Remote Classroom
 Inspection Solution
 Maximizing teaching quality and safety

HIKVISION

WHAT SCHOOL ADMINISTRATORS ENCOUNTER

Ensuring efficient and effective security in classrooms can be challenging for educational institutions. Traditional inspection processes may suffer from inefficiencies, resulting in time-consuming procedures and limited real-time insights.

WHAT WE OFFER

• **Inefficient, time-consuming inspection processes**

can no longer meet the security needs of educational groups consisting of multiple schools and classrooms.

• **The lack of effective classroom management**

undermines classroom discipline and teaching quality.

• **The lack of real-time statistics of inspection recordings**

is inconvenient for events tracing and verification.

One-stop platform for holistic management

Online real-time classroom inspection

Real-time inspection logs recording

SOLUTION HIGHLIGHTS

Eliminating the need for physical inspections, enhancing awareness, safety, and instructional delivery are all required today.

Hikvision's solution overcomes the challenges faced by traditional inspection methods, and helps create safe and more productive learning environments for teachers and students.

The high-end solution enables class recording along with other advanced remote learning functions.

*Note: the teacher's consent should be obtained before using the teacher camera.

Efficient video-based inspections

Video recordings can be scheduled to align with class timetables, allowing teachers or inspectors to easily view real-time video feeds from their computer without disrupting the class. Inspection logs are recorded automatically, which contributes to the improvement of teaching quality.

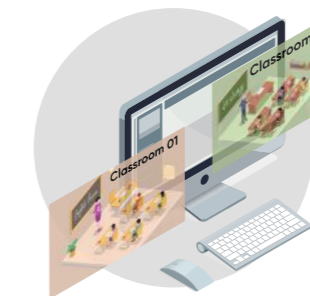

Improved response capabilities

In emergencies, school administrators, teachers, or security staff can talk to teachers and students in the classroom remotely to help deal with issues as soon as possible.

Centralized management

Management team can quickly and conveniently inspect multiple classrooms simultaneously within permissions to ensure property safety or teaching quality. If an event is occurred, it can be recorded fast and easily.

Flexible equipment options

The existing Hikvision's security camera in the classroom enables regular inspection. With smart cameras, the high-end solution features advanced functions such as switching among different views to get both panoramic and detailed images. Different equipment options meet a host of needs and budgets.
