WELCOME TO LILY DALE

Dear Friends,

Each year, as the gates of Lily Dale open for the summer season, a familiar sense of peace welcomes us.

Here, nestled in southwestern New York, we gather in a community unlike any other. For 147 years, Lily Dale Assembly has stood as the world's largest center of Spiritualism. Yet what draws us back season after season goes far deeper than any title alone can express.

It is the knowing passed down through generations of seekers and healers that life and love transcend the physical form. That knowing lives within every message service, every healing circle, and in the quiet moments shared along these paths. It can be felt beneath the trees at Inspiration Stump, beside the peaceful waters of Cassadaga Lake, and within the sacred stillness of the Healing Temple.

To those returning each season, you are the keepers of this flame. Your devotion honors those who came before and lights the way for those still finding their path. To those visiting for the first time, we welcome you. You are now part of a living legacy that has inspired hearts and minds for generations. To our Mediums, Ministers, Staff, and Volunteers, thank you. Your dedication and service sustain the spirit of this community and ensure that the light of Spiritualism continues to shine.

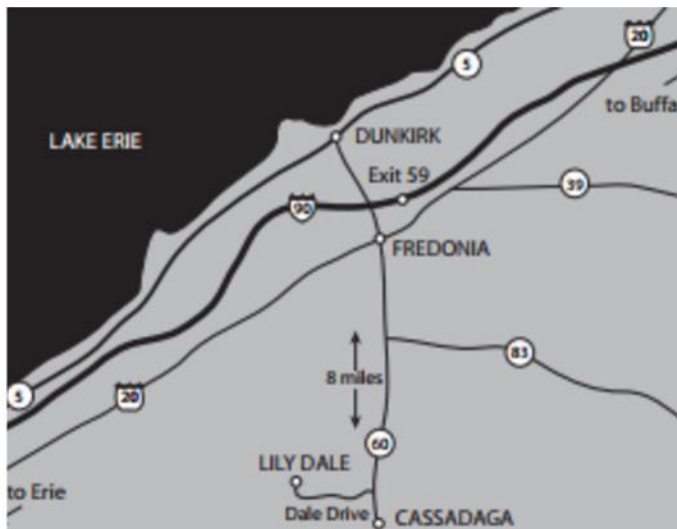

Together, we carry this legacy forward, nurturing the spirit of Lily Dale so that its light may guide not only us, but every generation yet to come.

Where legacy meets the next generation, the spirit of Lily Dale lives on.

With heartfelt gratitude and blessings,

JoAnn Santonocito

JoAnn Santonocito

LOCATION

Lily Dale is nestled in the heart of southwestern New York State, an hour south of Buffalo and just two hours from Toronto, making it a peaceful retreat within easy reach. We are also three hours north of Pittsburgh and three hours west of Cleveland, a quiet sanctuary waiting at the end of a scenic drive.

From Interstate 90 (New York State Thruway), take exit 59 to NY Route 60 south. Drive eight miles and turn right onto Dale Drive in the Village of Cassadaga, then follow the road one mile to our entrance gate. Those flying in will find us a short drive from Chautauqua County Airport in Jamestown or Buffalo/Niagara International Airport. Bus lines also connect Erie, PA, and Buffalo to Cassadaga.

However you arrive, know that you are expected, and that Spirit has a way of guiding every traveler here right on time.

A NOTE FOR VISITING MEDIUMS

Lily Dale Assembly warmly welcomes visiting mediums to our grounds and is grateful for the gifts you bring to this community. To honor the integrity of our Registered Mediums and to protect the experience of our guests, we ask that all visiting mediums observe the following:

Readings and private consultations are not permitted anywhere on the Lily Dale grounds outside of an organized message service, this includes private rooms, porches, and public areas. Visiting mediums who wish to demonstrate mediumship at a message service are required to register with the Lily Dale Assembly Office before doing so. One registration per visiting medium is required per season, and we ask that you stop in at the office upon your arrival.

When demonstrating at a service, we ask that visiting mediums dress in a manner that honors the sacred nature of the platform. Out of respect for Spirit and for the guests who have come seeking connection and healing, please dress professionally: no shorts, no open-toed shoes, and no slogan or graphic shirts. We hold our platform to a high standard because what happens there matters deeply, and we know you feel the same way.

Thank you for being part of what makes Lily Dale extraordinary.

EXPLORE LILY DALE

Put on comfortable shoes. There is more here than you can see in a single day.

SACRED OUTDOOR SPACES & PLACES TO DISCOVER

The Leolyn Woods

One of the most quietly extraordinary aspects of Lily Dale is the ancient old-growth forest at its heart. Largely undisturbed for centuries, a walkable trail winds through the woods at any hour of the day. Morning light filters through the canopy in soft beams, while evening brings cool air and birdsong. Come simply to walk, breathe, and experience the peace generations have felt here.

Inspiration Stump

Deep in the Leolyn Woods sits one of the most sacred sites in Spiritualism. Spirit Message Services have been held here since 1898, though many are drawn simply to the stillness of the clearing. Surrounded by ancient trees, it has been called "The Cathedral Beneath the Trees." Sit for a moment. You will understand.

The Forest Temple

Located on East Street, the Forest Temple is an open-air sanctuary for afternoon message services. Outside of service hours, it remains a peaceful place to sit among the trees. Since 1894, it has offered spiritual and emotional uplift to those who arrive carrying something heavy and leave a little lighter.

The Fairy Trail & Fairy Village

Behind the Healing Temple, a wooded path leads to an enchanting Fairy Village filled with miniature homes, gardens, and doorways tucked among roots and branches. Beloved by visitors of all ages, it is both whimsical and quietly magical.

The Fox Memorial Garden

In 1848, the Fox Sisters of Hydesville, New York heard unexplained rappings that sparked a movement. The cottage where it occurred was later brought to Lily Dale and stood as a monument until it was lost to fire in 1955. Today, the garden honors that history as a place of quiet reflection.

Cassadaga Lake

The lake that gave this community its first name remains one of its most peaceful places. Watch the waterfall, sit along the shore, or take in the changing light on the water. At the end of a long day, it offers a simple invitation to pause.

The Lily Dale Labyrinth

Established in 1991 as a gift to the community from Fellowships of the Spirit, the Labyrinth invites a slow, intentional walk inward. Used across cultures for meditation and reflection, it offers a quiet space to walk with purpose—or simply to walk.

