ClipQUE™
HAIR EXTENSIONS

PATENT PENDING

Gently hugs your hair without pulling or creating tension. Easy to attach and remove.

Our seamless weft is made with a silicone-like material to hold hair strands together resulting in a thin transparent base that blends very well with your own hair.

CLIP

WEFT

KEY FEATURES

Patented Technology:

Our Clipque™ Clip In opens horizontally, setting it apart from conventional clip-in extensions that clip vertically. This new side-grip technology opens like wings to provide a gentle yet secure grip.

Ergonomic:

Extra wide and flexible clip-in that contours to the shape of your head.

All day comfort:

Clipque™ Clip In gently embraces hair without tugging for tension-free styling.

Added Benefits:

Seamless blending, lightweight wearability, extra firm grip.

HUMAN HAIR premium mix

If your clip-ins are a tighter curl than your natural hair, try doing a wist out or braid out on your leave-out to blend.

If your clip-ins have looser curls try a rod-set or bantu knot-out on your leave-out.

If your clip-ins are straight, blow-dry, or flat iron your leave-out on a low heat setting.
