

UNDERGROUND MACHINE PARTS

2026 ROX Underground Machine Products

January 2026 Release

CAT | Epiroc | Sandvik | Volvo | Elphinstone

www.bendtechgroup.com.au

BUILT BETTER A white silhouette of a bull.

A NEW ERA HAS ARRIVED

BRAND DNA

ROX Mining Parts is a division of the Bend-tech Group dedicated to the supply of Open cut and Underground machine replacement parts. ROX is committed to eliminating downtime, improving performance, and increasing longevity of parts through innovation. The ROX team has been restructured with customer experience in mind and with dedicated supporting departments such as research and development, engineering, and logistics, the ROX division is poised to transform mining parts supply.

ROX

A riff on the substrate mobile equipment mine (*Rocks*). Combined with the animal the Aurochs or Ox for its characteristics in defence, agility, and protection.

AUROCHS / OX

Representing the strengths of the division and the parts we supply the Aurochs is known as an agile, athletic, and strong animal capable of defending themselves against predators such as wolves.

BRAND STORY

We are excited to introduce our reimagined identity – a transformation born from our unwavering commitment to provide even greater value to our customers and a realisation that our provision of OEM replacement parts division has become much more than just a business unit. Our journey began with a simple idea, and today, that idea is evolving into a brand-new experience that reflects our dedication to innovation, quality, minimising downtime, and customer experience.

THE ORIGINS

Every great journey has its origins. What has become ROX today started in the late 2000's when we began supplying OEM replacement handrails for Underground machines. This quickly evolved into supplying more handrails, then more parts. Which then evolved into servicing the Open cut machine market, supplying components such as handrails, fenders and guards, platform modules and fuel tanks. Through the years, we've remained dedicated to serving our customers, adapting to their needs, and leveraging new technologies to improve their experience.

THE EVOLUTION

As time passed, the division continued to grow both in parts and services provided as well as our human resources and supporting divisions such a research and development (R&D). We realised that providing what the industry needs and mitigating customer pain points meant embracing change. Our rebrand is the result of an evolution – a transformational process that has seen us listen to your feedback, learn from our experiences, and begin a journey towards continued innovation to create something even more exceptional.

THE VISION

Our new identity is not just a logo or a name – it's a reflection and commitment of our vision for the future. We envision a world where all our customers' required parts are stocked, downtime is eliminated, parts are innovated and improved, and we are the relied upon supplier for mining equipment replacement parts. This vision is the driving force behind every decision we've made in shaping our rebrand.

THE BENEFITS

Our rebrand isn't just for us – it's for you. We've reimagined our service with you in mind, with the mission of creating an experience that is more streamlined, innovative, and dedicated than ever before. With our new identity, we're poised to elevate your experience and empower you like never before. With a restructured team, more robust R&D, and a new, dedicated website in the works we are poised to deliver the best service in the industry.

THE PROMISE

Our promise to you remains unchanged. Just as we've stood by your side in the past, we will continue to be your trusted partner on this journey of sustained value and minimising downtime. Our commitment to all parts being stocked, downtime eliminated, innovated parts and improved performance, and becoming the relied upon supplier for mining equipment replacement part supply remains steadfast, serving as the bedrock of our rebrand and the road ahead.

CONCLUSION

In closing, we're excited to embark on this new chapter with you. Our rebrand of our OEM Replacement Parts division is more than a new name, new colours, or new logo – it's a testament to our dedication to continuous improvement, innovation, and growth. Thank you for being a part of our story so far, and we look forward to the exciting journey ahead, hand in hand.

UNDERGROUND MACHINE PARTS

CAT R1300G LOADER

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT R1300G FIXED FRONT FENDERS

Direct OEM replacement for CAT R1300G front fenders.

Features:

- Heavy-duty steel construction
- Hi-spec surface treatment in CAT Yellow over a primary zinc coating for enhanced protection
- Precision manufactured for fast fit up to your machine
- Protects the wheel and surrounding components

CATERPILLAR UNDERGROUND RECOVERY HOOK

Part No. 5602282

Welded to the rear of CAT underground loaders to provide tow assistance when required.

