Class II appliance: appliance whose protection against electric shock is not only relevant to the main insulation, but also includes additional safety measures, such as dual insulation or reinforced insulation. These measures do not include ground devices as protection and do not depend on the installation conditions.

Class III appliance: appliance whose safety against electric shock is based on safe extra low voltage power supply. Compliance with legislation is guaranteed only if the appliance is powered by a SELV safety transformer/driver in compliance with legislation in force. The appliance must not be connected to ground conductors.

Degree of protection against access of foreign bodies, dust and water.

Appliance with this symbol can only use low pressure bulbs or bulbs with safety glass.

Do not use cold light lamps.

To prevent the risk of fire, maintain the minimum distance indicated from the bulb with lighting objects. This distance should be measured along the optical axis of the appliance to the closest lighting object.

Color Rendering Index: the degree of colour distortion under a given light source in comparison with a reference light source. The optimum colour rendition index is $R_a = 100$.

The luminous flux, measured in lumen, indicates the quantity of light perceived by the human eye emitted by a light source. In Davide Groppi lights with an integrated module, the delivered lumen flux is obtained from the photometric measurement. In lights with a lightbulb included, the luminous flux is indicated provided by the manufacturer of the lightbulb.

Luminaire designed to be powered by ENDLESS system at 48 V DC.

Luminaire integrated with Casambi, the Bluetooth Low Energy (BLE) technology for lighting control.

Luminaire with Extradark comfort system. The Extradark system associates an optical TIR PMMA lens to an element that geometrically shields the light beam viewing angle to obtain highly uniform lighting and full beam control. The polished black light shield is used to control the mirror reflection of the light, perfectly controlling the unified glare rating ($UGR^* < 19$).

Apparecchio in classe II: apparecchio in cui la protezione contro le scariche elettriche non interessa solamente l'isolamento principale, bensì comprende misure di sicurezza supplementari, come il doppio isolamento o l'isolamento rinforzato. Tali misure non comprendono mezzi di messa a terra come protezione e non dipendono dalle condizioni di installazione.

Apparecchio in classe III: apparecchio in cui la sicurezza contro la scossa elettrica si basa sull'alimentazione a bassissima tensione di sicurezza. La conformità alla normativa è garantita solo se l'apparecchio è alimentato da un trasformatore/driver di sicurezza SELV conforme alla normativa in vigore. L'apparecchio non deve essere collegato a conduttori di messa a terra.

Livello di protezione contro l'accesso di corpi estranei, polvere e acqua.

Apparecchio che può utilizzare solamente lampadine a bassa pressione o con vetro di protezione.

Non utilizzare lampade a luce fredda.

Per prevenire il rischio di incendio, mantenere come minimo la distanza indicata dalla lampadina agli oggetti illuminati. Tale distanza va misurata lungo l'asse ottico dell'apparecchio all'oggetto illuminato più vicino.

Color Rendering Index: grado di alterazione dei colori sotto una data illuminazione in confronto ad una sorgente luminosa di riferimento. L'indice ottimale di resa cromatica R_a è pari a 100.

Il flusso luminoso, misurato in lumen, indica la quantità di luce percepita dall'occhio umano emessa da una sorgente luminosa. Nelle lampade Davide Groppi con modulo integrato è indicato il reale flusso luminoso ricavato dal rilievo fotometrico. Nelle lampade in cui è inclusa una lampadina è indicato il flusso luminoso fornito dal fabbricante della lampadina stessa.