The Lily Dale Museum

Housed in an 1890 one-room schoolhouse, the museum holds one of the most remarkable collections of Spiritualist history in America. Artifacts, photographs, and notable exhibits bring the story of Spiritualism to life. Open Wednesday-Sunday, 11am-4pm, in season.

The Marion H. Skidmore Library

Located on Cottage Row facing Melrose Park, the library houses one of the largest collections of Spiritualist books in the world, along with rare and unique titles for research. A daily video presentation shares the history of Lily Dale. Open Tuesday-Saturday, 10am-4pm.

The Lily Dale Pet Cemetery

On your way to Inspiration Stump, you'll find the Lily Dale Pet Cemetery—established in 1900 and quietly nestled within the Leolyn Woods. Its origins are rooted in local legend, when a team of horses broke through the frozen surface of Cassadaga Lake during ice harvesting and could not be saved.

Some were later recovered and brought to rest in the woods, including Topsy and the Brown Horse, marking the beginning of what would become the Pet Cemetery. From that moment forward, the space became one of remembrance for beloved animals.

Today, it stands as a sacred memorial to the pets of Lily Dale who have crossed into Spirit. While no new burials are permitted, the energy of love and devotion remains deeply present. Walk gently, reflect, and perhaps feel the quiet presence of those still near in spirit.

A NOTE ON HOURS

All outdoor spaces, the Leolyn Woods, Inspiration Stump, the Forest Temple, the Fairy Trail, the Labyrinth, and Cassadaga Lake, are accessible to gate pass holders at any time. The Museum and Library maintain seasonal hours as noted above. When in doubt, check posted notices at the gate upon arrival.

READINGS & HEALINGS

Two of the most profound experiences Lily Dale has to offer—and how to prepare for both.

BOOKING A READING

One of the most sought-after experiences at Lily Dale, and one worth planning for.

Lily Dale is home to some of the most gifted and respected registered mediums in the world. A private reading is a deeply personal experience and an opportunity to receive specific, evidential communication from loved ones in Spirit. For many people, these moments bring comfort, clarity, and healing that can be difficult to put into words.

Book Early

Our summer season is vibrant and busy, and appointments with our registered mediums fill quickly. We encourage you to contact individual mediums directly before your visit to schedule a session. Planning ahead helps ensure that you are able to meet with the medium of your choice, as many schedules are filled weeks in advance.

Many mediums also offer phone and online readings during the off season. Visit lilydaleassembly.org to find individual medium websites and contact information.

Preparing for a Meaningful Reading

The most meaningful readings often arise through a gentle connection between you, the medium, and Spirit. Coming with an open mind and an open heart allows this connection to unfold naturally. It is helpful to release expectations and trust that Spirit will bring forward what is most meaningful in that moment.

Arrive on time and allow yourself a few quiet moments beforehand to settle into a calm and receptive state. Simply take a breath and set the intention to receive what comes forward.

During the session, brief confirmation is helpful. A simple yes or no when you recognize something allows the medium to continue building the connection. If something feels unclear, you may ask for clarification. At times, details that seem unfamiliar in the moment become meaningful later.

Mediums do not predict the future. Each person always retains free will and the ability to shape their own path. What a medium offers is evidence of the continuity of life, the enduring presence of love, and the wisdom shared by those who have gone before us.

When the communication naturally comes to a close, the medium will recognize that the connection has completed. Allow yourself time afterward to quietly reflect on what you have received.

SPIRITUAL HEALING

You do not need a specific ailment or intention. Simply come as you are.

The Healing Temple is one of the most cherished and sacred spaces in all of Lily Dale. Built in 1955 and dedicated to the principles of spiritual healing, it has offered restorative healing energy to many thousands of visitors over the decades since its doors first opened.

During each scheduled Healing Service, our Spiritual Healers offer hands on and hands near energy healing. Through prayer and quiet focus, they draw upon Divine Source and allow healing energy to flow through them to those who come forward to receive it.

What to Expect

When you enter the Healing Temple, find a seat and allow yourself a few moments to settle into the peaceful atmosphere. When you are ready to receive healing, a healer will come to you.

Place your feet flat on the floor and rest your hands comfortably in your lap with your palms turned upward. You may gently close your eyes if you wish. Breathe slowly and allow your body to relax. Simply remain present and open to receiving the healing energy.

The effects of spiritual healing are not always immediate. Some people notice a sense of change during the healing itself, while for others the benefits unfold quietly over the hours or days that follow. Once received, healing energies continue their work in their own time.

A Few Things to Keep in Mind

One healing per service is customary. Spiritual healing is intended to complement medical care and is not a replacement for professional medical treatment.

You are not expected to discuss any personal conditions with the healer. Simply come as you are and allow the healing to be given.

The Healing Temple also offers a daily Meditation Service each morning, which is included with gate admission.

School of Spiritual Healing and Prophecy

A comprehensive two-year Certification Program in spiritual enrichment

Self-Discovery Is the Key

If you feel that the next step in your spiritual development could include a firm commitment to profound spiritual discovery and the joy of living your spiritual truths in an everyday, practical way, then this School is for you. In this concentrated two-year Certification Program we bring together a world-class faculty of instructors representing many different spiritual disciplines.

Our teaching approach is rooted in deep meditation and spiritual healing approaches that will move you through and beyond your mediumship and intuitive abilities into the realm of actual prophecy. The unique Live Learning™ process we developed to teach our Spiritual Insight Training™ programs, keeps us on the cutting edge of body-mind-spirit integration and will empower you to absorb large amounts of material in short periods of time, while simultaneously capturing and distilling the essence of what our faculty has to teach you.

Our weekend and week-long retreats provide a relaxed, distraction-free environment where you will accelerate the pace of your inner awakening and experience new spiritual capabilities, stimulating growth on all levels of your life simultaneously. You will learn to use these techniques in practical applications every day, from this point forward in your life.

By sharing your discoveries with one another you will be brought into a new awareness and a deeper understanding of both yourself and other people.