Features:

- No paint or powder used for ease of welding/fitment
- Heavy-duty steel construction

Handrail 5001780

OEM No. 453-8706 (OLD 318-7853)

Handrail 5000330 (2 Required)

OEM No. 230-9812

Handrail 5003776

OEM No. 311-5486

CAT R1700G HANDRAIL STORAGE RACK

Part No. 5504255

Suits Bend-tech's OEM replacement handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

Includes:

- Carabiners
- Tether point
- Retractable fall arrest block

CAT R1700G FALL ARRESTOR TETHER KIT

Part No. 5504908

A solution to provide operators/fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator.
- Tether mechanism locks when sudden movement is detected (e.g. losing balance), preventing tripping and/or falling from machine.
- Uses existing bolts/fittings on the roof and engineered and certified brackets for retractable fall arrest tethers to attach to.
- Suits R1600 & R1700G/K

CAT R1700G DOG BONE / TILT LINK

Part No. 5001955

ROX's dog bone components are precision manufactured and machined from high tensile steel, with hardened and ground bushes. Replaces OEM No. 186-9866.

Features:

- Grease channel machined into the dog bone body
- Direct OEM replacement
- Supplied in enclosed transport crate
- Supplied with seals and bushes

CAT R1700G DOOR

Part No. 5001817

To suit CAT R1700G Machines.
Replaces OEM No. 291-0662

Features:

- Heavy duty construction
- Precision manufactured for fast fit up to your machine

CAT R1700G HINGED FENDERS

Part No. 5000061 (RH) / 5000062 (LH)

Made to suit CAT R1700G Loaders, our fender acts as a wheel guard and is designed to withstand the harshest underground mining environments.

Features:

- Heavy duty hinged folding system
- Double pin design to eliminate sagging
- Eliminates requirement to remove fender access components positioned behind the fender Tilt Link
- Suitable for use with tyre chains

Part No. 5000061 (RH)
Replaces OEM No. 318-7824

Part No. 5600173 (RH)
Replaces OEM No. 318-7824

CAT R1700G FIXED FENDERS

Part No. 5600173 (RH) / 5600174 (LH)

Direct OEM replacement for CAT R1700G Fenders.

Features:

- Heavy duty steel construction
- Hi-spec surface treatment in CAT Yellow over a primary zinc coating for enhanced protection
- Precision manufactured for fast fit up to your machine
- Protects the wheel and surrounding components

Part No. 5600174 (LH)
Replaces OEM No. 318-7829

**CAT R1700G REAR FENDER LH****Part No. 5601021**

OEM No. 307-1038, 307-0988

**CAT R1700G REAR FENDER RH****Part No. 5601002**

OEM No. 307-1038, 307-0989

**CAT R1700G REAR DECK HOOD****Part No. 5601001**

OEM No. 284-6132

• Includes mount (OEM No. 291-2291)

**CAT R1700G TILT CYLINDER GUARD****Part No. 5001946**

OEM No. 199-5816

CAT R1700G REAR RADIATOR GRILLE

Part No. 5606351

OEM No. 291-6362

Direct OEM replacement for CAT R1700G
Rear Radiator Grille.

Features:

- Includes locking pin latch and hinges

CATERPILLAR UNDERGROUND RECOVERY HOOK

Part No. 5602282

Welded to the rear of CAT underground loaders to provide
tow assistance when required.

Features:

- No paint or powder used for ease of welding/fitment
- Heavy-duty steel construction

CAT R1700K FIXED FENDERS

Part No. 5601033 (RH) / 5601034 (LH)

Direct OEM replacement for CAT R1700K Fenders.

Features:

- Heavy duty steel construction
- Hi-spec surface treatment in CAT Yellow over a primary zinc coating for enhanced protection
- Precision manufactured for fast fit up to your machine
- Protects the wheel and surrounding components
- Supplied with mud flaps

Includes:

- Carabiners
- Tether point
- Retractable fall arrest block

CAT R1700K FALL ARRESTOR TETHER KIT

Part No. 5504908

A solution to provide operators/fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator.
- Tether mechanism locks when sudden movement is detected (e.g. losing balance), preventing tripping and/or falling from machine.
- Uses existing bolts/fittings on the roof and engineered and certified brackets for retractable fall arrest tethers to attach to.
- Suits R1600 & R1700K/G

CAT R1700K RADIATOR GRILLE

Part No. 5601003

OEM No. 484-1610 and 467-1784

Direct OEM replacement for CAT R1700K Radiator Grille.

Features:

- Includes locking pin latch and hinges

CAT R2900G / R3000H HANDRAIL STORAGE RACK

Part No. 5502944

Suits ROX's OEM replacement handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

Includes:

- Carabiners
- Tether point
- Retractable fall arrest block

CAT R2900G / R3000H FALL ARRESTOR TETHER KIT

Part No. 5504911

A solution to provide operators/fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator.
- Tether mechanism locks when sudden movement is detected (e.g. losing balance), preventing tripping and/or falling from machine.
- Uses existing bolts/fittings on the roof and engineered and certified brackets for retractable fall arrest tethers to attach to.