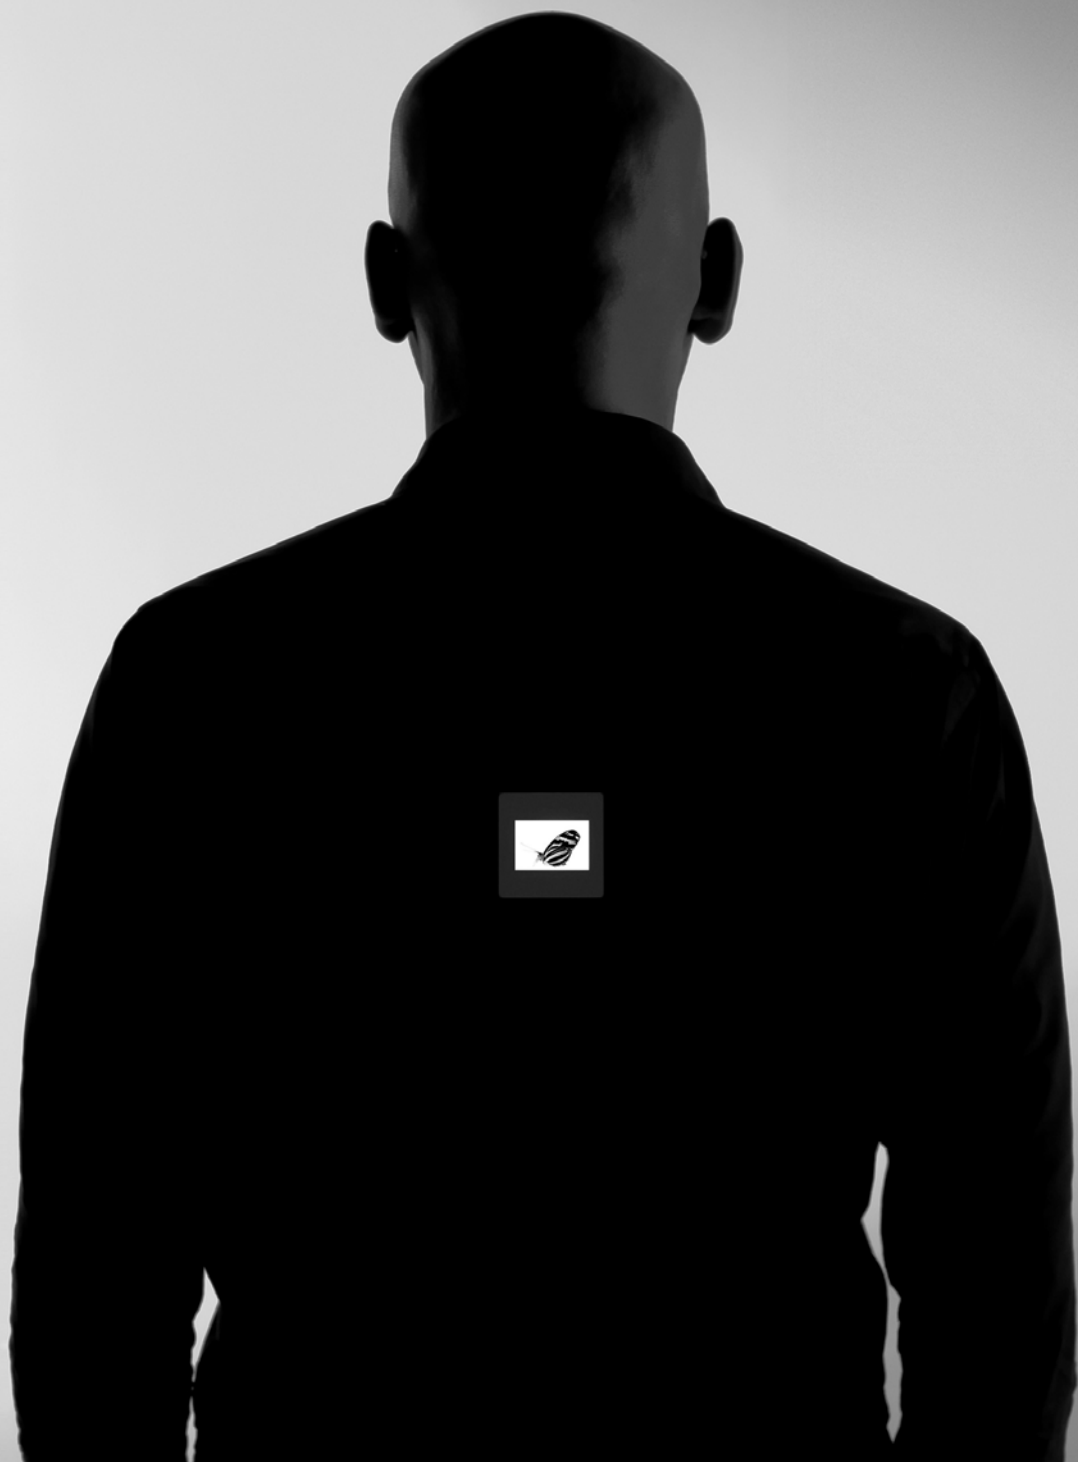

Apparecchio predisposto per essere alimentato dal sistema ENDLESS a 48 V DC.

Apparecchio in cui è integrata la tecnologia Bluetooth Low Energy (BLE), per il controllo dell'illuminazione, Casambi.

Apparecchio dotato di Extradark comfort system. Il sistema Extradark è l'unione di un'ottica TIR in PMMA ottico a un elemento che scherma geometricamente l'angolo di visione del fascio luminoso ottenendo un'elevata uniformità di illuminamento e il pieno controllo dell'emissione. L'elemento ottico schermante, con finitura nero lucido, permette di controllare la riflessione speculare della luce e quindi di controllare in maniera perfetta l'indice di abbagliamento ($UGR^* < 19$).

*Unified Glare Rating

WIRELESS / SENZA FILO

Those dear old slides. Nobody pays any attention to them anymore.
It's the smallest lamp in our collection.
It's an idea, a thought, a pendant, something you can wear.
The pulsating light and the images you choose to display on it
make 35MM unique and exceptional.

La vecchia, cara diapositiva. Purtroppo ormai in disuso.
È la più piccola lampada della nostra collezione.
È un'idea, un pensiero, un ciondolo, luce da indossare.
La luce pulsante e le immagini personalizzabili
rendono 35MM un progetto unico ed eccezionale.

35MM

The light where you want it.

A unique suspension lamp with a rechargeable battery.

The light source is applied magnetically to a metal dish that hangs from the ceiling using a very thin steel wire. The effect is delicately elegant.

QuiQuoQua takes light where it is needed, without the limitation of electric wires.

La luce dove vuoi.

Un'inedita lampada a sospensione a batteria ricaricabile.

La parte ottica è applicata magneticamente ad una parabola e sospesa attraverso un sottilissimo cavo in acciaio. L'effetto è delicatamente elegante.

QuiQuoQua offre la possibilità di portare la luce dove si desidera senza il vincolo del cavo elettrico.

Vis à Vis is a magic trick, between technique and illusion.
Once again, we decided to take away, seeking only the light.
Transparency is the main feature of this battery-powered lamp.
Archiproducts Design Award 2023

Vis à Vis è un gioco di prestigio, tra la tecnica e l'illusione.
Abbiamo pensato, ancora una volta, di togliere, cercando solo la luce.
La trasparenza è la caratteristica principale di questa lampada a batteria.

A slender, light, ephemeral and abstract sculpture, it is a weightless ideogram.
It's the emotion of an indirect light with an aesthetic poised between Scandinavian
and Japanese design, two apparently distant cultures but, actually, very close.

At the top, an open circle, almost a hook for fishermen of the soul.

Selection for ADI Design Index 2022

AZ Award 2022

Archiproducts Design Award 2021

Scultura filiforme, leggera, effimera, astratta, è un ideogramma senza peso.
È l'emozione di una luce indiretta con un'estetica in bilico tra la Scandinavia e il Giappone,
due culture apparentemente lontane, ma in realtà molto vicine tra loro.

In cima, un cerchio non chiuso, quasi un amo per pescatori d'anime.

A lamp that can be positioned, balanced and turned,
but overall it produces a beautiful light on the table.
The oversized workshop-style clamp allows the light source to be positioned far
from where the lamp is attached to the table, using three adjustable arms.
A table lamp, but at the same time a suspended light.

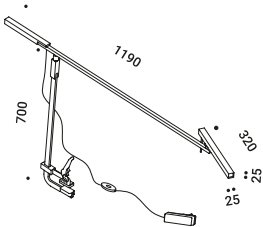

Una lampada che si inclina, si bilancia, si gira,
ma soprattutto che produce una bellissima luce sul tavolo.
L'utilizzo di un grande e sproporzionato morsetto da officina, ci ha permesso di portare la
fonte luminosa lontana dal punto di fissaggio attraverso tre bracci regolabili.
Una lampada da tavolo, ma nello stesso tempo a sospensione.

MORSETTO

Lucio
Fontana.

Scultore.

Lucio Fontana

Scultore

Reminiscent of waking up, that magical instant just before you open your eyes completely, when the light barely filters, making everything indistinct as you pass from sleeping to being awake.
A metal cone positioned diagonally on its base creates an asymmetrical light.

Ricorda il risveglio, quel breve magico attimo, prima di aprire totalmente gli occhi, in cui la luce filtra appena, rendendo tutto indistinto nel passaggio fra il sonno e la veglia.
Un cono in metallo, posizionato in obliquo sulla base, genera una luce asimmetrica.

