INTRODUCTION

Engage your audience. Elevate your events.

Webble-Up is your all-in-one interactive event platform, designed to turn passive viewers into active participants – whether they join in-person, remotely, or both. From high-level conferences and hybrid board meetings to webinars, exhibitions and recruitment events, Webble-Up offers a flexible digital infrastructure that enhances interaction, boosts engagement, and captures valuable insights.

With full branding possibilities and an intuitive drag-and-drop builder, every event becomes a custom experience – visually aligned with your organization and functionally tailored to your audience. Packed with cutting-edge features like real-time polls, Q&As, quizzes, breakout rooms, multi-stream support, AI-driven interpretation, and live emoji reactions, Webble-Up combines technical sophistication with human connection.

And there's more: our in-house development team also creates custom interactive tools tailored to your needs. Whether it's a fully branded event app or a playful engagement tool, like the tailor-made interactive quiz we developed for Brewery De Koninck's visitor center – we code the experience to match your vision.

Whether you're hosting one stream or ten, need multilingual support or a live gamified moment – Webble-Up brings people together, on screen and beyond.

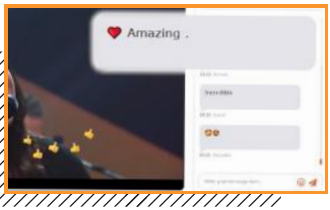
INTERACTIVE LIVE EVENTS

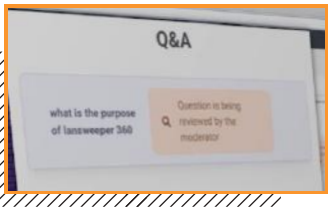
PLATFORM FEATURES

INTERACTION & ENGANGEMENT



ENGAGING CHAT

Keep your audience engaged with our live chat. This way the viewers can interact with you and all participants.



REAL-TIME Q&A

Viewers can submit questions during sessions; moderators control what appears on screen.

LIVE POLLING & RATING

Ask questions during your stream and show live results instantly.

LIVE EMOJI REACTIONS

Let your audience respond instantly with flying emoji reactions on screen.

LIVE QUIZZES

Viewers can submit questions during sessions; moderators control what appears on screen.

CUSTOMIZATION & BRANDING

FULLY COMPANY BRANDED EVENT ENVIRONMENT

Tailor every element to your brand identity – visuals, layout, interaction tools.

CUSTOM LAYOUTS FOR VIRTUAL VS ON-SITE AUDIENCES

Create different experiences for both target groups within the same event.

HYBRID & MULTISTREAM

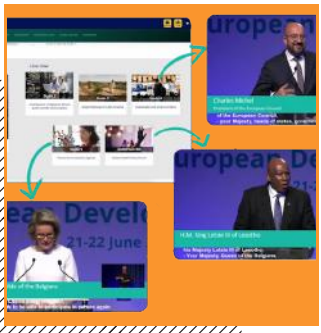
HYBRID MODE

Give on-site participants access to interactions via their phones or tablets.

MULTIPLE SIMULTANEOUS STREAMS

Host parallel sessions/stages with separate streams – attendees choose what to follow.

SESSION-LEVEL FLEXIBILITY



UNIQUE INTERACTIONS PER SESSION

Activate different tools per session (chat, Q&A, poll...) for tailored interactivity.

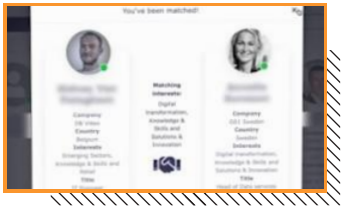
BREAK-OUT ROOMS

Organize topic-based workshops, discussions, or parallel sessions within your event.

NETWORKING TOOLS

SPEED NETWORKING

Match guests based on interests, expertise, or roles using fun interactive elements.



OPEN VIDEO CHAT

Participants can freely join video conversations with others online.

MULTI -LANGUAGE & ACCESSIBILITY

AI INTERPRETATION & SUBTITLING

Real-time interpretation, live translation, and subtitling – with support for a custom terminology dictionary.

SECOND SCREEN EXPERIENCE

Follow presentations and interactions on a second device with ease.

BREAKOUT (CQZ)

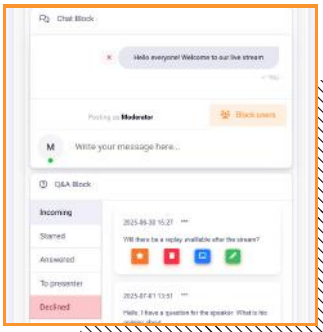
MANAGEMENT & CONTROL

MODERATOR PANEL

Control incoming questions, polls, and chats; send items to presenters; block users if needed.

PRESENTER PANEL

View live feedback, poll results, and incoming questions from stage in real-time.



ANALYTICS & REPORTING

DETAILED SESSION ANALYTICS

Track engagement per session: who watched what, interaction levels, and more.

