PRODUCT KEY

New 28" and 18" Holographic and Max Float balloons now made with 40% recycled material!

The highest quality latex balloons available in over 85 vibrant colors, 14 sizes, and 8 finishes.

FEATURE CALLOUTS

High strength film that floats 4 times longer than traditional mylar.

Holographic film produces colorful balloons that shift with light to create a striking, iridescent effect. Available in three unique holographic styles.

Vibrant non-foil balloons with a brilliant shine, available in 21" rounds/hearts and a variety of unique shapes. High-altitude friendly and completely non-conductive.

The advantages of Mighty Bright® coupled with a crystal clear finish.

Two pre-attached balloons, each with its own inflation point, come together to form one big, eye-catching display. For many styles the bottom balloon can be air-filled, reducing helium use.

Our satin film finish offers a smooth, soft sheen for an elegant high-end look.

14" heat-sealed air-filled foil shapes.

An air-filled balloon with a built-in base. Self-sealing, refillable, and perfect for quick, hassle-free centerpieces and displays.