A floor lamp conceived to provide direct light in a simple and flexible manner. Its principle component is the pivot point between two "chopsticks" (Hashi) that serve as light sources which, positioned in different ways, create a strong, graphic effect in space. Particular care has been given to the proportions. The sticks always appear lightweight and balanced.

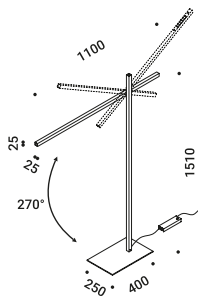

Lampada da terra pensata per fare luce d'accento con purezza e flessibilità. La componente fondamentale di progetto è lo snodo che, grazie alla sua energica tenacia, permette di posizionare le "bacchette" (Hashi) nello spazio in modo grafico e deciso. La particolare attenzione per le proporzioni rende il gesto molto libero, ma sempre equilibrato.

From the Latin “origo”, start, birth, source. It appears like a bud emerging from the ground and soaring upwards towards the sky, a stem that becomes increasingly thinner. Mysterious and enigmatic, it combines the fascination of the unknown with the pleasure of a sophisticated and elegant ambient light. Origine sculpts and enhances every environment with its indirect light, which is intentionally non-invasive, graphic and fascinating. Available in 3 different heights and in an outdoor version.

**AZ Award 2021 and People's Choice
Archiproducts Design Award 2020**

Dal latino “origo”, inizio, nascita, fonte. Evoca un germoglio che emerge dalla terra e si slancia verso il cielo, lo stelo che diventa sempre più sottile. Misteriosa ed enigmatica, unisce il fascino dell'incognito al piacere di una luce d'ambiente sofisticata ed elegante. Origine scolpisce e valorizza ogni ambiente con la sua luce indiretta, volutamente non invasiva, grafica e affascinante. Disponibile in 3 altezze differenti e nella versione outdoor.

The light is elevated to a work of art and contemplation.
A luminous panel without a frame leans against the wall as if waiting to be hung.
The colour and brightness can be controlled from the remote control.

La luce è elevata a oggetto d'arte e di contemplazione.
Un pannello luminoso senza cornice è appoggiato alla parete
come se aspettasse di essere appeso.
È possibile scegliere il colore e l'intensità della luce agendo sul telecomando.

A special project, an authentic ready-made.
Obtained from a flexible fishing rod, it is a delicate and elegant sign,
which brings to mind the subtle branches of a willow tree
or bamboo canes floating on a light breeze.
Sampei is an unexpected gift, it is the magic of looking up, using light as a hook,
and being amazed by so much weightlessness.
The light is the fisherman's line, catching faces, gazes, people.
Available in 4 different heights and in an outdoor version.

XXIII Compasso d'Oro ADI Award 2014
Elle Deco International Design Award 2011

Un progetto speciale, un autentico ready-made.
Ricavata da una canna da pesca flessibile, è un segno delicato ed elegante,
che fa pensare a effimeri rami di salice, a canne di bambù mosse da un debole vento.
Sampei è un regalo inaspettato, è la magia di guardare in alto,
usando la luce come amo, e stupirsi di tanta leggerezza.
La luce è la lenza del pescatore, pronta per catturare volti, sguardi, persone.
Disponibile in 4 altezze differenti e nella versione outdoor.

SUSPENSION / SOSPENSIONE

A thin, circular mirror is suspended to provide light,
combining both direct and indirect lighting.
A sophisticated clamping system is used to position the disc wherever you want,
without the need for wall or ceiling wires.

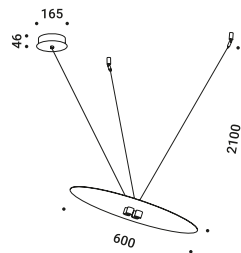

Uno specchio circolare sospeso e sottile per illuminare,
coniugando la luce diretta e quella indiretta.
Il sofisticato sistema di fissaggio permette di posizionare il disco dove si desidera
senza il vincolo della posizione dei cavi di alimentazione a soffitto o a parete.

Suspension / Indirect-Direct / Indoor

Material Metal - Methacrylate
Finish .00 Standard

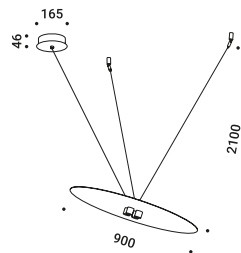

Note Dual emission luminaire - Stainless steel plate with mirror finish - Red back side - White ceiling rose - 304 Stainless steel suspension cables - White cable.

A scientific looking bulb made from mouth blown glass.
The shape brings to mind a light bulb that was never born. Think steampunk:
situations in which instruments were inspired by the rudiments of electricity.

The classic light bulb that has no future becomes
a wonderful device made of luminous diodes.
What would the past have looked like if the future had arrived first?
Luminaire designed to be powered by Endless system.

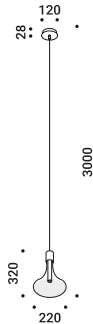

Un'ampolla di vetro soffiato a bocca dall'aspetto scientifico.
La forma evoca quella di una lampadina mai nata, atmosfere steampunk, situazioni in cui
le strumentazioni erano attivate dalle prime forme di elettricità.
La classica lampadina senza più futuro diventa un apparecchio a diodi luminosi.
Come sarebbe stato il passato se il futuro fosse arrivato prima?
Apparecchio predisposto per essere alimentato dal sistema Endless.

Suspension / Diffuse / Indoor

CATHODE

A lamp that interprets the classic theme of decentralization.
An acrobatic and apparently precarious presence, bringing light where you prefer it,
starting from a simple wall socket.
AZ Award 2016

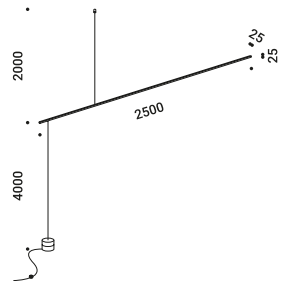

Una lampada che interpreta il classico tema del decentramento.
Una presenza funambolica e apparentemente instabile per portare la luce
dove si desidera partendo da una semplice presa elettrica.
Premio AZ Award 2016

LED IS MORE

Louis XIV is the freakiest letter of our light alphabet.
It's a disobedient design that translates a certain rebellion
to common lamp models into light.

I wanted to investigate the idea of the chandelier:
in line with our poetics, Louis XIV is the only possible solution
for lightness and irony.

Dimmable suspension lamp with double emission.

Louis XIV è la lettera più "freak" del nostro alfabeto luminoso.

