GENERAL INFORMATION

History of formation and development

OPC Pharmaceutical Joint Stock Company, formerly known as **TW 26 Pharmaceutical Enterprise - OPC**, was established on October 24, 1977 based on merging from 8 private apothecary institutes in Saigon before. In the early days of establishment, the office and factory were built on an area of about 7,000 m², with just over 100 employees and were oriented to develop on the basis of producing drugs from inherited medicinal herbs and promoting traditional medicine.

Since the 1990s, **TW26 Pharmaceutical Enterprise - OPC** has become a strong exporter in the pharmaceutical industry with a turnover of about 1.4 million USD and an average growth rate of 15%/year. Golden Star Balm and OPC products have been present in 15 countries around the world such as Eastern Europe, Germany, France, etc.

On February 8, 2002, **TW26 Pharmaceutical Enterprise - OPC** was equitized with the name **OPC Pharmaceutical Joint Stock Company**, which is one of the State Pharmaceutical Enterprises under the Ministry of Health equitizing early and most successful.

Today, OPC is proud to be one of the leading pharmaceutical companies in Vietnam in the field of manufacturing and trading pharmaceuticals derived from medicinal herbs. OPC currently has nearly 1,000 employees under 22 departments and a system of 09 branches spread across the country and 03 manufacturing plants meeting GMP-WHO standards with GACP-certified medicinal herbs growing areas.

“ In 2022, the General Meeting of Shareholders decided on the company's strategic steps in the coming time, specifically issuing shares to increase capital to VND 651,143,360,000. ”

GENERAL INFORMATION

Vision, mission and core values

GENERAL INFORMATION

Important milestones

▶ 1977

October 24, 1977 was established on the basis of merger from 8 private apothecary institutes in Saigon before.

1985

OPC was the first unit interested in marketing since 1985, with the forms of brand promotion. Although such marketing activities at that time were very simple, but very effective that facilitated introducing the company's image and products to consumers from urban to rural areas across the country.

1994

In 1994, OPC was the strongest exporter in Vietnam Pharmaceutical Corporation with a turnover of 1.4 million USD. Golden Star Balm and OPC products were present in 15 countries around the world.

2002

In 2002, TW26 Pharmaceutical Enterprise - OPC transformed into joint stock model - named OPC Pharmaceutical Joint Stock Company, with initial charter capital of 20 billion dong, is one of the state-owned pharmaceutical enterprises under the Ministry of Health equitized early and most successfully.

1999

In 1999, GMP-ASEAN applied for the first soft capsule line in Vietnam.

1998

Introduced Kim Tien Thao "Old Man", the first herbal medicine for kidney stone in Vietnam market. In this respect, one of the 10 most prominent events of Vietnam Pharmaceutical Corporation was "Having OPC Kim Tien Thao for kidney stones makes me feel secure".

2003

In July 2003, OPC officially completed the establishment of GMP-ASEAN for the entire manufacturing plant.

2005

In 2005, OPC was one of the first traditional medicine manufacturers to be certificated GMP - GLP - GSP, in addition, certificated ISO 9001:2000 by the Dutch DNV-UKAS organization.

2007

In 2007, established Subsidiary - OPC Binh Duong Pharmaceutical Co., Ltd with charter capital of 15 billion VND.

2010

In 2010, established OPC Bac Giang Pharmaceutical Joint Stock Company.

2009

In 2009, launched the GMP-WHO plant in Binh Duong on an area of 5.6 hectares, the initial investment capital was up to trillions of dong and was re-certified to ISO 9001:2008.

2008

In 2008, listing on the stock exchange (coded: OPC), OPC has ethanol factory, the first one in the country to be granted GMP-WHO certificate.

GENERAL INFORMATION

Important milestones

2011

In 2011, an important milestone in the relocation of the factory to Binh Duong, an advanced step in OPC's strategy of scale development and production expansion.

2012

In March 2012, OPC Binh Duong Pharmaceutical Factory was certified GMP-WHO standard, quality control system meets GLP standard, warehouse system meets GSP standard.

2014

In July 2014, OPC Bac Giang Pharmaceutical factory was certificated GMP-WHO by the Ministry of Health.

2018

In June 2018, the Department of Traditional Medicine Management - Ministry of Health of Vietnam officially received Declaration of Medicinal Materials produced under GACP - WHO for 2 medicinal herbs: Kim Tien Thao and Cao Ich Mau.

2016

September 2016, officially owned TW25 Pharmaceutical Joint Stock Company (Uphace).

2015

In July 2015, Kim Tien Thao medicinal herbs planting area in Bac Giang satisfied GACP standards.

2020

In June 2020, Dinh Lang medicinal herb planting area on an area of 7.2 hectares in Chu Se district, Gia Lai province was granted the Certificate of GACP - WHO by the Department of Traditional Medicine Management - Ministry of Health of Vietnam.

2021

In 2021, OPC was officially named in the Top 100 domestic manufacturing enterprises with revenue exceeding

VND **1.000 billion**

and at the same time achieve the dual goal of both joining hands with the health industry to fight the epidemic while providing essential products to the community in a timely manner.

2022

2022: Issued shares.
Increased charter capital to over 640 billion VND.

2024

2024: Applying SAP - ERP software. Celebrating the Digitalization of Vietnamese Natural Drugs Database at the R&D Center.

2023

2023: OPC PHARMA expanded its herbal cultivation network with four new GACP-WHO certified areas. Concurrently, OPC PHARMA achieved ISO 22000:2018 certification. To further enhance innovation, OPC established an R&D center at its headquarters, leveraging AI to drive research and development.

