Voxie Tactics Version Releases in June 2024

Release Summary

1.0.10 - June 11, 2024

The latest patch brings a host of improvements and fixes to enhance your gameplay. The ranking system has been revamped for better player distribution and more intense competition at the top. We've also fixed the Voxel claim notification error and optimized asset loading times. Various tweaks to abilities and armor will keep battles interesting.

1.0.11 - June 25, 2024

This patch zaps game-sticking bugs and beefs up error handling. We've also enhanced Party Roster feedback and ensured elemental resistances are applied correctly. Adventure awaits!

Release Details

GAME CLIENT

General

- [1.0.10] Optimized loading of assets to reduce initial loading times.
- [1.0.11] Made various improvements to error handling.

UX / UI

- [1.0.10] Swapped Staff and Wand Icons in Party Roster and when Equipping in Battle.
- [1.0.11] Added an icon to indicate if Voxies' equipment in the Party Roster is saved correctly. 
- [1.0.11] Users will receive feedback and have their changes saved when exiting the Party Roster with unsaved modifications.

Bug Fixes

- [1.0.10] Fixed an issue where the claim Voxels button was enabled when a claim was pending.
- [1.0.11] Resolved an issue causing games to get stuck when not ending properly.

GAME SERVICES

Multiplayer

- [1.0.10] Ranking Changes:
 - The ranking system has been adjusted to better distribute players across different ranks.
 - The ELO distances between the top three ranks have been reduced, making it more competitive at the top of the leaderboard.

Reward System

- [1.0.10] Reward Balancing: The difference in rewards between high and low ranks has been increased, offering greater incentives for players to achieve higher ranks.
- [1.0.10] Reward Volatility: The volatility of rewards has been increased, resulting in greater variability in rewards for the same battle. This makes consistency crucial for earning higher rewards.

GAMEPLAY

General

- [1.0.10] **All Classes** base armor was reduced from 50 to 0

Voxie Tactics Version Releases in June 2024 (continued)

Bug Fixes

- [1.0.10] Fixed an issue where stat changes from Inspire and other beneficial buffs were not displaying correctly on the target Voxie Overview Card.
- [1.0.10] Resolved an issue that caused the Undead Voxies' racial passive to trigger multiple times when equipment was changed in battle.
- [1.0.10] Fixed a display issues during the Placement phase.
- [1.0.11] Resistances should now correctly be applied to elemental attacks.
 - Similar to how armor effectiveness scales with the amount of armor points, elemental resistance effectiveness scales with elemental resistance points. Each point of elemental resistance reduces incoming elemental damage by 0.25% per point, up to a maximum reduction of 50%.

CHARACTERS

Classes

White Mage

- [1.0.10] **Smite** chance to Silence reduced from 100% to 75%.

Thief

- [1.0.10] **Stick Up** damage adjusted from 60-75 to 60 flat.

Robo

- [1.0.10] **Spark Blast** damage adjusted from 50-75 to 50-60.

- [1.0.10] **Ankle Snapper** damage adjusted from 35-55 to 30-40.

Bees

- [1.0.10] **Sting** damage adjusted from 35-55 to 30-40.

Parrot

- [1.0.10] **Squawk** damage adjusted from 35-55 to 30-40.

ITEMS

Armors

- [1.0.10] Fixed various NFTs that were incorrectly marked as **Virtual**.
- [1.0.11] The **Snow Crystal** Resistance points for all elements adjusted from 40 to 60.
- [1.0.11] Note: The team is still investigating separate reports of issues with a limited amount of items in the party roster. Some items have been reported to not saving properly after equipping which results in Voxies joining battles without their much needed equipment. Others have been reported as not being available when they should be. The team is working diligently to correct these issues as quickly as possible and will be releasing a fix in a future update. The Party Roster UI now clearly indicates when all equipment has been equipped and saved on your Voxie. Look for a green checkmark next to the character name in the party roster.

As we are now halfway into 2024, let us revisit AGG's 2024 Roadmap for Voxie Tactics and the Voxies Ecosystem:

- **Voxie Tactics:** The PC/Windows Unity Version was released in April 2024! macOS, Linux and Mobile versions and the new features outlined in the roadmap are still on track in 2024, as discussed by the team in their [Discord AMA](#) last month.
- **Voxel Economy:** The Unity version came with new rank tiers and a new reward system: Rank Rewards and Voxie Bounties. The team is also active in monitoring rewards and adjusting them for balance across tiers, such as this month's [VOXEL rewards increase for certain ranks](#).
- **Voxies Marketplace:** Various upgrades were applied to the Marketplace, such as more functions in the Profile page. For the roadmap items, the Library is now packed with information on Voxies and their classes and races, Items, and Pets.

Voxie Tactics Now LIVE on MetaMask Games

Voxie Tactics is now LIVE on the MetaMask Portfolio Games, the portfolio page of the world's leading Web3 Wallet. Announced in an X post on June 6th, Voxie Tactics is featured alongside 40+ games which are integrated to HyperPlay. Since 2023, Voxie Tactics has been part of HyperPlay, a Web3 game launcher and gaming aggregator that allows the player to easily download and update their games with seamless wallet integration and is available on a wide variety of platforms. In the X post, the team stated that they joined HyperPlay because they support their vision to empower developers to push the envelope of what's possible with Web3 gaming.

Voxie Tactics Items – June Mint Trend

All Voxie Tactics Items Minted Weekly in June 2024*

Twice per week Mint of NFT Battle Rewards + Arcanist's Forge Rewards + Other sources

Total Items Minted in June

Rare	Epic	Legendary	Unidentified
6,434	925	365	2,605

Notes:

* The mint trend of the previous newsletters showed items minted daily. Starting from this issue, mint trend will now show the data weekly for better comparison as battle NFT rewards mints are scheduled twice a week. Each week starts at Monday and ends at Sunday.

** Generally only the previous month is showed for comparison, but for this issue April is included due to the item minter getting disabled for a few weeks after Unity release. This also provides a comparison for pre- and post-Unity release data.