È un progetto disobbediente, che traduce in luce
una certa ribellione ai modelli comuni di fare lampade.

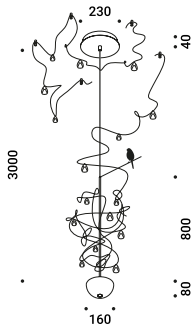

Volevo affrontare il tema del lampadario a gocce:

Louis XIV è l'unica soluzione possibile, secondo le nostre poetiche, tra leggerezza e ironia.

Lampada a sospensione dimmerabile a doppia emissione.

LOUIS XIV

So slim and essential...

The fundamental concept of this project is minimalism.

A small tube that lights the table with wonder.

A real dual project: sign and light.

Luminaire designed to be powered by Endless system.

Così esile ed essenziale...

L'essenzialità è la componente fondamentale di progetto.

Un piccolo tubo in metallo per fare una meravigliosa luce sul tavolo.

Un vero progetto duale: segno e luce.

Apparecchio predisposto per essere alimentato dal sistema Endless.

Moon was created from the dream of bringing the moon inside your own home.
The hand-made Japanese paper surface makes every lamp unique.
Table and floor version available.

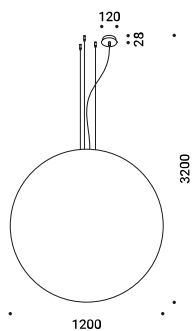

Moon nasce da un sogno, quello di portare la luna dentro casa.
La superficie di carta giapponese, fatta a mano, rende unico ogni pezzo.
Disponibile anche nella versione da tavolo e terra.

MOON

The idea is to bring light wherever you like, starting from a socket.

A simple project, almost a revival of the old electrical wiring.

A plug, a cable, some isolators, a socket and a LED.

Outdoor version available.

Design Plus Award 2014

È l'idea di portare la luce dove si desidera, partendo da una presa elettrica.

Un progetto semplice, quasi la rivisitazione dei vecchi impianti elettrici.

Una spina, un cavo, degli isolatori, un portalamпада e una lampadina a LED.

Disponibile nella versione outdoor.

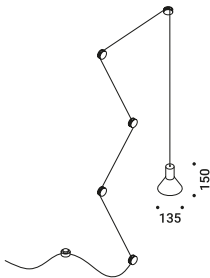

Premio Design Plus 2014

Suspension / Direct / Indoor

A powerful LED and a subtle mirror.
A magic and almost invisible lighting solution, which provides an indirect light that
multiplies spaces and gives the eye unprecedented perspectives,
unexpected depths, illusions of light.

Un LED potente, uno specchio sottile.
Un apparecchio magico e quasi invisibile per una luce che moltiplica gli spazi e regala allo
sguardo prospettive inedite, profondità impreviste, illusioni di luce.

A de-structured chandelier that can be re-assembled as you like.
A conjuring trick that gives you the possibility of connecting the diodes in series
using very weak electric currents with wires that are practically invisible.
The very thin wire that connects the light sources and brings them alive, one in
relation to the other, is the principal component of this project.

Un lampadario destrutturato e componibile a piacere.
Un piccolo gioco di prestigio sfruttando la possibilità di collegare i diodi in serie utilizzando
correnti elettriche molto basse e quindi cavi quasi invisibili.
Il filo, sottilissimo, che unisce i corpi e li fa vivere l'uno in funzione dell'altro, è la
caratteristica principale di questo progetto.

A gestural project, full of irony and nostalgia.
Therefore, among a thousand stories, prohibitions, absurd technical rules,
we have reached the end. The end of the incandescent bulb.
Edison's Nightmare is a salute to Edison's light bulb*, a dream that changed the way
we live forever, stealing time to read and write from sleep.
It is a classic light bulb, nailed to the wall. Like a work of art.
** From 01 September 2012, incandescent bulbs cannot be sold in the EU.*

Un progetto gestuale, carico di ironia e nostalgia.
E così, tra mille vicende, divieti, assurde norme tecniche, siamo arrivati alla fine.
Alla fine della lampadina a incandescenza.
Edison's Nightmare è un saluto alla lampadina di Edison*, ad un sogno che ha cambiato
per sempre il modo di vivere, sottraendo al sonno ore da dedicare a lettura e scrittura.
Si tratta di una classica lampadina inchiodata al muro. Come un'opera d'arte.
** Dal 1 Settembre 2012 non è più possibile, nella Comunità Europea, vendere lampadine ad
incandescenza.*

A luminous short film.

Telling a story in light, a series of old 35MM slides are lit from behind,
pulsating and shown at random.

The photographs can be assembled and replaced as you like.

The choice of the message to be communicated is completely personal:
it can be an image, a logo, a sentence, anything you want to represent, at any time.
The light message is punctuated by a blinking LED, offering reading in movement.

Un cortometraggio luminoso.

Per raccontare una storia con la luce, retroilluminando in modo pulsante
e casuale le vecchie diapositive da 35MM.

Le fotografie possono essere montate e sostituite a piacimento.

La scelta del messaggio da comunicare è del tutto personale: può essere un'immagine,
un logo, una frase, tutto ciò che al momento si vuole rappresentare.

Il messaggio luminoso, ritmato attraverso la diversa intermittenza dei LED,
permette una lettura in movimento.

An architectural lamp for wall and ceiling installation.
Although it's there, you can't see the thickness.
A luminaire that amazes with skill, so you only notice its two-dimensional effect.

Lampada architettuale, da installare sia a parete che a soffitto.
Lo spessore c'è, ma non si vede. Apparecchio efficace e stupendo
nel momento in cui si coglie solo l'aspetto bidimensionale.

An indirect wall light project.
The light source remains invisible while the light comes out soft
from the metal diffuser, creating a delicate atmosphere.

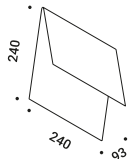

Un lavoro sulla luce indiretta da parete.
La sorgente rimane invisibile mentre la luce esce morbida dal diffusore metallico,
creando un'atmosfera delicata.

MORSETTO P

Davide Groppi / 2019

A lamp that can be positioned, balanced and turned,
but overall it produces a beautiful light on the table.

It's the wall version of the Morsetto lamp.

Three adjustable arms allow the light source to be positioned
far from where the lamp is attached.

Una lampada che si inclina, si bilancia, si gira,
ma soprattutto che produce una bellissima luce sul tavolo.

È la versione da parete della lampada Morsetto.

