MARIA ELISA AYERBE

THE PROGRAMME

Sonic Summits are masterclasses delivered by renowned music industry professionals. We host our events at high-end recording studios around the world and pride ourselves in creating environments that stimulate inspiration. Our goal is to offer a balance between the best possible education, networking with fellow professionals, and a vacation in paradise.

We curate all-inclusive luxury experiences that allow a true escape from ordinary life. Our guests are provided with return transport to the event and full-board accommodation with a choice of private or shared rooms. Depending on the location, attendees will stay in the same building as the recording studio or at another very close by.

TESTIMONIAL

“I attended the first Sonic Summit, held in Guatemala. It was one of the best experiences I’ve ever had. The location at Lake Atitlán took my breath away, and I loved jumping in for a refreshing swim every morning. Besides, I was able to learn so much about mixing, production, and music in general with a diverse group people from different countries. Aside from knowledge gained, the cultural exchange was very enriching. The food served by the chefs on site was delicious, and I really enjoyed having sunset a beer or sangria in the hot tub after leaving the studio. When I returned home I felt very inspired to try new approaches to my artistic projects.”

THE EXPERIENCE

Throughout the seminar you will be immersed in an exploration of music and audio. Our mentors will guide you through their workflows, using multi-track sessions and live musicians for demonstration.

Furthermore, they will tend to your own projects and individual career aspirations. You can present material to them for collaboration and feedback. You will also learn about the mindsets and business practices followed by industry experts.

You'll be surrounded by stunning natural beauty at our carefully selected locations, living with a community of like-minded people who share your passion for music and sound. The purpose of these events is not limited to the knowledge you'll gain — it is equally about the connections you will make and memories you'll form.

Sonic Summit is a unique programme that combines the forces of nature with the magic of music. Join us to be part of this experience and take a big step closer to reaching your potential.

OUR MENTORS

Our masterclasses are led by elite music industry figures who specialise in songwriting, music production, and audio engineering. Many of them have multiple Grammy awards and credits on iconic records.

We collaborate with those who have not only such prestigious credentials, but also a passion to teach. They impart their wisdom on participants, and in return also learn a lot from those attending. This reinforces our concept of every event being a summit — a gathering of highly skilled professionals to discuss their craft and share their knowledge.

The summits are aimed at people who are already at an advanced level of music creation, whether it be composition, recording, production, mixing, or mastering. Every applicant is screened before acceptance to attend. Therefore, we guarantee that the education from this experience is not limited to the teachings of our session leaders; it is also from all the guests in attendance.

Let your imagination wander, embrace your creativity, learn from the best, and connect with other talents. Sonic Summit is a carefully curated experience that lets you forget about the usual admin of life and focus solely on the joy of learning.

ALI STONE

INCLUDED

•**Accommodation:** Full-board service with private or shared rooms, depending on preference and budget. Room choice is subject to availability and confirmed upon reservation.

•**Transportation:** We offer private transport from the airport or nearest train station, depending on the location of the event.

•**Food & Drink:** Breakfast, lunch, snacks, and dinner every day. Constant supply of water, coffee and tea. Alcoholic and non-alcoholic beverages available.

•**Studio Sessions:** Classes and workshops led by renowned professionals, including one-on-one sessions to focus on your own projects and goals.

•**Recreational Activities:** Depending on location, we offer a variety of activities including guided yoga, kayaking, paddle boarding, and hiking.

•**24/7 Support:** Round-the-clock support for any questions or concerns that may arise during your stay.

•**Digital Media:** Photographs and videos will be captured with high-end equipment throughout the week and shared afterwards via download link. They can be used as you please!

Sonic Summit is about reconnecting with your creative energy, living in a friendly environment, and learning from other people who share your passion for music and audio.

