

Building Smarter, Safer, More Resilient Buildings, Together.

Comprehensive Industrial Construction Solutions for Modern Industry

Expertise in Automation & Control Systems

Building robust and future-ready industrial automation solutions demands expertise and foresight. Turtle supports businesses in this pursuit, providing the resources and experience needed to turn automation ambitions into reality.

Trusted Partner in Industrial Electrical Distribution

With over a century of experience in automation, controls, switchgear, and power distribution, Turtle has become a preferred choice for electrical contractors, construction managers, and end-users across the nation.

Tailored Solutions & Consultative Expertise

Our team excels at tailored designing, sourcing, and managing power distribution and automation systems, offering consultative services for the installation of industrial automation solutions. Backed by strong partnerships with leading manufacturers, Turtle ensures clients have access to top-tier components for systems that operate reliably and efficiently.

Family-Owned & Operated

Silver Ecovadis Rating
for Sustainability

Our team of experts offer a **comprehensive range of solutions** to ensure your project meets your deadlines and your design specs.

- Design Assistance
- Value Engineering
- Project Management
- Start Up and Commissioning
- Supply Chain Management
- Cyber Security

Smart, Sustainable Construction Solutions that Drive Value, Efficiency, and Effectiveness

Our expert team is dedicated to helping you enhance your operations by:

Safe & Efficient Switchgear Solutions:

Ensure control and protection of electrical power systems through technical project management, drawing submittals, and post-delivery start-up services management.

Lighting Energy Efficiency & Effectiveness:

Customize lighting solutions to reduce energy costs, improve workplace conditions, and ensure compliance with local regulations.

Industry-leading Construction Consulting:

With custom operations and maintenance manuals, our team of experts works hard to ensure that your project adheres to tight timelines and that installations are done safely and according to design specs.

Safety First Solutions & Services:

We can spot electrical hazards during the design phase prior to construction, and we can help you recover quickly to minimize downtime from unexpected failures due to fires, flooding, and storms.

Backup, Redundancy, & Resiliency Solutions:

Comprehensive solutions to ensure continuous operations and protection against power disruption.

Our Related Offerings

Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction & automatic transfer switches

Components for Electrical & Mechanical Subsystems

Variable frequency drives, circuit breakers and fuses

Facility Power Distribution

Busway, transformers, panelboards, switchgear and floor-based power

Facility/Power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

Monitoring Consoles

Network operations center consoles

White Space Power Distribution

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

Airflow & Thermal Management Solutions

Rack and aisle-based containment solutions

Racks & Enclosures

IT equipment racks, enclosures and colocation cages

Wire & Cable Management

Cable tray and modular wiring systems

Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls
