MILA CONVOCATION CROWNING THE FUTURE

The MILA Convocation masthead symbolises how each graduate rises, supported by the strength of the institution and prepared to shape what comes next. It captures the spirit of growth, transformation and confident leadership.

MILA CONVOCATION CROWNING THE FUTURE

“

A symbol of rising,
transforming and
stepping confidently
into the future.

”

The Story Behind the Design

The graduation cap, or mortarboard, placed above the MILA wordmark acts as a crown, turning the “I” into a symbol of growth and elevation. It reflects how every graduate stands taller with the guidance, support and opportunities the university provides.

The deep red background carries a sense of ambition and momentum. The gold gradient suggests achievement, confidence and the promise of a bright future. Together, these elements express what MILA aims to give each student: not only the knowledge to succeed, but the strength to lead, innovate and shape tomorrow.

This design honours the journey so far and looks ahead to the future that every graduate is now prepared to create.