OBJECTIVES OF THIS TWO-YEAR CERTIFICATION PROGRAM

Our aim is that every graduate of this program be able to confidently and competently demonstrate the following abilities:

- Reach deep levels of inner peace through meditation
- Use multiple approaches to directly deliver effective spiritual healing
- Bring accurate prophetic messages by means of Clairvoyance, Clairaudience and Clairsentience, and thereby assist themselves and other people in both spiritual and mundane matters
- Experience specifically clarified spiritual direction to bring inner and outer activities of the student's life into harmony
- Create ceremony and sacred space for healing and worship
- Organize and conduct development circles and workshops in meditation and healing
- Use "Live Learning™" concepts, as desired, in all aspects of their lives

Our students come from diverse religious and spiritual walks. Because we believe each person's spiritual calling is unique and personal, we offer three options for students who graduate from the School of Spiritual Healing and Prophecy: Mediumship and Healing Certification, Metaphysician Certification, and Ministerial Ordination.

THE LILY DALE STORY

Issue No. 147 – June 19, 2026

CELEBRATING 147 YEARS OF COURAGE, VISION AND SERVICE

There is one question that lives at the center of every human heart, the question grief makes urgent and love refuses to release: Does life continue after death? Can those we have loved and lost still reach us? Is communication with the departed real?

For 147 years, Lily Dale Assembly has offered its answer. Not through belief alone, but through evidence.

Through the practice of evidential mediumship, the delivery of specific and verifiable information from those in Spirit to those still living, Lily Dale has offered grieving, searching, and open-hearted people something rare and profound. Evidence that life does not end. That love does not end. That those we have lost are not truly gone.

The story begins in the mid-19th century in western New York. In the small village of Laona, neighbors gathered to witness a man fall into trance as a spirit entity spoke through him, delivering messages and offering healing. Events such as this reflected the rapidly growing Spiritualist movement spreading across America during the 1850s and 1860s.

In Chautauqua County, Spiritualists, seekers, and Free Thinkers began meeting regularly to study mediumship and spiritual healing. Their shared purpose gradually took shape. By 1879 they purchased twenty acres along the shores of Cassadaga Lake and established a permanent gathering place known as the Cassadaga Lake Free Association.

In 1906 the community adopted the name it carries today, Lily Dale Assembly, inspired by the water lilies that bloom across the lake.

In its earliest years Lily Dale functioned as a summer camp. From late June through late August Spiritualists traveled here for what was known as Camp Season. It was a time devoted to services, healing, study, and fellowship.

Visitors first arrived by wagon and later by train. They slept in tents, then in simple cottages, and eventually in the charming Victorian homes that began rising along these quiet streets in the late 1870s. Some of those homes have stood since 1878.

Within those walls generations have gathered. They heard ragtime and big band drifting from porches, the crackle of wartime radio broadcasts, the sound of rock and roll from transistor radios, and later the quiet meditation music of new seekers discovering Lily Dale for the first time.

For nearly a century and a half people have climbed those porch steps carrying questions, grief, curiosity, and hope. And countless times they have left lighter than they arrived.

As the village grew, landmark buildings began to appear. The Lily Dale Auditorium was built in 1883 and quickly became the center of large gatherings, drawing crowds so large that people often stood outside to hear the speakers within.

The Maplewood Hotel, ingeniously converted from what had once been a horse barn, has welcomed guests since 1880.

The Marion H. Skidmore Library began in a tent in 1886. Today it houses the largest collection of Spiritualist literature in the world.

Along a quiet path through the old-growth Leolyn Woods stands Inspiration Stump, where outdoor message services have been offered continuously since 1898.

Lily Dale has also welcomed notable visitors throughout its history. The great suffragist Susan B. Anthony once spoke from the stage of the Auditorium.

Actress Mae West, moved by the mission of Spiritualist healing, supported the creation of the Healing Temple, which opened in 1955 and has offered spiritual healing to countless thousands.

Though every chapter of history Lily Dale has remained a place of comfort and continuity.

During the Spanish-American War, through the losses of World War I and World War II, through Korea, Vietnam, and the many sorrows carried by families across generations, Lily Dale kept its gates open.

Its mediums continued to serve from the platform. Its healers continued their work in the temple. And its message remained constant: come. There is evidence. Life continues. You are not alone.

Today what was once called Camp Season is known as the Summer Season, and the journey here looks different than it once did. Yet the reason people come has not changed.

They come because they are grieving. They come because they are curious. They come because they have been here before and know that what happens within these gates is real.

The Victorian homes with their wide porches still line these streets, holding more than a century of laughter, tears, and the quiet electric moment when a medium says something that could not possibly be known, and yet is.

The land that began as twenty hand-cleared acres now spans more than one hundred sixty, lovingly tended by a community as devoted as the pioneers who first gathered here.

And the question that brought them together so long ago, the question asked in every language and every century by anyone who has ever loved someone and lost them, is still being answered here every single day.

SEASON HIGHLIGHT

Lily Dale Assembly, Lily Dale, NY

**Medical Intuition, Grief, and the Intelligent Body —
Advanced Healing Through Pattern Recognition
& Nervous System Regulation**

Aug 24 - 28, 2026 | Assembly Hall | 9:00 - 4:00 PM | \$895

This 5-day workshop is designed for practitioners who feel there is more possible in healing—more depth, more understanding, and more lasting change. Rather than focusing on sending energy or applying techniques, this experience teaches you how to read the body, recognize emotional and energetic patterns, and support real release and integration. This is healing that works at the level of lived experience, not just surface symptoms. No previous medical or healing knowledge is required. This training is experiential, grounded, and accessible, while offering a meaningful step forward for those ready to deepen their work.

- Aug 24** Day 1: Understanding the Intelligent Body — We begin by learning how the body communicates. This day introduces medical intuition as pattern recognition and awareness, not diagnosis. You'll learn how intuition gathers information through sensation, observation, and embodied knowing—moving beyond thinking or analyzing.
- Aug 25** Day 2: Intuitive Scanning and Pattern Recognition — Clarity replaces guesswork. You'll learn how to scan the body and energy field to identify where experiences are held and how they impact well-being. Emphasis is placed on recognizing patterns rather than trying to fix or interpret symptoms.
- Aug 26** Day 3: Grief, Trauma, and Somatic Holding — Grief changes the body—and healing requires understanding that. This day focuses on how grief, loss, and unresolved emotional experiences are held somatically. You'll explore how people carry grief in different ways and how that holding can limit healing if it is not acknowledged.
- Aug 27** Day 4: Nervous System Regulation and Emotional Release — Healing happens when the body feels safe enough to change. This day focuses on nervous system regulation and why healing often plateaus or doesn't last. You'll learn how to support release in a way that the body can integrate rather than resist.
- Aug 28** Day 5: Integration and Practitioner Protocols — The final day focuses on integration and application. You'll learn how to bring this work into real client sessions in a way that supports long-term change rather than temporary relief. You'll leave with clarity, confidence, and a deeper understanding of how to support true healing.

