AI-POWERED LEARNING WITH VEDA

VEDA is an AI-powered **Virtual Education Digital Assistant** that provides personalized learning support, 24/7 assistance, and easy access to educational resources. It helps students organize their study schedules, discover relevant content, and engage in interactive learning. VEDA also fosters skill development and integrates seamlessly with learning platforms, making education more efficient, personalized, and accessible for all users.

Key Features of VEDA: Your AI Learning Companion

- Personalized learning support
- 24/7 academic assistance
- Resource discovery tool
- Organizes study schedules
- Provides interactive learning
- Enhances skill development
- Seamless platform integration
- Encourages self-paced learning
- AI-powered study guidance
- Real-time question answering

BUILD YOUR OWN METaverse LIBRARY

Meta-Library offers **Project-Based Learning** for creating Meta-Libraries, allowing students to self-train in cutting-edge technologies while developing essential 4C skills: Critical Thinking, Communication, Collaboration, and Creativity.

The background is a vibrant, futuristic illustration of a library. On the left, there are tall bookshelves filled with books. The central focus is a large, glowing digital display that shows a complex network of nodes and lines, resembling a data visualization or a virtual library interface. A person is standing in front of the display, pointing at it. The overall color palette is dominated by blues and greens, with bright yellow and white highlights from the digital elements.

BUILD YOUR OWN METAVERSE LIBRARY

Meta-Library enables students to create their own Metaverse Library and Virtual Reading Room, where they can showcase their personal book collections, schedule reading sessions, and invite friends and teachers for virtual meetings with avatars for an immersive learning experience.

Build your own metaverse library

Advantages of Metaverse Library

- Immersive learning environment
- Virtual reading rooms
- Personalized digital libraries
- Collaborative study spaces
- Real-time virtual meetings
- Avatars for interaction
- Global access to resources
- Enhanced engagement and focus
- Customizable learning experiences
- Integrates with emerging technologies

META-LIBRARY

ONE LIBRARY PER VILLAGE.

A Meta-Library is an advanced digital platform that combines a Digital Library App and Mini-Libraries to create an immersive learning experience. It integrates AI, virtual reality, and data analytics to offer personalized learning, extensive resources, and interactive environments.

The Meta-Library supports remote learning, real-time collaboration, and on-the-go access through its app, while Mini-Libraries provide focused content for specific subjects

A Meta-Library enhances accessibility, personalizes learning, and increases student engagement through immersive, interactive experiences.

Meta-Library

අධ්‍යාපන මධ්‍යස්ථාන සඳහා විද්‍යා මධ්‍යස්ථාන

The Meta-Library expands resources, supports remote learning, and promotes inclusivity while reducing costs. It also offers data-driven insights, facilitates virtual events, and prepares students for future careers through cutting-edge technology and training.

IMPACT OF MINI-LIBRARIES IN EDUCATIONAL INSTITUTIONS

A mini-library is a small-scale educational hub typically established within an educational institution to provide easy access to books and learning resources. These compact libraries serve as inclusive spaces where individuals of all ages and backgrounds can engage in reading, learning, and community interaction.

Whether through book borrowing, exchanges, or access to digital resources, mini-libraries aim to promote literacy, foster a love for reading, and support lifelong learning endeavors. By offering a diverse selection of materials and often serving as gathering points for educational events and workshops, mini-libraries enhance the learning environment and community engagement.

We dream of a world where every child, regardless of their location or background, has access to resources and technology needed for learning, innovation, and growth.

A MINI-LIBRARY IN AN EDUCATIONAL INSTITUTION TRANSFORMS ORDINARY LIVES INTO EXTRAORDINARY JOURNEYS OF KNOWLEDGE AND OPPORTUNITY.

REVOLUTIONIZING COLLABORATIVE LEARNING AND ENGAGEMENT

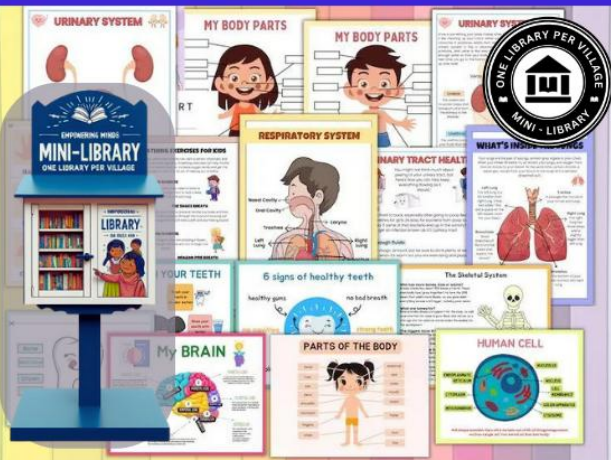

Collaborative learning and engagement through mini-libraries have always been crucial components of effective education. Today, innovative approaches and technologies are transforming these aspects, making learning more interactive, inclusive, and effective.

NO CODE COMMUNITY

Thousands of business ideas die a death because founders don't know how to move beyond the idea stage. With No-Code, you can start building small and test ideas rapidly. Even with no technical experience.

It is the best time to jump on to no-code train now.

No-code is the future.

If students become an expert now, they will be one of the most in-demand people in the future.

Code powers our digital world. Every website, smartphone app, computer programme, calculator and even microwave relies on code in order to operate.

Coding is arguably one of the most important skills for current as well as future generations to learn.

“ No-code is the first, most accessible, step of web and software development. It allows anyone to create software, visually, without writing code.

- Ben Tossell
Founder, Makerpad

Software development has never been simpler. You may now produce something that used to require specialist knowledge and several days in a matter of hours.