USER BEHAVIOR INSIGHTS

Understand how your audience participated and optimize future events accordingly.

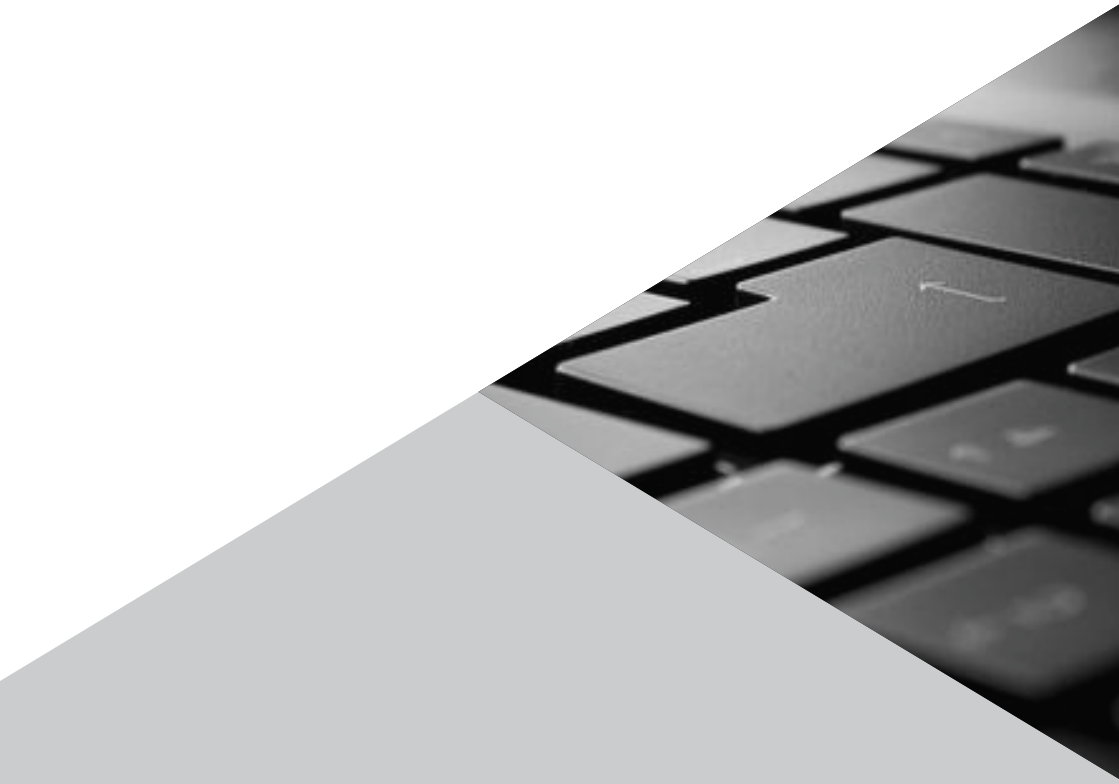
DEVELOPMENT & E-LEARNING

TAILOR-MADE INTERACTIVE TOOLS

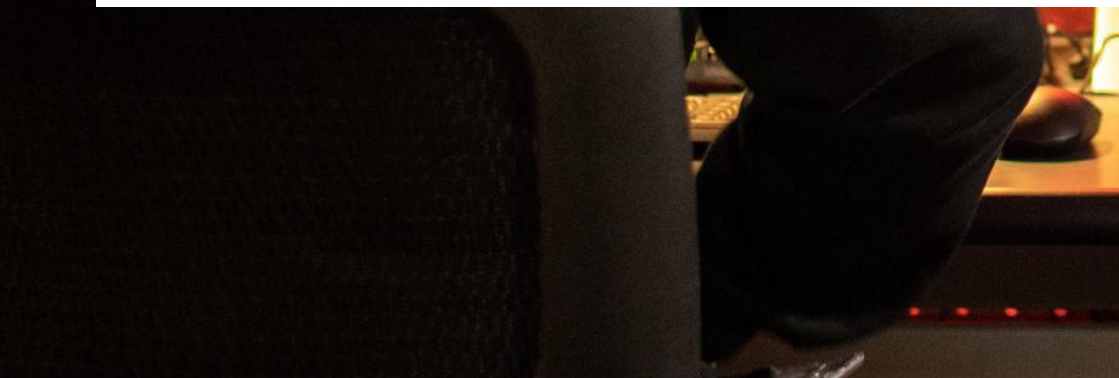
Our development team builds custom modules, apps, and experiences – such as a fully branded quiz engine for Brewery De Koninck.

E-LEARNING

Empower your audience with engaging e-learning experiences—our platform lets you easily host your interactive video courses.



READY TO ELEVATE YOUR NEXT EVENT



Whether you're planning a high-level conference, a hybrid board meeting, or an engaging webinar series — Webble-Up gives you the tools, flexibility, and support to make it truly interactive. With our customizable platform, powerful features, and in-house development team, we're ready to help you create unforgettable digital experiences that connect, engage, and inspire.