**CAT R2900G / R3000H
DOG BONE / TILT LINK****Part No. 5001783**

ROX's dog bone components are precision manufactured and machined from high tensile steel, with hardened and ground bushes. Replaces OEM No. 186-9869.

**Features:**

- Grease channel machined into the dog bone body
- Supplied in enclosed transport crate
- Supplied with seals and bushes

**CAT R2900G / R3000H
DOG BONE / TILT LINK TRANSPORT & STORAGE FRAME****Part No. 5504125**

For the transport and storage of the CAT R2900 / 3000 dog bone.

WLL: 200kg

Features:

- Heavy duty steel construction
- Includes ratchet tie-downs
- Tie-down points
- Forklift slots

**TOP TAILSHAFT GUARD****Part No. 5001948****OEM No. 248-5139****BOTTOM TAILSHAFT GUARD****Part No. 5001947****OEM No. 248-5140**

CAT R2900G HINGED FENDERS

Part No. 5000049 (RH) / 5000050 (LH)

Made to suit CAT R2900G Loaders, our fender acts as a wheel guard and is designed to withstand the harshest underground mining environments.

Features:

- Heavy duty hinged folding system
- Double pin design to eliminate sagging
- Eliminates requirement to remove fender access components positioned behind the fender Tilt Link
- Stainless pins with greasing points
- Suitable for use with tyre chains

CAT R2900G FIXED FENDERS

Part No. 5001787 (RH) / 5001788 (LH)

Direct OEM replacement for CAT R2900G fixed fenders.

Features:

- Heavy-duty steel construction
- Hi-spec surface treatment in CAT Yellow over a primary zinc coating for enhanced protection
- Precision manufactured for fast fit up to your machine
- Protects the wheel and surrounding components

CAT R2900G / R3000H NARROW REAR FENDER ASSEMBLY LH

Part No. 5506963

OEM No. 252-6600, 230-4739

CAT R2900G / R3000H NARROW REAR NARROW REAR FENDER ASSEMBLY RH

Part No. 5000334

OEM No. 252-6600, 252-6599

CAT R2900G / R3000H WIDE REAR FENDER ASSMBLY LH

Part No. 5506962

OEM No. 252-5934, 252-5933

CAT R2900G / R3000H WIDE REAR FENDER ASSEMBLY RH

Part No. 5600909

OEM No. 252-5934, 248-4289

CAT R2900G / R3000H REAR RADIATOR GRILLE

Part No. 5600907

OEM No. 264-8350

- Includes locking pin latch and hinges

BUCKET BUMPER KIT

Part No. 5000332

OEM No. 233-0734

- Kit includes: 1 x bucket bumper
2 x 2mm shim (OEM No. 233-0736)
2 x 3mm shim (OEM No. 233-0735)

CAT R2900G / R3000H REAR DECK HOOD

Part No. 5600908

OEM No. 248-5160

Direct OEM replacement for CAT R2900G & R3000H Rear Deck Hood.

Features:

- Includes mount (OEM No. 501-4874)
- Includes 2 x gas struts

CAT R2900 / R2900G CYLINDER GUARD

Part No. 5001789

OEM No. 217-0347

CAT R2900 / R2900G / R3000H WINDOW GUARD

Part No. 5000331

OEM No. 251-7851

CAT R2900G LUBRICATION LINES COVER RH

Part No. 5000333

OEM No. 203-1563

CAT R2900G LUBRICATION LINES COVER LH

Part No. 5601031

OEM No. 203-1562

CAT R2900G CAB DOOR

Part No. 5001791

OEM No. 249-6759

Features:

- Heavy duty construction
- Precision manufactured for fast fit up to your machine
- Suits GLK and JLK

CAT R2900 / R2900G / R3000H CAB DOOR

Part No. 5602059

OEM No. 442-2059

Features:

- Heavy duty construction
- Precision manufactured for fast fit up to your machine
- Suits JLK, NLK, ZLK, RCM and RCY

CATERPILLAR UNDERGROUND RECOVERY HOOK

Part No. 5602282

Welded to the rear of CAT underground loaders to provide tow assistance when required.