PROSPECTS & RESOURCES

Quality raw materials

The major scope of OPC specializes in manufacturing and trading of medicines from medicinal herbs, therefore, from a very early age, it was aware that establishing medicinal herbs growing areas for key products is very important. Thus, in March 2010 OPC Bac Giang Pharmaceutical Joint Stock Company was established. Currently, OPC Bac Giang owns the GACP-WHO standard GACP-WHO medicinal plant area in Yen Dung district, Bac Giang province, providing 65 tons of dried medicinal herbs per year. The planting area of Dinh Lang material meets GACP-WHO standards on an area of 7.2 hectares in Chu Se district, Gia Lai province. Currently, OPC Bac Giang owns GACP-WHO certified planting areas of Kim Tien Thao, Cao Ich Mau on an area of 7.5 hectares, providing 65 tons of dried medicinal herbs per year. standard GACP-WHO medicinal plant area in Yen Dung district, Bac Giang province, providing 65 tons of dried medicinal herbs per year. In addition, it owns GACP-WHO certified planting area of Dinh Lang on an area of 7.2 hectares in Chu Se district, Gia Lai province.

PROSPECTS & RESOURCES

Quality raw materials

PROSPECTS & RESOURCES

Quality raw materials

PROSPECTS & RESOURCES

Advanced research technology

Product research and development is one of the spearheads of OPC to carry out strategic tasks in the field of investment and research and development of new breakthrough-oriented products in disease prevention and treatment. In addition to the human factor, the advanced equipment is invested by OPC at the R&D pilot room with a cluster of machines: high-speed mixer, fluidized bed dryer, film coating machine, sugar coating machine, pilot-scale pelletizing machine with optimal systems in the laboratory such as: HPLC machine cluster, GC machine cluster, atomic absorption spectrometer cluster, especially equipped with AAS heavy metal quantitative equipment, ...

PROSPECTS & RESOURCES

State-of-the-art production line

OPC Pharmaceutical Factory is located in Tan Uyen town - Binh Duong province with an area of 80,000m² with an initial investment of up to trillions of VND, meeting GMP - WHO standards with a production capacity of more than 1,500 million pills; 50 million liters of liquid medicine and over 1,000 tons (nuggets, powders, other suspensions) per year.

PROSPECTS & RESOURCES

State-of-the-art production line

MULTI-FUNCTIONAL EXTRACTION SYSTEM

Is invested with the most state-of-the-art extraction technology, with a capacity of 4 tons of medicinal herbs/day. The system can extract not only the active ingredients in medicinal herbs with hot water, but also use a variety of other solvent systems, especially ethanol reflux extraction. The system ensures that the desired therapeutically active ingredients are extracted. In addition, essential oils can also be extracted from medicinal plants.

HIGH VACUUM CONCENTRATION

Is invested based on two parameters that determine the quality of herbal extracts: low temperature and reduced pressure, the concentration rate is about 1000 liters / 1 hour.

PROSPECTS & RESOURCES

State-of-the-art production line

TABLET BARTENDING SYSTEM WITH MACHINE CLUSTERS

High speed mixer, fluidized bed dryer, 1 ton cone 2-head mixer. With high-speed mixing and modern fluidized bed drying with a capacity of 200kg/batch, with a 2-head cone mixer, the batch can be mixed up to 1 ton.

PROSPECTS & RESOURCES

State-of-the-art production line

THE SYSTEM OF FILM COATING AND SUGAR COATING MACHINES

With the most state-of-the-art film and sugar coating technology and fully automated process. OPC company has successfully applied this cluster of film and sugar coating machines in many products which gained trusted and accepted by the market for decades such as: Kim Tien Thao Kidney Stone Treatment (sugar coated), Kim Tien Thao Kidney Stone Medicine (film-coated), MIMOSA Sedative Tablets, PYLANTIN Diep Ha Chau Tablets,...