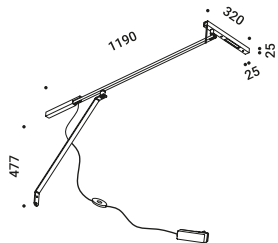

Tre bracci regolabili permettono di portare la fonte luminosa
lontana dal punto di fissaggio.

Wall / Direct / Indoor

Utopia is a project on the limit state of light, the research for the minimum dimension necessary for pure and essential lighting. It represents full flexibility, in both its design and its light control.

The light strip reaches into space, bending, breaking and drawing abstract, mysterious patterns.

Utopia è un progetto sullo stato limite della luce, alla ricerca della dimensione minima necessaria per illuminare in modo puro ed essenziale.

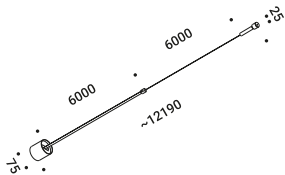

Rappresenta la massima flessibilità, sia nel disegno della linea che nella gestione della luce. Il nastro luminoso si tende nello spazio, piegandosi, interrompendosi, disegnando grafi astratti e misteriosi.

Where did the chandelier go?

A work about absence. About something missing. As if by removing the chandelier,
its memory stays, but with a modern and sensual light.

Dov'è finito il lampadario?

Un progetto sull'assenza, su qualcosa che manca. Come se togliendo il lampadario,
rimanga la sua memoria, ma con una luce moderna e sensuale.

An extreme expression of subtraction, uniting optics and electronics as an answer to the ultimate challenge: the absence of structural support and the essence of light.

Nulla is a project that represents both the beginning and end of our work on light. It's the beginning, in the sense that we have always been looking for absolute light, one coming from a distance, almost without a source. It's the end in that every time we look at Nulla, we feel as though we can't get it better than that.

Nulla generates light and propagates mystery. Nulla is the most generous of our lamps. Its sole objective is to hide and give all the attention to whatever it is lighting. What we see is only a tiny black hole, as if it were drawn on the ceiling.

A circle in the ceiling hiding a very bright LED and lens to project the light.

XXIII Compasso d'Oro ADI Award, 2014

Un lavoro estremo di sottrazione, che unisce elettronica e l'ottica verso la sfida finale: l'assenza del supporto e l'essenza della luce.

Nulla è un progetto che rappresenta l'inizio e la fine del nostro lavoro sulla luce. L'inizio perché da sempre cerchiamo la luce assoluta, quella che arriva da lontano, quasi senza fonte. La fine perché ogni volta che guardiamo Nulla ci sembra di non potere andare più avanti di così. Nulla genera luce e diffonde mistero. È la più generosa delle nostre lampade, quella che si nasconde al solo scopo di regalare la scena al soggetto illuminato. Ciò che appare è solo un minuscolo buco nero, quasi disegnato.

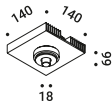

Un foro nel soffitto, un LED potentissimo e una lente che generano la luce.

