Meet Sabah Shah

Hi, I'm **Sabah**...

"I'm the Clinical Lead for The Good Care Group. I joined The Good Care Group in August 2024 and bring over nine years of experience in health and social care. My career in healthcare started with a simple goal: to make a meaningful difference in people's lives. Over the years, I have built on that foundation, gaining expertise through a variety of roles and challenges that have shaped my approach to delivering high standards of care.

I am a registered nurse with the NMC and I have worked in care for over nine years. I started as a Nurse, working in both hospital and community settings, where I supported patients with a range of acute and chronic conditions as well as end-of-life care.

I later worked as a Disability Analyst and Clinical Support Lead, assessing an individual's health and functional abilities, ensuring they received the appropriate support. I also trained others, sharing my expertise to support their development and understanding of complex healthcare conditions.

As a Clinical Operations Manager, I had the unique opportunity to build an outpatient unit from the ground up, overseeing everything from its initial setup to delivering high-quality care and ensuring operational success. These experiences have given me a broad perspective and a strong foundation, which I bring to my role as a Clinical Lead at The Good Care Group."

Qualifications and experience

Sabah has extensive experience in supporting individuals with a wide range of healthcare conditions, including physical health, mental health, cognitive disorders, learning difficulties/learning disabilities, autism and ADHD.