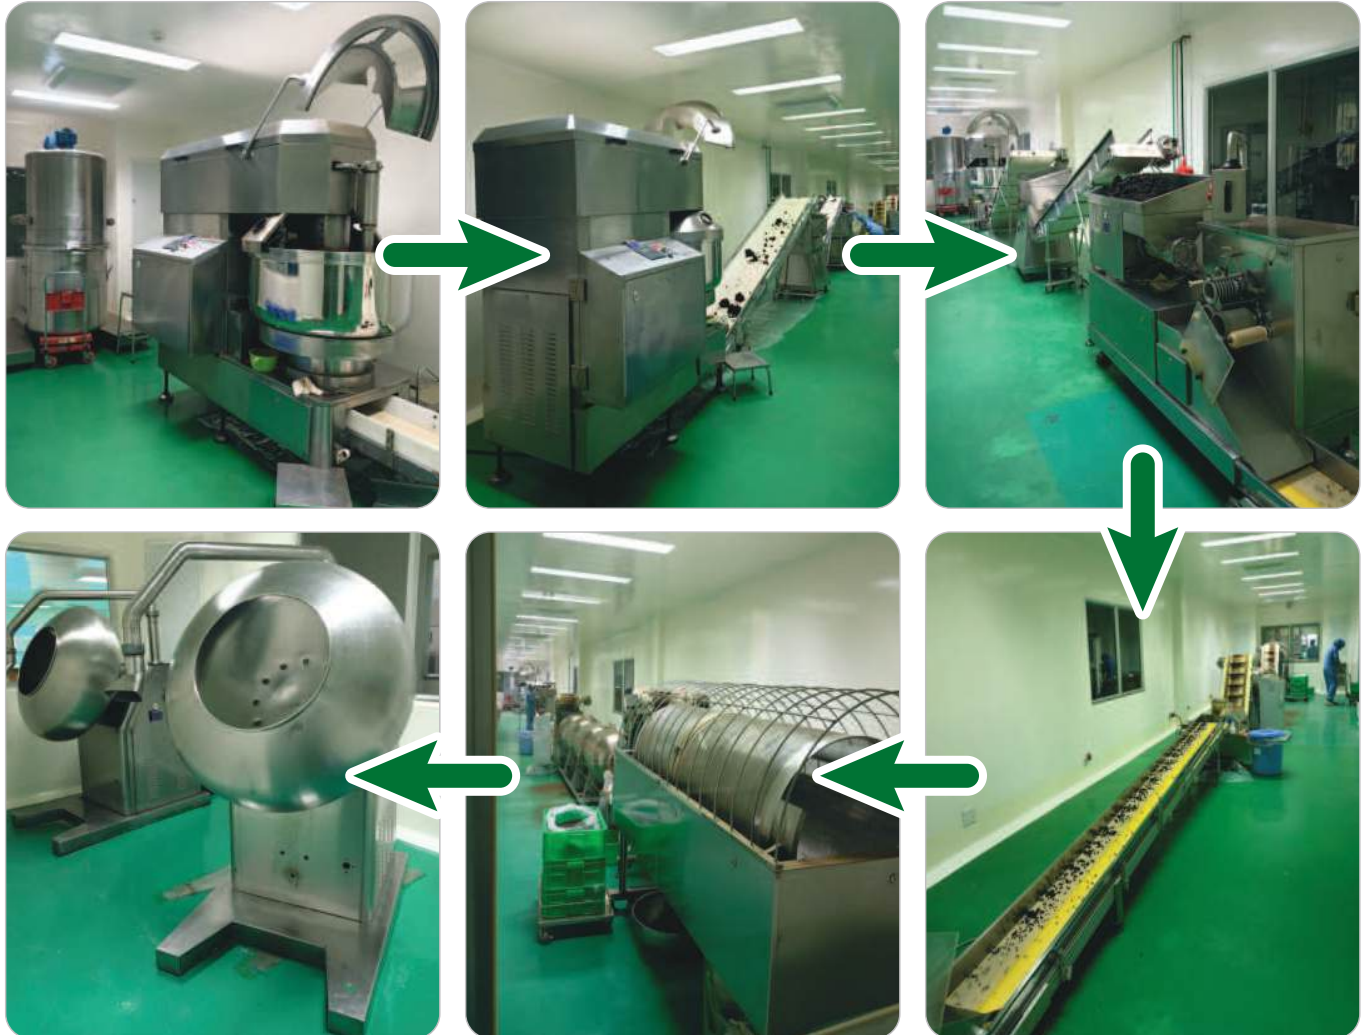

PROSPECTS & RESOURCES

State-of-the-art production line

PILL BARTENDING SYSTEM

Automation from mixing raw materials, dividing, finishing, drying, packaging. The process is fully homogenized with a capacity of 1.2 tons/day.

PROSPECTS & RESOURCES

State-of-the-art production line

SOFT CAPSULE PRODUCTION SYSTEM

With a capacity of 1 million tablets/day imported from Korea. During the recent COVID-19 pandemic, many OPC soft capsule products have gained reputation in the market, contributing to the prevention of the epidemic, many products are trusted and appreciated in the community. Among them are: EUCA OPC, TUSSIDAY Cough Tablet, Vitamin AD,....

PROSPECTS & RESOURCES

State-of-the-art production line

PRODUCTION SYSTEM OF EFFERVESCENT TABLETS, EFFERVESCENT POWDERED NUGGETS

The production line meets GMP-WHO standards with an output of 1 ton/day, making a great contribution to health care and disease treatment for people during the COVID-19 epidemic period such as: MULTI VITAMIN OPC Orange flavor, VITAMIN C 1000MG, VITAMIN C 100 mg Orange flavor, PARA-OPC 80 mg, PARA OPC 250 MG,...

PROSPECTS & RESOURCES

Prestigious partner

“Affirming its brand position as a strong pharmaceutical corporation in Vietnam and ready to reach out to the great sea, **OPC** signed a memorandum of understanding with **Aribio, a Korean partner**, jointly developing a cooperation plan to effectively exploit the resources and advantages of the two sides. Especially the transfer and application of AI technology in apothecary and production of health supplements and drugs derived from Vietnamese medicinal herbs.”

BASIC INFORMATION

Business network

OPC has built a distribution system with 09 branches operating mainly in provinces such as: **Hanoi, Nghe An, Da Nang, Nha Trang, Vung Tau, Southeast, HCMC, Tien Giang, Can Tho.** The team of pharmacists has covered all provinces and cities in the territory of Vietnam.

In the trend of integration, OPC continues to strongly develop its overseas distribution network in some traditional markets in **Nigeria, Cambodia, Laos, Mondova, Philippines, Russia.....**and is developing into new markets such as: **Thailand, Myanmar,..**contributing to increase in export sales as a solid foundation for the strategy of expanding to the world market.

BASIC INFORMATION

Business network

SOCIALLY RESPONSIBLE ACTIVITIES

Activities launched by OPC throughout the year such as taking care of poor children, supporting needy families, gratitude fund, scholarship fund for poor studious students, fund joining hands with people facing natural disasters disaster – flood protection, charity medical examination and treatment, blood donation, etc. are the ways that OPC practices its social responsibility to the community.

The background of the slide features a close-up of a green leaf. A single, clear drop of oil is suspended in mid-air, having just fallen from the tip of the leaf. Below the drop, the top of a clear glass jar is visible. The overall color palette is dominated by various shades of green, with the oil drop adding a touch of amber.

[PRODUCT PORTFOLIO]

CARDIOVASCULAR

Category

Cardiovascular

CORTONYL[®] OPC

Cardiotonic, faint due to heart failure.

INGREDIENTS: For 1 bottle of 25 ml

Active pharmaceutical ingredients:

Sodium camphosulfonate.....2,5 g

Herba Passiflorae foetidae.....5,0 g

Excipients:

Benzoic acid, sugar, ethanol 96%, purified water.

USES: Cardiotonic, faint due to heart failure.

Insomnia, overwork, sedative. **DIRECTIONS:**

Adults: take orally 2 times per day, each time 20 - 50 drops diluted with about 30 ml of water.

Children: take orally 2 times per day, each time 10 - 15 drops diluted with about 15 ml of water.

Or follow doctor's instructions.

CONTRAINDICATIONS:

Children under 30 months of age, children with a history of epilepsy or febrile convulsion.

People driving vehicles or operating machinery.

People with hypersensitivity to any ingredient of the medicine.

Capsule of heart attack defender **OPCARDIO®**

INGREDIENTS: For one hard capsule.

Radix Salviae miltiorrhizae.....450 mg

Radix Panaxis notoginseng.....141 mg

Borneolum syntheticum.....8 mg

Excipients: Cellulose, lactose, talc powder, magnesium stearate, nipasol M, capsule shell.