Features:

- No paint or powder used for ease of welding/fitment
- Heavy-duty steel construction

CAT R2900G TILT CYLINDER ACCESS PLATFORM

Part No. 5607923

An access platform designed and engineered for the safe and efficient access to the tilt cylinder of the CAT R2900G and Sandvik LH621i. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 150kg
- Bolt-on safety handrails with kickplates
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- High quality German made castor wheels
- Removable handrail
- Safety drop bar
- Self-closing gates
- Forklift slots

CAT R2900G BUCKET RECONDITIONING PLATFORM

Part No. 5501730

Designed and engineered for safe, certified and compliant access when working on the CAT R2900G bucket. Certified compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- 4 x sections bolt together to combine into one square-shaped platform
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jacking stands
- Forklift slots
- Self-closing gate

CAT R2900G LIFT ARM ACCESS PLATFORM SET

Part No. 5503187

Designed and engineered for safe, certified and compliant access when working on the CAT R2900G bucket. Certified compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 200kg per platform
- LH & RH set
- Fitted with heavy-duty castors
- Fitted with jacking stands

CAT R2900G REAR ACCESS PLATFORM

Part No. 5503189

Designed and engineered for safe, certified and compliant access when working on the CAT R2900G bucket. Certified compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 600kg
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jack stands
- Self-closing gate
- Forklift slots

CAT R2900G ARTICULATION AREA ACCESS PLATFORM

Part No. 5501557

Designed and engineered to safely and efficiently access the articulation area of the CAT R2900G loader for maintenance and repairs. Certified and compliant with Australian Standards.

Construction: Heavy-duty aluminium

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- High quality castor wheels
- Self-closing gate
- Forklift slots

CAT R2900G FRONT WHEEL / TILT CYLINDER ACCESS PLATFORM

Part No. 5504118

Designed and engineered to provide safe access to the tilt cylinder above the wheel of a CAT R2900G loader for maintenance and repairs. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 150kg
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- High quality castor wheels
- Removable drop-in handrails facing lift arms
- Self-closing gate
- Forklift slots

CAT R2900G LIFT ARM ACCESS PLATFORM SET

Part No. 5505474

Designed and engineered to provide safe and efficient access to the lift cylinder and lift arm assembly for maintenance and repair. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg per platform
- LH & RH symmetrical platform set
- Platforms allow easy access on both sides at once
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jacking stands
- Removable drop-in handrails facing lift arms
- Self-closing gate

CAT R2900G BUCKET REPAIR ACCESS PLATFORM

Part No. 5505506

A certified access platform designed and engineered to provide safe and efficient access for maintenance to the bucket of the CAT R2900G loader. Certified and compliant with Australian Standards.

Features:

- Heavy-duty steel construction
- WLL: 200kg
- Forklift slots
- Removable handrail - can be used on both sides of platform deck

CAT R2900 / 3000 LIFTING ARM HANDRAILS**Part No. 5403187**

A bolt-on set of maintenance handrails designed for the Caterpillar R2900 and R3000. Designed to eliminate risk when working at heights. Certified and compliant with Australian Standards.

Features:

- Heavy-duty steel construction
- 60.4kg tare weight
- Certified and compliant to Australian Standards

CAT R2900XE HANDRAIL STORAGE RACK

Part No. 5607920

A storage solution designed and engineered to hold 3 full sets of CAT R2900XE handrails. This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy duty steel construction
- Forklift slots
- Rack to be hot dip galvanised
- Handrails not included
- All required signage incorporated

CAT R2900XE TILT CYLINDER GUARD

Part No. 5509068

Our tilt cylinder guard provides protection for the ram body and cylinder shaft. Replaces OEM No. 617-8530. Bolts straight into existing OEM mounting points.

Features:

- Heavy-duty steel construction
- Bolts straight onto existing OEM mounting points
- Finished in Gloss Black
- In stock and ready for immediate despatch

CAT R2900XE FIXED FRONT FENDERS

Part No. 5601250 (RH) / 5601251 (LH)

Made to suit CAT 2900XE Loaders, our Fender acts as a wheel guard and is designed to withstand the harshest underground mining environments.

To suit OEM part number 586-4181

Features:

- Hi-spec surface treatment finish in machine colour over a primary zinc coating for enhanced protection
- This part is made to suit OEM 586-4181 and is certified and load rated to Australian Standards
- Stocked and ready for immediate delivery

CAT R2900XE LIFT ARM HANDRAILS

Part No. 5509044

A bolt-on set of maintenance handrails designed for the Caterpillar R2900XE and R3000XE. Certified and compliant with Australian Standards.

Features:

- Heavy-duty steel construction
- 52.4kg tare weight
- Painted to site specifications (to be confirmed at quote stage)
- Certified and compliant to Australian Standards

CAT R2900XE LUBRICATION PUMP COVER ASSEMBLY

Part No. 5607928

Lubrication Pump Cover to suit CAT R2900XE. Designed for easy access and greater protection of the hydraulic pump. Fits with OEM Style or ROX Hinged Fender.