SYSTEMS / SISTEMI

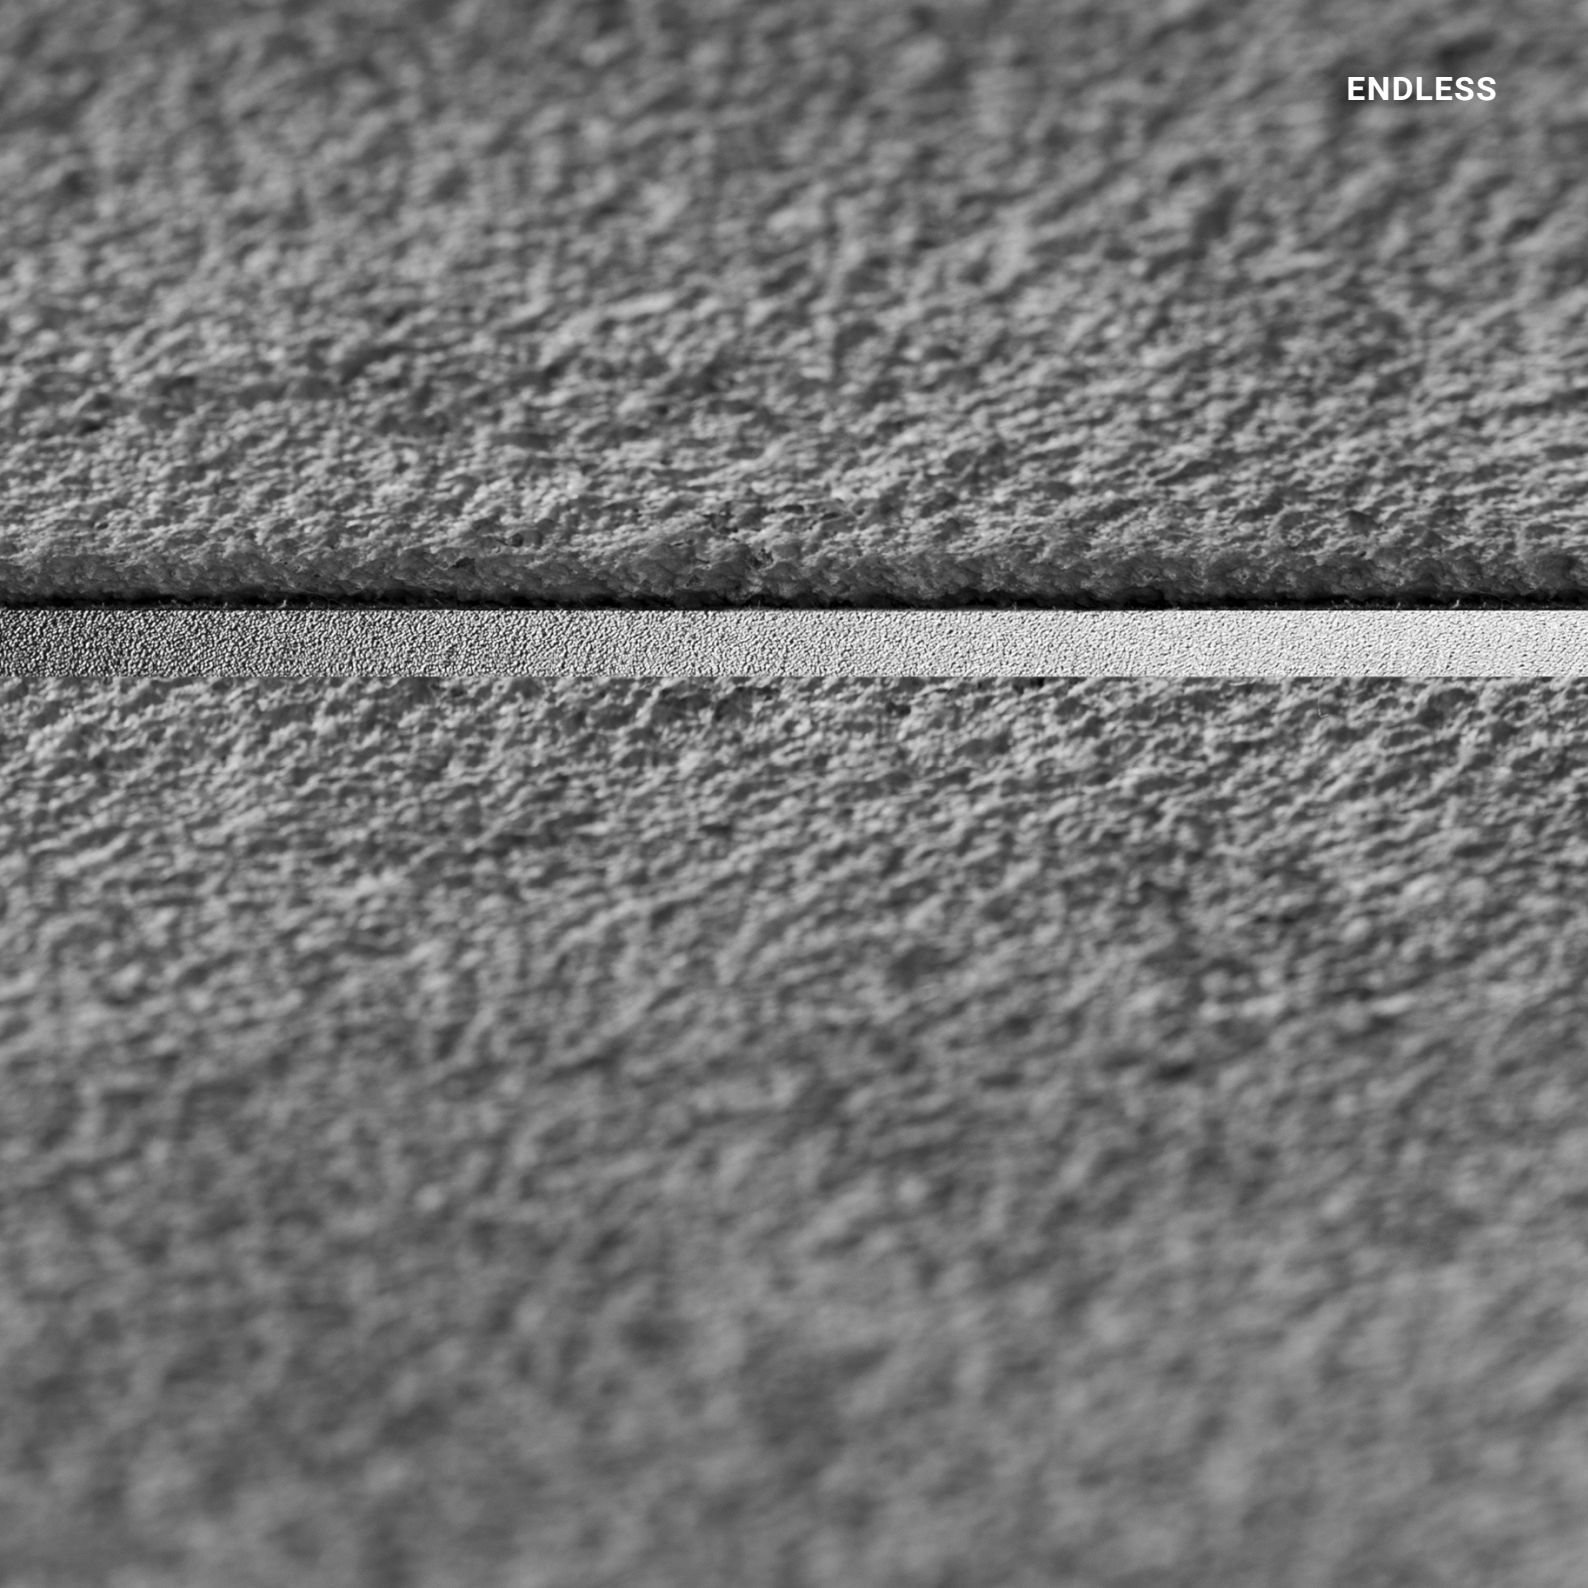

Absolute freedom, absolute spatiality, absolute creativity.
An adhesive tape that conducts electricity can be placed anywhere on walls and
ceilings to power our lighting projects.
Endless is the system created and patented by our Team in order to transport
electric energy in a digital and graphic manner.
It's the idea of considering walls and ceilings like electronic circuits, where
luminaires can be done fixed freely and easily. This system comes with various
accessories to provide and manage the flow of electricity.

Libertà assoluta, spazialità assoluta, creatività assoluta.
Un nastro conduttore e adesivo che può essere disposto a piacimento su pareti e soffitti
per alimentare i nostri modelli.
Endless è il sistema ideato e brevettato dal nostro Team per portare "differenza di
potenziale" dove si desidera in modo grafico e digitale.
È l'idea di considerare le pareti e i soffitti come circuiti elettronici per posizionare gli
apparecchi illuminanti con la massima libertà. Il sistema è dotato di vari accessori di
alimentazione e derivazione.

It is our Infinito model turned around, with the light flowing downwards.
The 9 mm wide stainless steel strip can run perfectly up to 36 metres in length
(standard versions at 6 / 12 / 18 metres in length).
The ideal solution for direct illumination of spaces with very high ceilings.
Its name pays homage to the famous comic book superhero.
Who can run seven times the speed of light.
Flash in its versions of 6 and 12 meters can be integrated with our Endless system.

È la declinazione del nostro modello Infinito, ma con la luce diretta verso il basso.
Il nastro in acciaio inossidabile, largo 9 millimetri, può essere teso perfettamente fino a 36
metri di lunghezza (lampada standard 6 / 12 / 18 metri).
La soluzione ideale per l'illuminazione diretta di spazi con grande altezza.
Il nome è un omaggio al leggendario supereroe dei fumetti.
Famoso perché corre sette volte più veloce della luce...
Flash 6 e Flash 12 sono integrabili con il nostro sistema Endless.

A spatial concept, it is continuous light.