TRANCE THREE-DAY INTENSIVE

August 27 - 29, 2026 • Lily Dale Assembly, Lily Dale, NY

Designed for mediums with foundational experience, this immersive three-day workshop offers a safe, supportive, and deeply practical approach to developing trance mediumship and trance healing.

Trance mediumship opens a profound pathway beyond ordinary awareness, allowing for a meaningful and conscious blending with Spirit. Through this expanded state, communication with Spirit Guides and inspired intelligences becomes clearer, more fluid, and deeply transformative. This workshop honors the sacred nature of that connection while providing grounded, ethical, and structured development.

Participants will explore altered states of consciousness through guided exercises designed to safely deepen the trance state. The focus moves beyond introductory understanding to include inspired speaking, blending with Spirit Guides, and the philosophy and purpose behind trance work. Emphasis is placed on building a strong, reliable connection while maintaining awareness, control, and trust in the process.

The workshop also introduces and develops trance healing, offering participants the opportunity to experience and channel healing energies within an altered state. Through both theory and supervised practice, students will gain confidence in allowing healing power to flow in a way that is both supported and responsibly guided.

Throughout the three days, a nurturing and respectful environment is cultivated—one that encourages exploration, personal growth, and the deepening of intuitive awareness. Each participant is supported in strengthening their unique connection with Spirit, while learning to recognize the presence, influence, and communication of their guides with greater clarity.

This workshop is ideal for those who feel called to deepen their trance work, strengthen their blending with Spirit, or explore the potential for inspired speaking and healing within a structured and heart-centered setting.

Participants are encouraged to come with an open mind, a willingness to explore, and a commitment to working in harmony with Spirit.

Mediumship Phenomena: What is it?

Julie Adreani & Mychael Shane
9-12p | Assembly Hall | \$55

Explore the fascinating realm of physical mediumship and its place within the Spiritualist tradition. This workshop examines reported phenomena such as rapping, apports, materialization, object movement, and Spirit voices, while clarifying the distinction between mental and physical mediumship. Through thoughtful discussion and historical context, participants gain a grounded understanding of how physical phenomena have been documented, interpreted, and understood within the broader development of Spiritualism.

Julie Adreani and Mychael Shane are trance and physical phenomena mediums and spiritual teachers. Their work focuses on demonstrating and teaching the principles, structure, and observable expressions of trance and physical mediumship within the tradition of Spiritualism.

Butterfly Release Ceremony

12:30-1:30p | Butterfly Garden | \$15
Registration begins at 12:00 pm.

The butterfly's journey, from egg to caterpillar, from chrysalis to winged grace, is one of nature's most profound metaphors for transformation. In Spiritualism, this metamorphosis mirrors the soul's passage from physical life into Spirit: not an ending, but a becoming.

During this beloved ceremony, participants release butterflies in tender remembrance of those who have crossed over, affirming that love does not diminish with physical departure, but endures, weightless and boundless as a butterfly carried on the breeze.

Advance reservations are strongly encouraged, as space and butterflies are limited.

DECLARATION OF PRINCIPLES

Spiritualism is guided by a set of enduring principles that express the core spiritual understandings embraced within the Spiritualist tradition. These principles are not intended as a rigid creed, but rather as a spiritual framework that encourages individuals to explore truth, live ethically, and grow in their personal relationship with Spirit.

1. We believe in Infinite Intelligence.
2. We believe that the phenomena of Nature, both physical and spiritual, are the expression of Infinite Intelligence.
3. We affirm that a correct understanding of such expression and living in accordance therewith constitute true religion.
4. We affirm that the existence and personal identity of the individual continue after the change called death.
5. We affirm that communication with the so-called dead is a fact, scientifically proven by the phenomena of Spiritualism.
6. We believe that the highest morality is contained in the Golden Rule: Do unto others as you would have them do unto you.
7. We affirm the moral responsibility of individuals, and that we create our own happiness or unhappiness as we obey or disobey Nature's physical and spiritual laws.
8. We affirm that the doorway to reformation is never closed against any soul, here or hereafter.
9. We affirm that the precepts of Prophecy and Healing are Divine attributes proven through Mediumship.

HEALING PRAYER

I ask this great unseen healing force to help both present and absent ones who are in need of help and to restore them to perfect health. I put my trust in the love and power of God."

About Tom Cratsley

Tom Cratsley has worked in counseling, teaching, and Spiritual Healing for more than forty years. He studied psychology and counseling at Harvard Divinity School and serves as Associate Director of Fellowships of the Spirit, where he has guided generations of students in spiritual development and healing practices.

Mae West — yes, that Mae West — was a devoted Spiritualist who made multiple visits to Lily Dale Assembly in upstate New York, the world's largest center for the religion of Spiritualism. Her favorite medium there was a Welsh healer named Reverend Jack Kelly, who she called "the world's greatest psychic." She was so devoted to him that she reportedly claimed he visited her in spirit after his death in 1964, appearing on the couch in her room.

When Louis T. Vosburgh, a Lily Dale president, funded the construction of a Healing Temple in Kelly's honor, Mae West was among those who took part in the dedication ceremonies on July 3, 1955. Post Journal The Temple has remained a place of peace ever since, where visitors come to renew their energies through healing and quiet meditation.

Learning to create an auragraph means also learning to interpret the images, colors, and symbols that emerge. First used by medium Harold Sharp to describe an artistic diagram of the human aura, auragraphs can be simple or complex — and no artistic talent is needed, because Spirit guides the drawing. Exercises support developing interpretive skills, and art supplies are provided, though participants are welcome to bring their own.

Dr. Susan B. Barnes is a retired communication professor and certificate holder from the Spiritualist National Union. She teaches spirit art and mediumship for the Afterlife Research and Education Association and is a speaker at the Edgar Cayce Centre in Virginia Beach.