Features:

- CAT R2900XE Hinged Lubrication Pump Cover
- Heavy Duty Steel Construction
- Stocked and ready for despatch

CAT AD30 TRAY / TUB ACCESS PLATFORM

Part No. 5501823

A safe, certified and compliant access platform designed and engineered to access the tray on the CAT AD30. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 600kg
- Stairway parallel to the platform deck to reduce platform footprint
- Non-slip stairway and work area
- High quality castor wheels
- Handrails fully removable
- Self-closing gate at the top of the stairs

CAT AD45 HANDRAIL STORAGE RACK

Part No. 5507638

Suits ROX's OEM replacement handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

CAT AD45 TRAY / TUB ACCESS PLATFORM

Part No. 5501806

A safe, certified and compliant access platform designed and engineered to access the tray on the CAT AD45. Certified compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- Stairway parallel to the platform deck to reduce platform footprint.
- Non-slip stairway and work area
- High quality castor wheels
- Handrails fully removable
- Self-closing gate at the top of the stairs

TRAY / TUB ACCESS PLATFORM****Part No. 5501846**

A platform designed for the safe, certified and compliant access to the tray of the CAT AD55 DNW and JNW. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- Non-slip stairway and work area
- Safety handrails
- Self-closing gate
- High quality castor wheels
- Foldable handrail wings that align with the edges of the tray
- Fitted with jacking stands

**CAT AD55
HYDRAULIC RAM CLAMP SET – 597MM****Part No. 5501387**

Our tub lifting ram clamp is designed and engineered for the CAT AD55. We designed this solution due to the OEM lockout devices not providing enough height for critical maintenance to the rear axle and diff area.

Features:

- Heavy-duty steel construction
- Manual handling weights no greater than 15kg
- Eliminates the need to setup labour intensive heavy-duty support stands
- 2 x supports included
- Certified and compliant with Australian Standards

CAT AD60 REAR TRANSMISSION ACCESS PLATFORM

Part No. 5503486

A safe, certified and compliant access platform designed and engineered to access the mid-section of the CAT AD60. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- High quality castor wheels
- Forklift slots
- Fitted with jacking stands
- Self-closing gates

CAT AD60 FRONT ACCESS PLATFORM

Part No. 5503472

A safe, certified and compliant access platform designed and engineered to access the front end of the CAT AD60. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 600kg per platform section
- Platforms allow easy access to the front of the cab and around the sides
- Modular design, split into 3 sections for ease of transport and use
- Sections simply latch together
- Double height handrails at points to prevent falls
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- Drop-in removable handrails between sections
- High quality castor wheels
- Self-closing gates
- Forklift slots

CAT AD60 TUB TRANSPORT FRAME

Part No. 5303154

The transport frame is designed and engineered for the safe, efficient and easy movement of CAT AD60 tubs in the field.

Features:

- Heavy-duty steel construction
- WLL: 14T
- Rubber pads on contact surfaces
- Fitted with heavy-duty roller wheels
- Painted to specific requirements
- Forklift slots

CAT AD60 TUB WORKSHOP FRAME

Part No. 5503154

The workshop frame is designed and engineered to allow for safe, efficient and easy maintenance or refurbishment of AD60 and MT65 tubs in the workshop.

Features:

- Heavy-duty steel construction
- WLL: 14T
- Rubber pads on contact surfaces
- Heavy-duty grating deck
- Painted to specific requirements
- Forklift slots

CAT AD60 SKID STAND

Part No. 5502519

A stand used for the skid on the CAT AD60, engineered and certified in compliance with Australian Standards.

Features:

- Heavy-duty steel construction
- WLL: 25T
- Finished in Y-14 safety yellow
- Height: 550mm
- Forklift slots

CAT AD63 HANDRAIL STORAGE RACK

Part No. 5507477

Suits ROX's OEM replacement handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

CAT AD63 TRANSMISSION ACCESS PLATFORM

Part No. 5506357

A platform designed and engineered to allow technicians/operators to safely access the transmission for maintenance. LH and RH platforms lock together. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- Latch locking design
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Bolt-on handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jacking stands
- Self-closing gates
- Forklift slots

CAT AD63 TRAY/TUB ACCESS PLATFORM

Part No. 5506359

A platform designed and engineered to provide safe and efficient access to the tray of the CAT AD63. Swing out gates block off gaps that technicians/operators could fall out of and can be wheeled or forklifted into position. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- Latch locking design
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Bolt-on handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jacking stands
- Self-closing gates
- Swing gates with magnetic clamps
- Forklift slots

CAT AD63 FRONT ACCESS PLATFORM

Part No. 5506355

Platform to fit around the front of the machine for easier and safe access during maintenance. Covers both sides with step access. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 600kg
- Latch locking design
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Bolt-on handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jacking stands
- Self-closing gates
- Removable handrails
- Forklift slots