USES: Prevention and treatment of angina pectoris, oppression in the chest, palpitations.

Prevention and treatment of coronary arteries atherosclerosis.

DIRECTIONS:

Treatment of angina pectoris: Take orally 3 tablets each time, 3 times per day.

Prevention of angina pectoris, treatment and prevention of coronary arteries atherosclerosis: Take orally 2 – 3 tablets each time, 3 times per day.

CONTRAINDICATIONS:

Pregnant women, lactating women.

Patients are bleeding or risk of bleeding.

Patients with hypersensitivity to any ingredient of the medicine.

**Prevention and treatment of angina pectoris, oppression in the chest, palpitations.
Prevention and treatment of coronary arteries atherosclerosis.**

Cardiovascular

LINGZHI OPC

**Regulate blood pressure,
reduce blood cholesterol.
Improve the function of the
liver, detoxify the liver.**

INGREDIENTS: For 1 softgel.

Ganoderma.....3g
Excipients: Soya oil, white bee wax,
shortening, maize starch, gelatin,
glycerol, nipasol M, brown iron
oxide, lake ponceau 4R red, lake
quinoline yellow, titan dioxide.

USES: Regulate blood pressure,
reduce blood cholesterol.
Improve the function of the liver,
detoxify the liver.

DIRECTIONS:

Adults: take orally 1 - 2 softgels each
time, 2 times per day.
Children: half of adult's dose.
Or follow your doctor's instructions.

CONTRAINDICATIONS:

ingredient of the medicine.

Cardiovascular

GINSENG LINGZHI OPC

General tonic indicated in the following cases: asthenia, overwork, physical fatigue and during convalescents. Treat mental depression, reduce blood cholesterol. Prevent and support therapy for hepatitis.

INGREDIENTS: For 1 softgel.

Lingzhi extract on dry basis.....45,00 mg

Ginseng extract.....80,00 mg

Excipients: Lactose, starch, povidone, cellulose powder, talc powder, magnesium stearate, sodium benzoate, nipasol M , capsule shell.

USES: General tonic indicated in the following cases: asthenia, overwork, physical fatigue and during convalescents.

Treat mental depression, reduce blood cholesterol.

Prevent and support therapy for hepatitis.

DIRECTIONS:

Take orally 1 - 2 capsules each time, 2 - 3 times per day.

Do not take this medicine before bedtime.

Or follow physician's instructions.

CONTRAINDICATIONS:

Pregnant women, insomnia people.

People with hypersensitivity to any ingredient of the medicine.

Cardiovascular

GARLICAP[®] Garlic Turmeric Capsule

Reduce blood cholesterol and blood triglyceride.
Help protect cardiovascular, prevent the atherosclerosis, the stroke, myocardial infarction, improve the immune function.

INGREDIENTS:

Bulbus Allii sativi powder.....462 mg

Rhizoma Curcumae longae extract.....12 mg

Excipients: cellulose powder, potassium sorbate, PEG 6000, magnesium stearate, capsule shell.

USES:

Reduce blood cholesterol and blood triglyceride.

Help protect cardiovascular, prevent the atherosclerosis, the stroke, myocardial infarction, improve the immune function.

DIRECTIONS:

Take orally 2 tablets each time, 2 times per day.

Take orally before meal.

Or follow your doctor's instructions.

CONTRAINDICATIONS:

People with hypersensitivity to any ingredient of the medicine.

Pregnant women, People with blood confusion or haemorrhage.

RESPIRATORY SYSTEM

Respiratory system

Cough preparation **FOR ADULTS OPC**

SANOLIN 20 OPC Ngoc Linh Ginseng Bird's Nest

Supporting health promotion, reducing fatigue, strengthening resistance.

Nourish the body, provide nutrients to improve poor health, improve skin and sleep.

Ngoc Linh Ginseng - “*Vietnam's National Treasure*”, a precious ginseng found on **Ngoc Linh Mountain** has long been ranked as a premium product with active ingredients of over **52 types of Saponin**, of which 26 types are not found in other types of ginseng in the world. The uses of **Ngoc Linh Ginseng** have been proven to increase resistance, improve health, increase vitality, prevent oxidation, and reduce stress. In particular, only **Ngoc Linh Ginseng** contains **MR2**, which has the effect of preventing and inhibiting the growth of tumors. Using advanced technology, **OPC PHARMA** has extracted almost the entire quintessence of **MR2** of this “*National Treasure*”.

Bird's nest – Classified as one of the **eight rare culinary treasures offered to kings from ancient times to the present, it is still at the top of dishes that nourish the body**. Bird's Nest contains a large amount of amino acids and more than 30 important micronutrients for the human body, helping to strengthen immune function, improve mental and physical health, and prevent aging.

The wonderful combination of Ngoc Linh ginseng and bird's nest will balance nutritional value and protect health.

People with such conditions as:

Deficiency-cold of spleen and stomach: abdominal pain, dyspepsia, anorexia, vomiting, diarrhea or prolonged dysentery.

Internal heat due to Yin deficiency: hectic fever, night fever, hot palms and soles, etc.

Skin conditions such as pimples or carbuncles with clear discharge and persistent skin lesions.

People with hypersensitivity to any ingredient of the medicine.

Pain Relief – Inflammation

NYST[®] Collutory Powder

Prevention and treatment of candidiasis: oral thrush, stomatitis, papillary atrophy, pharyngitis caused by *Candida albicans*.

INGREDIENTS: For 1 sachet.

Nystatin.....25000 IU
Excipients (Sorbitol, Vanillin) s.q.f 1 sachet.

USES: Prevention and treatment of candidiasis: oral thrush, stomatitis, papillary atrophy, pharyngitis caused by *Candida albicans*.

DIRECTIONS:

Infants under 1 month of age: take half a sachet each time, twice a day.

Children from 1 month to under 18 years: take 1 sachet each time, twice a day.

Adults from 18 years and older: take 2 sachets each time, twice a day.

Or follow doctor's instructions.

