NO & LOW

SPECIAL EDITION

**DISCOVER OUR SELECTION OF NO & LOW ALCOHOL
SPIRITS, BEERS, CIDERS, WINES & SOFT DRINKS**

THE RISE IN NON-ALCOHOLIC DRINKS IS NOW MEASURABLE — DRIVEN BY HEALTH CONSCIOUSNESS, THE “SOBER CURIOUS” MOVEMENT, AND GROWING DEMAND FOR FLAVORFUL ALTERNATIVES SUITED TO DIVERSE LIFESTYLES.

WHAT THE NUMBERS SAY

HEALTH & WELLNESS AND MINDFUL DRINKING TRENDS

According to a UK 2025 survey by market-research firm Mintel, 53% of UK adults consumed a low- or no-alcohol beer, wine, cider, spirit or mocktail in the past 12 months. The same research estimates the UK low/no-alcohol drinks market was worth £413 million as of 2025 and is expected to grow further by 2030.

SOBER-CURIOUS AND YOUTH BEHAVIOUR

In the UK, the “no/low-alcohol” segment more than doubled in size in 2024 compared to 2023, with no-alcohol beer — the most dynamic sub-category — growing 20 % year-on-year and now accounting for over 2% of the UK’s total alcoholic-beverage market volume.

For non-alcoholic spirits specifically, an industry forecast values the UK market at USD 24.9 million in 2024, with projected growth to USD 40.9 million by 2030 (CAGR ≈ 8.9 %).

Globally, the market for non-alcoholic drinks was estimated at USD 1.3 trillion in 2023 and is forecast to reach USD 2.9 trillion by 2035, growing at a compound annual growth rate (CAGR) of about 6.9%.

RAPID MARKET EXPANSION & DIVERSIFICATION

Recent sales data from a major UK grocery retailer showed that in summer 2025, sales of low- and no-alcohol beverages increased 32% versus the previous year; within that, no- and low-spirit beer sales rose by 85%, and non-alcoholic spirit sales rose by around 50%. On the product-innovation side, European no/low-alcohol beverage launches have surged: no-/low-beers make up ~57% of new launches, with wine (15%), spirits (10%) and flavoured no/low drinks also rising — reflecting increasing diversification beyond just soft drinks or basic alcohol-free beers.

WHAT'S FUELING THE SHIFT

A large portion of consumers — particularly younger demographics — are moderating rather than abstaining: many alternate between alcoholic and non-alcoholic drinks depending on occasion.

Improved quality and variety of non-alcoholic options (mocktails, zero-proof spirits, alcohol-free beers, premium soft drinks) are making “going sober-ish” more appealing and socially acceptable.

WHAT THIS MEANS FOR THE MARKET

The growth isn't a niche blip — it's structural. The global non-alcoholic drinks market is on track to more than double in value by 2035, as consumers continue to favour health, wellness and inclusivity. In the UK, the shift is evident: more than half of adults now try non-alcoholic drinks regularly, and demand is rising for premium, flavour-forward alternatives.

CONCLUSION

Far from just a fad, the rise in non-alcoholic drinks reflects a broader, data-driven shift in consumer behaviour. As health, moderation and inclusivity become mainstream expectations, brands that invest in quality, variety and innovation — from mocktails to alcohol-free spirits — appear well positioned to benefit from sustained market growth.

HM Revenue

ALCOHOL DUTY CHANGES 1ST FEBRUARY 2026

As announced at the November 2025 Budget, the government will increase all alcohol duty rates in line with the Retail Price Index (RPI) at 3.66%. All changes will take effect on and after 1 February 2026. This is something we want to highlight to customers because it has not received a great deal of press coverage and not everyone may know about it.

What this means to you

Examples

SPIRITS

- A 40% ABV 70cl bottle of spirit will increase by £0.40
- A 38.5% ABV 70cl bottle of spirit will increase by £0.32

WINE

- A 11% ABV bottle of 75cl still wine will increase £0.09
- A 12% ABV bottle of 75cl still wine will increase £0.10
- A 13% ABV bottle of 75cl still wine will increase £0.11

BEER

- A 3.4% case of 24x330ml beer will increase by £0.09 per case

DRAUGHT

Draught beer is trickier because some brewers receive a Small Producer Relief rate.
For example a 50L keg of 4.8% beer will increase by £1.92
but if the brewer has Small Producer Relief then it will only increase by £1.66.

Please log in to your online DWUK account to view the exact increases on the products you purchase. These can be found in 'My Account' and 'View Price Changes'.

WHY CRODINO SPRITZ 0.0% IS A MUST STOCK THIS DRY JANUARY AND BEYOND

As Dry January approaches, venues across the UK are preparing for a surge in demand for non-alcoholic options. Not only do estimates show a record-breaking year for Dry January participation with 15million Britons* planning to participate, the low & no category continues to be the fastest-growing value sector in the spirits market**. That's where Crodino comes in - offering a refreshing, spritz alternative to the typical non-alcoholic options of beer and gin. With its vibrant, bittersweet flavour and Italian heritage, Crodino brings variety, sophistication, and a new kind of Spritz experience to your menu.

AN AUTHENTICALLY ITALIAN NON-ALCOHOLIC SPRITZ

Crafted in Italy with a secret blend of citrus notes, each bottle delivers a bittersweet flavour, akin to the typical Spritz profile, that's both refreshing and refined. It's the perfect alternative for guests who want to enjoy the ritual of a Spritz without the alcohol.

Please contact your DWUK account manager to arrange pricing.

WHY CHOOSE CRODINO SPRITZ 0.0%?

- Deliciously Non-Alcoholic: Offers the full flavour profile of a Spritz with 0.0% ABV.
- Authentically Italian: Made in Italy with a secret blend of natural ingredients.
- Perfect for Socialising: Ideal for guests who want to enjoy a drink without compromising on experience.
- Easy to Serve: Fill a glass with ice, pour in the Crodino and stir gently, add more ice and then garnish with a slice of orange.

MAKE THE MOST OF DRY JANUARY

With more consumers seeking mindful drinking options, stocking Crodino Spritz 0.0% is a smart move for venues looking to stay ahead of the curve. Whether it's a casual lunch, a celebratory dinner, or catch-up with friends, Crodino is the surprisingly non-alcoholic spritz which means consumers no longer need to compromise.