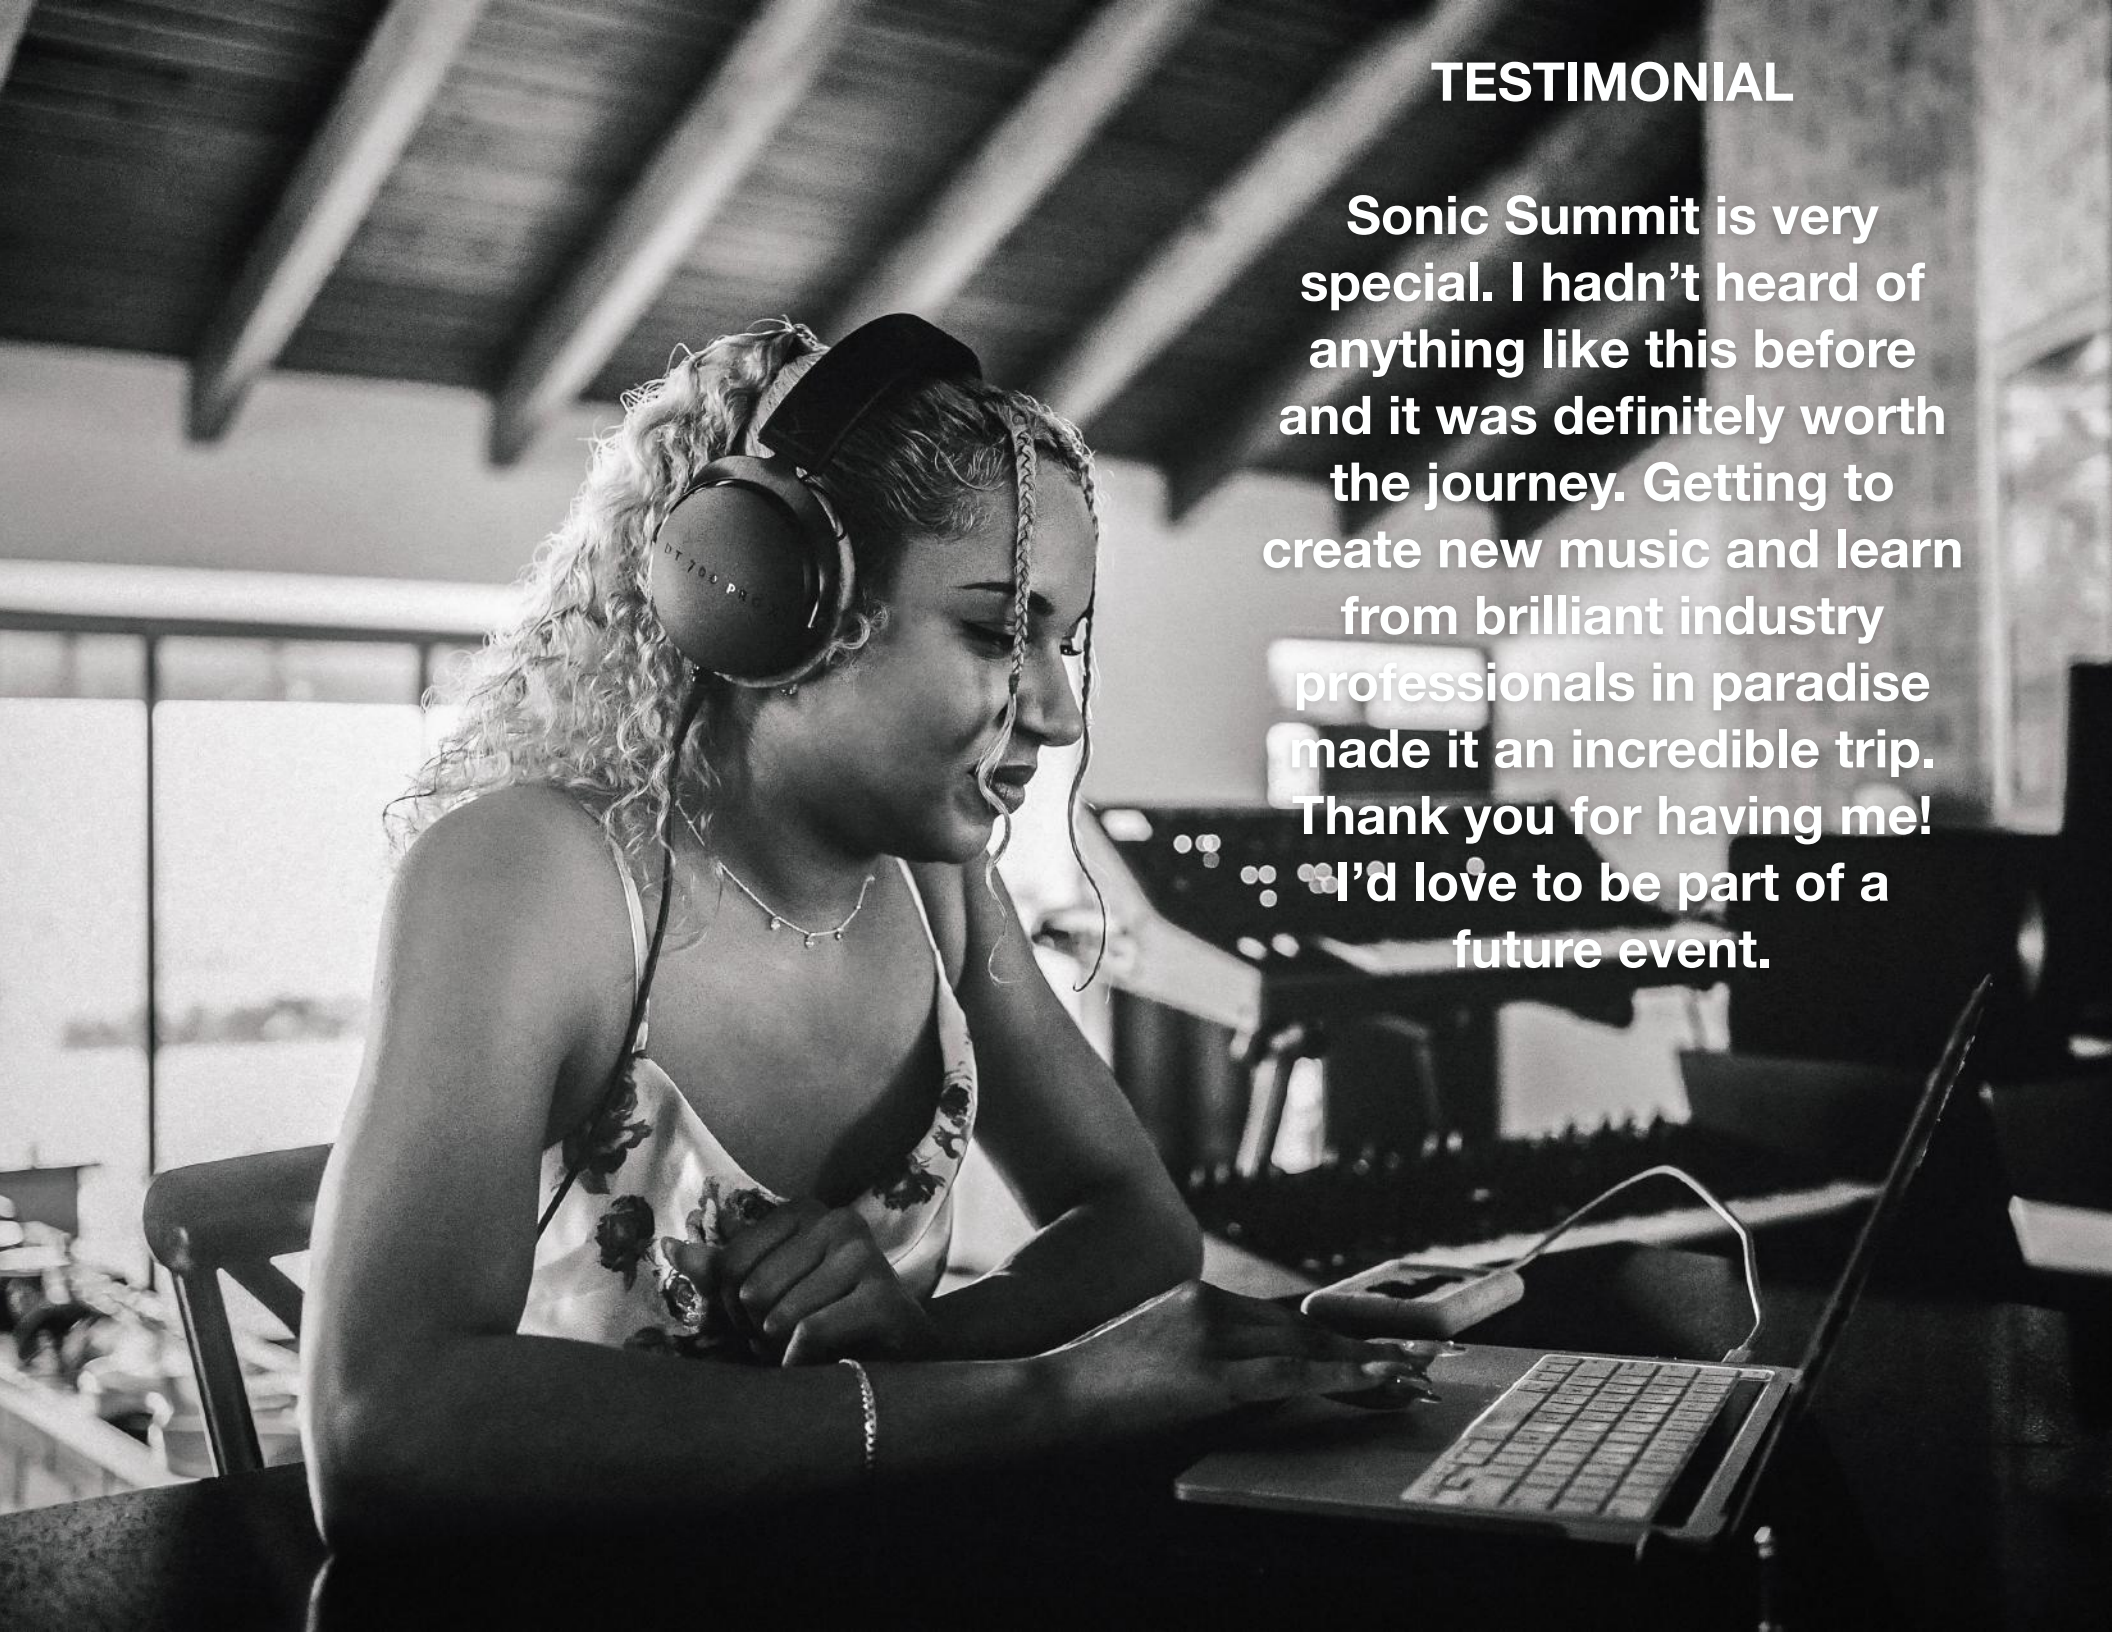

TESTIMONIAL

“Navigating the complexities of recording and mixing my own music has been a challenge. Attending Sonic Summit turned out to be one of the best decisions I ever made. It was an extraordinary opportunity to connect with and learn from respected talents in the world of sound engineering, each imparting their knowledge and skills. This experience undoubtedly elevated my mixing abilities to a whole new level. The stunning backdrop of Lake Atitlán paired with the love and care infused into the event made this an unforgettable retreat.”

TESTIMONIAL

Sonic Summit is very special. I hadn't heard of anything like this before and it was definitely worth the journey. Getting to create new music and learn from brilliant industry professionals in paradise made it an incredible trip. Thank you for having me! I'd love to be part of a future event.