Michaelene Clevenger is a Registered Lily Dale Medium who has worked in the mystical arts since the mid-1980s. An ordained minister and graduate of Fellowship of the Spirit School of Prophecy and Healing, she graduated from the James Van Praagh Master Program and served as head mentor of his mediumship program.

Reflective prompts and examples guide participants as they write their own lamentations and witness the transformation this expression can bring.

Reverend Elizabeth Ferrall is an Energy Healer, Reflexologist, and Soul Coach who has studied with a variety of teachers in religion, spirituality, and plant and energy medicine. She believes deeply in magic and miracles and invites others to welcome both into their lives.

A guided meditation prepares body, mind, and Spirit to translate inspired thought into creative action. Watercolors, as a fusion of earth and water elements, serve as energetic collaborators in each painting. Materials are provided; participants are welcome to bring additional art-making mediums. Material fee: \$5, paid to presenter on the day of class.

Marisa LaGuardia holds an MFA and is a Reiki Master practitioner and teacher, as well as a certified Stone Medicine practitioner. Divination is the art of foreseeing future events or discovering hidden knowledge about present circumstances through the interpretation of visions or symbols. By contemplating patterns made with found objects—cards, tea leaves, coins, etc.—we can enter an altered state through which we can connect with the universal mind to receive information and guidance.

Lin Hunter is the creator and instructor of the year-long Psychic Skills Certification Program offered by the Edgar Cayce Center of New York. She is certified in psychic investigation, advanced remote viewing, and forensic composite art, and has assisted law enforcement agencies, organizations, and families in criminal investigations and missing persons cases.

The word chakra comes from the Sanskrit word for "wheel" — ancient texts describe them as spinning vortices of energy, and it was believed that if even one chakra stopped spinning, the flow of life force throughout the entire body would be disrupted!

Astral Projection

Eleni Dedes
2-5p | Octagon | \$55

Astral Projection and Spirit is an afternoon workshop exploring out-of-body experience as it occurs across waking life, dreams, and meditation. Participants examine how astral projection works and what its relationship to Spirit may be, then engage in a group meditation designed to facilitate the experience directly.

Eleni Dedes holds a Ph.D. in Philosophy and Religion with a concentration in Women's Spirituality. Her research focused on the oracular priestesses of Ancient Greece, and she teaches courses on spirituality, intuitive gifts, and goddess mythology.

Long before "channeled art" became a modern phenomenon, some of history's most fascinating artwork was reportedly created in an altered state of consciousness — with the artist claiming to be merely the instrument. One of the most celebrated examples is Hilma af Klint, a Swedish painter who in 1906 began producing large-scale abstract works she believed were dictated to her by spiritual beings — nearly a decade before Kandinsky is credited with inventing abstract art. Similarly, Coral Polge, a 20th-century British psychic artist, became famous for sketching detailed portraits of the deceased — often recognized by grieving family members who had never met her.

Paul Gaunt
10-12p | Assembly Hall | \$20

In this illustrated lecture series, curator and historian Paul Gaunt will explore the history of Spiritualism—from its earliest roots to some of its most extraordinary and lesser-known chapters. Drawing on decades of archival research and direct access to rare primary source material, Paul will share stories many audiences have never heard and separate fact from fiction in ones we think we already know.

Degrees and glyphs within a chart serve as access points for clairvoyant and clairaudient information about a person's life path — past, present, and future. Participants learn to tune into a chart on a psychic level, expanding consciousness and deepening connection with Spirit through this unique intersection of astrology and intuitive development.

Eleni Dedes holds a Ph.D. in Philosophy and Religion with a concentration in Women's Spirituality. Her research focused on the oracular priestesses of Ancient Greece, and she teaches courses on spirituality, intuitive gifts, and goddess mythology.

During documented cases of physical mediumship, some investigators reported measuring sudden and dramatic drops in room temperature — sometimes up to 10- 15 degrees — right before a phenomenon occurred, leading researchers to theorize that spirits may draw on the surrounding thermal energy to manifest in the physical world!

SHANNON TAGGART SYMPOSIUM PRESENTS

The Academy of Magical Arts Presents: Zabrecky on Houdini and the Spirits

2-3p | Auditorium | \$15

Zabrecky explores one of the most dramatic cultural battles of the 20th century: Harry Houdini vs. the spirits. This richly illustrated presentation blends archival images, historical accounts, and live demonstrations to examine Houdini's crusade against fraudulent mediums at the height of America's Spiritualist fever. A master of illusion himself, Houdini recognized the methods behind spirit cabinets, slate writing, trumpet manifestations, and ectoplasmic materializations, and set out to expose them. Yet the story is far more complex than a simple debunking campaign. Zabrecky will take us into the shadowy crossroads where belief and skepticism collide.

Rob Zabrecky is a magician, actor, author, lecturer, and musician known for his darkly comedic and theatrical style. In the '90s, he fronted the indie band Possum Dixon, and LA Weekly once called him "one of LA's most interesting natives." For more than two decades, Zabrecky has headlined theaters, magic festivals, and conventions around the world—from Tokyo to New York City. He has appeared on Penn & Teller: Fool Us and has been honored with seven awards from the Academy of Magical Arts at Hollywood's famed Magic Castle.

Mediumship is not an exclusive gift reserved for a rare and chosen few, according to many of the world's leading intuitives; it is a skill that can be developed. Much like music or a foreign language, the ability to perceive and communicate with spirit is believed to exist on a spectrum, with most people operating far below their natural capacity simply because they've never been shown how. The Spiritualist community has been teaching mediumship development in structured classroom settings for over 150 years, and today, Lily Dale Assembly attracts students from around the world seeking to consciously cultivate their intuitive and mediumistic abilities.

Mary Jo Mallchok
9-12p | Lyceum | \$55

Rooted in the principle of Nada Brahma, the ancient understanding that sound is the foundation of creation, this workshop explores sacred music as a tool for insight, healing, and spiritual refinement. The first half traces the arc of high-vibrational music from ancient chant through the masterworks of Bach, Haydn, Mozart, Beethoven, Brahms, Mendelssohn, Rimsky-Korsakov, Mahler, and Barber. The second half focuses on the life, teachings, sacred music, and movements of G.I. Gurdjieff, with emphasis on his understanding of the four human bodies and the path of conscious evolution known as the Fourth Way.

