WELCOME

Welcome to the AGBIS Professional Development Programme 2025–2026

We are delighted to present our refreshed and expanded programme of courses and events for the 2025–2026 academic year. Developed in direct response to the evolving needs of our members, this year's offering provides a comprehensive range of professional development, networking opportunities and expert-led knowledge sharing - designed to support governors and governance professionals at every stage of their journey.

We understand that cost and time are key considerations for all schools and governing bodies. That's why we've worked hard to keep training costs low and maximise the number of events included at no additional charge within your membership. We're also increasing our e-learning provision, with revamped versions of our popular New Governors and Safeguarding courses, plus exciting new modules to follow - giving you greater flexibility to learn at your convenience.

A major highlight this year is the launch of the Governance Professionals' Programme (GPP). Starting in autumn 2025, this structured development programme is tailored specifically for Clerks, offering three progressive levels - Foundation, Intermediate and Advanced - each running over six months.

We're also thrilled to announce that our Annual Conference will take place on 19 March 2026 at the QEII Centre, London. Expect a superb line-up of speakers, engaging breakout sessions and the chance to connect with peers from across the sector.

We look forward to supporting you through another year of impactful, relevant and accessible professional development.
