whitehots

What is SOLARO?

- SOLARO content is aligned to each province's curriculum
- FREE to use from anywhere on *any* device with a valid library card
- SOLARO supports your commitment to helping students **maximize their learning potential**
- SOLARO guides students in **grades 3-12** on a pathway to success in Math, Science, and English

SOLARO is your one-stop, online study guide, accessible across multiple devices. Study better, and faster with resources for Mathematics, Science and English for Grades 3-12. Students get access to all of SOLARO's content at any time.

SOLARO super-charges studying with easy access to instructional content, quality questions, self-assessments, and end-of-year tests. Practice questions include Multiple Choice, Numerical Response, and Technology-Enhanced interactive types, including Drag-and-Drop and Graphing interactions.

Whitehots is proud to partner with Castle Rock Research as the official distributor of SOLARO in Eastern Canada.

Student Dashboard

Easy access to instructional content,
quality questions, self-assessments,
and end-of-year tests

The screenshot shows the Solaro Student Dashboard. At the top, there is a green header with the Solaro logo and user information: "Wed 07/26/14 School" and "Wynn". Below the header, the "My Classes" section displays a grid of class tiles. Each tile has an icon, a class name, and a gear icon for settings.

Class Name	Icon
Biology 20	Microscope
Biology 30	Microscope
Chemistry 20	Chemical structure
English 20-1	Books
English Language Arts 3	Books
Math 7	Math symbols

The screenshot shows the Solaro Practice Quiz interface. The header includes the Solaro logo and the time "2:08:27". The navigation path is "Home > Mathematics 6 > Statistics and Pr... > Displaying Data > Practice Quiz". The quiz title is "Practice Quiz" with progress indicators 1 through 6. The question text is "The given table shows the change in population of a town over fi".

Year	2001	2002
Population (thousands)	5	5

Q: Which of the following line graphs correctly displays the information?

For Grades 3-12

Solaro guides students in Grades 3-12 on a pathway to success in Math, Science, and English.

Parental Portal

The parent portal provides access to student activity reports and achievement results

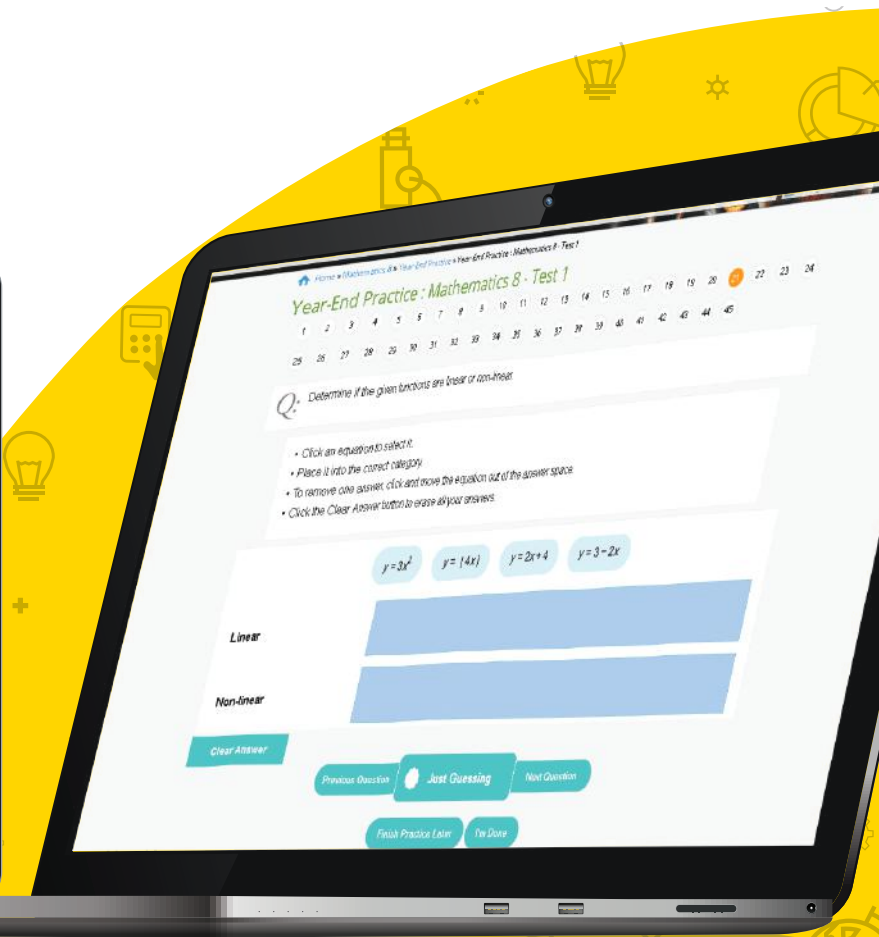

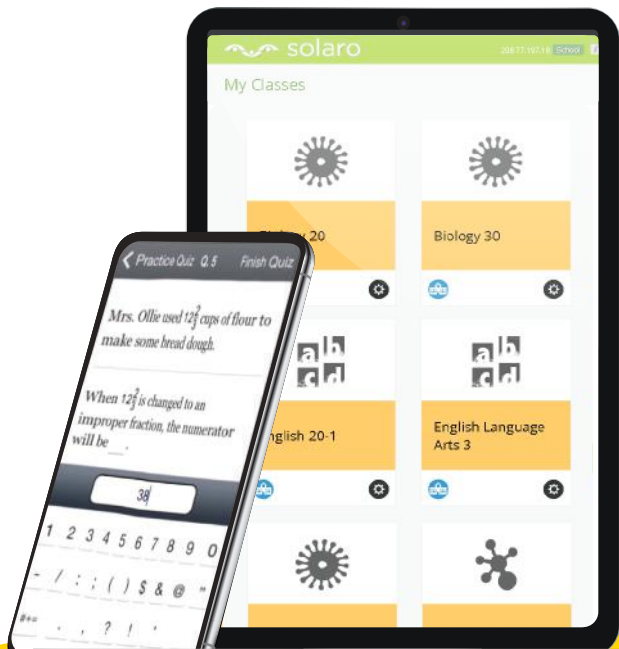

Study anywhere, anytime. Access SOLARO on Mobile.

SOLARO is **FREE** to use from anywhere on any device with a valid library card.

Educational content optimized and compatible with iOS, Android and Windows 8 devices.

Flash cards, notes, and quizzes are accessible and synced across all devices.

“ ...it’s such an important and worthwhile resource that students will use at all ages. ”

- Laura Taylor, Assistant Director of
Marigold Library System

“ SOLARO provides an impressive interface for students and parents within our branches. Many students do not have access to curriculum-based resources—their only way to do that is by visiting their local branch... We have been very happy and content with the addition of SOLARO to our repertoire. ”

- Peter Schoenberg,
Edmonton Public Library