Mary Jo Mallchok is a visiting medium, Reiki Master, and professional violist with the Parma Symphony and second alto with the Baldwin Wallace Women's Chorus. Kari Lang
2 - 5p | Lyceum | \$55

This workshop offers guided experiences, hands-on practice, and practical tools, with evidence-based insight, deepening the connection to the therapeutic power of vibration; explore how sound interacts with the body's chakras and biofield energy systems. Depart feeling grounded, renewed and resonating in harmony!

Rooted in deep intuition, creativity, and a profound connection to community; Kari naturally fuses spiritual wisdom, creative embodiment, and heartfelt mentorship that supports others in aligning with their highest potential.

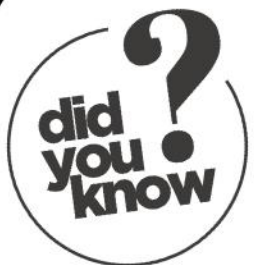

Process to Unlock Your Divinity: A Spiritual Awakening

Viven Perumal
2-5p | Octagon | \$55

Ideal for individuals seeking spiritual growth, understanding the purpose of life, and attaining higher consciousness and divine realization. Suitable for those new to spiritual practice or wishing to deepen their path, the workshop presents insights and practical tools to support spiritual development. This module offers a structured understanding of complex spiritual concepts to raise awareness and cultivate spiritual intelligence.

Viven Perumal is a spiritual teacher and healer dedicated to mentoring and guiding others toward their spiritual gifts on the path of self-realisation. He teaches practical methods of spiritual development and healing, with a focus on raising consciousness and unlocking inner potential.

Many ancient traditions teach that the universe was created through sound. The Sanskrit concept Nada Brahma, meaning "the world is sound," holds that vibration is the source of all reality. This idea appears across cultures, from the "Word" in the Gospel of John to Tibetan chanting and the work of composers like Bach and Mozart.

Philosopher and mystic G.I. Gurdjieff expanded on this idea through his spiritual system, The Fourth Way. He taught that humans have four bodies: physical, emotional, mental, and spiritual, each requiring conscious development. Gurdjieff believed most people live on autopilot, and that sacred music, movement, and self-observation are powerful tools for awakening.

9-4p | Lyceum | \$110

Beyond Sight: 6 More Mediumship Methods explores six mediumistic skills beyond clairvoyance. Many people have smelled a loved one's perfume long after their passing, had a knowing sense about a Spirit, or heard a Spirit loved one's voice just before waking. Mediums can also hear, taste, feel, smell, embody, and simply know Spirit loved ones on the other side. This interactive workshop guides participants in discovering and strengthening these six ways of communicating with Spirit, delivering messages with clarity and confidence.

Dan Johnson is a Spiritualist Minister and Chicago-based Evidential Medium, Psychic, Past Life Regressionist, Tarot Reader, and Certified NeuroTransformational Coach. He hosts the Spirit and Energy Podcast, featuring interviews with experts on energy, intuition, past lives, and spirituality.

Trance Channeling for the Modern Mystic

Lisa Bousson
9-4 & 7-10p | Assembly Hall | \$165

Learn to step aside and let a higher stream of consciousness take the wheel. Modern trance channeling is a grounded, sophisticated practice of entering the theta state, enabling you to act as a bridge between the physical and the non-physical worlds. In this intensive, you'll move past the "mystical" fluff and dive into the mechanics of expanded awareness. Whether you're looking to connect with guides, tap into the Akashic field, or simply deepen your intuitive "reception," this class provides the roadmap to becoming a clear, conscious conduit.

For almost six decades, Michigan Psychic Medium, Lisa Bousson, has been communicating with the world of spirit. Lisa is a certified Spiritualist Healer, Reiki Master Teacher, Certified Spiritualist Medium, Certified Psychic Medium, Ordained Spiritualist Minister, Ordained Metaphysical Minister, Ordained Non-Denominational Christian Minister, and also an instructor at the famed historic Lily Dale Assembly. Lisa currently holds a bachelor's degree in Metaphysical Sciences from The University of Sedona. Along with her private practice based in southeast Michigan, Lisa teaches spiritual development classes and holds public demonstrations of mediumship throughout the US and Canada.

When the brain enters the theta state, the slow brainwave pattern measuring between 4-8 Hz, it crosses into a rare zone between waking and sleep that scientists associate with heightened creativity, deep intuition, and expanded awareness. It's the same state experienced during deep meditation, hypnosis, and the moments just before you drift off to sleep. Mystics and spiritual traditions have described this threshold for centuries, it's what many believe enables the practice of trance channeling, the art of consciously stepping aside to act as a bridge between the physical and non-physical worlds.

SEASON HIGHLIGHT

FINDING YOUR ARTISTIC VISION – DAY 1

John A. Rice

August 7, 2026 | 9-12p | Lyceum | \$55

Finding Your Artistic Vision is a multi-day workshop exploring art as a spiritual practice — rooted in intuition, presence, and personal truth. Led by Lily Dale artist-in-residence John A. Rice, this experience is designed for anyone seeking a deeper connection to their creative self. No artistic training is necessary.

Using raw, expressive materials like charcoal and oil pastel, you will learn to bypass overthinking and allow the artwork to emerge from within. Through guided prompts, grounding exercises, and hands-on exploration, participants will access their inner vision and give it form — without judgment, pressure, or perfectionism

Day 1 focuses on quieting techniques — learning to move past the noise of everyday thinking and get in touch with the authentic self. This is the foundation everything else is built on, and each day's lesson is meant to be internalized before moving on.

John A. Rice is a NYC-based artist, writer, and actor known for his expressive oil pastel work and deeply intuitive creative process. He has twice served as artist-in-residence at Sacred Grounds Coffee Shop in Lily Dale Assembly — in April 2023 and again in June 2025 — and returns for the 2026 season. John's practice is rooted in trust and surrender: he works by following the visions he receives, allowing each piece to emerge without editing or second-guessing. His workshops invite others into that same space of receptivity, helping participants quiet their inner critic and create art that feels authentically their own.

FINDING YOUR ARTISTIC VISION — DAY 2

John A. Rice

August 8, 2026 | 9-12 p.m. | Lyceum | \$55

Day 2 of Finding Your Artistic Vision builds on the quieting and self-awareness cultivated on Day 1, and turns the focus outward: how do you express what you find inside?

