TYPESTYLES ARE SHOWN ON THE PREVIOUS PAGE

If none of our typesyles meet your requirements please give detailed instructions or furnish a sample and we will try to match it as closely as possible.

Our computerized typesetting allows us to be very versatile. We can condense, extend, enlarge or reduce any of our typesyles.

- Arrange your copy line for line exactly the way you want the finished stamp to print.
- If stamp must fit in a certain size area, please give exact dimensions.
- Choose your typesyles from the samples on the previous pages.

B	B	B	B	B	B	B	B	B	B	B	B
6 pt. 1/16"	8 pt. 5/64"	10 pt. 3/32"	12 pt. 1/8"	14 pt. 5/32"	18 pt. 3/16"	24 pt. 1/4"	36 pt. 3/8"	48 pt. 1/2"	60 pt. 5/8"	72 pt. 3/4"	96 pt. 1"

- **Specify desired type alignment.** Multiple line stamps may be ordered either centered, flush left, or flush right. Paragraph stamps may be justified.

If you specify **FLUSH LEFT**, your type will line up along the left margin

If you order **CENTERED**, type will line up on a center axis

If you specify **JUSTIFIED TYPE**, we will adjust your copy to fill the complete width of the impression area

If you specify **FLUSH RIGHT**, your type will line up along the right margin

- **Tell us what is most important to you when ordering** – impression area, type size, or typesyle, since adjustments may become necessary during production.

NOTE:

Do not show a line around your copy unless it indicates a border that is intended to print.

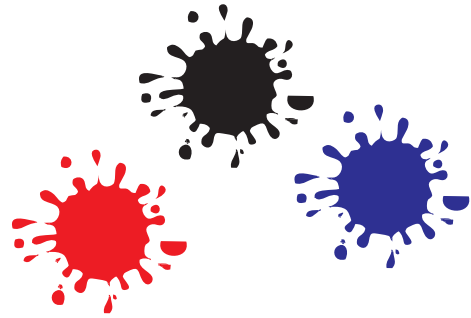

BORDERS CAN BE SET IN ANY SIZE REQUIRED

Square, Rectangular, Round or Oval

Be sure to specify border number and overall dimension of stamp.

Border B-1 _____
 Border B-2 _____
 Border B-6 _____

Inks

We offer many inks designed for different applications. Below are the most frequently used inks:

EZ - Use on EZ Printer pre-ink stamps, Self-inking stamp pads and Regular Rubber stamp pads.
EZ ink is a water based ink designed for porous surfaces.

Rapid Mark - Use on Rapid Mark inspections stamps and felt or stone stamp pads.
Alcohol base ink designed for non-porous surfaces. Dry time: 45 seconds to the touch

Ultimate - Use with Regular Rubber stamps on felt or stone stamp pads.
Alcohol base ink designed for non-porous surfaces. Dry time: 15 seconds.

Encore - Use with Encore pre-inked photo stamp
Alcohol base ink designed to stamp on the back of photos. This is an archival ink. Dry time: 15 seconds.

#752 Hand Marking - Use with Regular Rubber stamp or Self inking stamp
Alcohol base ink FDA approved for marking human skin. Image lasts through washing up to 24 hours.

Invisible - Use with Regular Rubber stamp
Alcohol base ink dries quickly on skin. Usually used for identification purposes under UV light.

Cellophane - Use with Regular Rubber stamp
Alcohol base ink designed for marking food packaging. Meets USDA guidelines for food packaging.
Dry time: 15 seconds
