

A photograph of sustainable stationery. In the foreground, a bamboo pencil with a black eraser and a black pencil tip lies horizontally. The pencil is engraved with "Daisy Chain" and "RENEWABLE ENERGY". Behind it, a bamboo ballpoint pen with a silver tip and a black clicker lies diagonally. The pen is engraved with "BREEZIE" and "RENEWABLE ENERGY". In the background, a bamboo notebook with a black cover lies flat. The notebook is engraved with "Organics". To the left of the notebook, a stack of bamboo blocks is visible. To the right, a bamboo desk organizer holds a black smartphone. The entire scene is set on a wooden desk.

THE PRINTED GREEN GUIDE 2023

THE PRINTED GREEN GUIDE 2023

A collection of eco-friendly pens and pencils made from sustainably sourced materials such as card, wheat, bamboo and wood. To reduce your carbon footprint even further, look out for European made models.

CARD BARREL

Pen barrels can be made of many materials, but by using the tensile strength of recycled card you are using a material that will perform well as a barrel and will naturally compost over a relatively short period. Recycled card can also be recycled again, though eventually the recycled material will need to be downcycled into material used in clothing for example.

WHEAT BARREL

The wheat plastic used in our pens is a mix of traditional plastic and 50%-60% plastic made from wheat straw waste. This 'straw' normally viewed as just agricultural waste can be fashioned with normal plastics into pen parts, cutting down the use of traditional oil based plastics.

BAMBOO BARREL

Bamboo is a natural product that is 100% biodegradable and is cultivated without the use of pesticides and a lot less water than other 'crops'. We use Bamboo from sustainable sources to create barrels that are both attractive and durable.

PET PLASTIC

PET plastic is a widely used plastic in the creation of water-bottles and is the most widely recycled of all plastics. Our RPET is derived from recycled water bottles and can be recycled again (RPET can be recycled up to 10 times!)

WOOD BARREL

The wood we use in our pens is from the 'Birch' family and is a natural product that is 100% biodegradable and is from a sustainable source and helps reduce the use of traditional metal or oil based plastics.

COFFEE BARREL

Part made from recycled coffee grind waste, therefore reducing the use of oil based plastic.

ALUMINIUM BARREL

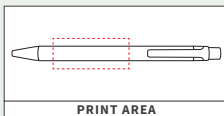

A pen made from recycled aluminium cans, with plastic trims from recycled PET (water bottles). Made in Europe to maintain a lower carbon footprint.

TPC982301.
HALE CARD BALL PEN

As well as using less plastic by having a card barrel, the trim is made from recyclable plastic.

Product Size: 142 x 10mm	Print Area: 50 x 20mm
Ink Colour: Black	Digital Print: 60 x 7mm
Weight: 6 Grams
