

SecuraSlim™ STAGE COLLAR

The Slimmest Collar for the Toughest Wells.

Engineered for the Permian Basin's toughest conditions, the **SecuraSlim™ Stage Collar** has **the smallest OD on the market.**

Our patent pending design meets full drift requirements, matching casing ID without compromise.

Why SecuraSlim™?

Smallest OD on the Market

Navigate tight clearance zones with ease, perfect for New Mexico's strict hole-to-pipe spacing regulations.

Casing String Cost-Savings

Run smaller casing sizes without sacrificing performance. Save on material costs while maintaining full strength.

Strength You Can Trust

Matches casing burst and collapse ratings, so your stage collar is never the weak link in your string.

8.625" 32# Stage Collar

Casing Size	8 5/8 in
Casing Weight	32 lb/ft
Casing Grade	P110-ICV
Burst	9180 psi
Collapse	4,000 psi
Temp Rating	300 ° F
Max OD	9 in

BUILT FOR THE PERMIAN BASIN

SecuraSlim™ delivers unmatched reliability in the tightest spaces. It's small but strong, enabling casing that saves money and maximizes performance from surface to total depth.

Where clearance is tight, SecuraSlim™ delivers.