EPIROC MT6020 - TIER 2 HANDRAIL STORAGE RACK

Part No. 5503985

Epiroc MT6020 Handrail - full set. Suits ROX OEM replacement handrails. Certified and compliant with Australian Standards. This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

EPIROC MT6020 HYDRAULIC RAM CLAMP SET - 1780MM

Part No. 5502784

Our tub lifting ram clamp is designed and engineered for the Epiroc MT5020 and MT6020 underground machines. We designed this solution due to the OEM lockout devices not providing enough height for critical maintenance to the rear axle and diff area. Certified and compliant with Australian Standards.

Features:

- WLL: 8T each set
- Safe and supported load during maintenance
- Provides the height and safety required for maintenance
- Easy to install and lock into place
- Allows necessary access to the rear axle and diff area
- Load rated handles for hoist install
- Set includes two clamps
- Suits Tier 1 and Tier 2

EPIROC MT54 / MT65 TRUCK HANDRAIL STORAGE RACK ACCOMMODATES CAB-UP HANDRAILS

Part No. 5600816

Epiroc MT54 / MT65 Truck Handrail – full set. Suits ROX OEM replacement handrails. Certified and compliant with Australian Standards. This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Accommodates cab-up handrails
- Forklift slots
- Handrails not included

EPIROC MT65 HANDRAIL STORAGE RACK

Part No. 5502897

Epiroc MT65 2017 and Beyond Handrail - full set. Suits ROX OEM replacement handrails. Certified and compliant with Australian Standards. This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

EPIROC MT65 REAR TRAY ACCESS PLATFORM

Part No. 5503288

A platform designed and engineered to provide safe and efficient access to the rear tray of the Epiroc MT65 for maintenance and inspection. Includes jacking stands with wheels to allow for tray height variances. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- Non-slip, serrated grating for deck and stair treads
- Non-slip nosings on all stair treads
- Self-closing gate
- Swinging side gates for protection when in tray
- Bolt-on handrails
- Suits tray heights between 2.4-2.6m
- Internal tray width of 3.3m minimum

EPIROC MT65 TRANSMISSION ACCESS PLATFORM

Part No. 5503302

A platform designed and engineered to provide safe and efficient access to the transmission area of the Epiroc MT65 for maintenance and inspection. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg per platform
- Platforms split in the middle and latch together
- Non-slip, serrated grating for deck and stair treads
- Non-slip nosings on all stair treads
- High quality castor wheels
- Heavy-duty levelling jack stands
- Self-closing gates
- Forklift slots

EPIROC MT65 WINDSCREEN ACCESS PLATFORM

Part No. 5507922

An engineered and certified solution which provides safe and efficient access to the windscreens on the Epiroc MT65 drill. Ideal for windscreen changeout, maintenance or inspection.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 150kg
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Bolt-on safety handrails with kickplates
- High quality German made Castor Wheels
- Safety drop bar

EPIROC MT65 CAB OFF ENGINE ACCESS PLATFORM

Part No. 5607921

A certified access platform designed to provide safe and efficient access to the engine of the Epiroc MT65 underground truck when the cab is removed. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Green bolt-on safety handrails with kickplates
- High quality German made castor wheels
- Self-closing gate
- Forklift slots

EPIROC MT65 FRONT ACCESS PLATFORM SET

Part No. 5503190

A platform designed and engineered to provide safe and efficient access around the front of the Epiroc MT65 for maintenance and inspection. Includes jacking stands with wheels to allow for height variances. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 600kg
- Platforms split in three parts and latch together
- Non-slip, serrated grating for deck and stair treads
- Non-slip nosings on all stair treads
- Self-closing gates
- Forklift slots

EPIROC MT65 OIL POINT ACCESS PLATFORM

Part No. 5503982

A platform designed and engineered to provide safe and efficient access to the oil changing point of the Epiroc MT65 for maintenance and inspection. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 150kg
- Non-slip, serrated grating for deck and stair treads
- Non-slip nosings on all stair treads
- Safety handrails with kickplates
- High quality castor wheels
- Heavy-duty levelling jack stands
- Self-closing gates
- Forklift slots

EPIROC MT65 TRAY TRANSPORT FRAME

Part No. 5403154

Features:

- Heavy-duty steel construction
- WLL: 14T
- Rubber pads on contact surfaces
- Fitted with heavy-duty roller wheels
- Rated tie-down points
- Forklift slots

EPIROC MT65-AD60 TRAY WORKSHOP FRAME

Part No. 5503154

Features:

- Heavy-duty steel construction
- WLL: 14T
- Rubber pads on contact surfaces
- Fitted with heavy-duty roller wheels
- Rated tie-down points
- Forklift slots

EPIROC MT65 HYDRAULIC RAM CLAMPS

Epiroc MT65 Hydraulic Ram Clamp - 663mm

Part No. 5507739

Epiroc MT65 Hydraulic Ram Clamp Set - 1,834mm

Part No. 5503172

Designed and engineered to provide safe lockout for critical maintenance. This design is suited to workshops unable to lockout the tub to its full height. Certified and compliant with Australian Standards.

