## INTERNATIONAL KEYNOTE SPEAKER, MENTALIST & MINDSET EXPERT

Andy Nunn combines mentalism and neuroscience to change the way you see the world. He's spent 20+ years on stage, speaking and performing across Australia and overseas. **His TEDx talk, "Seeing Is Believing,"** built his reputation as a speaker who makes insight tangible.

Andy's **sessions aren't lectures.** They're live experiments. People feel bias, influence, and attention at work in real time. Then they learn how to use those insights the same day. Fortune 500 companies and the world's biggest brands trust Andy to shift how teams think, decide, and communicate.

Warm, intelligent, high energy. Andy turns complex ideas into clear actions that stick. **Audiences leave entertained, challenged, and ready to change how they think.**

## MENTAL HEALTH ADVOCATE

Andy is a strong advocate for resilience, adaptability, and mental health. His keynotes show how hidden biases shape perception and limit potential, giving teams tools to shift their mindset in real time. As an ultra-endurance athlete, he's seen how mindset drives performance under pressure. Blending science with surprise, he helps leaders embrace change, build confidence, and create stronger connections across business.

# SIGNATURE KEYNOTE & PRESENTATION TOPICS

## SEEING CLEARLY: THE HIDDEN INFLUENCE IN EVERY TEAM

We like to think we see the world as it is, but our minds distort, filter, and fill the gaps.

Seeing Clearly is an interactive keynote on how bias, stress, and tone quietly shape team culture. Through illusion, humour, and real stories, Andy Nunn shows how perception drives behaviour — and how behaviour spreads.

Emotions are contagious. Energy, attitude, and mindset ripple faster than facts. The question is: what are you passing on?

Only 26% of Australian employees say their organisation has a positive workplace culture ([Gartner, 2025](#)).

Your team will learn to:

- Spot bias before it shapes decisions
- Communicate in ways that build trust
- Read and reset the emotional tone
- Stay calm and confident under pressure

Seeing Clearly helps teams think with awareness, lead with intention, and build a culture where people bring out the best in each other.

## QUIET INFLUENCE- THE POWER OF PRESENCE

The Hidden Skill That Builds Trust and Drives Results

In high-pressure environments, the loudest person often wins attention but not trust.

Quiet Influence is an interactive keynote that reveals how subtle awareness, empathy, and presence create genuine influence and connection.

Through live demonstrations, audiences experience how language, tone, and body language shape decisions, build trust, and shift outcomes without force or manipulation.

Your team will learn to:

- Communicate with clarity and confidence under pressure
- Build trust quickly in high-stakes conversations
- Read people and adapt in real time
- Influence outcomes ethically and effectively

It's an engaging, practical session designed to help teams lead, sell, and connect with calm authority in a noisy world.

Andy Nunn's performance was nothing short of extraordinary. His engaging presence and mind-blowing mentalism captivated our entire audience, leaving everyone stunned and talking about it long after the event ended. What made Andy's act truly special was how seamlessly it tied into our session on Equity in the Workplace. His performance not only entertained but also provoked thought and reflection, complementing our theme in a powerful and memorable way.

Andy is a true master of his craft—thank you for an unforgettable experience!