An ultra-thin strip of special stainless steel just 18 mm wide "cuts" the space to produce indirect light. Infinito can be adapted to various situations, stretched from wall to wall or ceiling to floor. It comes in strips up to 36 metres in length (standard versions at 6 / 12 / 18 metres in length). Infinito breaks down the luminaire, turning it into something else, leaving only a trace, a line and then not even that, just light.

This project pays homage to the art of Lucio Fontana and his spatial concepts. The graphic force of this system is surprising. It can be integrated into space, but at the same time it becomes part of that space. Infinito: essence and absence.

Infinito in its versions of 6 and 12 meters can be integrated with our Endless system.

Archiproducts Design Award 2017
People's Choice AZ Award 2017

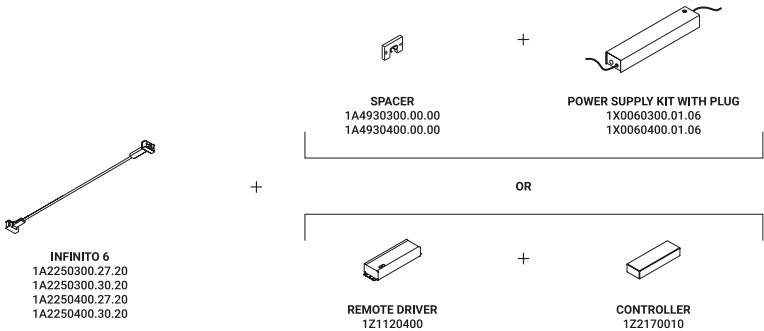

È un concetto spaziale, è luce continua.

Un nastro sottilissimo, in un particolare acciaio inossidabile e di soli 18 millimetri di larghezza, taglia lo spazio e produce luce indiretta. È possibile adattare, tendere e orientare Infinito da parete a parete, da soffitto a pavimento, fino a 36 metri di lunghezza (lampada standard 6 / 12 / 18 metri). Infinito smaterializza l'oggetto lampada, trasformandolo in qualcos'altro, lasciandone solo una traccia, una riga e poi nemmeno più quella, solo la luce. È un omaggio all'arte di Lucio Fontana e ai suoi concetti spaziali. La forza grafica di questo sistema è sorprendente, per la sua capacità di essere integrato e nello stesso tempo presente nello spazio. Infinito, essenza e assenza.

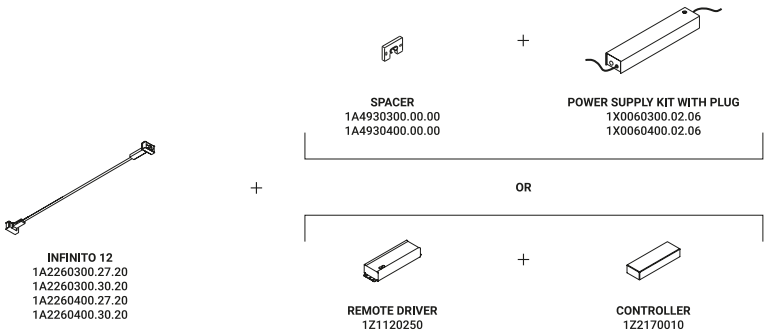

Infinito 6 e Infinito 12 sono integrabili con il nostro sistema Endless.

INFINITO

Light and transparency are the true stars of this project.
We have always liked to think heretically, evoking mystery, magic and seduction.

Magia is the new modular suspension lighting system
that can be adapted to suit the different heights of the rooms
and can generate direct and indirect light with the 360° adjustable module.

In this case, the lens is not used to focus, but to modify the vision
and perception of the object.

The effect of the convex lens conceals the part of the light beam
and produces the lightest effect of suspension and inconsistency.

Archiproducts Design Award 2023

La luce e la trasparenza sono le vere protagoniste di questo progetto.
Da sempre ci piace pensare in modo eretico, evocando mistero, magia e seduzione.

Magia è il nuovo sistema d'illuminazione a sospensione componibile
e adattabile a seconda delle diverse altezze degli ambienti
che può generare luce diretta e indiretta con il modulo orientabile a 360°.

In questo caso, la lente non è usata per focalizzare,
ma per modificare la visione e la percezione dell'oggetto.
L'effetto della lente convessa permette di celare la parte di emissione della luce e produrre
un leggerissimo effetto di sospensione e inconsistenza.

Example of multiple installation | **Max 3 tubes for cable**

Light runs on a wire. An almost imperceptible wire, suspended in space. Like a tightrope walker on a thin rope, the light reaches everywhere, weightless and wonderful. Ohm is an electro mechanic project that takes maximum advantage of the characteristics of luminous diodes. Its secret is a special unipolar wire stretched from wall to wall. Where the light comes from is discreetly hidden, giving all the attention to what it is illuminating.

It is possible to replace the light source even with the luminaire assembled.

It can be powered with pur Endless system.

Selection for ADI Design Index 2020

La luce corre sul filo. Un filo quasi impercettibile, sospeso nello spazio. Come un funambolo su una corda sottilissima, la luce arriva ovunque, con leggerezza ed emozione.

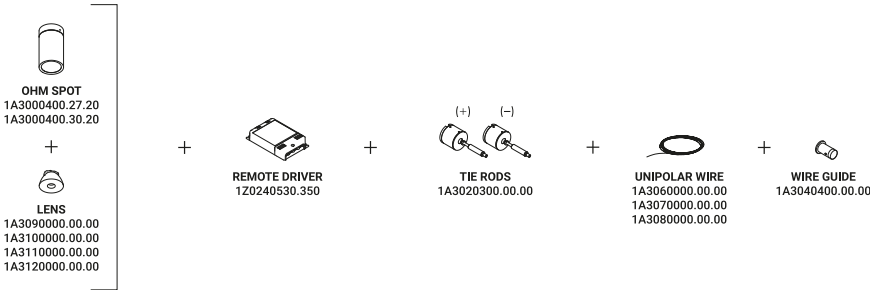

Ohm è un progetto elettromeccanico, che sfrutta al massimo le caratteristiche dei diodi luminosi. Il segreto è uno speciale cavo unipolare tirato da parete a parete. La fonte quasi si nasconde, impalpabile e discreta, regalando la scena al soggetto illuminato.

È possibile sostituire l'ottica anche ad apparecchio montato.

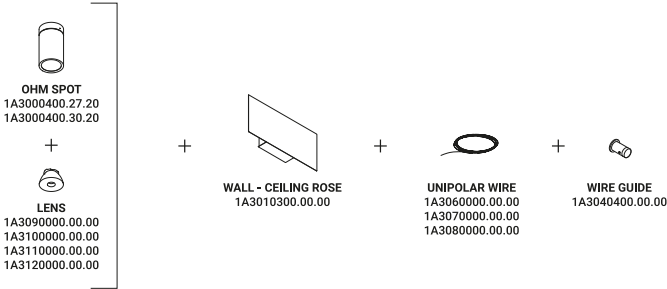

Può essere alimentata con il nostro sistema Endless.