Add one dose to a small glass with one teaspoon of cooled-boiled water, stir to disperse evenly, wrap around one finger with sterilized gauze, apply to the tongue, throat, etc where fungi grow. Within 20 minutes after taking this medicine, do not eat or drink. It is designed for extemporaneous preparation of a single dose at a time. Swallowing this medicine has no effect on patient's health.

CONTRAINDICATIONS:

This medicine should be avoided if you have a known history of hypersensitivity to Nystatin or any ingredients of the medicine.

Pain Relief – Inflammation

OP.ZEN[®]

Eliminate swelling
Relieve pain Capsule

Used in blood agglomeration, swelling
and pain caused by trauma...

INGREDIENTS: For 1 capsule.

Active pharmaceutical ingredients:

Extractum siccum Lignum Sappan on dried basis.....160 mg

Excipients: Maize starch, lactose, cellulose powder, magnesium stearate, hard capsule.

USES: Used in blood agglomeration, swelling and pain caused by trauma...

DIRECTIONS:

Adults: 2 capsules each time, 2 - 3 times per day.

Children below 12 years of age: Half of adult's dose.

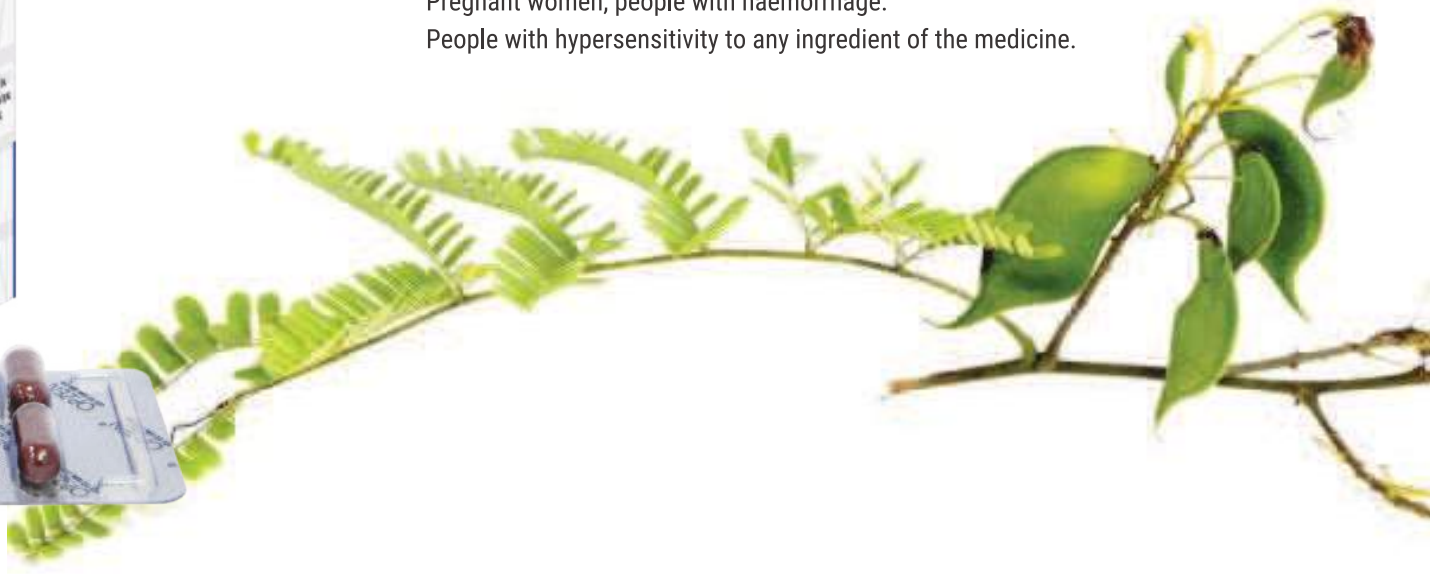

Take orally after meals.

Or follow your doctor's instructions.

CONTRAINDICATIONS:

Pregnant women, people with haemorrhage.

People with hypersensitivity to any ingredient of the medicine.

INGREDIENTS: For 1 sachet.

For 1 sachet 80 mg - 150 mg - 250 mg - 325 mg.

Paracetamol 80 mg - 150 mg - 250 mg - 325 mg

Excipients for 1 pack (anhydrous sodium carbonate, anhydrous citric acid, aspartame, saccharin sodium, primelose, sodium docusate).

USES:

Relief of mild to moderate pain, fever. Used in the following cases: Headaches, migraines, flu, toothache, pain after vaccination, musculoskeletal pain, pain due to arthritis, fever reduction.

DIRECTIONS:

This dosage form is for children weighing 5-16 kg (about 2 months - 5 years old).

The daily dose of Paracetamol is calculated based on the child's weight and age for guidance only.

If you do not know the child's weight, it is necessary to weigh the child to calculate the most appropriate dose.

The recommended daily dose of Paracetamol is about 60 mg/ kg/ day, divided into 4 - 6 doses (about 15 mg/ kg in 6 hours or 10mg/ kg in 4 hours).

The usual dose is:

Children weighing 5 - under 6 kg (about 2 - 4 months old): use one 80mg packet at a time, if necessary repeat after 6 hours, no more than 4 packets in a day.

Children weighing 6 - under 8 kg (about 3 - 9 months old): use one 80 mg packet at a time, if necessary repeat after 4 hours, no more than 6 packets in a day.

Children weighing from 8 - under 12 kg (about 9 - 24 months old): use two packets of 80mg each time, if necessary repeat after 6 hours, no more than 8 packets in a day.

Children weighing from 12 - 16 kg (about 2 - 5 years old): use two packets of 80mg each time, if necessary repeat after 4 hours, no more than 12 packets in a day.

Method of administration: Pour the packet into a cup, then add a little drink such as water, milk, fruit juice. Stir well before drinking.

If symptoms persist for more than 5 days, or fever persists for more than 3 days, or the medicine is not effective enough, or other symptoms appear. When the above symptoms appear, do not continue treatment but consult your doctor.

CONTRAINDICATIONS:

People are often anemic and have severe heart, liver, and lung diseases.

Patients who are hypersensitive to paracetamol or any ingredient of the drug.

