Welcome to 2024

Another Spring is upon us. The winter season has quickly passed and we are gearing up for another spring.

We have had a busy winter here at Linwyck Gardens. We added more growing space that will allow us to continue improving our plant material and provide you with top quality product for your customers. We have additionally added a new delivery vehicle to our fleet that will accommodate larger orders.

This season we are trialing a few new varieties and colors that we are excited about. One we are most excited about is a new blue color in our Vinca. It is a truer blue that will help give you that blue pop for your customers with full sun and limited water. We have also added this to a new patriotic mix that combines red, white, and now blue!

We are excited to see all of you this Spring. We would like to thank you for your continued support and patronage. We appreciate every order and visit to our facility. We strive to provide you with the best personalized service and meet all of your plant needs. We hope that choosing Linwyck Gardens is the easiest part of your process, and that 2024 is a successful season for all of us!

Have a great season!
Linwyck Gardens
