Children's Hospitals

Letter from the President & CEO:

Dear Friends and Supporters,

2023 was a year of renewed hope and determination, a testament to the incredible resilience and support within the Austin Hatcher Foundation for Pediatric Cancer community.

Reflecting on our progress, I am filled with gratitude for the ways in which your generosity has transformed lives and brought comprehensive, coordinated care to families facing the diverse challenges of childhood cancer.

Throughout the year, we have witnessed the **impact** of the Foundation's comprehensive approach to treatment and support. Our belief in meeting families where they are in their journey has guided our work, ensuring that every child, teen, and family member receives the care and resources they need to navigate the complexities of childhood cancer.

Thanks to your support, we've been able to provide vital services that make a tangible difference. From counseling sessions that offer solace and guidance to families navigating grief, to therapy sessions that bring healing and hope to cancer survivors still facing side effects, to educational support sessions that empower young siblings to thrive academically amid chaos, and so much more, your contributions have been a beacon of hope.

Together, we're bridging the gap between the impossible and the achievable. Your support has opened doors and paved the way for a brighter future. At the Austin Hatcher Foundation, we help families cope in the present **and** thrive in the future after a childhood cancer diagnosis.

As we look ahead, we are committed to expanding our reach and impact across the nation. We will continue to provide more access to mental health services, offer regular check-ins to parents and caregivers, and create meaningful connections within our community. Our mission is to ensure that no family faces the challenges of childhood cancer alone.

Your dedication to our cause is truly inspiring. Every dollar raised, every message shared, and every moment of support has made a profound difference in the lives of children, teens, and families affected by pediatric cancer. Together, we stand at the front line of hope, offering comfort, strength, and unwavering support.

Thank you for being the heart of the Austin Hatcher Foundation for Pediatric Cancer. Your generosity and compassion are the driving force behind our mission, and we are immensely grateful for your continued support.

All services are provided at no cost...

The Austin Hatcher Foundation has helped us pick up and put back together the pieces of our lives that were broken by pediatric cancer. Because of this organization, I still have my marriage. I have a son who is thriving athletically and academically in high school, and I have a daughter who is learning to be a happy, successful teen.

-Stephanie (Mom of Pediatric Cancer Survivor)

The experience of childhood cancer goes beyond diagnosis and affects every family member differently. The Austin Hatcher Foundation is here to help erase the effects of pediatric cancer, for the diagnosed child, parents, and siblings **at completely no cost.**

During and after treatment, the Austin Hatcher Foundation provides comprehensive coordinated care and unique solutions through every step of a family's recovery journey. Services provide children and families with the tools to cope in the present and thrive in the future after childhood cancer.

Grateful - Donor Stewardship Night

On June 15, 2023, the Austin Hatcher Foundation hosted its first donor appreciation event, “Grateful,” honoring donors who have supported the Foundation over the last 16 years. The event unveiled the installation of a new donor wall featured in the Foundation’s Education Advancement Center in Chattanooga, TN. Donors were thanked with a video of testimonies from patients and families sharing their gratitude for donor support.

“

When our daughter was diagnosed and then passed away, the ground dropped out from underneath me. No one thinks about what they need when their world falls apart...But the Austin Hatcher Foundation does. Our entire family didn't understand death. My surviving children, husband and I have support to navigate death. It scares me to think of where we'd be if we didn't have the Austin Hatcher Foundation.

-Ashley (Mom of Child Lost to Pediatric)