Selezione per ADI Design Index 2020

OUTDOOR / ESTERNO

The magic of the mirror brought into the garden.
A study of camouflage. The reflective surface is used as a tool
to camouflage and hide the machine to create light.
The reflection of the environment makes the luminaire invisible.

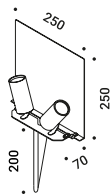

La magia dello specchio portata in giardino.
Un lavoro sulla mimetica. La superficie riflettente utilizzata come strumento
per mimetizzare e nascondere la macchina per fare luce.
La riflessione del contesto ambientale rende invisibile il corpo illuminante.

We have always been thrilled by bare, abandoned lamps.
On the walls of mountain huts, in the countryside of our plain.
Unfinished works, lamps still to be decided,
ephemeral thoughts that become poetry.
Wall-mounted lamp with direct light for outdoor environments
with steel nail subject to natural oxidation over time.

Ci hanno sempre emozionato le lampadine abbandonate, nude.
Sui muri delle case di montagna, nelle campagne della nostra pianura.
Lavori non ancora finiti, lampade ancora da decidere,
pensieri effimeri che diventano poesia.
Lampada da parete a luce diretta per ambienti esterni
con chiodo in acciaio soggetto ad ossidazione naturale nel tempo.

From the Latin "origo", start, birth, source.
It appears like a bud emerging from the ground and soaring upwards towards the sky, a stem that becomes increasingly thinner. Mysterious, enigmatic but comfortable, it combines the fascination of the unknown with the pleasure of a sophisticated and elegant ambient light.

Origine sculpts and enhances every environment with its indirect light, which is intentionally non-invasive, graphic and fascinating.

Indoor version available.

**AZ Award 2021 and People's Choice
Archiproducts Design Award 2020**

Dal latino "origo", inizio, nascita, fonte.
Evoca un germoglio che emerge dalla terra e si slancia verso il cielo, lo stelo che diventa sempre più sottile. Misteriosa, enigmatica ma confortevole, unisce il fascino dell'incognito al piacere di una luce d'ambiente sofisticata ed elegante.

Origine scolpisce e valorizza ogni ambiente con la sua luce indiretta, volutamente non invasiva, grafica e affascinante.

Disponibile nella versione indoor.

SAMPEI 440 OUTDOOR

Enzo Calabrese - Davide Groppi / 2011

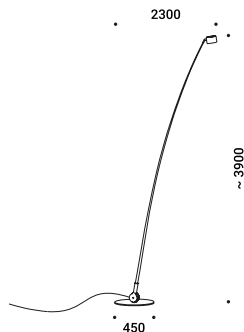

A special project, an authentic ready-made.
Obtained from a fishing flexible rod, it is a delicate and elegant sign, which brings to
mind the subtle branches of a willow tree
or bamboo canes floating on a light breeze.
Sampei is an unexpected gift, it is the magic of looking up, using light as a hook,
and being amazed by so much weightlessness.
Indoor version available.

Un progetto speciale, un autentico ready-made.
Ricavata da una canna da pesca flessibile, è un segno delicato ed elegante, che fa
pensare a effimeri rami di salice, a canne di bambù mosse da un debole vento.
Sampei è un regalo inaspettato, è la magia di guardare in alto, usando la luce come amo,
e stupirsi di tanta leggerezza.
Disponibile nella versione indoor.

COMMERCIAL TERMS / CONDIZIONI COMMERCIALI

General terms.

This price list replaces any other previous one.

Davide Groppi srl reserves the right to change its products without notice. In this case, the descriptions printed here are not binding.

The sizes are expressed in millimeters.

Prices are in Euro, excluding VAT.

Shipment.

Returned merchandise must be authorized in writing by Davide Groppi srl.

Any claim must be made in writing to Davide Groppi srl within 7 days of the delivery date. If not, will not be accepted.

Warranty.

All products are guaranteed for 24 months from the date of delivery.

The warranty is not valid for damage caused by third parties.

Any damage resulting from improper installation or changes to products cannot be considered the responsibility of Davide Groppi srl.

Rights.

No part of this price list may be reproduced or transmitted in any form or by any means: electronic, mechanical or otherwise, without the written permission of Davide Groppi srl.

Jurisdiction.

For any dispute, Piacenza, Italy, will be the court of jurisdiction.

Privacy.

Davide Groppi srl protects the confidentiality of personal data as provided to articles 12, 13 and 14 of the European Regulation n. 679/2016 (GDPR).

Condizioni generali.

Il presente listino prezzi annulla e sostituisce ogni edizione precedente.

Davide Groppi srl si riserva la facoltà di modificare i propri prodotti senza preavviso pertanto le descrizioni riportate in questo documento non sono vincolanti.

Le dimensioni sono espresse in millimetri.

I prezzi sono espressi in Euro IVA esclusa.

Spedizioni.

Resi di materiale sono accettati previa autorizzazione scritta dell'azienda.

Eventuali reclami sono considerati solo se comunicati per iscritto entro 7 giorni dalla data di consegna della merce.

Garanzia.

I prodotti di Davide Groppi srl sono garantiti per 24 mesi dalla data di consegna.

La garanzia non ha valore per danni causati da terzi.

Eventuali danni derivanti da errata installazione o da modifiche apportate ai prodotti non possono essere considerati responsabilità di Davide Groppi srl.

Diritti.

Nessuna parte di questo listino prezzi può essere riprodotta o trasmessa in qualsiasi forma o con qualsiasi mezzo elettronico, meccanico o altro senza l'autorizzazione scritta di Davide Groppi srl.

Foro Competente.

Per eventuali controversie è competente il Foro di Piacenza.

Privacy.

La Davide Groppi srl tutela la riservatezza dei dati personali come previsto degli art. 12, 13 e 14 del Regolamento Europeo n. 679/2016 (GDPR).

Davide Groppi srl is constantly revising its products in order to offer the best and latest technology available.

This is why its catalogues and technical notes are in constant evolution.

You can find the latest information and technical updates on our website www.davidegroppi.com

La Davide Groppi srl revisiona costantemente i propri prodotti per poter offrire sempre il meglio della tecnologia disponibile.

Per questo motivo i cataloghi e le schede prodotto sono in continua evoluzione.