C - CALCI

Prevention and treatment of
Vitamin C and Calcium
deficiency.

INGREDIENTS: For 1 bottle of 25 ml.

Vitamin C.....1000 mg
Calcium carbonate(calcium ion 240 mg).....600 mg
Excipients (Sodium hydrocarbonate, anhydrous citric acid, sorbitol, orange essential oil, sodium saccharin, aspartame, sunset yellow, sodium benzoate).

USES:

Prevention and treatment of Vitamin C and Calcium deficiency.

DIRECTIONS:

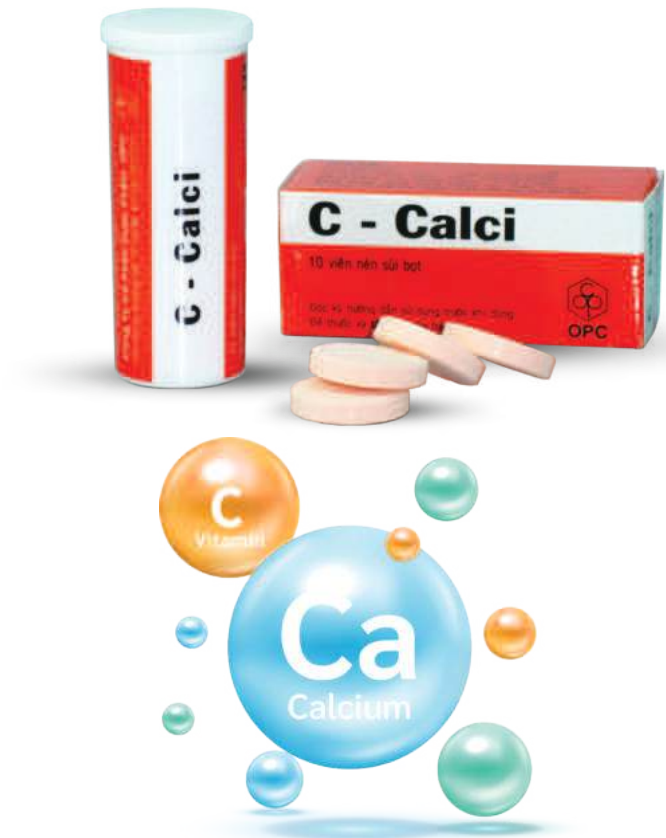

Dissolve the tablet in about 200 ml water.

Adults take orally 1 tablet per day.

CONTRAINDICATIONS:

Ventricular fibrillation during cardiac resuscitation, heart disease and kidney disease, hypercalcemia, malignant bone destruction; Severe calciuria and osteoporosis due to immobility, patients taking digitalis, people with glucose - 6 - phosphate dehydrogenase (G6PD) deficiency (risk of hemolytic anemia).

People with hypersensitivity to any ingredient of the product.

Vitamins & Minerals

MULTI-OPC

Orange flavour effervescent tablet

Use as a supplement of vitamins for the body, supports health, reduces fatigue due to vitamin deficiency.

INGREDIENTS: For 1 effervescent tablet.

Vitamin C.....	60.00 mg
Vitamin PP.....	16.00 mg
Vitamin E.....	6.00 mg
Vitamin B.....	55.00 mg
Vitamin B1.....	1.40 mg
Vitamin B2.....	1.40 mg
Vitamin B6.....	1.40 mg
Folic acid.....	160 mcg
Excipients: Anhydrous citric acid, sodium hydrogen carbonate, anhydrous sodium carbonate, magnesium carbonate, calcium carbonate, anhydrous glucose, orange flavour powder, sodium benzoate, sorbitol, saccharin sodium, aspartame, orange oil, povidone, sodium docusate, sunset yellow, ponceau 4R red.	

USES:

Use as a supplement of vitamins for the body, supports health, reduces fatigue due to vitamin deficiency.

Note: *This product is not medicine, no effective alternative medicine.*

DIRECTIONS:

Dissolve the tablet in about 200 ml of water.

Take orally 1 tablet per time. 1-2 time(s) per day.

CONTRAINDICATIONS:

It should not be used for people with hypersensitivity to any ingredient of the product.

Vitamins & Minerals

Vitamin AD

Treat and prevent deficiency of vitamin A, D

INGREDIENTS: For 1 effervescent tablet.

Vitamin A.....5000 IU

Vitamin D3.....400 IU

Excipients (Soya oil, gelatin, glycerol, propyl paraben) s.q.f 1 soft-gel.

USES:

Supplement vitamin A for patients with liver diseases, especially hepatitis induced by biliary obstruction due to decreased absorption and storage of vitamin A.

Treat and prevent deficiency of vitamin A, D in cases: nutritional rickets or osteomalacia, vitamin D-dependent rickets, familial hypophosphatemia (vitamin D-resistant rickets), rickets and osteomalacia due to anti-epileptic drugs; ocular dryness, nyctalopia; osteomalacia and osteoporosis; osteomalacia due to corticosteroids; renal osteodystrophy or secondary calcemia due to chronic kidney disease; hypoparathyroidism and pseudo- hypoparathyroidism. Prevent risk of falling and bone fractures in the elderly.

Supportively treat: Darier disease (Keratosis follicularis), ichthyosis, abrasions, acne, psoriasis, mild lupus, rheumatoid arthritis; primary biliary cirrhosis or chronic cholestatic liver disease.

DIRECTIONS:

Prevention dosage:

Adults and children 12 years of age and above: take orally 1 soft-gel daily.

Children under 12 years of age: as directed by a physician.

For treatment of diseases: as directed by a physician.

CONTRAINDICATIONS:

Patients with excessive vitamin A, hypercalcemia, vitamin D intoxication.

Pregnant women and lactating women (because the dose of Vitamin A exceeds the daily requirement for pregnant women and lactating women).

People with hypersensitivity to any ingredient of the medicine.

Vitamins & Minerals

Vitamin C 500mg

Treatment for scurvy and other bleeding cases due to a deficiency of vitamin C.

INGREDIENTS: For 1 effervescent tablet.

