HAIR CUT

Hair cut is a personalised way of expressing your personality. The fashioning of hair can be considered an aspect of personal grooming, fashion, and cosmetics, although haircut is taken moreover as a part of personal hygiene. Specialists explain that haircuts help prevent hair cuticles from splitting apart. Ends that are spitted can be hard and in some cases challenging to fix. This is the reason having your hair cut more often can assist you with preventing such issues which helps in making your hair seem strong, healthy, and beautiful.

T R E A T M E N T

Charcoal treatment is a semi-permanent treatment that naturally relaxes your hair and repairs the strands, restructuring the hair fibre without damaging its molecular structure and affecting the natural texture. It is recommended for all kinds of hair from curly to straight to chemically treated hair because it protect your hair from further damage and locks in moisture.

Our hairdresser at Kuncha's can professionally apply charcoal treatment and use heat to finish the treatment which is essential to smoothing and closing the cuticle. Activated charcoal can also cleanse you scalp and remove impurities making you hair feel light and manageable.
