

The Autumn/Winter Collection

Inspired by art, defined by heritage.

After a large number of watercolour paintings were bequeathed to us, we decided we needed to share them.

Wentworth of Yorkshire was born.

James Boldry, plein air artist 1919-2015.

The Fine Art Print Collection

Each of the paintings shown in this brochure are available in **fine art giclée prints**, a fabulous reproduction of the original paintings. These prints can be carefully paired with a double mount selected to complement the painting.

They are available in three sizes: The Noble (508x635mm); The Grand (406x508mm); The Classic (330x406mm) - please be aware the widths do vary slightly.

The Sumptuous Silk Collection

A number of these paintings are available in **luxurious silk twill scarves** with hand rolled hems, and new for this season, they are printed on both side, eliminating that 'inside out' look. The designs are sympathetically bordered with two colours from the painting.

They come in two lovely sizes: The Elegance (900x900mm) and The Charm (650x650mm). They come in a beautiful gift box with information about the original painting.

The Correspondence Collection

Each of these paintings have been created as 127x178mm (5x7") **greetings cards**, printed on a textured paper to replicate the original on watercolour paper. They come with a lined envelope for that added luxury.

Our **lovely gift wrap** comes from a selection of the paintings, complete with a matching tag.

The Dining Collection

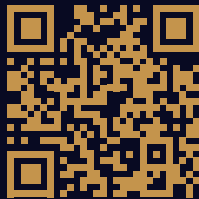

A selection of paintings have been chosen to create fabulous melamine, placemats and coasters.

These high-quality mats have a biodegradable biomass core, a cork backing and a long-lasting, heatproof melamine surface.

Currently available in twelve designs and can be purchased either singly or in sets.