Features:

- Heavy-duty steel construction
- WLL: 16T
- 2 x ram lockout clamps
- Nylon strip on inside to protect cylinder
- Dentent pins to stop support coming off
- Lifting handles & lifting lug

EPIROC MT65 TUB RAM CLAMP SET

Part No. 5503172

Features:

- Heavy-duty steel construction
- WLL: 14T
- Set includes 2 clamps
- Suits both MT65 prior and beyond 2017 year builds

SANDVIK LH517i REAR ACCESS PLATFORM SET

Part No. 5606502

A platform designed and engineered to safely and efficiently access rear components of the Sandvik LH517i for maintenance and inspection. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg per platform
- 2-piece design, platforms latch together
- Non-slip, serrated grating for deck and stair treads
- Non-slip nosings on all stair treads
- High quality castor wheels
- Heavy-duty levelling jack stands
- Self-closing gates
- Bolt-on safety handrails with kickplates
- Forklift slots

SANDVIK LHS17i HANDRAIL STORAGE RACK - 2018 & BEYOND

Part No. 5600789

A heavy-duty steel storage frame for Sandvik LHS17i Handrails (2018 & Beyond). Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

Includes:

- Carabiners
- Tether point
- Retractable fall arrest block

SANDVIK LHS17i FALL ARRESTOR TETHER KIT

Part No. 5504910

A solution to provide operators/fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator.
- Tether mechanism locks when sudden movement is detected (e.g. losing balance), preventing tripping and/or falling from machine.
- Uses existing bolts/fittings on the roof and engineered and certified brackets for retractable fall arrest tethers to attach to.
- Suits R1300 R1600 1700K/G

**SANDVIK LH517 / LH517i
TILT CYLINDER GUARD**

Part No. 5601271

Suits Sandvik LH517 and LH517i.
OEM No. 56023147

Features:

- Direct OEM replacement
- Heavy-duty steel construction
- Finished in Sandvik Red
- Stocked for immediate despatch

SANDVIK TH551/i & TH663/i HANDRAIL STORAGE RACK

Part No. 5502978

A designed, engineered and certified storage solution for Sandvik TH551/i & TH663/i handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Handrails not included

SANDVIK TH551/i & TH663/i HANDRAIL STORAGE RACK - LOW FOLDING & REAR SET ACCOMMODATION

Part No. 5506108

A designed, engineered and certified storage solution for Sandvik TH551/i & TH663/i low folding and rear handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Lockable hinges
- Handrails not included

SANDVIK TH551/i & TH663/i HANDRAIL STORAGE RACK - LOW FOLDING FRONT SET ONLY

Part No. 5504560

A designed, engineered and certified storage solution for Sandvik TH551/i & TH663/i front low folding handrails. Certified and compliant with Australian Standards.

This handrail storage rack allows sites to access replacement handrails quickly and easily, without waiting for freight.

Features:

- Heavy-duty steel construction
- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets
- Forklift slots
- Lockable hinges
- Handrails not included

*Does not accommodate rear handrails.

Includes:

- Carabiners
- Tether point
- Retractable fall arrest block

SANDVIK TH551/i & TH663/i FALL ARRESTOR TETHER KIT

Part No. 5504909

A solution to provide operators/fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator.
- Tether mechanism locks when sudden movement is detected (e.g. losing balance), preventing tripping and/or falling from machine.
- Uses existing bolts/fittings on the roof and engineered and certified brackets for retractable fall arrest tethers to attach to.

SANDVIK TH663 TRANSMISSION ACCESS PLATFORM

Part No. 5504061

A platform designed and engineered for safe and efficient access to the mid section of the Sandvik TH663 for maintenance and repairs. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg per platform
- 2-piece design, platforms latch together
- Non-slip, serrated grating for deck and stair treads
- Non-slip nosings on all stair treads
- High quality castor wheels
- Heavy-duty levelling jack stands
- Self-closing gates
- Bolt-on handrails

SANDVIK TH663 TRAY ACCESS PLATFORM

Part No. 5507377

A certified access platform designed and engineered to safely and efficiently access the rear tray/tub on the Sandvik TH663 for maintenance and inspection.

