurance of service at Proquip.

Distinctive Capabilities.

Quality of Equipment

At Proquip, we set the benchmark for quality of equipment. We achieve this by turning our fleet over on a regular basis. This simply means our rental clients always get new or late model equipment, with only globally recognized brands being sourced.

Range of Equipment

At Proquip, we solely focus on ground engaging equipment between 1 tonne and 35 tonne. Our range covers most of the civil requirements including attachments and our current fleet of mobile plant is in excess of 500 machines.

Availability

Due to the size of our core range and being able to source out of several locations, we are able to access equipment quickly and are rarely in a position where we can't supply due to equipment availability. Our fleet size is always growing and so is our range to embrace the ever-changing needs of our focus industries and also taking on new technology.

Efficiency & Peace of Mind

At Proquip, we understand that the industries and the customers we service are generally time poor, so we concentrate on getting the little things right in order to give our customers confidence and peace of mind. As a team, we carry a sense of urgency in the way we go about delivering on our customer's needs. This includes our safety and compliance promise that every piece of plant will comply with the relevant safety and pre-delivery induction site specific requirements.

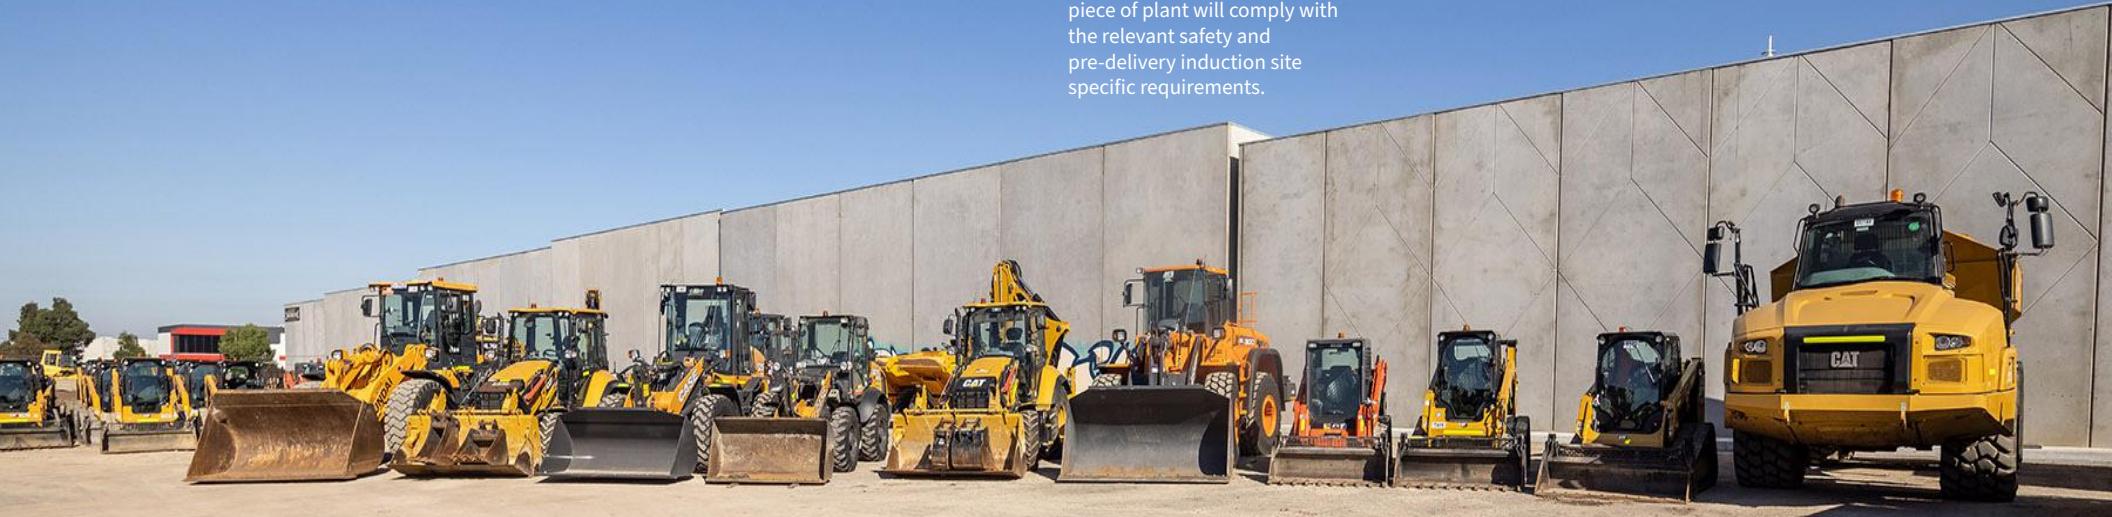

Communication & Follow Through

At Proquip, we believe good communication lies at the heart of any successful relationship. Our main focus as a team is about delivering on our 4 foundational service pillars:

- *Right product
- *Right place
- *Right time
- *Every time

Safety & Compliance

Equipment compliance and safety are key facets of the day to day needs of the industry sectors we service. We strive to provide the benchmark in all areas of equipment safety and compliance and are committed to keeping up with the ever-changing demands and site requirements as they come along.

CASE

Client Testimonials.

One of the most craved things in business is communication and follow-up, these guys have excelled at it.

Doug McLaren

Your team has done a fantastic job in making our CAT loader look brand new. I was extremely impressed by all the friendly staff members.

Brendon Oates

I would like to say a big thank you to all the team at Proquip for the fantastic service and excellent excavator. I will look forward to doing business with Proquip in the future.

Craig Murphy

I was very impressed by the service and attitude of the Proquip staff, it was very admirable. Great to see young staff that know how to look after customers.

Steve O Farrell

Thanks very much for your speedy work! I am amazed with your turn around time. It's hard to believe how good Proquip have been to work with.

David Neylon

The entire Proquip Staff, from the time of my first enquiry of the machine, to the final delivery has been honest, professional and fast. I will highly recommend anyone who wish to hire or purchase a machine should try Proquip first.

Graham Britton