The "NO CODE" tools that enable you to accomplish so much without writing a single line of code .

The global Software market is expected to expand significantly.

The market is expected to grow at a 27.5% CAGR from USD 130.69 billion in 2021 to USD 716.52 billion in 2028.

New Workers

40% & 53%
Millennials & Gen Z prefer freelancing

Instead of teaching children to code an app or programme, we should teach them how to build a digital product using No-Code.

Why should educational institutions have a "No Code Community" Chapter ?

The global software market is expected to expand significantly. The market is expected to **grow at a 27.5% CAGR from USD 130.69 billion in 2021 to USD 716.52 billion in 2028.**

The Indian No-Code market is estimated to be worth USD 400 million. According to Gartner, the global no-code market will grow by more than 30%.

Irrespective of course or curriculum all students can learn No-code. There is huge demand for No-Code Programmers .

Thousands of business ideas die a death because founders don't know how to move beyond the idea stage. With No-Code, anybody can start building small and test ideas rapidly. Even with no technical experience.

**NO CODE
COMMUNITY**

In the No-Code Community, our enthusiastic members exchange ideas, collaborate on developing apps, games, and interfaces, host and participate in programming events such as hackathons and development competitions. We also provide each other with valuable information and study materials to help hone our skills for the professional world ahead.

COMMUNITY for building SOFTWARE tools & applications without CODE

The purpose of the Coding Literacy Mission by No Code Community is to democratize coding education and make it accessible to individuals of all backgrounds, empowering them with the knowledge and skills to thrive in a technology-driven world.

www.nocodecommunity.in 

Connect with the **NO CODE COMMUNITY**
and learn how to Build, Automate, and
Scale SOFTWARE without writing code.

Activities in the Mini-Library

Coding Literacy Mission

Create Website, Blog , Video Games, Apps !

on developing various tech products

Unlimited Networking Opportunity !

Opportunity to interact with industry
experts and local entrepreneurs

Develop Skills for 21st Century !

No-code helps build cognitive or problem-solving
skills without worrying about the technical aspect of
application development.

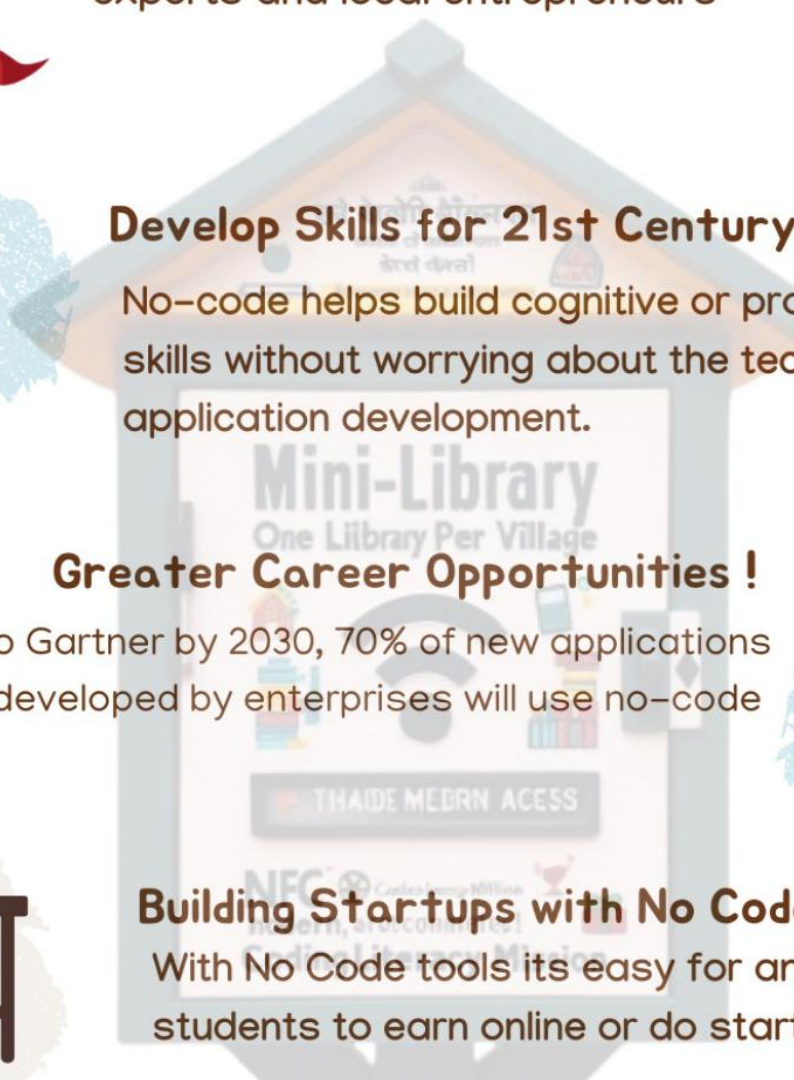

Greater Career Opportunities !

According to Gartner by 2030, 70% of new applications
developed by enterprises will use no-code

Building Startups with No Code tools

With No Code tools its easy for any
students to earn online or do startup

The Mini-Library CODING LITERACY MISSION is dedicated to equipping village students with coding literacy, enabling them to use No-Code tools to create innovative apps, games, websites, and AI solutions, thus preparing them to face future challenges with confidence.

It's our job in education to free up time for **innovation**.
It's our job to open their minds to **new ideas**.
It's our job to prepare students for the present and **future possibilities**.

- A.J. Juliani

WHY DIGITAL-LIBRARY?

Unlock limitless knowledge with the Digital Library – home to the largest collection of **books and audio books** for seamless audioreading.”