Vitamin A.....5000 IU

Vitamin D3.....400 IU

Excipients (Soya oil, gelatin, glycerol, propyl paraben) s.q.f 1 soft-gel.

USES:

Supplement vitamin A for patients with liver diseases, especially hepatitis induced by biliary obstruction due to decreased absorption and storage of vitamin A.

Treat and prevent deficiency of vitamin A, D in cases: nutritional rickets or osteomalacia, vitamin D-dependent rickets, familial hypophosphatemia (vitamin D-resistant rickets), rickets and osteomalacia due to anti-epileptic drugs; ocular dryness, nyctalopia; osteomalacia and osteoporosis; osteomalacia due to corticosteroids; renal osteodystrophy or secondary calcemia due to chronic kidney disease; hypoparathyroidism and pseudo-hypoparathyroidism. Prevent risk of falling and bone fractures in the elderly.

DIRECTIONS:

Prevention dosage:

Adults and children 12 years of age and above: take orally 1 soft-gel daily.

Children under 12 years of age: as directed by a physician.

For treatment of diseases: as directed by a physician.

CONTRAINDICATIONS:

Patients with excessive vitamin A, hypercalcemia, vitamin D intoxication.

Pregnant women and lactating women (because the dose of Vitamin A exceeds the daily requirement for pregnant women and lactating women).

People with hypersensitivity to any ingredient of the medicine.

Vitamins & Minerals

VITAMIN C 1000MG

Treatment for scurvy and other bleeding cases due to a deficiency of vitamin C.

INGREDIENTS: For 1 effervescent tablet.

Vitamin C.....1000 mg

Excipients: sodium hydrogen carbonate, anhydrous citric acid, sorbitol, saccharin sodium, aspartame, sunset yellow, orange oil, sodium benzoate.

USES:

Treatment for scurvy and other bleeding cases due to a deficiency of vitamin C.

DIRECTIONS:

Dissolve the tablet in a half of the glasses.

Adults take orally 1 tablet per day.

CONTRAINDICATIONS:

People with glucose-6-phosphate dehydrogenase (G6PD) deficiency (risk of thalassemia), people with nephrolith in the past, hyperoxaluria, xalate metabolite disorder (high risk of nephrolith), thalassemia (high risk of iron absorption)

People with hypersensitivity to any ingredient of the product.

VITAMIN E 400IU – OPC

Treat vitamin E deficiency in cases of insufficient intakes of vitamin E

INGREDIENTS:

Vitamin E.....400IU

Excipients (gelatin, glycerin, nipasol M, purified water) s.q.f 1 soft capsule

USES:

Treat vitamin E deficiency in cases of insufficient intakes of vitamin E, children with cystic fibrosis of pancreas or fat malabsorption because of biliary malabsorption or abetalipoproteinaemia, very low birth weight premature infants; myopathic or neurological diseases such as reduction of reflex, abnormal carriage, tardive dyskinesia, ophthalmoplegia, retinal pigmentation and axon degeneration.

Prevent the oxidation in combining with vitamin C, vitamin A and selenium.

Supportively treat fatty liver, hypercholesterolemia, infertility, low sperm count.

Prevent vitamin E deficiency.

DIRECTIONS:

Take orally 1 soft-gel daily, for both prevention and treatment of Vitamin E deficiency or as directed by the physician.

CONTRAINDICATIONS:

People with hypersensitivity to any ingredient of the medicine.

Vitamins & Minerals

Vitamin C – LOZENGES OPC

Supports to improve resistance, improve health and reduce the risk of vitamin C deficiency.

INGREDIENTS: For 1 lozenge

Vitamin C.....10 mg

Excipients: Refined extra sugar, Lactose, Orange flavor powder, Talc, Anhydrous citric acid, Magnesium stearate, Povidone, Strawberry flavor powder, Sunset yellow lake, Ponceau 4R red lake
Supports to improve resistance, improve health and reduce the risk of vitamin C deficiency.

USES:

Supports to improve resistance, improve health and reduce the risk of vitamin C deficiency.

CONTRAINDICATIONS:

People with hypersensitivity to any ingredient of the product.

VITAMIN C ROYAL JELLY LOZENGES – OPC

INGREDIENTS: For 1 lozenge

Vitamin.....C10 mg

Royal jelly.....1,5 mg

Excipients: Refined extra sugar, Polyethylene glycol 6000, Orange flavor powder, Magnesium stearate, Sunset yellow lake, Ponceau 4R red lake.

USES:

Nutritious for sick people, the elderly, malnourished children, postpartum anemia women, low milk production, anorexia, and insomnia. Supports to improve resistance, improve health and reduce the risk of vitamin C deficiency.

DIRECTIONS:

Allow the lozenge to dissolve slowly in the mouth.

Children from 3 to 9 years of age: 4 lozenges per day.

Adults and children from 9 years of age: 4 – 8 lozenges per day.

CONTRAINDICATIONS:

People with hypersensitivity to any ingredient of the product.

Nutritious for sick people, the elderly, malnourished children, postpartum anemia women, low milk production, anorexia, and insomnia. Supports to improve resistance, improve health and reduce the risk of vitamin C deficiency.

EXTERNAL USE

GOLDEN STAR BALM

Cold and flu, headache, runny nose, nausea, colic, motion sickness, body aches, mosquito bites and other insect stings.

INGREDIENTS: For 1 tin box of 4g

Active pharmaceutical ingredients:

Camphor.....849.20 mg
Menthol.....425.20 mg
Peppermint essential oil.....525.20 mg

(*Aetheroleum Menthae arvensis*)

Cajuput essential oil (*Aetheroleum Cajuputi*).....210.80 mg

Clove essential oil (*Caryophylli floris Aetheroleum*).....130.80 mg

Cinnamon essential oil (*Aetheroleum Cinnamomi*).....53.20 mg

Excipients: Paraffin oil, yellow beeswax, lanoline, vaseline, paraffin, beta carotene.

USES:

Cold and flu, headache, runny nose, nausea, colic, motion sickness, body aches, mosquito bites and other insect stings.