Features:

- Full TIG Welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- Non-slip, serrated grating work deck and stair treads
- Non-slip nosings on all stair treads
- Bolt-on safety handrails with kickplates
- Swinging lockable handrails
- Self-closing gates
- Bolt-on handrails
- Heavy-duty levelling jacking stands
- High quality German made castor wheels

SANDVIK RHINO R100H WALKWAY AND STEPS

Part No. 5504997

Access and walkway steps made to make maintenance safer and more efficient on the Sandvik Rhino R100H. Designed and built to withstand the harshest underground mining environments.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- Bolt-on handrail with self-closing gate
- Non-slip serrated grating and nosings
- Removable handrails on outer side
- Slide-out handrail

**SANDVIK RHINO R100H
JACKING LEG CLAMPS****Part No. 5509273**

Our jackstand clamps are designed and engineered for safe maintenance on the Sandvik R100H Rhinos. Provides a safe and supported load during maintenance. Certified and compliant with Australian Standards.

Features:

- Heavy-duty steel construction
- WLL: 30,000kg
- Easy to install and lock into place
- Load rated handles for hoist install

SANDVIK JUMBO DRILL JACKING LEG CLAMP

Part No. 5509452

Features:

- Heavy-duty steel construction
- WLL: 20T
- Weight: 10kg
- Easy to install and lock into place
- Load rated handles for hoist install

SANDVIK DD421 WINDSCREEN CHANGEOUT ACCESS PLATFORM

Part No. 5504201

Ideal for windscreen changeout, maintenance and inspection.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 150kg
- Heavy-duty castor wheels
- Self-closing gate
- Removable end handrail
- Forklift slots

SANDVIK DD421 DRILL ARM STAND

Part No. 5505757

A certified stand which is positioned underneath the DD421 drill arm hydraulic swivel during maintenance to stop rolling when pressure is released.

Features:

- Heavy-duty steel construction
- WLL: 10T
- Fitted with lifting lugs
- Adjustable cradle head
- Y-14 Safety Yellow
- Locking rod
- Forklift slots

SANDVIK DD421 DRILL ARM STAND & WHEELS

Part No. 5507100

A stand which is positioned underneath the DD421 drill arm hydraulic swivel during maintenance to stop rolling when pressure is released. Fitted with heavy-duty wheels for ease of movement.

Features:

- Heavy-duty steel construction
- WLL: 10T
- Fitted with lifting lugs
- Adjustable cradle head
- Y-14 Safety Yellow
- Locking rod
- Forklift slots

SANDVIK DD421 JUMBO DRILL FEED STAND

Part No. 5504159

A stand designed for safety and efficiency during jumbo drill feed maintenance. Certified and compliant with Australian Standards

Features:

- Full TIG welded heavy-duty aluminium
- WLL: 2.5T
- Rubber padding on contact surface

VOLVO L120F WHEEL LOADER

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

VOLVO L120F ACCESS LADDER & STEP

Part No. 5504998

An OEM replacement access ladder and step designed and engineered to provide safe entry to the Volvo L120F.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- Non-slip checkerplate treads
- Full bolt-on mid-folding design
- Hi-spec surface treatment finish in Volvo yellow over a primary zinc coating for enhanced protection

VOLVO L120F MOUNTED HANDRAILS

Part No. 5504271

A comprehensive set of handrails designed and engineered to provide fall protection on the Volvo L120F wheel loader.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- Full bolt-on mid-folding design
- Hi-spec surface treatment finish in Volvo yellow over a primary zinc coating for enhanced protection

VOLVO L120F WINDSCREEN CHANGEOUT PLATFORM

Part No. 5504108

An engineered and certified solution which provides safe and efficient access to the windscreen on the Volvo L120F wheel loader. Ideal for windscreen changeout, maintenance or inspection.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 150kg per platform
- LH & RH platform configuration
- Non-slip serrated grating for deck and stair treads
- Non-slip nosings
- Heavy-duty castor wheels
- Latch system included to attach two platforms
- Self-closing gates

VOLVO L120F ACCESS PLATFORM

Part No. 5501968

A platform set designed and engineered to provide safe and efficient access to the Volvo L120F wheel loader for maintenance and inspection. Certified and compliant with Australian Standards.

Features:

- Full TIG welded, heavy-duty aluminium RHS construction
- WLL: 250kg
- LH & RH platform configuration
- Non-slip stairway and work area
- Safety handrails
- Heavy-duty castor wheels
- Overhangs for easy access
- Easy workshop mobility during loader servicing