This session is all about the means of expression — working with charcoal and oil pastel as tools for translating inner vision into something tangible. John will guide participants through techniques that honor the intuitive process, helping you move from feeling to form with confidence and ease.

Whether or not you attended Day 1, this session offers a meaningful, hands-on exploration of creative expression as spiritual practice.

John A. Rice is a NYC-based artist, writer, and actor known for his expressive oil pastel work and deeply intuitive creative process. He has twice served as artist-in-residence at Sacred Grounds Coffee Shop in Lily Dale Assembly — in April 2023 and again in June 2025 — and returns for the 2026 season. John's practice is rooted in trust and surrender: he works by following the visions he receives, allowing each piece to emerge without editing or second-guessing. Winterbrook Ryan
2-5p | Octagon | \$55

Did you know we all have a multitude of helpers in spirit? Some are task-specific, while others work with you throughout your lifetime. These loving guides can be spirits previously incarnated, deceased loved ones, animals, angels, elementals and other beings. Winter Brook will discuss the many different kinds of guides and their roles. She will share methods for consciously connecting with them beyond just using meditation. Someone once told her you could only learn about your guides through meditation. Well, Spirit corrected that teaching and provided the foundation for this course. Induced After-Death Communication

Gregg Unterberger
9-12p | Lyceum | \$55

In 1995, Dr. Allan Botkin was doing trauma therapy working with combat veterans at the Chicago V.A. Hospital. In a two-week period, three of his clients spontaneously made apparent contact with people who had crossed-over! None were mediums or even "believers" and yet they were convinced they had connected with loved ones who had died. Out of this incredible accident, Botkin developed IADC, Induced After Death Communication, a powerful therapy to resolve grief that allows ordinary people to connect with those who have crossed.

Gregg Unterberger, M.Ed. is a psychotherapist and national presenter for Edgar Cayce's A.R.E. He is a Brian Weiss certified past life regression therapist, the co-founder of the international online network, The Soul Empowerment Community and the author of The Quickening: Leaping Ahead on Your Spiritual Journey.

Healing with Shared Death Experience

Gretchen Jones
2-5 | Lyceum | \$55

As a death doula, Helen Gretchen Jones has had many encounters with departed loved ones and spiritual beings through shared death experiences (SDEs) at the bedsides of her clients. Drawing on these stories and the signs from Spirit that validated them, this presentation raises awareness about SDEs as experiences available to everyone. Like a mediumship reading, SDEs can expedite the healing process and soften the edges of grief, shifting perspective and deepening connection to a departing loved one, to oneself, and to All That Is.

Helen Gretchen Jones is a death doula, intuitive, and channeler who writes and teaches about shared death experiences and spiritual consciousness. She holds dual master's degrees in art history and theology and is certified in sound bowl therapy, Reiki, hypnosis, and past life regression.

The Lyceum at Lily Dale: A Living Legacy of Andrew Jackson Davis

At the heart of Lily Dale stands the Lyceum, a place devoted to learning, growth, and spiritual unfoldment. Bearing the name of Andrew Jackson Davis, known as the “Poughkeepsie Seer,” it reflects a foundational principle of Spiritualism that the development of the soul is supported through education, shared experience, and community.

Andrew Jackson Davis (1826 to 1910) emerged as an influential voice in the years just before the rise of Modern Spiritualism. With little formal education, he entered trance states in which he spoke and wrote on subjects such as healing, philosophy, and the continuity of life beyond death. His 1847 work, *The Principles of Nature*, appeared one year before the widely recognized beginning of Modern Spiritualism, marked by the 1848 rappings heard by the Fox sisters, and helped establish a framework for understanding spirit communication within a broader natural philosophy.

At the center of Davis’s teachings was what he called the Harmonial Philosophy, a belief in the progressive development of the human spirit guided by natural laws, personal responsibility, and the pursuit of truth. From this philosophy grew the Lyceum movement, an educational model embraced by early Spiritualists. The Lyceum welcomed both children and adults, recognizing that spiritual awareness begins early and deepens through continued learning and experience.

The Lyceum at Lily Dale carries this vision forward. It stands not only as a building, but as a living expression of Spiritualism as both study and practice. Within this space, individuals gather to explore spiritual principles, develop awareness, and participate in a tradition that values inquiry, growth, and inner knowing.

To begin at the Lyceum is to understand something essential about Lily Dale itself. This is a community rooted not only in demonstration, but in education. It is a place where spiritual truth is explored, practiced, and continually rediscovered.

SATURDAY • AUGUST 15, 2026

Each August, Lily Dale honors Women's Day, a tradition deeply rooted in the community's long-standing connection to the women's suffrage movement. Among the most notable voices to grace Lily Dale's grounds was Susan B. Anthony, one of the most influential leaders in the fight for women's right to vote.

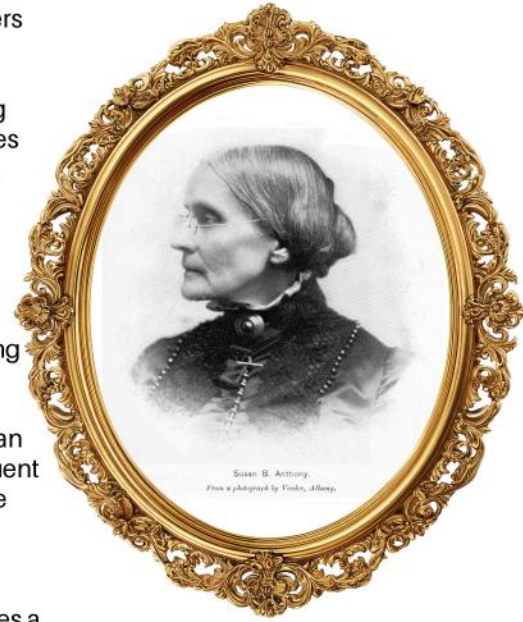

In the late 19th century, Lily Dale was more than a Spiritualist center, it was also a gathering place for progressive thinkers, reformers, and advocates of equality. Spiritualist communities were often aligned with social reform movements, including abolition and women's rights, creating a natural platform for suffrage leaders like Anthony.