DIRECTIONS:

For headache, vertigo, cold and flu, motion sickness: Rub balm on the temples, nape, nostrils, etc.

Body aches: Rub balm on the aching positions, slightly massage.

For mosquitoes bites and other insects stings: rub balm on the affected parts of skin.

Steam exhalation: add a little bit of balm to a glass of boiling water and inhale for treating cold and flu.

Or follow your doctor's instructions.

CONTRAINDICATIONS:

Children under 30 months of age, or has history of epileptic or convulsion because of high fever.

Patients with asthma or other respiratory diseases have high-risk increase when patient is allergic, simple headache, headache after getting up or strong exercise.

Do not apply to the eyes and open wounds.

People with hypersensitivity to any ingredient of the medicine.

EXTERNAL USE

LINIMENT

Treat aches and pains due to several causes: Rheumatism, arthritis, sprain, pains.

INGREDIENTS: For 50ml

Active pharmaceutical ingredients:

Rhizoma Kaempferiae galangae.....	2,50 g
Rhizoma Alpiniae officinari.....	2,50 g
Rhizoma Homalomenae occulta.....	1,50 g
Lignum Dracaenae.....	1,50 g
Fructus Illicii veri.....	1,00 g
Ramulus Cinnamomi.....	1,00 g
Radix Aconiti.....	0,50 g
Camphora.....	0,50 g

Excipients: Ethanol 96%, purified water, propylene glycol.

USES:

Treat aches and pains due to several causes: Rheumatism, arthritis, sprain, pains.

DIRECTIONS:

Use about 2 - 5 ml for each time, massage painful areas many times per day.

For spray bottle 50 ml: Spray on and massage painful areas many times per day.

For external use only, do not take orally.

CONTRAINDICATIONS:

Pregnant women.

Children under 30 months of age, children with a history of seizures or convulsions due to high fever.

Keep away from eyes, open wound.

People with hypersensitivity to any ingredient of the medicine.

EXTERNAL USE

DAN TOC OIL

Common cold, stuffy nose, headache, dizziness, sea sickness, motion sickness, abdominal pain.

INGREDIENTS: For 1 bottle of 1.5 ml

Active pharmaceutical ingredients:

Aetheroleum Menthae arvensis.....1.22 g

MILIAN SOLUTION

Topical use for the treatment of skin viral infections such as eczema (usually caused by Herpes simplex virus), impetigo, pyoderma, skin infections (inguinal rash).

INGREDIENTS: For 1 bottle of 20 ml

Active ingredient:

Methylene blue.....40 mg

Gentian violet.....50 mg

Excipients: Purified water

USES:

Topical use for the treatment of skin viral infections such as eczema (usually caused by Herpes simplex virus), impetigo, pyoderma, skin infections (inguinal rash).

DIRECTIONS:

Wash the wound, apply topically 2 - 3 times / day, for 3 days.

CONTRAINDICATIONS:

Open wounds, extensive sores or ulcerative lesions on the face. The patient is hypersensitive to any component of the drug.

EXTERNAL USE

3% HYDROGEN PEROXIDE

Used topically to clean and disinfect small wounds. Gargle, apply mouth to treat stomatitis, acute gingivitis and eliminate bad smell of the mouth. Ear drops to remove earwax.

INGREDIENTS: For 1 bottle of 20 ml

Active ingredient:

Hydrogen peroxide concentrated (50%).....1.2 g

Excipients: Benzoic acid, ethanol 96%, purified water.

USES:

Used topically to clean and disinfect small wounds. Gargle, apply mouth to treat stomatitis, acute gingivitis and eliminate bad smell of the mouth. Ear drops to remove earwax.

DIRECTIONS:

Use cotton wool to absorb the medicine on the wound or apply it directly to the wound. Dilute the drug with the same volume of water when instilling ears or when rinsing the mouth.

CONTRAINDICATIONS:

Do not instillate the drug into the closed cavities of the body. Do not instillate the drug into the ear in the presence of perforation of the eardrum. The person is hypersensitive to any component of the drug.

EXTERNAL USE

PICADO®

Topical treatment of inflammatory lesion restricted to mucous membranes in the mouth and aphthae.

INGREDIENTS: For 1 tube

Active pharmaceutical ingredients:

Rhubarb alcoholic extract.....3.8 ml

Equivalent to Rhubarb (Rhizoma Rhei).....500.0 mg

Salicylic Acid.....100.0 mg

Excipient:

Sodium carboxymethylcellulose, sodium saccharin, glycerine, peppermint essential oil, purified water.

USES:

Topical treatment of inflammatory lesion restricted to mucous membranes in the mouth and aphthae. For the symptomatic relief of pain associated with recurrent mouth ulcer and denture irritation.

DIRECTIONS:

Apply the medicine to the wound 2 – 3 times per day. Put a small amount of gel the lesion and massage gently.

Do not rinse teeth or mouth immediately after application.

Or follow your doctor's instructions.

CONTRAINDICATIONS:

Children under 6 years of age.

Children with a history of epileptic or convulsion because of high fever.

People with a history of stomach ulcers.

Reactions with salicylate derivatives may occur.

Do not apply to the eyes and open wounds.

EXTERNAL USE

POVIDON IOD 10%

Disinfection and disinfection of contaminated wounds and skin and mucous membranes before surgery. Clean medical instruments before sterilization.

INGREDIENTS: For 1 bottle of 20 ml

Active ingredient:

Povidone iodine.....2 g

Excipients: Purified water.

USES:

Disinfection and disinfection of contaminated wounds and skin and mucous membranes before surgery. Clean medical instruments before sterilization.

DIRECTIONS:

Apply pure solution to the skin area for disinfection. Apply to the lesion area (Herpes simplex, Shingles, wounds,...) to avoid bacterial infection. Apply 2 times a day, gauze can be applied to the wound if necessary. Or as directed by your doctor.

CONTRAINDICATIONS:

History of hypersensitivity to Iod. Do not use regularly in people with thyroid disorders. Perforation of the eardrum or application directly to the meninges. The cavity is badly damaged. Pregnant and lactating women. Children under 2 years old. The person is hypersensitive to any component of the drug.
