AcuSeek Application for Business Parks

What challenges do business parks face?

- Unauthorized visitors or suspicious individuals enter the business park – Security teams can't easily identify these people across the park.
- Employees forget where they parked at the end of the day – Manual searches make it hard to help staff locate their cars.

How does AcuSeek help here?

Type the words, and get the clue instantly!

person wearing black baseball cap

white Mercedes SUV

Key advantages of AcuSeek

1
Search Broadly
Search for objects such as people and cars, or find specific items by connecting them to a certain feature, like searching a car by type, color, or make.

2
Search Accurately
You provide detailed text input, and the system will understand the nuances to reduce false matches.

3
Search Instantly
Get results in seconds from hours of video footage – no more manual searching frame by frame.

4
Search Flexibly
Use shortcuts like "find persons" and "find cars," and customize your own search keywords.
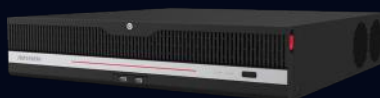

Seamless system integration