Susan B. Anthony made several visits to Lily Dale and spoke to large audiences there, including a notable appearance in the early 1890s when thousands gathered in the amphitheater to hear her speak on women's rights. One account describes the grounds adorned in suffrage colors, with crowds coming "from near and far" to celebrate the growing movement for equality.

Her connection to Lily Dale was also personal. She was welcomed by leaders such as Marian Skidmore, a prominent Spiritualist and advocate for women's suffrage, and became a frequent visitor to the community. At Lily Dale, Anthony found not only an audience but a supportive environment where ideas about equality, freedom, and the expansion of human understanding could flourish.

Today, her legacy remains woven into Lily Dale's history. The Lily Dale Museum even houses a women's suffrage display honoring Susan B. Anthony and the movement she helped lead.

As Lily Dale celebrates Women's Day each August 15, it continues a tradition that reflects Anthony's enduring message, that progress is born from courage, community, and the unwavering belief in equality for all.

Developed in Japan in the 1920s by Mikao Usui, Reiki is a healing practice based on the idea that a practitioner can channel energy into a patient through touch, promoting relaxation and the body's natural ability to heal. Today, it's used as a complementary therapy in hospitals and wellness centers around the world!

Astrology is one of the oldest belief systems in human history, dating back over 4,000 years to ancient Mesopotamia! The Babylonians were the first to map the zodiac, dividing the sky into 12 sections based on the constellations they observed. Their system was later adopted and refined by the Greeks and Romans, which is why so many zodiac signs still carry Latin and Greek names today.

Neptune In Aries - Where the Weirdos and Mystics Redefine the Future

Rachel Lang
2-5p | Assembly Hall | \$55

The future belongs to the "weird." But what does that really mean? The word "weird" traces its roots to the Old English wyrd, meaning fate or destiny. To be weird once meant being in tune with unseen forces shaping our lives and standing at the crossroads of change. With Neptune entering Aries in 2025 and shaping culture until 2039, Rachel Lang guides participants through history, examining connections between astrology, Spiritualism, social movements, and how Neptune's cycles align with periods of cultural and spiritual change

Rachel Lang is an astrologer, author, and transformational leader who works with astrology, history, and contemporary social themes to explore cycles of change and their influence on culture, leadership, and spiritual movements.

Grow Your Healing Powers

Chris DeSerio
9-12p | Lyceum | \$55

People experiencing persistent emotional, mental, physical, or spiritual difficulties often find that standard self-help approaches and practices of energetic hygiene, such as grounding and chakra balancing, fail to produce lasting change. This workshop addresses the recognition of negative forces that may account for this gap and offers strategies for immediate and long-term resolution. While the primary focus is on working with others, much of the material can be adapted for personal use as well.

Chris DeSerio has worked for over 25 years as a psychic, platform, trance, and physical medium, healer, hypnotherapist, and psychotherapist. He teaches and tutors at Spiritualist camps and centers including Lily Dale in New York, Camp Etna in Maine, the Ladies Aide Society in Connecticut, and Camp Chesterfield in Indiana.

Putting Flesh on the Bones of your Ancestors

Lesley Buchanan
2-5p | Lyceum | \$55

This workshop introduces participants to the foundations of genealogy and family history research, with applications for both personal healing and mediumship practice. Exploring the lives of ancestors can illuminate patterns of generational trauma and offer a path toward understanding and resolution. The class also addresses the practical value of genealogical knowledge for mediumship, examining how familiarity with one's family history strengthens the ability to recognize and validate Spirit communications from those who have passed.

Lesley is proud to be herself first, secondly, blessed to be a mother, grandmother, daughter, sister, friend! As a lifelong learner, Lesley has been gathering certificates, diplomas, experiences during her career in the Death care industry and as a Genealogist and Executor Advisor, Medium and several healing modalities.

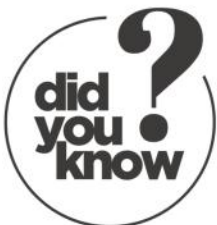

Seeing Past Lives with Your Spirit Guides

Connie Griffith
7-10p | Assembly Hall | \$55

This workshop explores past lives as a tool for self-discovery through three guided meditations that facilitate multi-level awareness. Participants are guided to meet their Spirit guides and receive messages, to explore other lives through time, and to use etheric travel for teaching and healing. Sessions address personal challenges and triumphs, soul connections, and life mission. Participants are encouraged to bring a pillow or mat and blanket and to wear casual clothing for comfort during the meditations.

Connie Griffith is a Registered Lily Dale Medium, a graduate of the School of Spiritual Healing and Prophecy, and an ordained Spiritualist minister. She holds degrees in engineering and business administration, has trained in cognitive therapy counseling and neuro-linguistic techniques, and has taught spiritual awareness classes and workshops for 25 years.

The belief in past lives — known as reincarnation — is one of the most widespread spiritual beliefs in the world, shared by an estimated 1.5 billion people across many faiths and cultures. It's a central tenet of Hinduism, Buddhism, Jainism, and Sikhism, but the idea also appeared in ancient Greek philosophy — Pythagoras claimed to remember several of his own past lives. Even in the Western world, surveys suggest that roughly 1 in 4 Americans believe in reincarnation.

He's best known for his exhaustive investigation of Borley Rectory in Essex, England — dubbed "the most haunted house in England" — where he documented alleged poltergeist activity, mysterious writing on walls, and ghostly apparitions throughout the 1930s.

VIP Event Between Two Worlds

August 29, 2026 | 2-4p
Assembly Hall | \$55

Explore where paranormal investigation and mediumship ethically intersect, and where they must remain distinct. Paranormal investigator and television host Nick Groff, known for his work on Ghost Adventures and Paranormal Lockdown, brings more than two decades of investigative experience to examine how patterns, environmental factors, and historical context shape real paranormal cases. Psychic medium Tessa Groff explores how Spirit communicates through emotion, symbolism, and subtle perception.

Together, they examine the difference between spiritual communication and paranormal phenomena, the role of intuition in active cases, and why not all unexplained experiences require investigation or interpretation. The workshop includes guided sensory and intuitive awareness exercises that emphasize discernment, energetic boundaries, nervous-system regulation, and responsible curiosity rather than provocation or spirit-summoning. Suited for intuitives, investigators, sensitives, and seekers.
